Office Note No 1313
J. H. 10/6/97

Para 16 of the report on Native papers
for the fortnight ending 31st May 1897.

16. A leader in the Kerala Patrika of the 15th
May, says that Cholera has made its
appearance in Calicut and is rapidly
spreading throughout the town owing to
the deplorably insanitary condition of
various places in the municipality and to
the insufficient medical aid given by
the authorities. There were several attacks,
almost all of which have proved fatal.
The medicines given to the patients are
said to be of an inferior quality, and,
moreover, the medicines administered
bring about constipation at once, their
stomach is ^{consequently} swollen and they meet
with an instantaneous death. The article
bitterly complains of the indifference of
the municipal authorities in the matter
of taking precautionary measures against
the spread of cholera. The streets and
lanes in some parts of the municipality
are very filthy, and the smell
emanating therefrom is very
unbearable. It is remarked that the
sanitary officers have not for the last four
months visited Chalappuram, Azhichavattam
and the neighbouring places where
cholera has appeared. The article hopes

that

that the authorities will, without any delay, adopt measures to improve the sanitation of the town and to check the spread of the epidemic.

It is to be noted that the epidemic is spreading throughout the town owing to the deplorable unsanitary condition of various places in the municipality and to the insufficient medical aid given by the authorities. There have been several deaths almost all of which have proved fatal. The medicines given to the patients are said to be of an inferior quality, and moreover, the medicines administered being about equivalent to ones, their stomach is so often and they meet with an instantaneous death. The article betterly complaining of the indifference of the municipal authorities in the matter of taking precautionary measures against the spread of cholera. The streets and lanes in some parts of the municipality are very filthy, and the small animals that roam about are very numerous. It is to be noted that the sanitary officers have not for the last four months visited Chhatrapur, and the surrounding places where cholera has appeared. The authorities are very indifferent.

Chhatrapur is a very filthy place and the sanitary officers have not for the last four months visited Chhatrapur, and the surrounding places where cholera has appeared. The authorities are very indifferent.

SUBJECT.

Regarding the resolution of the Board stating that they have not sufficient funds for the construction of a feeder road from Chinnamapet to Thakkolam.

Note

In view of His Excellency the late Governor's notes on pages 7 and 17 of G.O. No. 2348-L, dated 4th December 1895, the Government directed in its order No. 906-L, dated 18th May 1896, that arrangements should be made by the Taluk Boards concerned for constructing at an early date certain Railway feeder roads, of which the road from Chinnamapet station to Thakkolam was one. In paragraph 1 of his letter communicated with G.O. No. 2190-L, dated 18th November 1896, the President of the Raminpettal Taluk Board stated that the construction of this road which was estimated to cost Rs 4,000 would be considered in framing the budget for 1897-98. No provision, however, has been made in that budget and the President now reports that the Board is not prepared to undertake the work as there are no funds available.

Sir, With reference to Memo No 696 dated 25-6-97, I have the honor to enclose copy of the resolution of the District Board.
2. Taking the opening balance as shown in the supplemental Treasury account for March, (the accountants general's finally audited figures have not yet been received) and after the necessary allotment to the Ranipttal Taluk Board referred to in the resolution, the balance remaining to the District available for general purposes (excluding the working balance which it is not allowed to draw upon) is Rs 5520, of this, however, should properly be added a sum of about Rs 10,100 representing a list of Land Cms postponed in the North Arcot taluqs.

Salut of the district which was not collected last year and reduces pro tanto the opening balance, while it will increase the receipts of the current year by an equal amount.

3. The District Board did not consider it right to expend on the object proposed a sum of Rs 4000 out of this comparatively small balance because in addition to the usual expenditure from the balance, it will, unless the season changes, be necessary to make allotments to Taluk Board for the improvement of water supply in the district, which is at present bad. They further considered that if the road were made the Taluk Board could not keep it up considering its finances which they have had to supplement.

4. The heavy expenditure entailed by the Plague Camp has crippled the resources of the Board.
