Administration Report.

Reviewing the — of the Chicacole Municipal Council for 1896–97.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers:—

From M.R.Ry. T. V. SIVARAO Pantulu Garu, Chairman, Municipal Council, Chicacole, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector, Ganjám), dated 13th May 1897, No. 410.

I have the honour to submit, herewith, the annual report on the administration of the Chicacole municipality for the year 1896–97, together with the prescribed statements. These were passed by the council at its meeting held on the 13th May 1897.

2. The accounts of the year under report have not been audited as yet. The medical officer's report is herewith enclosed.

RECEIPTS.

3. As verified by the auditor, the closing balance of the year 1895–96 was Rs. 3,206–3–3 with which the year under report started, and the total receipts of the year were Rs. 26,041–12–4. Thus the grand total was Rs. 29,247–15–7. Deducting therefrom the sum of Rs. 26,959–6–8, the total charges of the year, a balance of Rs. 2,288–8–11 was left for the current year to start with.

4. The following amounts have been expunged both from receipts and charges as they were credited and also debited during the year:—

	Rs.	A.	P.
(1) Tolls contribution	1,288	13	1
(2) Refund of tax on arts	39	8	0
(3) Do. of tax on buildings	1	5	0
(4) Do. of library books	10	0	0
(5) Do. of tolls	0	14	6
(6) Refund of provincial grant to Pariah school master	2	10	0
(7) Refund of medical pupil's pay	8	14	0
(8) Salary of the hospital assistant paid in excess	6	7	3
(9) Vacancy remissions	5	6	6
(10) Advance for purchase of bulls	51	0	0

Item (1) is the contribution of tolls paid to the district board.

Item (2) is the amount refunded to the parties on appeal.

Item (3) is also the amount refunded to the parties on appeal.

Item (4) is the balance refunded by the headmaster, high school, of the amount paid to him for the purchase of certain library books, as the whole amount was not expended.

Item (5 is the amount remitted to the parties concerned for carts and animals for which tolls were illegally collected.

Item (6) is the amount of provincial grant paid to the Pariah school teacher through this office.

Item (7) is the amount of the medical pupil's pay for the month of April 1896, which was returned, by mistake, to this office from the office of the Principal of the Medical College, Madras, and remitted again to the pupil in the next month.

Item (8) is the amount of the hospital assistant's pay drawn erroneously for the days on which he was away from the town on cholera duty and refunded subsequently.

Item (9) is the amount refunded to house-owners under section 72 of the District Municipalities Act.

Item (10) is the balance, refunded by the supervisor of works, of Rs. 130 paid to him to enable him to purchase bulls.

5. *Tax on arts and professions.*—The demand under this head was Rs. 2,052 including Rs. 6–8–0, the arrears of previous year. Rs. 39–8–0 was remitted by the council to the parties on appeal, and a sum of Rs. 15–8–0 was written off as irrecoverable. The amount that ought to have been therefore collected in the year under report was Rs. 1,997, of which Rs. 1,968–13–6 were collected, leaving a balance of Rs. 28–2–6 to be collected. Thus there is no decrease in fact under this head.

	Rs.	A.	P.
Revised estimate	2,000	0	0
Actuals	1,968	13	6
Decrease	31	2	6

6. *Tax on buildings.*—Increase is due to some new houses having been assessed during the year. The demand under this head was Rs. 2,793–4–0. The amounts remitted on appeals and under section 72 of the District Municipalities Act were Rs. 1–5–0 and Rs. 26–5–0, respectively, and the amount written off as irrecoverable was Rs. 110–1–0; the largest item of Rs. 30, the tax on the bungalow belonging to the Raja of Bobbili, which was demolished in the year under report, having been included therein. Rs. 2,655–9–0 ought to have been therefore collected under this head, whereas Rupees 2,652–9–0 were collected leaving a balance of Rs. 3.

	Rs.	A.	P.
Revised estimate	2,600	0	0
Actuals	2,652	9	0
Increase	52	9	0

7. *Tax on lands.*—Increase is too trifling to require any explanation. The demand under this head was Rs. 576–5–0, of which only As. 8 was written off as irrecoverable and Rs. 574–9–0 was collected, leaving a balance of Rs. 1–4–0.

	Rs.	A.	P.
Revised estimate	570	0	0
Actuals	574	9	0
Increase	4	9	0

8. *Tax on vehicles with springs and palanquins.*—Only Rs. 3 have been left uncollected under this head, the demand being Rs. 174.

	Rs.	A.	P.
Revised estimate	170	0	0
Actuals	171	0	0
Increase	1	0	0

9. *Tax on animals.*—The decrease is due mostly to several animals having been sold during the year on account of dearness of fodder. Rs. 16–4–0 still remain to be collected.

	Rs.	A.	P.
Revised estimate	1,100	0	0
Actuals	1,022	4	0
Decrease	77	12	0

10. *Tax on carts and other vehicles without springs.*—Increase is due to more single-bullock carts having been licensed on account of increased traffic to railway station. There is a balance of Rs. 2 to be collected under this head.

	Rs.	A.	P.
Revised estimate	530	0	0
Actuals	564	0	0
Increase	34	0	0

11. *Tolls.*—The revised estimate figure was arrived at on the calculations made from the actuals of the first eight months in the year. In the last four months the collections of tolls were comparatively far better, though they were poor on the whole on account of the unfavourable season and epidemics prevalent during the year in these parts. The actuals include the amount of Rs. 18–9–6 recovered from the District Board, Ganjám, as mentioned in paragraph 11 of my report on the administration of this municipality for the year 1895–96.

	Rs.	A.	P.
Revised estimate	4,700	0	0
Actuals	5,318	9	2
Increase	618	9	2

	Rs.	A.	P.
Revised estimate	20	0	0
Actuals	14	5	0
Decrease ..	5	11	0

12. *Avenue receipts.* — Decrease is trifling.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	4	8	9
Decrease ..	5	7	3

13. *Produce of lands, gardens.*—Rs. 4–8–9 were realized on account of the sale-proceeds of the produce of tamarind trees belonging to the municipality.

14. *Sale-proceeds of old materials, empty oil-cans, packing cases, &c.*—The hospital building having undergone repairs during the year, the sale of old materials thereof, especially beams, fetched a sum of Rs. 91–13–0, and the remaining sum was the sale-proceeds of some unserviceable articles.

	Rs.	A.	P.
Revised estimate	100	0	0
Actuals	118	13	0
Increase ..	18	13	0

	Rs.	A.	P.
Revised estimate	30	0	0
Actuals	27	15	0
Decrease ..	2	1	0

15. *Sale-proceeds of night-soil, street refuse, &c.*—Decrease is due to the less demand for street refuse.

	Rs.	A.	P.
Revised estimate	7,300	0	0
Actuals	7,315	0	8
Increase ..	15	0	8

16. *Fees from Educational institutions.*—Increase is very trifling.

	Rs.	A.	P.
Revised estimate	80	0	0
Actuals	78	10	0
Decrease ..	1	6	0

17. *Other revenue from Educational institutions.*—Decrease is too trifling to require any explanation. Income under this head was more than that of the previous year.

	Rs.	A.	P.
Revised estimate	150	0	0
Actuals	134	1	0
Decrease ..	15	15	0

18. *Sale-proceeds and composition fees of medicines.*—The decrease is due to the several subscribers for supply of medicines having left the station.

	Rs.	A.	P.
Revised estimate	40	0	0
Actuals	24	0	0
Decrease ..	16	0	0

19. *Other hospital receipts.*—A sum of Rs. 10 is still due from the district board as the house-rent for the vaccine depôt located in the hospital.

20. *Income from markets.*—The collection of rents of the market godowns was managed departmentally, as in the previous years, and the right of collecting market fees was sold away for Rs. 505. The number of godowns in the market including a few temporary sheds is 104. According to the rents fixed by the council for every godown, the demand of rents for all the godowns was Rs. 1,911–6–0, of which only Rs. 1,726–2–6 was realized, as some of them were vacant throughout the year and some others for a portion of the year.

	Rs.	A.	P.
Revised estimate	2,240	0	0
Actuals	2,231	2	6
Decrease ..	8	13	6

	Rs.	A.	P.
Revised estimate	300	0	0
Actuals	297	9	0
Decrease ..	2	7	0

21. *Income from slaughter-house.*—Slaughter-fees were collected departmentally during the year under report also.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	1	4	0
Decrease ..	8	12	0

22. *Distraint fees.*—Only in five cases for tax on arts, buildings and carts property had to be distrained; hence small amount realized under this head.

	Rs.	A.	P.
Revised estimate	180	0	0
Actuals	187	1	9
Increase ..	7	1	9

23. *License fees.*—Increase is due to more licenses having been granted than anticipated.

	Rs.	A.	P.
Revised estimate	260	0	0
Actuals	262	12	10
Increase ..	2	12	10

24. *Cart-stand fees.*—These fees were collected departmentally during the year under report as in the previous year, but there was a great fall in the collections during the year under report, owing to less traffic for the reasons stated in paragraph 11 *supra*.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	1	10	0
Decrease ..	8	6	0

25. *Other fees*—The decrease is due to less applications having been made for vaccination of children at their quarters.

	Rs.	A.	P.
Revised estimate	200	0	0
Actuals	190	11	0
Decrease ..	9	5	0

26. *Fines under Municipal and other Acts.*—As in the previous years, a decent income was realized under this head in the year under report.

27. *Grants and contributions from Government—Education—Municipal schools.*—A sum of Rs. 920 was received as salary grant towards the salaries of the headmaster, first assistant, Sanskrit pundit, carpenter and gymnast of the high school. Rs. 93–12–0 was received as grant for library books, gymnastic apparatus and science apparatus.

	Rs.	A.	P.
Revised estimate ..	1,020	0	0
Actuals	1,013	12	0
Decrease ..	6	4	0

28. *Miscellaneous—(a)* (i) *Private scavenging.*—Increase is due to more houses having been handed over to the municipal management for private scavenging purposes. The number of houses served by the private scavenging agency was 291 on the 31st March 1897 against 281 on the last day of March 1896.

	Rs.	A.	P.
Revised estimate	680	0	0
Actuals	690	15	0
Increase ..	10	15	0

29. *Miscellaneous* (*a*) (ii) *other purposes—Cesspools.*—The number of cesspools that are now under the municipal agency is 20. The cesspool fees were levied as in the previous year.

	Rs,	A.	P.
Revised estimate	90	0	0
Actuals	89	8	0
Decrease ..	0	8	0

30. *Refunds of expenditure of previous year.*—The sum of Rs. 21–7–6 was refunded by the several school masters according to the advice of the auditor.

	Rs.	A.	P.
Revised estimate	25	0	0
Actuals	21	7	6
Decrease ..	3	8	6

31. *Advances recovered—Permanent.*—In accordance with the suggestion of the auditor the permanent advances of the supervisor and the manager were reduced in the year under report from Rs. 50 and 20 to Rs. 20 and 10, respectively; hence advances originally given to them were refunded.

	Rs.
Revised estimate	70
Actuals	70

32. *Advances recovered—Others.*—Rs. 5–14–0 was refunded by the headmaster, high school, being unexpended amount from the advance given to him in the previous year for the purchase of tin reflectors. Rs. 18–9–6 was recovered by the District Board, Ganjám, as the amount was paid to them in excess in the previous year as local fund share of tolls.

	Rs.	A	P.
Revised estimate	110	0	0
Actuals	24	7	6

33. The other items show little or no difference and require no explanation.

34. *Incidence of taxation.*—The incidence of taxation per head on the direct taxation and rents is As. 12–3 against As. 13–1 in 1895–96.

35. The total receipts of the year including opening balance amounted to Rupees 29,247–15–7, and the expenditure was Rs. 26,959–6–8, and thus the year closed with a balance of Rs. 2,288–8–11.

Expenditure.

36. *Grant 1, (b) New buildings.*—The decrease under this head seems to be very considerable, but it is not actually so. Not only the provision of Rs. 860 made in the revised estimate for tiling, &c., of the thatched portion of the high school buildings, but also a sum of Rs. 320 was spent for the improvements of the buildings, the improvements proposed to be made being construction of wooden partition walls, in accordance with the suggestion of the Inspector of schools to prevent the noise of one class from being heard by another. But this amount was paid in advance to a well-to-do and respectable contractor after taking from him a bond dulyexecuted for the supply of timber for the whole amount and was therefore debited to "Advances."

	Rs.	A.	P.
Revised estimate ..	2,190	0	0
Actuals	981	13	3
Decrease ..	1,108	2	9

The sum of Rs. 400 provided in the revised estimate for isolation hut was left unexpended for want of proper site available for the construction of the building. A site was selected by the local medical officer for the purpose and much time was lost in making negotiations with the owner of the site, who is living at Vizianagram. After all, no final communication having been received from him on the subject, it was resolved to acquire the site under the Land Acquisition Act. The Government will be addressed separately on the subject.

Rupees 445–4–5 was spent on the repairs of the hospital buildings, and the provision made in the revised estimate was exceeded by Rs. 45–4–5. The reconstruction of the terraced portion of the hospital building was completed and some petty repairs also were made here and there for the building.

The quarters of the hospital assistant were completely re-tiled in the year under report, and a sum of Rs. 130–5–3 was expended for the purpose. The quarters have been in the occupation of the hospital assistant from November 1896, and he has not been receiving house-rent since then.

A sum of Rs. 228–9–11 was expended on the construction of tiled toll-sheds that are four in number, and this sum exceeded the provision made for the purpose by Rs. 28–9–[illegible]. The sheds were completed and occupied in the month of January 1897.

B[illegible]2–2–9 was expended on the purchase of corrugated iron sheets for latrines and [illegible]sequent adjustment as two latrines. They have been located near Re[illegible]place approved by the local medical officer—one for the use of males a[illegible] for females. Rs. 30–15–1 was spent on purchase of iron sheets for

dust-bins and Rs. 20 was spent on the construction thereof. The number of dust-bins was increased by ten in the year under report, the whole number of the bins in the town being 68.

An epidemic shed was constructed temporarily in the hospital premises at a cost of Rs. 4–7–10 for the use of cholera patients, as cholera appeared in the town on more than one occasion during the year under report.

	Rs.	A.	P.
Revised estimate	250	0	0
Actuals	206	7	6
Decrease ..	43	8	6

37. 1 (*c*) *Drainage.*—A rough stone drain was constructed on both sides of Palkonda road from Relli street to Chintavari choultry for a length of about 300 yards.

38. (2) *Repairs—(a) Communications.*—The net income from tolls in the year under report was Rs. 3,866–8–1, of which more than half was spent on communications. The Palkonda and Chinabazaar roads had pucka repairs with the road materials stored on the road sides in the previous year. The trunk road and old Chicacole road also were repaired. The minor roads were also repaired to some extent. The condition of Palkonda and Chinabazaar roads is good, whereas, trunk road and Patachicacole road are in fair condition and the state of minor roads is not satisfactory. It may not be out of place to state that the year under report was a very bad year for road-making as the rains were held off almost throughout the year.

	Rs	A.	P.
Revised estimate	2,000	0	0
Actuals	2,132	8	8
Increase ..	132	8	8

39. *Repairs—Buildings.*—The thatched portion of the high school buildings was repaired at a cost of Rs. 30. A sum of Rs. 54–9–9 was spent on the repairs of the market godowns. Carpentry shed attached to the high school, old toll-sheds, tank watchers' sheds and Kanki street school underwent petty repairs at an aggregate cost of Rs. 28–2–0.

	Rs.	A.	P.
Revised estimate	200	0	0
Actuals	112	11	9
Decrease ..	87	4	3

40. *Water-supply—Repairs to works, machinery, &c.*—All the three reserved tanks for drinking purposes were fed as many times as opportunity was offered to conduct river water to them, considering the state of the season during the year under report. On more than one occasion weeds were removed from Bucca Bunda. A drinking-water well near Mettucherevoo was cleared of silt at a cost of Rs. 1–1–9. There is a sufficient water-supply in the town, all the drinking-water tanks and wells containing a good quantity of water.

	Rs.	A.	P.
Revised estimate	100	0	0
Actuals	107	10	10
Increase ..	7	10	10

41. *Water-supply—Establishment.*—The amount actually required under this head was Rs. 108. One tank watcher was once fined As. 2 for neglect of duty.

	Rs.	A.	P.
Revised estimate	110	0	0
Actuals	107	14	0
Decrease ..	2	2	0

42. *Public Works—(3) Establishment.*—Rs. 320 were provided for the sake of round number.

	Rs.	A.	P.
Revised estimate	320	0	0
Actuals	324	0	0
Increase ..	4	0	0

43. *Tools and Plant—Other Stores.*—The amount spent was found enough for the requirements of the public works in the year.

	Rs	A.	P.
Revised estimate	30	0	0
Actuals	23	7	2
Decrease ..	6	8	10

	Rs.	A.	P.
Revised estimate	6,280	0	0
Actuals	6,212	8	1
Decrease ..	67	7	11

44. *Grant 2*—(2) *Municipal Schools*—(i) *On Salary System*—(*a*) *Establishment.*—Decrease is mainly due to a portion of the provision made for the stipend of the drawing master having been left unutilised owing to the illness of the person that was sent up for training in drawing.

45. *High School.*—The numerical stength of this school was kept up during the year under report. It is to be regretted that no services of an L.T. could be secured for the second assistant master's post and it seems that it is advisable to raise the minimum salary of the post to induce L.Ts. to aspire for it. This question will, however, be discussed in the budget meeting and the conclusion which will be arrived at by the council will be duly reported to the Government. It is, however, a matter of satisfaction that the present (sub. *pro tem.*) second assistant is a trained graduate. The institution was provided with a Telugu pandit in the year under report. His appointment was made on the results of the competitive examination as reported in paragraph 47 of my report on the administration of this municipality for the year 1895–96. During the year under report the Third Form was split up into two divisions and a third division of the first form was opened and two new teachers were accordingly appointed on Rs. 40 and 15 per mensem respectively. Their appointments were sanctioned by the Government in G.Os., Mis. No. 794 M., dated 9th May 1896, and No. 1743 M., dated 12th October 1896. The results of the public examinations are far from satisfactory. Only four came out successful out of 20 appeared for the Matriculation examination and only nine passed the Lower Secondary examination out of 26. Of these nine, only three passed in compulsory and one optional subject. These unsatisfactory results may be partly due to the frequent changes in the staff, the occurrence of which was unavoidable. The work of the carpentry class continued to be satisfactory. The net cost of this class to the municipality was Rs. 123–14–8.

46. *Schools on Salary results system*—(*a*) *Fixed Payments.*—The number of both upper and lower primary schools continued to be the same as that in the previous year. One untrained teacher was sent for training and he is still undergoing training in the Government Training school at Vizagapatam. All the upper primary and lower primary schools were visited by the Inspector of Schools in the year under report and he expressed his satisfaction with the working of the schools.

	Rs.	A.	P.
Revised estimate	1,650	0	0
Actuals	1,640	0	4
Decrease ..	9	15	8

	Rs.	A.	P.
Revised estimate	470	0	0
Actuals	492	15	11
Increase ..	22	15	11

47. (*b*) *Results Grants.*—All the teachers were paid full grants earned by their schools at the rates allowed according to their qualifications. The rate of grants continued to be the same as that in previous years.

	Rs.	A.	P.
Revised estimate	170	0	0
Actuals	152	8	1
Decrease ..	17	7	11

48. (*c*) *Contingencies.*—The purchase of stationery was made in a lump sum at a cheap rate.

	Rs.	A.	P.
Revised estimate	330	0	0
Actuals	255	2	0
Decrease ..	74	14	0

49. (4) *Results Grants.*—According to the certifying memoranda issued by the inspecting officers the managers of the schools were paid the whole amount of grants allowed therein.

	Rs.	A.	P.
Revised estimate	240	0	0
Actuals	238	0	0
Decrease ..	2	0	0

50. *Inspection*—(6) (*b*) (ii) *Establishment.*—Decrease is too trifling to require any explanation. The salary of the supervisor's post was raised from Rs. 18 to Rs. 20 in the year under report.

	Rs.	A.	P.
Revised estimate	20	0	0
Actuals	13	1	6
Decrease ..	6	14	6

51. (6)(*b*)(ii) *Contingencies.*—Stationery for the use of the Supervisor of schools was also purchased along with the stationery for the schools.

	Rs.	A.	P.
Revised estimate	20	0	0
Actuals	16	0	0
Decrease ..	4	0	0

52. (7) *Miscellaneous*—(*b*) *Building Furniture, &c., Grants.*—Under rule 6, chapter VII of the Grant-in-aid Code, each result school in the town was given building grant at the rate of As. 5–4 a month from the month of July 1896.

	Rs.	A.	P.
Revised estimate	120	0	0
Actuals	120	0	0

53. (7) (*b*) (1) *Common gymnasium—Establishment.*—The gymnast is a trained man and his work continued to be fair.

	Rs.	A.	P.
Revised estimate	40	0	0
Actuals	39	15	1
Decrease ..	0	0	11

54. (7) (*d*) *Other Items.*—Rs. 20 were paid to the drawing master for his passage to Madras, where he was sent for training. Rs. 2 were given to one of the schoolmasters of the salary-result schools as travelling charges from this place to Vizagapatam, where he is now undergoing training. The remaining sum was spent on purchasing printed receipt forms, &c., required for all the schools.

55. *Grant 3*—(1) *Hospitals and Dispensaries*—(*a*) *Establishment.*—On several occasions the hospital assistant attached to the hospital was away from the station on cholera duty in the taluk under the orders of the District Medical and Sanitary Officer, and no substitute was sent here during his absence; hence decrease. There was no change in the establishment in the year under report. The number of the out-patients attended to by the female apothecary attached to the hospital was 8,935. It is to be regretted that the work of the midwife attached to the hospital was again far from satisfactory, the number of cases attended by her in the year under report being only 68, though there was a very slight improvement over that of the previous year. Efforts were made by the council to obtain the services of a more efficient midwife and the District Medical and Sanitary Officer was addressed on the subject. On being, thereupon, enquired by that officer if the house-rent would be paid to the midwife, the council replied that they were prepared to pay it. After all no services of a more efficient midwife could be obtained.

	Rs.	A.	P.
Revised estimate	1,510	0	0
Actuals	1,437	4	5
Decrease ..	72	11	7

56. *Medicines and Supplies.*—Rs. 486–9–0 were paid to Messrs. Kemp & Co., Bombay, for tinctures, &c., supplied by them to the hospital. The rest was spent on country medicines. A supply of medicines was received from Messrs. Burgoyne, Burbidges & Co. in the year under report, but bill for them has not been received as yet.

	Rs.	A.	P.
Revised estimate	1,000	0	0
Actuals	751	15	10
Decrease ..	248	0	2

57. *Diet of Patients.*—The decrease is due to the decrease in number of admissions of patients in the hospital for the reasons given by the medical officer in his report.

	Rs.	A.	P.
Revised estimate	500	0	0
Actuals	267	13	11
Decrease ..	232	2	1

58. *Sundries and Contingencies.*—The decrease is due to careful scrutiny of the expenditure by the medical officer in charge of the hospital.

59. *Contributions to Provincial funds for* (i) *Medical College*, (ii) *Sanitary Inspection, and* (iii) *Medical Reserve Staff*—were paid in accordance with the figures given by the Accountant-General.

60. (*a*) *Vaccination—Establishment.*—The number of cases vaccinated during the year by the vaccinator was 1,034 against 991 in 1895–96. An improvement has been shown in his work, though there is still room for further improvement. The number of cases vaccinated by the medical officer and the hospital assistant was 50, and the total number of operations was therefore 1,084 against 1,019 in the year 1895–96; but it is much to be regretted that the percentage of successful cases fell from 83·2 to 47·6, which is mainly due to the unusually sultry weather.

62. *Registration of Births and Deaths—Establishment.*—After the death of Mr. Rebeira, the late Registrar of Births and Deaths, the post was vacant for some time as no proper man was available for it. Hence decrease. The registration work was done by the Manager of the Municipal office during that period. The total number of births and deaths registered during the year under report was 402 and 511 respectively. The death-rate exceeded the birth-rate in the year under report also, but too many deaths on account of cholera would account for it. Nine cases for failure to report births and one for deaths were prosecuted during the year under report.

67. (5) (*c*) *Cholera charges.*—Cholera appeared in the town on two occasions during the year under report. On the first occasion it appeared on 25th August 1896 and lasted till 2nd October 1896. The number of attacks on that occasion was 94 with 41 deaths. On the second occasion it broke out on the 15th March 1897 and continued till some time after the close of the year under report. The number of cases attacked was 121, of which 60 proved fatal. A sum of Rs. 124–12–5 was spent under cholera charges, of which about Rs. 40 were spent on purchasing disinfectants, viz., sulphur, tar, saw-dust, &c., Rs. 16–12–9 were paid to the establishment temporarily engaged on cholera duty and its entertainment was sanctioned in G.O., Mis. No. 1905 M., dated 11th November 1896, Rs. 67–15–8 was spent on the purchase of medicines, viz., chlorodyne and bismuth, subnitras and contingencies. Almost all the drinking-water sources were disinfected with permanganate of potash, and every precautionary measures were adopted to prevent the spread of the disease. In accordance with rule 4 of the rules for combating bubonic plague, embodied in G.O., No. 1985 M., dated 18th November 1896, the following apparatus and disinfectants were purchased at a cost of Rs. 139–11–0 and they are now ready in store :—

As required in the same rule the town was mapped out into one circle and two divisions, and the map was approved by the District Collector.

68. (*d*) *Contingencies.*—A sum of Rs. 69–7–0 was spent on the removal of prickly-pear. A very considerable quantity of prickly-pear was removed during the year under report in the town, and several notices were issued to the owners of lands for the removal of prickly-pear therefrom and almost all of them were duly complied with. A copy of Manual of Hygiene and Sanitation and Sanitary Engineering by Mr. J. A. Jones was purchased at a cost of Rs. 7-4-0, and the rest was spent on removing earth from the side drains of the roads in the town.

The number of sewage carts was therefore raised from 1 to 2, and a bull and cart with a barrel were purchased at a cost of Rs. 43-8-0. Two more scavengers were consequently entertained at Rs. 3 each per month. Their entertainment was sanctioned in G.O., Mis. No. 1789 M., dated 22nd October 1896.

77. (v) *Other Items.*—Rs. 11-1-6 was spent on law charges in O.S. No. 658 of 1895 filed in the District Munsif's Court, Chicacole, against the council by one Kandukuri Sanyasiraju Pantulu Garu for the recovery of a well, &c. The suit was dismissed with costs, and they will be duly recovered.

78. *Grant 5.*—The variations under the items (*a*) (i) Office establishment, (ii) Inspection, (*b*) (i) Collection of Municipal taxes—Establishment, (*c*) (i) Collection of tolls—Establishment, (*c*) (ii) Contingencies, (*d*) Office contingencies other than (*b*) (ii) and (*e*) Contributions for central office establishments, are so slight that no explanation need be given.

79. *Advances recoverable*—(*a*) *Permanent.*—As reported in paragraph 31 *supra*, the permanent advances allowed to the supervisor of works and the manager are Rs. 20 and Rs. 10, respectively.

80. *Advances recoverable*—(*b*) *Others.*—A sum of Rs. 1,180 was paid in advance for the purchase of timber for the high school buildings as explained in paragraph 36 *supra*.

81. *Demand, Collection and Balance Statement.*—The demand, collection and balance under each head were fully explained when the receipts were dealt with. The total balance left outstanding is Rs. 53-10-6. It may be stated that the balance is not much considering the condition of the people on account of the unfavourable season.

82. *Coercive process.*—During the year under report 240 warrants, involving a sum of Rs. 366-2-6, were issued. The number of warrants executed and cancelled during the year was 237 involving a sum of Rs. 363-12-0. The number of cancelled warrants on which no collections were made was 12 involving a sum of Rs. 10-13-0. The number of warrants on which collections were made before distraint was 220 involving a sum of Rs. 348-3-0. Only in three cases, involving a sum of Rs. 2-12-0, property was distrained but not sold. In two cases, involving a sum of As. 13-6, property was distrained and sold. There were three warrants remaining unexecuted at the close of the year involving a sum of Rs. 2-6-6.

83. Twenty-nine meetings were convened during the year under report, and none was adjourned for want of quorum. The average attendance of the councillors at the meetings was 9·06 against 9·10 in 1895-96. The office of chairman was held by me up to 26th February 1897, when the term of my councillorship ended, and consequently I ceased to be the chairman. The Divisional officer, therefore, took charge of the municipality, and delegated his powers subsequently to me. The election of chairman took place on 8th April 1897, and I was duly elected.

From Surgeon-Major H. THOMSON, Acting District Medical and Sanitary Officer, Ganjám, to the Chairman, Municipal Council, Chicacole, dated Berhampur, 22nd April 1897, Dis. No. 835.

I have the honour to forward the annual administration report of the Chicacole Municipal hospital and sanitation of the town for the year 1896-97, and to state that I have no further remarks to make than that which have been stated by the medical officer in charge.

Enclosure.

Annual report of the Municipal Hospital, Chicacole, for the year 1896-97.

1. *Public health.*—The public health during the year was far from satisfactory, as cholera and small-pox were playing havoc not only in the town but throughout the taluk, in fact the whole district, accompanied with want of rain and famine. Cholera prevailed in this town from the 25th August to the 2nd October 1896, and from the 15th March 1897 and continues up to date.

On the 1st occasion there were 94 attacks with 41 deaths, and on the second 121 attacks with 60 deaths.

On both occasions the disease was imported from the villages of Patrunivalsee and Royapadu (Gudiem) respectively. Every precautionary measures are being taken to stamp out the disease.

2. *Vital statistics.*—The registrar of births and deaths registered 402 births, 511 deaths during the year. Nine cases for failure to register births and one case for failure to register deaths were prosecuted before the magistrate, but the amount of fines inflicted is not known to this office.

3. *Sanitation.*—Particular attention is paid as to the improvement of the sanitation of the town and villages attached to it.

The water-supply is, as usual, from wells, tanks and river.

All the public wells, as well as some important private wells, were disinfected with permanganate of potash.

The sanitary staff consists of 1 sanitary inspector, 4 nuisance peons, 38 sweepers, 5 toties for public latrines, 1 toty maistry, 17 female toties to attend private latrines which are under municipal control, 8 conservancy cartmen and 4 sewage cartmen.

Two open corrugated iron latrines and ten dust-bins were put up during the year under report; some more are required. The construction of a slaughter-house for sheep according to new design is postponed for want of funds, and the slaughtering is going on as usual for both cattle and sheep in open places. I would therefore recommend the erection of temporary thatched sheds until such time as the council is in a position to construct a permanent slaughter-house in accordance with the standard plan.

The number of cess-pools under municipal agency is 20 against 13 of last year.

The night-soil carts are not utilized, as the men are unable to drag the carts to the night-soil depôts owing to the heavy sands they have to pass through; this I think could be easily remedied by removing the sand and constructing good metalled roads to the depôts.

4. *Vaccination.*—In accordance to the Act compulsory vaccination is being strictly carried out.

A large number of cases were reported to the magistrate, and after excluding cases excused by him where the parties had their children vaccinated before the expiry of the notice given them by him, some still remain for punishment for disobedience of the orders of the magistrate. The number of cases vaccinated by the medical subordinate during the year was 50 with 28 successful and 22 unsuccessful.

The municipal vaccinator vaccinated 1,034 cases with 484 successful, 549 unsuccessful and one unknown; of the unsuccessful cases, 253 were re-vaccination. He has been doing his best in assisting me in the enforcing of the compulsory sections of the Act.

5. *Hospital and Dispensaries*—(*a*) *Nature and sufficiency of accommodation.*—The remark under this head is the same as that of last year.

(*b*) *State of repairs of buildings.*—Front and rear terraced portions are completed; slight repairs are still required which will be attended to during the current official year.

The female ward, kitchen and latrines require immediate attention, particularly the former, as there are several cracks in the walls and basement which show a tendency to increase. The hospital assistant quarters are completed during the year, and is now occupied by him.

(*c*) *State of repair of furniture.*—The wooden cots and almirahs require repairs; it will be well if the present wooden cots in the male ward are replaced by iron ones.

Three new chairs are required in lieu of the old ones which are in use for some years.

(*d*) *Inspections.*—The Deputy Sanitary Commissioner visited the hospital and the vaccine calf depôt on the 26th October 1896.

(1) *Steps taken to carry out the recommendations of the Surgeon-General with Government of Madras.*—None.

(2) *Steps taken to carry out the recommendations of other inspecting officers.*—They are being attended to by the municipal council according to the funds available at their disposal. Two corrugated iron latrines and ten dust-bins were put up during the year.

(*e*) *Amount of recoveries from patients who have been able to pay for their diets and medicines.*—None.

(*f*) *Number of patients treated as compared with the previous five years.*—The following table shows the number of patients treated:—

	Admissions.			Average daily attendance.		
	In-door.	Out-door.	Total.	In-door.	Out-door.	Total.
1892–93	240	18,176	18,416	12·22	97·78	110·00
1893–94	185	19,150	19,335	10·10	118·17	128·27
1894–95	151	24,853	25,104	11·84	137·00	148·84
1895–96	132	23,424	23,556	7·62	128·72	136·34
1896–97	115	24,953	25,068	6·24	134·40	140·64

The number of in-patients treated during the year was 115 against 132, and the average daily sick 6·24 against 7·62 of the previous year, and this is due to the hospital still undergoing repairs. 24,953 out-patients were treated during the year against 23,424 of the previous year showing an increase of 1,529, and the average daily attendance was 134·40 against 128·72 of the previous year; the increase is mainly due to the growing popularity of the institution.

(*g*) *Mortality and actual causes of it.*—There were 11 deaths during the year, namely, abscess of liver 1, pneumonia 1, albuminuria 1, catarrhal inflammation of intestines 3, dysentery 1, starvation 1, cholera 1, anæmia 1 and hydrophobia 1, and the actual causes were exhaustion 7, syncope 2, coma 1 and asphyxia 1. This is a large number, but as only very serious cases are admitted on the score of economy, a smaller number cannot be expected as a great many of the cases that died were brought in a hopeless or rather dying state.

The number of deaths among out-patients cannot be stated, as it is difficult to obtain the results of out-patients treated especially as some of them come from very distant villages.

(*h*) *Operations and results.*—Three hundred and fifty-seven operations (major and minor) were performed during the year with the following results: 329 cured and 28 relieved.

(*i*) *Establishment whether sufficient and efficient.*—The establishment is sufficient and efficient except the compounding department; as one man is unable to cope with the work owing to the large number of daily attendance, I recommend the entertainment of a second compounder.

(*j*) *Midwives.*—The midwife attached to this institution attended 68 cases of labour during the year against 66 of the previous year.

(*k*) If Dufferin Fund dispensaries for women who cannot or will not attend the ordinary dispensaries have been working, a special note should be added on the *working*.

There is no Dufferin Fund dispensary for women, but the female apothecary has one compartment of the female ward allotted to her for attending to female out-patients and her prescriptions made up by the compounder attached to the municipal hospital, and the services of the native midwife, female ward attendant and female toty of the above hospital are placed at her disposal as a temporary measure. In my opinion a separate place with a female compounder and other necessary female servants with medicines, instruments, &c., should be set apart for her, which I am sorry to say the municipality is not in a position to carry out at present owing to financial difficulties.

not satisfactory. The attendance of out-patients rose from 23,424 to 24,953—an increase attributed to the growing popularity of the institution. The attention of the municipal council is drawn to the remarks of the Assistant Surgeon in clauses (*b*), (*c*) and (*i*) of paragraph 5 of his report. The work of the midwife attached to the hospital continued to be unsatisfactory, the number of labour cases attended by her being 68 against 66 in 1895–96. If the services of a competent midwife cannot be secured, a suitable candidate should be selected and trained at the cost of the municipality.

(4) *Vaccination and Vital Statistics.*—The reported number of vaccine operations performed during the year rose from 1,019 to 1,084, but the quality of the work deteriorated considerably, the percentage of successful cases being only 47·2 against 83·2 in 1895–96. The explanation of this offered in paragraph 60 of the Chairman's report cannot be accepted as adequate or sufficient. The real cause was in all probability the bad quality of the lymph used, as observed in paragraph 9 of the Deputy Sanitary Commissioner's inspection notes recorded in G.O., No. 996 M., dated 27th April 1897. There was also a large decline in the number of children under one year successfully vaccinated, and the average cost of each successful operation increased from As. 4–6 to As. 6–11. These results are regrettable. The work of the vaccinator evidently requires closer supervision, and immediate steps should be taken to place matters on a satisfactory footing.

Owing to the prevalence of cholera in the town, the number of deaths registered rose from 476 to 511, while that of births was almost stationary. In neither case, however, can the returns be regarded as accurate, the rates being much below the normal. Notwithstanding the remarks of Government in the review of the report for the previous year, to which the council's attention is again invited, the subject has plainly not received the attention it requires. The Government trusts it will be no longer neglected.

(5) *Sanitation.*—The expenditure under this head amounted to Rs. 4,257, or 99 per cent. of the allotment and 16·3 per cent. of the receipts. The Assistant Surgeon reports that particular attention is being paid to the sanitation of the town. From the inspection notes of the Deputy Sanitary Commissioner communicated with G.O., No. 996 M., dated 27th April 1897, however, it appears that much yet remains to be done. Every effort should be made to remedy the several defects pointed out by that officer and by the Assistant Surgeon.

5. *General Remarks.*—The year closed with a balance of Rs. 2,288, or 8·8 per cent. of the receipts. In respect of the assessment of taxation, vaccination and the registration of vital statistics, the municipal council cannot be said to have done all that it could during the year under review. In other respects the administration continued to be fairly satisfactory.

Administration Report.

Reviewing the — of the Chicacole Municipal Council for 1896–97.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers:—

From M.R.Ry. T. V. SIVARAO Pantulu Garu, Chairman, Municipal Council, Chicacole, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector, Ganjám), dated 13th May 1897, No. 410.

I have the honour to submit, herewith, the annual report on the administration of the Chicacole municipality for the year 1896–97, together with the prescribed statements. These were passed by the council at its meeting held on the 13th May 1897.

2. The accounts of the year under report have not been audited as yet. The medical officer's report is herewith enclosed.

RECEIPTS.

3. As verified by the auditor, the closing balance of the year 1895–96 was Rs. 3,206–3–3 with which the year under report started, and the total receipts of the year were Rs. 26,041–12–4. Thus the grand total was Rs. 29,247–15–7. Deducting therefrom the sum of Rs. 26,959–6–8, the total charges of the year, a balance of Rs. 2,288–8–11 was left for the current year to start with.

4. The following amounts have been expunged both from receipts and charges as they were credited and also debited during the year:—

		Rs.	A.	P.
(1)	Tolls contribution	1,288	13	1
(2)	Refund of tax on arts	39	8	0
(3)	Do. of tax on buildings	1	5	0
(4)	Do. of library books	10	0	0
(5)	Do. of tolls	0	14	6
(6)	Refund of provincial grant to Pariah school master	2	10	0
(7)	Refund of medical pupil's pay	8	14	0
(8)	Salary of the hospital assistant paid in excess	6	7	3
(9)	Vacancy remissions	5	6	6
(10)	Advance for purchase of bulls	51	0	0

Item (1) is the contribution of tolls paid to the district board.

Item (2) is the amount refunded to the parties on appeal.

Item (3) is also the amount refunded to the parties on appeal.

Item (4) is the balance refunded by the headmaster, high school, of the amount paid to him for the purchase of certain library books, as the whole amount was not expended.

Item (5 is the amount remitted to the parties concerned for carts and animals for which tolls were illegally collected.

Item (6) is the amount of provincial grant paid to the Pariah school teacher through this office.

Item (7) is the amount of the medical pupil's pay for the month of April 1896, which was returned, by mistake, to this office from the office of the Principal of the Medical College, Madras, and remitted again to the pupil in the next month.

Item (8) is the amount of the hospital assistant's pay drawn erroneously for the days on which he was away from the town on cholera duty and refunded subsequently.

Item (9) is the amount refunded to house-owners under section 72 of the District Municipalities Act.

Item (10) is the balance, refunded by the supervisor of works, of Rs. 130 paid to him to enable him to purchase bulls.

5. *Tax on arts and professions.*—The demand under this head was Rs. 2,052 including Rs. 6–8–0, the arrears of previous year. Rs. 39–8–0 was remitted by the council to the parties on appeal, and a sum of Rs. 15–8–0 was written off as irrecoverable. The amount that ought to have been therefore collected in the year under report was Rs. 1,997, of which Rs. 1,968–13–6 were collected, leaving a balance of Rs. 28–2–6 to be collected. Thus there is no decrease in fact under this head.

	Rs.	A.	P.
Revised estimate	2,000	0	0
Actuals	1,968	13	6
Decrease	31	2	6

6. *Tax on buildings.*—Increase is due to some new houses having been assessed during the year. The demand under this head was Rs. 2,793–4–0. The amounts remitted on appeals and under section 72 of the District Municipalities Act were Rs. 1–5–0 and Rs. 26–5–0, respectively, and the amount written off as irrecoverable was Rs. 110–1–0; the largest item of Rs. 30, the tax on the bungalow belonging to the Raja of Bobbili, which was demolished in the year under report, having been included therein. Rs. 2,655–9–0 ought to have been therefore collected under this head, whereas Rupees 2,652–9–0 were collected leaving a balance of Rs. 3.

	Rs.	A.	P.
Revised estimate	2,600	0	0
Actuals	2,652	9	0
Increase	52	9	0

7. *Tax on lands.*—Increase is too trifling to require any explanation. The demand under this head was Rs. 576–5–0, of which only As. 8 was written off as irrecoverable and Rs. 574–9–0 was collected, leaving a balance of Rs. 1–4–0.

	Rs.	A.	P.
Revised estimate	570	0	0
Actuals	574	9	0
Increase	4	9	0

8. *Tax on vehicles with springs and palanquins.*—Only Rs. 3 have been left uncollected under this head, the demand being Rs. 174.

	Rs.	A.	P.
Revised estimate	170	0	0

19. *Other hospital receipts.*—A sum of Rs. 10 is still due from the district board as the house-rent for the vaccine depôt located in the hospital.

20. *Income from markets.*—The collection of rents of the market godowns was managed departmentally, as in the previous years, and the right of collecting market fees was sold away for Rs. 505. The number of godowns in the market including a few temporary sheds is 104. According to the rents fixed by the council for every godown, the demand of rents for all the godowns was Rs. 1,911–6–0, of which only Rs. 1,726–2–6 was realized, as some of them were vacant throughout the year and some others for a portion of the year.

36. *Grant 1, (b) New buildings.*—The decrease under this head seems to be very considerable, but it is not actually so. Not only the provision of Rs. 860 made in the revised estimate for tiling, &c., of the thatched portion of the high school buildings, but also a sum of Rs. 320 was spent for the improvements of the buildings, the improvements proposed to be made being construction of wooden partition walls, in accordance with the suggestion of the Inspector of schools to prevent the noise of one class from being heard by another. But this amount was paid in advance to a well-to-do and respectable contractor after taking from him a bond dulyexecuted for the supply of timber for the whole amount and was therefore debited to "Advances."

The sum of Rs. 400 provided in the revised estimate for isolation hut was left unexpended for want of proper site available for the construction of the building. A site was selected by the local medical officer for the purpose and much time was lost in making negotiations with the owner of the site, who is living at Vizianagram. After all, no final communication having been received from him on the subject, it was resolved to acquire the site under the Land Acquisition Act. The Government will be addressed separately on the subject.

Rupees 445-4-5 was spent on the repairs of the hospital buildings, and the provision made in the revised estimate was exceeded by Rs. 45-4-5. The reconstruction of the terraced portion of the hospital building was completed and some petty repairs also were made here and there for the building.

The quarters of the hospital assistant were completely re-tiled in the year under report, and a sum of Rs. 130-5-3 was expended for the purpose. The quarters have been in the occupation of the hospital assistant from November 1896, and he has not been receiving house-rent since then.

A sum of Rs. 228-9-11 was expended on the construction of tiled toll sheds that are four in number, and this sum exceeded the provision made for the purpose by Rs. 28-9-11. The sheds were completed and occupied in the month of January 1897.

Rupees 122-2-9 was expended on the purchase of corrugated iron sheets for latrines and on their subsequent adjustment as two latrines. They have been located near Relli street at a place approved by the local medical officer—one for the use of males and the other for females. Rs. 30-15-1 was spent on purchase of iron sheets for

dust-bins and Rs. 20 was spent on the construction thereof. The number of dust-bins was increased by ten in the year under report, the whole number of the bins in the town being 68.

An epidemic shed was constructed temporarily in the hospital premises at a cost of Rs. 4-7-0 for the use of cholera patients, as cholera appeared in the town on more than one occasion during the year under report.

37. 1 (c) *Drainage.*—A rough stone drain was constructed on both sides of Palkonda road from Relli street to Chintavari choultry for a length of about 300 yards.

38. (2) *Repairs—(a) Communications.*—The net income from tolls in the year under report was Rs. 3,866-8-1, of which more than half was spent on communications. The Palkonda and Chinabazaar roads had pucka repairs with the road materials stored on the road sides in the previous year. The trunk road and old Chicacole road also were repaired. The minor roads were also repaired to some extent. The condition of Palkonda and Chinabazaar roads is good, whereas, trunk road and Patachicacole road are in fair condition and the state of minor roads is not satisfactory. It may not be out of place to state that the year under report was a very bad year for road-making as the rains were held off almost throughout the year.

On more than one occasion weeds were removed from Bucca Bunda. A drinking-water well near Mettucherevoo was cleared of silt at a cost of Rs 1-1-9. 44. *Grant 2*—(2) *Municipal Schools*—(i) *On Salary System*—(*a*) *Establishment.*—Decrease is mainly due to a portion of the provision made for the stipend of the drawing master having been left unutilised owing to the illness of the person that was sent up for training in drawing.

45. *High School.*—The numerical stength of this school was kept up during the year under report. It is to be regretted that no services of an L.T. could be secured for the second assistant master's post and it seems that it is advisable to raise the minimum salary of the post to induce L.Ts. to aspire for it. This question will, however, be discussed in the budget meeting and the conclusion which will be arrived at by the council will be duly reported to the Government. It is, however, a matter of satisfaction that the present (sub. *pro tem.*) second assistant is a trained graduate. The institution was provided with a Telugu pandit in the year under report. His appointment was made on the results of the competitive examination as reported in paragraph 47 of my report on the administration of this municipality for the year 1895–96. During the year under report the Third Form was split up into two divisions and a third division of the first form was opened and two new teachers were accordingly appointed on Rs. 40 and 15 per mensem respectively. Their appointments were sanctioned by the Government in G.Os., Mis. No. 794 M., dated 9th May 1896, and No. 1743 M., dated 12th October 1896. The results of the public examinations are far from satisfactory. Only four came out successful out of 20 appeared for the Matriculation examination and only nine passed the Lower Secondary examination out of 26. Of these nine, only three passed in compulsory and one optional subject. These unsatisfactory results may be partly due to the frequent changes in the staff, the occurrence of which was unavoidable. The work of the carpentry class continued to be satisfactory. The net cost of this class to the municipality was Rs. 123–14–8.

46. *Schools on Salary results system*—(*a*) *Fixed Payments.*—The number of both upper and lower primary schools continued to be the same as that in the previous year. One untrained teacher was sent for training and he is still undergoing training in the Government Training school at Vizagapatam. All the upper primary and lower primary schools were visited by the Inspector of Schools in the year under report and he expressed his satisfaction with the working of the schools.

The remaining sum was spent on purchasing printed receipt forms, &c., required for all the schools.

55. *Grant 3*—(1) *Hospitals and Dispensaries*—(*a*) *Establishment.*—On several occasions the hospital assistant attached to the hospital was away from the station on cholera duty in the taluk under the orders of the District Medical and Sanitary Officer, and no substitute was sent here during his absence; hence decrease. There was no change in the establishment in the year under report. The number of the out-patients attended to by the female apothecary attached to the hospital was 8,935. It is to be regretted that the work of the midwife attached to the hospital was again far from satisfactory, the number of cases attended by her in the year under report being only 68, though there was a very slight improvement over that of the previous year. Efforts were made by the council to obtain the services of a more efficient midwife and the District Medical and Sanitary Officer was addressed on the subject. An improvement has been shown in his work, though there is still room for further improvement. The number of cases vaccinated by the medical officer and the hospital assistant was 50, and the total number of operations was therefore 1,084 against 1,019 in the year 1895-96; but it is much to be regretted that the percentage of successful cases fell from 83·2 to 47·6, which is mainly due to the unusually sultry weather.

77. (v) *Other Items.*—Rs. 11–1–6 was spent on law charges in O.S. No. 658 of 1895 filed in the District Munsif's Court, Chicacole, against the council by one Kandukuri Sanyasiraju Pantulu Garu for the recovery of a well, &c. The suit was dismissed with costs, and they will be duly recovered.

78. *Grant 5.*—The variations under the items (*a*) (i) Office establishment, (ii) Inspection, (*b*) (i) Collection of Municipal taxes—Establishment, (*c*) (i) Collection of tolls—Establishment, (*c*) (ii) Contingencies, (*d*) Office contingencies other than (*b*) (ii) and (*e*) Contributions for central office establishments, are so slight that no explanation need be given.

79. *Advances recoverable—(a) Permanent.*—As reported in paragraph 31 *supra*, the permanent advances allowed to the supervisor of works and the manager are Rs. 20 and Rs. 10, respectively.

80. *Advances recoverable—(b) Others.*—A sum of Rs. 1,180 was paid in advance for the purchase of timber for the high school buildings as explained in paragraph 36 *supra*.

81. *Demand, Collection and Balance Statement.*—The demand, collection and balance under each head were fully explained when the receipts were dealt with. The total balance left outstanding is Rs. 53–10–6. It may be stated that the balance is not much considering the condition of the people on account of the unfavourable season.

82. *Coercive process.*—During the year under report 240 warrants, involving a sum of Rs. 366–2–6, were issued. The number of warrants executed and cancelled during the year was 237 involving a sum of Rs. 363–12–0. The number of cancelled warrants on which no collections were made was 12 involving a sum of Rs. 10–13–0. The number of warrants on which collections were made before distraint was 220 involving a sum of Rs. 348–3–0. Only in three cases, involving a sum of Rs. 2–12–0, property was distrained but not sold. In two cases, involving a sum of As. 13–6, property was distrained and sold. There were three warrants remaining unexecuted at the close of the year involving a sum of Rs. 2–6–6.

83. Twenty-nine meetings were convened during the year under report, and none was adjourned for want of quorum. The average attendance of the councillors at the meetings was 9·06 against 9·10 in 1895–96. The office of chairman was held by me up to 26th February 1897, when the term of my councillorship ended, and consequently I ceased to be the chairman. The Divisional officer, therefore, took charge of the municipality, and delegated his powers subsequently to me. The election of chairman took place on 8th April 1897, and I was duly elected.

From Surgeon-Major H. THOMSON, Acting District Medical and Sanitary Officer, Ganjám, to the Chairman, Municipal Council, Chicacole, dated Berhampur, 22nd April 1897, Dis. No. 835.

I have the honour to forward the annual administration report of the Chicacole Municipal hospital and sanitation of the town for the year 1896–97, and to state that I have no further remarks to make than that which have been stated by the medical officer in charge.

ENCLOSURE.

ANNUAL report of the Municipal Hospital, Chicacole, for the year 1896–97.

1. *Public health.*—The public health during the year was far from satisfactory, as cholera and small-pox were playing havoc not only in the town but throughout the taluk, in fact the whole district, accompanied with want of rain and famine. Cholera prevailed in this town from the 25th August to the 2nd October 1896, and from the 15th March 1897 and continues up to date.

On the 1st occasion there were 94 attacks with 41 deaths, and on the second 121 attacks with 60 deaths.

On both occasions the disease was imported from the villages of Patrunivalsee and Royapadu (Gudiem) respectively. Every precautionary measures are being taken to stamp out the disease.

2. *Vital statistics.*—The registrar of births and deaths registered 402 births, 511 deaths during the year. Nine cases for failure to register births and one case for failure to register deaths were prosecuted before the magistrate, but the amount of fines inflicted is not known to this office.

3. *Sanitation.*—Particular attention is paid as to the improvement of the sanitation of the town and villages attached to it.

The water-supply is, as usual, from wells, tanks and river.

All the public wells, as well as some important private wells, were disinfected with permanganate of potash.

The sanitary staff consists of 1 sanitary inspector, 4 nuisance peons, 38 sweepers, 5 toties for public latrines, 1 toty maistry, 17 female toties to attend private latrines which are under municipal control, 8 conservancy cartmen and 4 sewage cartmen.

Two open corrugated iron latrines and ten dust-bins were put up during the year under report; some more are required. The construction of a slaughter-house for sheep according to new design is postponed for want of funds, and the slaughtering is going on as usual for both cattle and sheep in open places. I would therefore recommend the erection of temporary thatched sheds until such time as the council is in a position to construct a permanent slaughter-house in accordance with the standard plan.

The number of cess-pools under municipal agency is 20 against 13 of last year.

The night-soil carts are not utilized, as the men are unable to drag the carts to the night-soil depôts owing to the heavy sands they have to pass through; this I think could be easily remedied by removing the sand and constructing good metalled roads to the depôts.

4. *Vaccination.*—In accordance to the Act compulsory vaccination is being strictly carried out.

A large number of cases were reported to the magistrate, and after excluding cases excused by him where the parties had their children vaccinated before the expiry of the notice given them by him, some still remain for punishment for disobedience of the orders of the magistrate. The number of cases vaccinated by the medical subordinate during the year was 50 with 28 successful and 22 unsuccessful.

The municipal vaccinator vaccinated 1,034 cases with 484 successful, 549 unsuccessful and one unknown; of the unsuccessful cases, 253 were re-vaccination. He has been doing his best in assisting me in the enforcing of the compulsory sections of the Act.

5. *Hospital and Dispensaries—(a) Nature and sufficiency of accommodation.*—The remark under this head is the same as that of last year.

(*b*) *State of repairs of buildings.*—Front and rear terraced portions are completed; slight repairs are still required which will be attended to during the current official year.

The female ward, kitchen and latrines require immediate attention, particularly the former, as there are several cracks in the walls and basement which show a tendency to increase. The hospital assistant quarters are completed during the year, and is now occupied by him.

(*c*) *State of repair of furniture.*—The wooden cots and almirahs require repairs; it will be well if the present wooden cots in the male ward are replaced by iron ones.

Three new chairs are required in lieu of the old ones which are in use for some years.

(*d*) *Inspections.*—The Deputy Sanitary Commissioner visited the hospital and the vaccine calf depôt on the 26th October 1896.

(1) *Steps taken to carry out the recommendations of the Surgeon-General with Government of Madras.*—None.

(2) *Steps taken to carry out the recommendations of other inspecting officers.*—They are being attended to by the municipal council according to the funds available at their disposal. Two corrugated iron latrines and ten dust-bins were put up during the year.

(*e*) *Amount of recoveries from patients who have been able to pay for their diets and medicines.*—None.

(*f*) *Number of patients treated as compared with the previous five years.*—The following table shows the number of patients treated:—

	Admissions.			Average daily attendance.		
	In-door.	Out-door.	Total.	In-door.	Out-door.	Total.
1892–93	240	18,176	18,416	12·22	97·78	110·00
1893–94	185	19,150	19,335	10·10	118·17	128·27
1894–95	151	24,853	25,104	11·84	137·00	148·84
1895–96	132	23,424	23,556	7·62	128·72	136·34
1896–97	115	24,953	25,068	6·24	134·40	140·64

The number of in-patients treated during the year was 115 against 132, and the average daily sick 6·24 against 7·62 of the previous year, and this is due to the hospital still undergoing repairs. 24,953 out patients were treated during the year against 23,424 of the previous year showing an increase of 1,529, and the average daily attendance was 134·40 against 128·72 of the previous year; the increase is mainly due to the growing popularity of the institution.

(*g*) *Mortality and actual causes of it.*—There were 11 deaths during the year, namely, abscess of liver 1, pneumonia 1, albuminuria 1, catarrhal inflammation of intestines 3, dysentery 1, starvation 1, cholera 1, anæmia 1 and hydrophobia 1, and the actual causes were exhaustion 7, syncope 2, coma 1 and asphyxia 1. This is a large number, but as only very serious cases are admitted on the score of economy, a smaller number cannot be expected as a great many of the cases that died were brought in a hopeless or rather dying state.

The number of deaths among out-patients cannot be stated, as it is difficult to obtain the results of out-patients treated especially as some of them come from very distant villages.

(*h*) *Operations and results.*—Three hundred and fifty-seven operations (major and minor) were performed during the year with the following results: 329 cured and 28 relieved.

(*i*) *Establishment whether sufficient and efficient.*—The establishment is sufficient and efficient except the compounding department; as one man is unable to cope with the work owing to the large number of daily attendance, I recommend the entertainment of a second compounder.

(*j*) *Midwives.*—The midwife attached to this institution attended 68 cases of labour during the year against 66 of the previous year.

(*k*) If Dufferin Fund dispensaries for women who cannot or will not attend the ordinary dispensaries have been working, a special note should be added on the *working*.

There is no Dufferin Fund dispensary for women, but the female apothecary has one compartment of the female ward allotted to her for attending to female out-patients and her prescriptions made up by the compounder attached to the municipal hospital, and the services of the native midwife, female ward attendant and female toty of the above hospital are placed at her disposal as a temporary measure. In my opinion a separate place with a female compounder and other necessary female servants with medicines, instruments, &c., should be set apart for her, which I am sorry to say the municipality is not in a position to carry out at present owing to financial difficulties.

(*l*) *General remarks.*—Nil.

2. Twenty-nine meetings were held by the municipal council against ~~thirty-two~~ in the previous year. The average attendance of the non-official members declined, but continued to be fair / the attendance of the officials, though better than in 1895–96, was still far below what it should be; the Government views this with dissatisfaction and trusts that they will attend the meetings more regularly for the future.

3. *Receipts.*—(1) The net current demand under the tax on arts again fell, being only Rs. 2,006 against Rs. 2,109 in the previous year and Rs. 2,170 in 1894–95. The average assessment per head was only Rs. 2–15–8 against a general average of Rupees 4–1–0 for all municipalities in 1895–96. Notwithstanding the remarks of Government in paragraph 3 (1) of G.O., No. 1114 M., dated 4th July 1896, the municipal council has evidently taken no steps to develop this source of revenue. No further time should be lost in doing so. There was a small increase in the demand under the tax on houses, while under the tax on lands the demand remained stationary. The collections under the principal taxes as assessed were satisfactory.

(2) The income from the tax on animals again fell, being Rs. 1,022 against Rs. 1,185 in the previous year, the decrease being explained in paragraph 9 of the Chairman's report.

(3) Owing to the unfavourable character of the season, the municipal income from tolls also declined from Rs. 6,055 to Rs. 5,318.

(4) The revenue derived from the sale of the town refuse and cart-stand fees fell from Rs. 42 and Rs. 374, respectively, to Rs. 28 and Rs. 263, but there was a marked increase in the income from school-fees, which amounted to Rs. 7,315 against Rs. 6,723 in the previous year.

(5) The number of houses served by the private scavenging agency rose from 281 to 291 and the cost of the service was covered by the receipts. The number of houses served by the agency is, however, only 23 per cent. of the number assessed to the tax on buildings, and there is clearly ample scope for further advance. The municipal council should spare no pains to extend the system as widely as possible. No improvement can be expected in this direction, unless prosecutions are systematically instituted against the owners of insanitary premises.

4. *Expenditure*—(1) *Public Works.*—A sum of Rs. 981–13–3 was spent on new works—buildings, the most important of which was the re-construction of the hospital building, while a sum of Rs. 1,180 advanced for improvements to the high school appears under the head of "Advances recoverable." The outlay on communications amounted to Rs. 2,133, or 55·2 per cent. of the net municipal income from tolls. The Revenue Divisional officer reports that the roads were in fair order.

(2) *Education.*—The net expenditure on primary education was Rs. 2,048. The charges connected with secondary education were less than the receipts by Rs. 870. The total net outlay on education was thus Rs. 1,178, or 9·6 per cent. of the income from taxation. The municipal council continued to maintain one high school, with its lower secondary department, on the salary system, and eight primary schools on the salary-result system; but the number of schools aided rose from five to six. The strength of the high school remained stationary, but the attendance at the primary schools fell from 368 to 342. The numbers on the rolls of the aided schools, however, rose from 251 to 294. The results of the Matriculation and Lower Secondary examinations were most unsatisfactory, only 20 and 23 per cent., respectively, of the pupils presented being successful. The municipal primary and aided institutions, however, did fairly well at the departmental and grant examinations. Nearly 23 per cent. of the allotment for result grants was not utilized, the short outlay being apparently due to the small number of pupils presented for the examination which was held just before the Pongul feast. The total number of boys under instruction in the municipal and aided schools fell from 68·1 to 66·9 per cent. of the male population of school-going age.

(3) *Medical Relief.*—The number of in-patients treated in the municipal hospital again declined, being 115 against 132 in the previous year, and the decline is ascribed to the hospital building being under repair during the year. It is observed from the medical officer's report that the repairs were still incomplete at the end of the year. There appears to have been a want of promptitude in carrying out the work which is

not satisfactory. The attendance of out-patients rose from 23,424 to 24,953—an increase attributed to the growing popularity of the institution. The attention of the municipal council is drawn to the remarks of the Assistant Surgeon in clauses (*b*), (*c*) and (*i*) of paragraph 5 of his report. The work of the midwife attached to the hospital continued to be unsatisfactory, the number of labour cases attended by her being 68 against 66 in 1895–96. If the services of a competent midwife cannot be secured, a suitable candidate should be selected and trained at the cost of the municipality.

(4) *Vaccination and Vital Statistics.*—The reported number of vaccine operations performed during the year rose from 1,019 to 1,084, but the quality of the work deteriorated considerably, the percentage of successful cases being only 47·2 against 83·2 in 1895–96. The explanation of this offered in paragraph 60 of the Chairman's report cannot be accepted as adequate or sufficient. The real cause was in all probability the bad quality of the lymph used, as observed in paragraph 9 of the Deputy Sanitary Commissioner's inspection notes recorded in G.O., No. 996 M., dated 27th April 1897. There was also a large decline in the number of children under one year successfully vaccinated, and the average cost of each successful operation increased from As. 4–6 to As. 6–11—these results are regrettable. The work of the vaccinator evidently requires closer supervision; and immediate steps should be taken to place matters on a satisfactory footing.

Owing to the prevalence of cholera in the town, the number of deaths registered rose from 476 to 511, while that of births was almost stationary. In neither case, however, can the returns be regarded as accurate, the rates being much below the normal. Notwithstanding the remarks of Government in the review of the previous year, to which the council's attention again invited, the subject has plainly not received the attention it requires. The Government trusts it will be no longer neglected.

(5) *Sanitation.*—The expenditure under this head amounted to Rs. 4,257, or 99 per cent. of the allotment and 16·3 per cent. of the receipts. The Assistant Surgeon reports that particular attention is being paid to the sanitation of the town. From the inspection notes of the Deputy Sanitary Commissioner communicated with G.O., No. 996 M., dated 27th April 1897, however, it appears that much yet remains to be done. Every effort should be made to remedy the several defects pointed out by that officer and by the Assistant Surgeon.

5. *General Remarks.*—The year closed with a balance of Rs. 2,288, or 8·8 per cent. of the receipts. In respect of the assessment of taxation, vaccination and the registration of vital statistics, the municipal council cannot be said to have done all that it could during the year under review. In other respects the administration continued to be fairly satisfactory.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. T. V. SIVARAO PANTULU Garu, Chairman, Municipal Council, Chicacole, to the Secretary to Government, Local and Municipal Department (through the Principal Assistant Collector, Ganjám), dated 13th May 1897, No. 410.

I have the honour to submit, herewith, the annual report on the administration of the Chicacole municipality for the year 1896–97, together with the prescribed statements. These were passed by the council at its meeting held on the 13th May 1897.

2. The accounts of the year under report have not been audited as yet. The medical officer's report is herewith enclosed.

RECEIPTS.

3. As verified by the auditor, the closing balance of the year 1895-96 was Rs. 3,206–3–3 with which the year under report started, and the total receipts of the year were Rs. 26,041–12–4. Thus the grand total was Rs. 29,247–15–7. Deducting therefrom the sum of Rs. 26,959–6–8, the total charges of the year, a balance of Rs. 2,288–8–11 was left for the current year to start with.

4. The following amounts have been expunged both from receipts and charges as they were credited and also debited during the year:—

	Rs.	A.	P.
(1) Tolls contribution	1,288	13	1
(2) Refund of tax on arts	39	8	0
(3) Do. of tax on buildings	1	5	0
(4) Do. of library books	10	0	0
(5) Do. of tolls	0	14	6
(6) Refund of provincial grant to Pariah school master	2	10	0
(7) Refund of medical pupil's pay	8	14	0
(8) Salary of the hospital assistant paid in excess	6	7	3
(9) Vacancy remissions	5	6	6
(10) Advance for purchase of bulls	51	0	0

Item (1) is the contribution of tolls paid to the district board.

Item (2) is the amount refunded to the parties on appeal.

Item (3) is also the amount refunded to the parties on appeal.

Item (4) is the balance refunded by the headmaster, high school, of the amount paid to him for the purchase of certain library books, as the whole amount was not expended.

Item (5 is the amount remitted to the parties concerned for carts and animals for which tolls were illegally collected.

Item (6) is the amount of provincial grant paid to the Pariah school teacher through this office.

Item (7) is the amount of the medical pupil's pay for the month of April 1896, which was returned, by mistake, to this office from the office of the Principal of the Medical College, Madras, and remitted again to the pupil in the next month.

Item (8) is the amount of the hospital assistant's pay drawn erroneously for the days on which he was away from the town on cholera duty and refunded subsequently.

Item (9) is the amount refunded to house-owners under section 72 of the District Municipalities Act.

Item (10) is the balance, refunded by the supervisor of works, of Rs. 130 paid to him to enable him to purchase bulls.

5. *Tax on arts and professions.*—The demand under this head was Rs. 2,052 including Rs. 6–8–0, the arrears of previous year. Rs. 39–8–0 was remitted by the council to the parties on appeal, and a sum of Rs. 15–8–0 was written off as irrecoverable. The amount that ought to have been therefore collected in the year under report was Rs. 1,997, of which Rs. 1,968–13–6 were collected, leaving a balance of Rs. 28–2–6 to be collected. Thus there is no decrease in fact under this head.

6. *Tax on buildings.*—Increase is due to some new houses having been assessed during the year. The demand under this head was Rs. 2,793–4–0. The amounts remitted on appeals and under section 72 of the District Municipalities Act were Rs. 1–5–0 and Rs. 26–5–0, respectively, and the amount written off as irrecoverable was Rs. 110–1–0; the largest item of Rs. 30, the tax on the bungalow belonging to the Raja of Bobbili, which was demolished in the year under report, having been included therein. Rs. 2,655–9–0 ought to have been the refore collected under this head, whereas Rupees 2,652–9–0 were collected leaving a balance of Rs. 3.

11. *Tolls.*—The revised estimate figure was arrived at on the calculations made from the actuals of the first eight months in the year. In the last four months the collections of tolls were comparatively far better, though they were poor on the whole on account of the unfavourable season and epidemics prevalent during the year in these parts. The actuals include the amount of Rs. 18–9–6 recovered from the District Board, Ganjám, as mentioned in paragraph 11 of my report on the administration of this municipality for the year 1895–96.

19. *Other hospital receipts.*—A sum of Rs. 10 is still due from the district board as the house-rent for the vaccine depôt located in the hospital.

20. *Income from markets.*—The collection of rents of the market godowns was managed departmentally-like in the previous years, and the right of collecting market fees was sold away for Rs. 505. The number of godowns in the market including a few temporary sheds is 104. According to the rents fixed by the council for every godown, the demand of rents for all the godowns was Rs. 1,911–6–0, of which only Rs. 1,726–2–6 was realized, as some of them were vacant throughout the year and some others for a portion of the year.

34. *Incidence of taxation.*—The incidence of taxation per head on the direct taxation and rents is As. 12–3 against As. 13–1 in 1895–96.

35. The total receipts of the year including opening balance amounted to Rupees 29,247–15–7, and the expenditure was Rs. 26,959–6–8, and thus the year closed with a balance of Rs. 2,288–8–11.

Expenditure.

36. *Grant 1 (b), New buildings.*—The decrease under this head seems to be very considerable, but it is not actually so. Not only the provision of Rs. 860 made in the revised estimate for tiling, &c., of the thatched portion of the high school buildings, but also a sum of Rs. 320 was spent for the improvements of the buildings, the improvements proposed to be made being construction of wooden partition walls, in accordance with the suggestion of the Inspector of schools to prevent the noise of one class from being heard by another. But this amount was paid in advance to a well-to-do and respectable contractor after taking from him a bond duly executed for the supply of timber for the whole amount and was therefore debited to "Advances."

The sum of Rs. 400 provided in the revised estimate for isolation hut was left unexpended for want of proper site available for the construction of the building. A site was selected by the local medical officer for the purpose and much time was lost in making negotiations with the owner of the site, who is living at Vizianagram. After all, no final communication having been received from him on the subject, it was resolved to acquire the site under the Land Acquisition Act. The Government will be addressed separately on the subject.

Rs. 445–4–5 was spent on the repairs of the hospital buildings, and the provision made in the revised estimate was exceeded by Rs. 45–4–5. The reconstruction of the terraced portion of the hospital building was completed and some petty repairs also were made here and there for the building.

The quarters of the hospital assistant were completely re-tiled in the year under report, and a sum of Rs. 130–5–3 was expended for the purpose. The quarters have been in the occupation of the hospital assistant from November 1896, and he has not been receiving house-rent since then.

A sum of Rs. 228–9–11 was expended on the construction of tiled toll-sheds that are four in number, and this sum exceeded the provision made for the purpose by Rs. 28–9–11. The sheds were completed and occupied in the month of January 1897.

Rs. 122–2–9 was expended on the purchase of corrugated iron sheets for latrines and on their subsequent adjustment as two latrines. They have been located near Relli street at a place approved by the local medical officer—one for the use of males and the other for females. Rs. 30–15–1 was spent on purchase of iron sheets for

dust-bins and Rs. 20 was spent on the construction thereof. The number of dust-bins was increased by ten in the year under report, the whole number of the bins in the town being 68.

An epidemic shed was constructed temporarily in the hospital premises at a cost of Rs. 4–7–10 for the use of cholera patients, as cholera appeared in the town on more than one occasion during the year under report.

37. 1 (*c*) *Drainage.*—A rough stone drain was constructed on both sides of Palkonda road from Relli street to Chintavari choultry for a length of about 300 yards.

38. (2) *Repairs—(a) Communications.*—The net income from tolls in the year under report was Rs. 3,885–1–10, of which more than half was spent on communications. The Palkonda and Chinabazaar roads had pucka repairs with the road materials stored on the road sides in the previous year. The trunk road and old Chicacole road also were repaired. The minor roads were also repaired to some extent. The condition of Palkonda and Chinabazaar roads is good, whereas, trunk road and Patachicacole road are in fair condition and the state of minor roads is not satisfactory. It may not be out of place to state that the year under report was a very bad year for road-making as the rains were held off almost throughout the year.

On more than one occasion weeds were removed from Bucca Bunda. A drinking-water well near Mettucherevoo was cleared of silt at a cost of Rs. 1–1–9. There is a sufficient water-supply in the town, all the drinking-water tanks and wells containing a good quantity of water.

44. *Grant 2—(2) Municipal Schools*—(i) *On Salary System—(a) Establishment.*—Decrease is mainly due to a portion of the provision made for the stipend of the drawing master having been left unutilised owing to the illness of the person that was sent up for training in drawing.

45. *High School.*—The numerical stength of this school was kept up during the year under report. It is to be regretted that no services of an L.T. could be secured for the second assistant master's post and it seems that it is advisable to raise the minimum salary of the post to induce L.Ts. to aspire for it. This question will, however, be discussed in the budget meeting and the conclusion which will be arrived at by the council will be duly reported to the Government. It is, however, a matter of satisfaction that the present (sub. *pro tem.*) second assistant is a trained graduate. The institution was provided with a Telugu pandit in the year under report. His appointment was made on the results of the competitive examination as reported in paragraph 47 of my report on the administration of this municipality for the year 1895–96. During the year under report the Third Form was split up into two divisions and a third division of the first form was opened and two new teachers were accordingly appointed on Rs. 40 and 15 per mensem respectively. Their appointments were sanctioned by the Government in G.Os., Mis. No 794 M., dated 9th May 1896, and No 1743 M., dated 12th October 1896. The results of the public examinations are far from satisfactory. Only four came out successful out of 20 appeared for the Matriculation examination and only nine passed the Lower Secondary examination out of 26. Of these nine, only three passed in compulsory and one optional subject. These unsatisfactory results may be partly due to the frequent changes in the staff, the occurrence of which was unavoidable. The work of the carpentry class continued to be satisfactory. The net cost of this class to the municipality was Rs. 123–14–8.

46. *Schools on Salary results system—(a) Fixed Payments.*—The number of both upper and lower primary schools continued to be the same as that in the previous year. One untrained teacher was sent for training and he is still undergoing training in the Government Training school at Vizagapatam. All the upper primary and lower primary schools were visited by the Inspector of Schools in the year under report and he expressed his satisfaction with the working of the schools.

Rs. 2 were given to one of the schoolmasters of the salary-result schools as travelling charges from this place to Vizagapatam, where he is now undergoing training. The remaining sum was spent on purchasing printed receipt forms, &c., required for all the schools.

55. *Grant 3*—(1) *Hospitals and Dispensaries—(a) Establishment.*—On several occasions the hospital assistant attached to the hospital was away from the station on cholera duty in the taluk under the orders of the District Medical and Sanitary Officer, and no substitute was sent here during his absence; hence decrease. There was no change in the establishment in the year under report. The number of the out-patients attended to by the lady apothecary attached to the hospital was 8,935. It is to be regretted that the work of the midwife attached to the hospital was again far from satisfactory, the number of cases attended by her in the year under report being only 66, though there was a very slight improvement over that of the previous year. Efforts were made by the council to obtain the services of a more efficient midwife and the District Medical and Sanitary Officer was addressed on the subject. On being, thereupon, enquired by that officer if the house-rent would be paid to the midwife, the council replied that they were prepared to pay it. An improvement has been shown in his work, though there is still room for further improvement. The number of cases vaccinated by the medical officer and the hospital assistant was 50, and the total number of operations was therefore 1,084 against 1,019 in the year 1895–96; but it is much to be regretted that the percentage of successful cases fell from 83·2 to 47·6, which is mainly due to the unusually sultry weather.

67. (5) (*c*) *Cholera charges.*—Cholera appeared in the town on two occasions during the year under report. On the first occasion it appeared on 25th August 1896 and lasted till 2nd October 1896. The number of attacks on that occasion was 94 with 41 deaths. On the second occasion it broke out on the 15th March 1897 and continued till some time after the close of the year under report. The number of cases attacked was 121, of which 60 proved fatal. A sum of Rs. 124–12–5 was spent under cholera charges, of which about Rs. 40 were spent on purchasing disinfectants, viz., sulphur, tar, saw-dust, &c., Rs. 16–12–9 were paid to the establishment temporarily engaged on cholera duty and its entertainment was sanctioned in G.O., Mis. No. 1905 M., dated 11th November 1896, Rs. 67–15–8 was spent on the purchase of medicines, viz., chlorodyne and bismuth, subnitras and contingencies. Almost all the drinking-water sources were disinfected with permanganate of potash, and every precautionary measures were adopted to prevent the spread of the disease. In accordance with rule 4 of the rules for combating bubonic plague, embodied in G.O., No. 1985 M., dated 18th November 1896, the following apparatus and disinfectants were purchased at a cost of Rs. 139–11–0 and they are now ready in store :—

12 portable tin canisters for disinfectants.
9 lb. perchloride of mereury.
9 lb. commercial hydrocloric acid.
60 lb. carbolic acid.
600 lb. saw-dust.

As required in the same rule the town was mapped out into one circle and two divisions, and the map was approved by the District Collector.

68. (*d*) *Contingencies.*—A sum of Rs. 69–7–0 was spent on the removal of prickly-pear. A very considerable quantity of prickly-pear was removed during the year under report in the town, and several notices were issued to the owners of lands for the removal of prickly-pear therefrom and almost all of them were duly complied with. A copy of Manual of Hygiene and Sanitation and Sanitary Engineering by Mr. J. A. Jones was purchased at a cost of Rs. 7-4-0, and the rest was spent on removing earth from the side drains of the roads in the town.

Decrease ..	2	13	2

73. (*b*) *Contingencies.*—The sum was spent on purchasing cart-stand tickets.

74. (9) *Other Charges*—(i) *Work done for private individuals other than private scavenging.*—The number of cess pools under municipal agency was 20 during the year against 13 in the last year. The number of sewage carts was therefore raised from 1 to 2, and a bull and cart with a barrel were purchased at a cost of Rs. 43–8–0. Two more scavengers were consequently entertained at Rs. 3 each per month. Their entertainment was sanctioned in G.O., Mis. No. 1789 M., dated 22nd October 1896.

77. (v) *Other Items.*—Rs. 11–1–6 was spent on law charges in O.S. No. 658 of 1895 filed in the District Munsif's Court, Chicacole, against the council by one Kandukuri Sanyasiraju Pantulu Garu for the recovery of a well, &c. The suit was dismissed with costs, and they will be duly recovered.

78. *Grant* 5.—The variations under the items (*a*) (i) Office establishment, (ii) Inspection, (*b*) (i) Collection of Municipal taxes—Establishment, (*c*) (i) Collection of tolls—Establishment, (*c*) (ii) Contingencies, (*d*) Office contingencies other than (*b*) (ii) and (*e*) Contributions for central office establishments, are so slight that no explanation need be given.

79. *Advances recoverable*—(*a*) *Permanent.*—As reported in paragraph 31 *supra*, the permanent advances allowed to the supervisor of works and the manager are Rs. 20 and Rs. 10, respectively.

80. *Advances recoverable*—(*b*) *Others.*—A sum of Rs. 1,180 was paid in advance for the purchase of timber for the high school buildings as explained in paragraph 36 *supra*.

81. *Demand, Collection and Balance Statement.*—The demand, collection and balance under each head were fully explained when the receipts were dealt with. The total balance left outstanding is Rs. 53–10–6. It may be stated that the balance is not much considering the condition of the people on account of the unfavourable season.

82. *Coercive process.*—During the year under report 240 warrants, involving a sum of Rs. 366–2–6, were issued. The number of warrants executed and cancelled during the year was 237 involving a sum of Rs. 363–12–0. The number of cancelled warrants on which no collections were made was 12 involving a sum of Rs. 10–13–0. The number of warrants on which collections were made before distraint was 220 involving a sum of Rs. 348–3–0. Only in three cases, involving a sum of Rs. 2–12–0, property was distrained but not sold. In two cases, involving a sum of As. 13–6, property was distrained and sold. There were three warrants remaining unexecuted at the close of the year involving a sum of Rs. 2–6–6.

83. Twenty-nine meetings were convened during the year under report, and none was adjourned for want of quorum. The average attendance of the councillors at the meetings was 9·06 against 9·10 in 1895–96. The office of chairman was held by me up to 26th February 1897, when the term of my councillorship ended, and consequently I ceased to be the chairman. The Divisional officer, therefore, took charge of the municipality, and delegated his powers subsequently to me. The election of chairman took place on 8th April 1897, and I was duly elected.

ENCLOSURE.

From Surgeon-Major H. THOMSON, Acting District Medical and Sanitary Officer, Ganjám, to the Chairman, Municipal Council, Chicacole, dated Berhampur, 22nd April 1897, Dis. No. 835.

I have the honour to forward the annual administration report of the Chicacole Municipal hospital and sanitation of the town for the year 1896–97, and to state that I have no further remarks to make than that which have been stated by the medical officer in charge.

ANNUAL report of the Municipal Hospital, Chicacole, for the year 1896–97.

1. *Public health.*—The public health during the year was far from satisfactory, as cholera and small-pox were playing havoc not only in the town but throughout the taluk, in fact the whole district, accompanied with want of rain and famine. Cholera prevailed in this town from the 25th August to the 2nd October 1896, and from the 15th March 1897 and continues up to date.

On the 1st occasion there were 94 attacks with 41 deaths, and on the second 121 attacks with 60 deaths.

On both occasions the disease was imported from the villages of Patrunivalsee and Royapadu (Gudiem) respectively. Every precautionary measures are being taken to stamp out the disease.

2. *Vital statistics.*—The registrar of births and deaths registered 402 births, 511 deaths during the year. Nine cases for failure to register births and one case for failure to register death were prosecuted before the magistrate, but the amount of fines inflicted is not known to this office.

3. *Sanitation.*—Particular attention is paid as to the improvement of the sanitation of the town and villages attached to it.

The water-supply is, as usual, from wells, tanks and river.

All the public wells, as well as some important private wells, were disinfected with permanganate of potash.

The sanitary staff consists of 1 sanitary inspector, 4 nuisance peons, 38 sweepers, 5 toties for public latrines, 1 toty maistry, 17 female toties to attend private latrines which are under municipal control, 8 conservancy cartmen and 4 sewage cartmen.

Two open corrugated iron latrines and ten dust-bins were put up during the year under report; some more are required. The construction of a slaughter-house for sheep according to new design is postponed for want of funds, and the slaughtering is going on as usual for both cattle and sheep in open places. I would therefore recommend the erection of temporary thatched sheds until such time as the council is in a position to construct a permanent slaughter-house in accordance to the standard plan.

The number of cess-pools under municipal agency is 20 against 13 of last year.

The night-soil carts are not utilized, as the men are unable to drag the carts to the night-soil depôts owing to the heavy sands they have to pass through; this I think could be easily remedied by removing the sand and constructing good metalled roads to the depôts.

4. *Vaccination.*—In accordance to the Act compulsory vaccination is being strictly carried out.

A large number of cases were reported to the magistrate, and after excluding cases excused by him where the parties had their children vaccinated before the expiry of the notice given them by him, some still remain for punishment for disobedience of the orders of the magistrate. The number of cases vaccinated by the medical subordinate during the year was 50 with 28 successful and 22 unsuccessful.

The municipal vaccinator vaccinated 1,034 cases with 484 successful, 549 unsuccessful and one unknown; of the unsuccessful cases, 253 were re-vaccination. He has been doing his best in assisting me in the enforcing of the compulsory section of the Act.

5. *Hospital and Dispensaries—(a) Nature and sufficiency of accommodation.*—The remark under this head is the same as that of last year.

(*b*) *State of repairs of buildings.*—Front and rear terraced portions are completed; slight repairs are still required which will be attended to during the current official year.

The female ward, kitchen and latrines require immediate attention, particularly the former, as there are several cracks in the walls and basement which show a tendency to increase. The hospital assistant quarters are completed during the year, and is now occupied by him.

(*c*) *State of repair of furniture.*—The wooden cots and almirahs require repairs; it will be well if the present wooden cots in the male ward are replaced by iron ones.

Three new chairs are required in lieu of the old ones which are in use for some years.

(*d*) *Inspections.*—The Deputy Sanitary Commissioner visited the hospital and the vaccine calf depôt on the 26th October 1896.

(1) *Steps taken to carry out the recommendations of the Surgeon-General with Government of Madras.*—None.

(2) *Steps taken to carry out the recommendations of other inspecting officers.*—They are being attended to by the municipal council according to the funds available at their disposal. Two corrugated iron latrines and ten dust-bins were put up during the year.

(*e*) *Amount of recoveries from patients who have been able to pay for their diets and medicines.*—None.

(*f*) *Number of patients treated as compared with the previous five years.*—The following table shows the number of patients treated:—

—	Admissions.			Average daily attendance.		
	In-door.	Out-door.	Total.	In-door.	Out-door.	Total.
1892–93	240	18,176	18,416	12·22	97·78	110·00
1893–94	185	19,150	19,335	10·10	118·17	128·27
1894–95	151	24,953	25,104	11·84	137·00	148·84
1895–96	132	23,424	23,556	7·62	128·72	136·34
1896–97	115	24,953	25,068	6·24	124·40	140.64

The number of in-patients treated during the year was 115 against 132, and the average daily sick 6·24 against 7·62 of the previous year, and this is due to the hospital still undergoing repairs. 24,953 out-patients were treated during the year against 23,424 of the previous year showing an increase of 1,529, and the average daily attendance was 134·40 against 128·72 of the previous year; the increase is mainly due to the growing popularity of the institution.

(*g*) *Mortality and actual causes of it.*—There were 11 deaths during the year, namely, abscess of liver 1, pneumonia 1, albuminuria 1, catarrhal inflammation of intestines 3, dysentery 1, starvation 1, cholera 1, anæmia 1 and hydrophobia 1, and the actual causes were exhaustion 7, syncope 2, coma 1 and asphyxia 1. This is a large number, but as only very serious cases are admitted on the score of economy, a smaller number cannot be expected as a great many of the cases that died were brought in a hopeless or rather dying state.

The number of deaths among out-patients cannot be stated, as it is difficult to obtain the results of out-patients treated especially as some of them come from very distant villages.

(*h*) *Operations and results.*—Three hundred and fifty-seven operations (major and minor) were performed during the year with the following results: 329 cured and 28 relieved.

(*i*) *Establishment whether sufficient and efficient.*—The establishment is sufficient and efficient except the compounding department; as one man is unable to cope with the work owing to the large number of daily attendance, I recommend the entertainment of a second compounder.

(*j*) *Midwives.*—The midwife attached to this institution attended 68 cases of labour during the year against 66 of the previous year.

(*k*) If Dufferin Fund dispensaries for women who cannot or will not attend the ordinary dispensaries have been working, a special note should be added on the *working.*

There is no Dufferin Fund dispensary for women, but the lady apothecary has one compartment of the female ward allotted to her for attending to female out-patients and her prescriptions made up by the compounder attached to the municipal hospital, and the services of the native midwife, female ward attendant and female toty of the above hospital are placed at her disposal as a temporary measure. In my opinion a separate place with a female compounder and other necessary female servants with medicines, instruments, &c., should be set apart for her, which I am sorry to say the municipality is not in a position to carry out at present owing to financial difficulties.

(*l*) *General remarks.*—Nil.

Dated, 3rd June 1897.

From

M. R. Ry K. V. Sivarao Pantulu garu,

CHAIRMAN,
MUNICIPAL COUNCIL, CHICACOLE.

LOCAL & MUNICIPAL DEPT.
CURRENT No. 2180 M.

To

THE Secretary to Government,
Local and Municipal Department, Fort St George.

Sir,

In continuation of my report No. 410, dated 13th May 1897, on the administration of the Chicacole Municipality for the year 1896-97, I have the honor to forward herewith the educational statements of the Chicacole Municipality for the year 1896-97, received lately from the Assistant Inspector of Schools, Ganjam and Vizagapatam Division. The statements were duly passed at the meeting of the councillors held on the 22nd May 1897, and an extract from the Proceedings of the meeting is herewith enclosed.

Statement IV S.R. Schools } The figures given for 1896-97, under columns "Number of pupils presented for the standard" and "Number passed", differ mostly from those shewn in the note to Statement V.A, already

Submitted

submitted with the report. The figures were given originally according to the certifying memoranda issued by the educational officers. Now that the regular statement has been received, the office copy of the Footnote to Statement V-A is corrected accordingly.

Statement IV Result Schools — The total number of pupils presented and passed shown in Statement IV, differ from those shown in Statement V-B already submitted. The office copy of the Statement V-B also has been accordingly corrected.

Statement V-B. The office copy of the Statement V-B has been corrected with reference to the figures given by the Assistant Inspector of Schools, in his statement.

Statement V-A. The figures given by the Assistant Inspector of Schools, differ from those submitted from this office, regarding the entries against the High School. The difference is due to the fact that the carpentry class of the High School was treated as a separate institution by the Assistant Inspector, whereas it was shown as a part of the High School in this office statement. The difference of Rs 15. 3. 6 between "other receipts" of the statement already submitted, and the accompanying statement, is due to the inclusion of Rs 15. 3. 6, the amount of refunds in this office statement, which was omitted from the Statement submitted by the Assistant Inspector.

I have the honor to be,
Sir,
Your most obedient Servant,

L. Smith

Chairman.

2. Twenty nine meetings were held by the Municipal Council against 32 in the previous year. ~~There was a decline in~~ the average attendance of the non official members ~~declined~~ but ~~which however~~, continued to be fair, ~~the attendance~~ of the officials though better than in 1895-96, was still far below what it should be. ~~was not satisfactory~~; the Government ~~expects~~ views the ~~that~~ with less patience & trusts they will attend the meetings more regularly in future.

3. Receipts (1) The net current demand under the tax on arts again ~~fell from~~ being Rs 2006 against Rs 2109 in the previous year & Rs 2470 in 94/95. The average assessment per head was only Rs 2-15-8 against a general average of Rs 4-1-0 for all municipalities in 1895-96. Notwithstanding the remarks of Government in para 3 (1) of G.O. No 1114 L, dated 4th July 1896, the Municipal Council has evidently taken no steps to develop this source of revenue. ~~This is most unsatisfactory~~. No further time should be lost in ~~carrying out~~ doubling 80 ~~the wishes of Government in the~~ matter. There was a small increase in the demand under the tax on houses, while ~~that~~ under the

tax on lands, the demand remained stationary. The collections under the principal taxes assessed continued to be satisfactory.

(2) The income from the tax on animals again fell from Rs 1185 in the previous year to Rs 1082, the decrease being explained in para. 9 of the Chairman's report.

(3) Owing to the unfavourable character of the season the municipal income from tolls also declined from Rs 6055 to Rs 5318.

(4) The revenue derived from the sale of the town refuse and cart stand fees fell from Rs 42 & Rs 374, respectively, to Rs 28 and Rs 263, but there was a marked increase in the income from school fees, which amounted to Rs 7,315 against Rs 6723 in the previous year.

(5) The number of houses served by the private scavenging agency rose from 281 to 291, and the cost of the service was covered & the receipts worked at a net profit of Rs 99. As however the number of houses served by the municipal agency is only 23 per cent of the number assessed to the tax on houses, & there is clearly ample scope for further advance, and the municipal Council should spare no pains to extend the system as widely as possible. No improvement can be expected in this direction, unless prosecutions are systematically instituted against the owners of insanitary premises.

4. Expenditure (1) Public works. A sum of Rs 981-13-3 was spent on new works - buildings, the most important of which was the reconstruction of the hospital building. The outlay on Communications amounted to Rs 2133 or 55.2 per cent of the net municipal income from tolls and the Revenue Divisional officer reports that the roads were in fair order.

(2) Education. The net expenditure on primary education was Rs 2,048, while the charges connected with secondary education were less than the receipts by Rs 870. The total net outlay on education was thus Rs 1178 or 9.6 per cent of the income from taxation. The municipal Council continued to maintain one high school with its lower secondary department, on the salary system, and eight primary schools on the salary result system; but the number of

a sum of Rs 1180 was advanced for the improvements to the High school buildings appears under the head of "Advances recoverable".

of schools aided ~~to~~ rose from five to six. The strength of the high school remained stationary, but the attendance at the primary schools fell from 368 to 342. The numbers on the rolls of the aided schools, however, rose from 251 to 294.

The results of the Matriculation and lower secondary examinations were not unsatisfactory, only 20 and 23 per. cent respectively of the pupils presented for them having been successful. The municipal primary and aided institutions however did fairly well at the departmental and grant examinations. Nearly 23 per. cent of the allotment for result grants was not utilized, the shortage being apparently due to the small number of pupils presented for the latter examination which was held just before the Pongal feast. The total number of boys under instruction in the municipal and aided schools fell from 68.1 to 66.9 per. cent of the male population of school going age.

Note — Vide remark in the last column of statt No. IV submitted by the Assistant Inspr. of schools.

(3) Medical Relief. The number of in-patients treated in the municipal hospital again declined, being 115 against 132 in the previous year. The attendance of out-patients rose from 23424 to 24953. The decrease in the former case is ascribed to the hospital building being under repair during the year, and the increase in the latter case to the growing popularity of the institution. The attention of the municipal Council is drawn to the remarks of the Assistant Surgeon in clauses (b), (c) & (i) of para. 5 of his report. The work of the midwife attached to the hospital continued to be unsatisfactory, the number of labour cases attended by her being 68 against 66 in 1895-96. If the services of a competent midwife cannot be secured a suitable candidate should be selected and trained at the cost of the municipality.

(4) Vaccination and Vital Statistics. The reported number of vaccine operations performed during the year rose from

(The decline in the attendance is ascribed to the hospital building being under repair during the year. It seemed from the med. officer's report that the repairs were still incomplete at the end of the year. There appears to have been a want of promptitude in carrying out the work, which is not satisfactory.

1019 to 1084, but the quality of the work ~~turned out~~ deteriorated considerably, the percentage of successful cases being only 47.2 against 88.2 in 1895-96. The explanation offered ~~for this~~ in para 60 of the Chairman's report cannot be accepted as ~~by any means~~ adequate or sufficient ~~satisfactory~~. The real cause ~~appears~~ to lie ~~in the~~ ~~factory~~. ~~This has~~ ~~the result~~ probably ~~in~~ the bad quality of the lymph used, as observed in para 9 of the Deputy Sanitary Commissioner's inspection notes recorded in ~~f~~/o No. 996m dated 27 April 1897. ~~The Committee~~ ~~feel~~ considers that the work of the vaccinator also ~~requires~~ closer supervision. There was also a decline also in the number of children under one year successfully vaccinated, and the average cost of each successful operation increased from Rs 4-6 to Rs 6-11. These results are ~~regrettable~~ ~~and~~ immediate steps should be taken to place matters on a satisfactory footing.

Owing to the prevalence of cholera in the town the number of deaths registered rose from 476 to 511, while that of births was almost stationary. In neither case, however, can the returns be regarded as accurate, the rates being much below the normals, and ~~this~~ subject demands the earnest attention of the Cornal.

(5) Sanitation. The expenditure under this head amounted to Rs 4,257 or 99 per cent of the allotment and 16.3 per cent of the receipts. The Assistant Surgeon reports that particular attention is being paid to the sanitation of the town. From the inspection notes of the Deputy Sanitary Commissioner communicated with f/o No. 996 m, dated 27th April 1897, however, it appears that a great deal yet remains to be done. Every effort should be made to remedy the several defects pointed out by that officer and by the Assistant Surgeon Medical officer.

× Vide para 3 of his report.

5. General Remarks. The year closed with a balance of Rs 228 or 8.8 per cent of the receipts. ~~Except~~ In respect of vaccination and the registration of vital statistics the administration of the Municipality during the year under review cannot be said to have done all that it could have done. In other respects the administration is fairly satisfactory.

~~During the year under review~~ the assessment of taxation,
