The Government in G. O. No. 713 M dated 26 March 1897 reviewing the budget for 1897-98 directed the Council's proposal to raise the pay of the Head master of the Lower Secondary school from Rs 30 to 35, that of the 3rd master from Rs 15 to 18 and that of the 4th master from Rs 10 to 12, on the grounds of the present state of the municipal finances. The school is getting more and more popular and its strength has been rapidly increasing. From the enclosed statement showing the fee collections of the last year and

the expected collection of the Cook's official year with reference to the present strength, you will be pleased to observe that a sum of Rs 1143 is expected to be realized in 1897-98 from the present numbers of boys only in the several classes, though the tendency is for further improvement both in strength and income. In the interests of the school, the Council resolved at its meeting dated the 1st Instant (copy of which is enclosed), to request the Government to raise the salaries of the 3rd and 4th masters to Rs 18 and 12 as competent men cannot be expected to work willingly and steadily on a less pay and to entertain a Telugu pundit on Rs 10 whose services may also be partly utilized for the lower primary school attached to it.

2. The lower primary school is also growing in strength and importance, fetching an income of Rs 390 per annum, the present strength of which is shown below.

3 rd Standard	47
2 nd do	36
1 st do	46
Infant do	38

There are at present 3 teachers working in this school on Rs 8, 7 and 6, the total annual cost of establishment being Rs 252 per annum. The Council at its meeting dated 15th March 97 resolved to entertain a head master on Rs 12 for this school. It is proposed to divide the 3rd Standard into two divisions so that there may be 5 classes in all. If a Telugu pundit be entertained as proposed above his services may be conveniently utilized for both the schools.

3. A copy of memorandum from Mr. B. S. Chachalapattigar Councilor dated 15th April 1897 giving further details in connection with the above proposals is herewith forwarded.
4. I have therefore the honor to request that you will be good enough to obtain the

Sanction of Government at an early
date. The proposed establishment will
be entertained from the 1st June 1897 in
anticipation of sanction as the school
will suffer a good deal for want of
an adequate number of teachers.

Sr,

The Government in its review of the
budget report of this Municipality for 1897-98,
beliefs the Council's proposals to raise the pay
of the Head Master of the Lower Secondary
School from Rs 30 to 35, that of the 3rd Master
from Rs 15 to 18, and that of the 4th Master
from Rs 10 to 12, apparently in financial
grounds. The strength of the several classes
of the Lower Secondary school, on 1st instant,
as compared with that in the previous months
of this year at the close of the two terms of last
year is shown in the enclosed statement. The
fee collections of the last year and the expected
collections of the current official year, with
reference to the present strength are also shown.

in it. From the Statement you will be
pleased to observe that a sum of Rs 1143
is expected to be realized in 1897-98 from
the present number of boys only in the several
classes, though the tendency is for further
improvement both in strength and income.
Before the opening of the Lower Secondary
School, the Municipal Council was paying
about Rs 450, as contribution to the Lower
Secondary Department of the Pottapuri
Rajah's College. The educational authorities
have consented to the withdrawal of the
contribution, on the ground that the
Municipality - maintains a Lower Sec-
ondary school of its own, in a portion of the
town, where it is ^{very} necessary for the convenience
of the younger boys of the Lower Secondary
Department. The total amount which may
be taken as available for expenditure
on the Lower Secondary School is Rs 1143
(income from fees) + Rs 450 (former

contribution to the Lower Secondary Depart-
ment of the College) or Rs 1593 in all per
 annum or Rs 132-12-0 per mensem.
The expenditure actually proposed in the
budget, on account of the salaries of the Estab-
lishment was Rs 90 per mensem. The school
is getting more and more popular now, and
the strength is increasing. I am glad to bring
to the notice of the Council that the Headmaster
of the school himself, offers to work here
during the whole of 1897-98, without any
increase of pay, over Rs 30, but requests
that, for the well being of the school,
the pay of the 3rd and 4th masters may
be raised to Rs 18 2/2 respectively.
Competent men cannot be expected to
work willingly and steadily for less. I can
also request that a Telugu Pandit on
Rs 10 may be entertained, on condition
of his working in the Lower Secondary

school for 3 hours and in the attached
Primary school for 3 hours. Its pay
may be apportioned equally between
the two schools. The cost of the lower secun-
dary school will thus be:—

Rs 30	Head master
20	2 nd master
18	3 rd master
12	4 th master
5	Deputy pundit
5	Servant

90 per mensem or Rs 1080 per annum.

This expenditure on establishment is less
than the expected income from school
fees by Rs 63, and thus the total sum
available for expenditure by Rs 573. The
house rent and other contingent charges
including cost of books etc is not likely to
be more than Rs 250 or 300. There will thus
be a saving of Rs 200 and odd, at the
lowest estimate.

I support the head master's proposal

about the establishment and request that
the Government may be moved once more,
through the educational authorities for sanc-
tioning the establishment as noted above.

The Lower Primary school jagannathpur,
attached to the lower secondary school, is
also growing, both in strength and importance.

3 rd Standard	47	} Its present strength is noted in the margin.
2 nd	36	
1 st	46	
Infant	38	

There is every reason to expect that the strength
will grow further still. According to the

prevailing rates of school fees the fee in-
come of the lower primary school will be
Rs 390 per annum. Up to 31st March last,
the school had only 3 teachers on Rs 8,7,
and 6. The total cost was Rs 21. The
Municipal Council ^{is} under an obligation
to provide primary education, without re-
ference to cost. Of course, the Council can
work within certain limits only. It is
absolutely necessary that the 3rd and 1st
Standards should be divided into divisions

and it is also expected that the strength would further increase on splitting up the classes. One extra teacher on Rs 12 was sanctioned by the Council lately, in anticipation of approval by Government. There will thus be 4 teachers for belows or rather 5 classes. Since if the 1st Standard is not sub-divided at once, this arrangement cannot conduce to the satisfactory working of the school. If as proposed above, a Zeligu pundit who is capable of teaching Zeligu to the 3 Lower Secondary classes and any subject to the 3rd Standard of the primary school is entertained, the man can be employed in teaching one division of the 3rd Standard for 3 hours a day. Other arrangements can be conveniently made for teaching the 3rd Standard in the other periods. The cost of establishment will thus be as follows.

Headmaster	on Rs 12
2 nd master	" 5 (other Rs being debited to lower secondary school)
3 rd master	" 8
4 th master	" 7
5 th do	" 6
	Rs 38 per mensem or
	Rs 456 per annum

The cost on account of the establishment will thus exceed the fee income by Rs 66 only. The savings in the lower secondary school will more than cover the extra cost in the Lower Primary school. When there are 75 boys in the lower secondary school and 167 in the primary school, to be taught under the same roof, it is desirable that the best possible arrangements should be made for their teaching. The proposals above made, combine both economy and efficiency. I do not think it will be possible or even fair to the boys attending the schools to be over economical.

To

The Director of Public Instruction,

Sir,

Through the Inspector of Schools, C.

I am submitting herewith letter
No. 318 of 21st 5/7, from the Chairman, Municipal
Council, Cochin, in which he has stated
that - I visited the two municipal schools
therein referred to on the 28th inst and found
that the 3rd & 1st standards were
unwisely. It is absolutely necessary that
these should be split up into divisions. With a
view to this and to give the boys of the Lower
Secondary department the benefit of a
Telugu Pandit's instruction I recommend that
the entertainment of a Telugu Pandit - Rs. 10
for the Lower Secondary department and
an additional teacher Rs. 12 for the
Primary department may be approved
and sanctioned. I doubt very much
whether a small increment to the pay of the
teachers in the Lower Secondary department
will after all be a sufficient inducement
to keep them long in the school. A pupil
teacher Rs. 5 per mensem may be

appointed to teach the Infant-
 school and the Telugu Pansit - mts. 10,
 may, as proposed by the Council, be
 decided to devote two hours a day
 to the primary department. The question
 of raising the scale of salaries of
 teachers in the Lower Secondary department
 may be considered when the depart-
 -ment becomes stronger and self-
 -supporting.

 Sir,
