Local and Municipal Department,
(through the Collector, Vizagapatam)

Sir,

In reference to G. O. No. 1036 M. mis. dated 1st. May 1897, I beg to submit herewith a complete list of the burial & burning grounds to be closed. The objections to their use are that they are too many in number and that their limits have not hitherto been clearly indicated. With the exception of the Mahomedan burial places all others are vacant grounds indiscriminately used for the burning and burial of the dead and for other public purposes.

2. From the map herewith submitted it may be seen that the old ground marked

No. 1 in green ink is in the bed of the river the water of which is used for drinking purposes - The one which is now to be substituted for it is beyond the river embankment and is marked No. I in purple - The old ground No. 2 is proposed to be closed because it was not necessary to have it there and the people have no objection to its closure - Thus the new one No. II, in purple, proposed in its place is within easy reach to them - The old one No. 3 near Kademsetthinari bangalow is also to be closed for the same reasons - The people of Lakshmi-devipetta who used this have no objection to forsake it for the new one No. II maked in purple - As for the use of the old ground No. 4 there are very grave objections as it is very near to the Railway and to the godowns and a number of buildings newly erected thereabout - The new one No. II which is to supplant the three old ones Nos. 2, 3 & 4 is in their Centre in a quite unobjectionable locality and is large enough for the purpose for which it is intended - To the closing of the Mosque Burial ground No. 8, in green ink which is situated in the small Compound of the Mosque the Mahomedans do not seem to have any objection as they have not petitioned this Council against its proposal to close it, though the leading members of the Community have been given ample opportunities to state their objections - Very few Mahomedans live in this town and the burial place marked IV in purple which has been in use for a long time is quite sufficient for that Community if it is extended a little on the southern side - Thus, of the two Mahomedan burial grounds this one is to be in use and the other to be closed -

no objection

3. So far as the closing of old burning and burial grounds Nos. 1, 2, 3, 4 & 8, and the opening of the new ones I, II & IV are concerned no objections have been raised by the public who were given notice of the Council's intention in this matter

4. As regards the closing of the 5th ground near Slaughter-house, some people living in the C. Division who mostly resort to that place to burn and bury their dead have petitioned this Council against the

closing of the place on the ground that it neither belong to Sree Rajah G. N. Gajapati Rao Garu, C.I.E. nor to others except to themselves; that it has been in their use for a long time that it is in a corner outside the town; that it does not possess the objection which the new burning ground provided for Gavarapalem people and the burial ground near Market possess & so on — But the Council's objections to the use of this ground are that it is near the slaughter-house and the public latrine — A portion of the ground is also used by the people for the purposes of a privy —

5. Another petition from the people of Gavarapalem sent in response to the notice given to them to state their objections to the use of new burning ground provided by this Council at a cost of nearly Rs. 500/ states in a few brief sentences that their objections to the use of the new ground No. III instead of the old one No. 7 which is separated from the former by a river channel, are (1) that they have been using the old one for the last 300/ years, (2) that during this period the population of the town has grown to an extent of 18,000/ and lastly that they are afraid to what loss they would be put to by the use of the new one — I need not here represent how superstitious their objections are — With full confidence that the opening of the new one in the place of the old would in no way be objectionable and that much nuisance would be removed near a drinking-water well by the removal of the old burning and burial place, this Council expended a large amount of money viz. Rs. 500/ for raising &c. of two packa compound walls around the new burning ground — But the people do not seem to care for their health nor do they respect the views of the Council whose sole attention has been to the improvement of sanitation —

6. I lastly beg to represent that the persons who will be affected by the proposal were given notice of the Council's resolution to the proposal and that objections were raised only in two cases and that the objections (especially in the case of the Gavara

quite flimsy and untenable - the four new places are sufficient for the whole town -

7. Copy of the Council's resolution and the two objection petitions in original are enclosed -

I have the honor to be

remarks thereon.

) Read also Mahazar petition submitted by the people of Temple street, Kaspa and Chintavari Streets, requesting permission to use the burning and burial ground beyond the Municipal Slaughter-House on the grounds (1) that the place was well-suited for the purpose for a long time (2) that the same is situated outside the town not too far from their streets, and (3) that it was used by their ancestors from a time immemorial.

(C) Read also Mahazar petition presented by the people of Gavarapalem requesting permission to use their old burning and burial-ground situated on the eastern side of Santabayalu (weekly market) as it has been used by their fore-fathers and by them for about 300 years and stating the change of burial and burning ground is unnecessary.

A report embodying the proposals and reasons for these as submitted by the Municipal Sub-Committee and the objection petitions of persons concerned will be forwarded to Government.
