To

The Secretary to Government,

Local and Municipal Department,

Madras.

Sir,

With reference to clause 5 of Government order No 87 m dated 25th January 1897, I have the honor to submit for the sanction of Government, the proposal of the Municipal Council, Madura, contained in its Proceedings No 436, dated 22nd December 1896, to include within the municipal limits, the village of Arápalayam, marked on the accompanying sketch. The village is situated to the west of the Madura Town limits, as at present defined, and in the neighbourhood of the Water-works. It contains 165 houses and its population is 865, as per census of 1891. As explained

in

in the Chairman's letter (Copy enclosed) the sole object in view of the Council, in submitting the proposal is to preserve the tract near the fountain-head of the Madura Water Supply in a good Sanitary Condition. This is very essential, and the Sanitary Commissioner has also repeatedly called the attention of the Council to this important measure - (Vide Para 5 (6) of the Sanitary Commissioner's Inspection notes, embodied in G.O 87 M. dated 25th January 1897)

2. A draft notification describing the revised limits of the Municipality is enclosed.

Copy of Communication No 392 dated 13th February from the Chairman, Municipal Council Madura, to the Collector of Madura.

—

In forwarding herewith, copy of Resolution of the Municipal Council No 436, dated 22nd December 1896, containing the proposal to include the Arapalayam village within the Municipal limits, I have the honor to request that You will be so good as to take necessary action in the matter.

2. The village lies to the west of the Madura Town proper, and the accompanying plan shows the area, the extent of the wet and dry holdings and of the Poramboke as well as the number of houses and population according to the Census of 1891.

3. It is not intended by the present proposal, to make any money or to extend the Municipal limits. As you are aware the Head Water Works are in the vicinity of the village, and what is chiefly aimed at by the proposed inclusion is, to ensure surface cleanliness and to prevent defoecation by the villagers.

4. The Sanitary Commissioner, who inspected in 1894 and 1896, is strongly of opinion that the village should be [illegible] NET road, and lines South up to the

within the Municipal limits, in order to secure the objects enumerated above; and the manifold advantage likely to arise from preserving from contamination the fountain head of the Water Project upon which this growing and populous city is entirely dependent for its supply, cannot be overestimated.

5. A sketch map of the village is enclosed.

6. As some particulars in connection with the village had to be obtained from the Revenue Department, there has been delay in the submission of this proposal
