FEBRUARY.

Municipal Budget.

Reviewing the Palni — for 1897-98.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From M.R.Ry. G. S. PONNUSWAMI PILLAI, B.A., Chairman, Municipal Council, Palni, to the Secretary to Government, Local and Municipal Department (through the Sub-Collector and Collector of Madura), dated 16th December 1896, No. 12.

I have the honour to submit herewith the budget estimate of the Palni Municipality for the year 1897–98 for the sanction of Government.

Revised Estimate for 1896–97.

Receipts.

2. The receipts amount to Rs. 17,220 against Rs. 13,330 anticipated in the original budget, the increase occurring mainly under taxes on houses, animals and carts, tolls, fishery rents and the opening balance.

3. The tax on houses was revised during the current year (1896–97) and the demand has risen from Rs. 3,580 to Rs. 3,740.

4. The increase under tolls and fishery rents is due to competition in the sales.

Charges.

5. The total charges amount to Rs. 15,970 against Rs. 12,540, the provision in the original budget, and the increase appears chiefly under Grants 1 and 5.

6. A sum of Rs. 3,150 was subsequently allotted to "New works—Buildings," Rs. 2,750 for an office building and Rs. 400 for the construction of two privies (*vide* G.Os., Mis. No. 1190 M., dated 15th July 1896, and Mis. No. 1514 M., dated 7th September 1896). The provision as supplemented consists of Rs. 3,000 for an office building, Rs. 1,000 for the acquisition of land for a market and Rs. 400 for the construction of two privies. Application has been made to the Collector to arrange for the acquisition of a market site, and the office building and privies are under construction. Owing to heavy rains the works are delayed. Every effort will be made to complete the works within the year and to utilise the whole allotment.

7. Under "Repairs—Buildings," the provision had, to be exceeded, as certain masonry dust-bins and the market shed where the butchers' stalls are kept had necessarily to be repaired.

8. The provision under "Cost of medicines" under "Hospitals" has been raised by Rs. 120, as a supply on extra indent during the last year had to be paid for in the current year, the excess being met from the savings in the provision under "Diet" and "Contingencies."

9. As cholera is prevalent here at present, certain medicines had to be got from Madras and temporary establishment entertained; hence the increased provision.

10. The other variations are explained in statement VI.

11. The year, as per revised estimate, closes with a balance of Rs. 1,250 against Rs. 790 expected in the original budget.

Budget Estimate for 1897–98.

Receipts.

12. *Tolls.*—Rs. 4,000 only is taken credit for under this head against Rs. 4,500, the revised estimate of 1896–97, as it is not certain that there will be keen competition in the bid.

13. *School Fee Collections.*—The Director of Public Instruction has proposed the opening of lower standards in the municipal salary-results school and hence the increase.

14. *Contribution from Government on account of Education.*—A sum of Rs. 90 is taken credit for, Rs. 50 being half the cost of gymnastic apparatus to be supplied and Rs. 40 being a third of the pay of a common gymnastic instructor.

Charges.

15. *Grant 1, New Works—Communications.*—A sum of Rs. 450 is provided for meeting the cost of constructing a tunnel at the junction of north and east car streets. The drainage water of the northern portion of the town which runs towards the north has to cross the road at that junction and as the old tunnel which exists there is small and useless, the water flows over the road and damages it; and a large tunnel is therefore considered necessary.

16. *Buildings.*—A provision of Rs. 1,150 is made under this head—Rs. 400 for the purpose of enclosing the market which will be acquired during the year and improving it, Rs. 500 for constructing a few huts for the use of hospital servants and Rs. 250 for the construction of a privy. The District Surgeon has in two successive reports impressed upon the council the necessity of providing wards for hospital servants within the hospital compound. The council also is of opinion that it will be of great use to the public if the hospital servants live there, because at present the people are afraid to stay in hospital as in-patients as it is far away from the town and in a lonely compound and besides the servants will be ready for help during the night time also. Without their assistance the apothecary alone may not be able to do anything in certain classes of cases. A small rent may be charged for such quarters. The necessity for adding to the number of latrines has already been pointed out by Government.

17. The provision under "Water-supply" is for the purpose of sinking a new well. Scarcity of water is much felt during the hot season and there are not many public wells in the town.

18. *Repairs—Communications.*—The provision of Rs. 1,000 consists of Rs. 750, cost of maintaining town roads, and Rs. 250, cost of repairing certain lanes. The town roads are all in good order and certain roads are also remetalled during the current year (1896–97). Some lanes were repaired during the current year and some more will be repaired during the budget year. It would be useless to spend too much of money on the repair of lanes before they are provided with proper drains, which should be done only after a scheme is prepared.

19. *Grant 2, Education.*—The figures of the educational authorities have been adopted. Provision is made for the opening of lower standards in the municipal salary-results school, as this was recommended as a step for furthering primary education in the town. The provision under results grant has been reduced by the educational authorities with reference to the actuals of the previous years. A common gymnastic instructor is also provided for, the provision under "Establishment" being the pay of a gymnastic instructor and that under "Contingencies" the cost of necessary apparatus.

20. *Grant 3, Hospitals and Dispensaries.*—The provision is almost the same as in previous years and as recommended by the District Surgeon, but with slight modifications. The hospital being at one end of the town, people find it inconvenient and difficult to go so far for the treatment of small diseases. The council is therefore of opinion that a small building be rented in the heart of the town and the apothecary

be made to dispense medicines there during the evening hours, the hospital servants also being made to work there in the evening. For this purpose it is necessary that a carriage allowance should be given to the apothecary, and so a provision of Rs. 120 is made under establishment. The provision under Contingencies also is increased to meet the rent of a building and other petty charges. The council is of opinion that this arrangement will be of real use to the public.

21. The provision under "Conservancy" is almost the same as in the previous year except that Rs. 160 is provided under "(*a*) (ii) Contingencies" for the purchase of two night-soil carts, the carts at present in use having become too old. The pay of the private scavenging peon is reduced to Rs. 5 as it is found useless to entrust collection work also to him. His pay was raised to Rs. 6 only on that account in the last budget.

22. *Grant 4.*—It is proposed to raise the pay of the slaughter-house cavalgar from Rs. 3–8–0 to Rs. 4 as it is found difficult at times to secure men for a low pay.

23. The provision under compensation of lands is for the purchase of sites for cattle and temporary markets which are held during festival occasions. It has been the custom hitherto to hold bazaars in the tank-bed and also to allow bandies there, but the practice is taken objection to by the District Surgeon and apothecary as the tank water is used for drinking purposes. Hence it is found necessary to provide other places for these markets. I have also sent in an application to the Collector for the alienation of certain porambokes, as the provision will not suffice for the purchase of sites necessary for all the purposes and as the limited funds of the municipality will not allow of a large outlay. One place is required for the cattle-market, another for a temporary market in the town, a third for the same in Adiwaram and a fourth for a bandy-stand in Adiwaram.

24. The provision under (9) (i) Other items is for the opening of a water-pandal during the hot season.

25. *Grant 5, Office Establishment.*—The office clerk has been doing his duty to my and to the council's complete satisfaction. He is a willing worker and manages the office in an able manner. He has had no increase to his pay for the last four years. It would be mere justice to him to increase his pay by Rs. 5 per mensem which the council is of opinion is very moderate considering the ability and tact with which he discharges his work.

26. As the bill collectors have been entrusted with the additional work of collecting private scavenging fees, their pay is increased by Rs. 2 each per mensem. This arrangement has been made as the peon who was deputed to collect the fees was found inefficient in discharging his duties. The bill collectors would be able to do this more easily from their status being higher than that of peons.

27. The provision under "Contingencies" is reduced as there will not be necessity for paying office-rent during the budget year.

28. The year closes with a balance of Rs. 500.

29. A proposition statement in form and copy of the resolution of the council approving of the budget are enclosed.

Forwarded.

2. Rs. 200 appears to be sufficient for the construction of a privy, whereas Rs. 250 has been allotted.

3. The proposal to rent a building in the heart of the town for use as a dispensary and to give the civil apothecary a carriage allowance appears to me to be quite unnecessary. I do not believe that any serious inconvenience or difficulty is experienced as the council supposes.

4. I think that the distribution of water during the hot season, which is recognized by natives to be a work of charity, should not be undertaken by the municipal council. I disapprove, therefore, of the proposed water-pandal.

5. If the proposed increase in the remuneration of the bill collectors is sanctioned, I venture to suggest that it should take the form of a bonus of Rs. 24, to be paid only if the uncollected balance at the end of the year is below a certain fixed percentage of the total demand. I have great faith in the salary-result system, and I think that it might be adopted with advantage, as a rule, in the case of those who cannot look forward to promotion as the reward of hard work well done and whose work is such that its results can be readily ascertained.

(Signed) R. F. GRIMLEY,
Ag. Sub-Collector.

21*st December* 1896.

N. Dis. No. 5724-Genl.

Forwarded.

2. I quite concur in the remarks of the Sub-Collector.

(Signed) J. TWIGG,
Collector.

MADURA,
24*th December* 1896.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 5th January 1897, No. 78.

With reference to the educational portion of the budget estimate of the Palni Municipality for 1897–98, I have the honour to report that the allotments made under the several heads are in accordance with the recommendations of this department and may be approved. The net expenditure to the council on account of education is Rs. 1,490 (Rs. 1,700—210), or a little over 14 per cent. of its estimated income from taxation and rents.

2. The opening of lower standards in the municipal salary-result school has been recommended by the inspecting officers as a first step in the direction of furthering the cause of education in the municipality, as desired by Government in paragraph 4 (2) of its review of the council's administration report for 1895–96. This, I hope, will have the desired effect.

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 8th January 1897, No. 3.

With reference to Grant 3 of the budget estimate of the Palni Municipality for the year 1897–98, I have the honour to offer the following remarks:—

(1) The huts proposed to be constructed for the hospital servants should be on the standard plan.

(2) The proposal of the municipality to have a building rented in the centre of the town and the apothecary to dispense medicines during the evening hours does not meet with my approval, as such visits must be at the expense of his duties at the hospital. If a separate dispensary is absolutely necessary in such a small town, it should be built on the standard plan and given an adequate establishment.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Camp, Malliala, 23rd January 1897, No. 223–S.

With reference to the budget estimate of the Palni Municipality for 1897–98, I have the honour to state that the provision made for the conduct of vaccination calls for no remark. That for conservancy is about 27 per cent. of the estimated current receipts and needs supplementing if the council is at all solicitous about giving effect to my suggestions on the current year's budget regarding staff and plant—*vide* my letter, No. 93–S., dated 15th January 1896, embodied in G.O., No. 190 M., dated 4th February 1896.

ORDER—No. 193 M., dated 10th February 1897.

The estimated receipts and charges of the Palni Municipality for 1897–98, as passed by Government, are compared below with the budget and revised estimates for the year 1896–97 and the actuals of 1895–96:—

REVISED ESTIMATE FOR 1896-97.

2. The current receipts and charges are now estimated at Rs. 13,440 and Rupees 15,970, respectively, against Rs. 12,010 and Rs. 12,540 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the tax on houses and animals and under tolls and fishery rents, and that in the charges under Grants 1 and 5. The collections under the tax on lands during the first eight months of the year were again not satisfactory. The contribution for the central office establishments will be raised from Rs. 60 to Rs. 81, or Rs. 80 in round figures, with reference to G.O., No. 2391 L., dated 17th December 1896. The balance to be carried forward to the ensuing year's budget will then be Rs. 1,230.

BUDGET ESTIMATE FOR 1897-98.

3. *Receipts.*—The receipts for the ensuing year are put down at Rs. 12,750 against the revised estimate of Rs. 13,440, the decrease being mainly under tolls and fishery rents.

4. *Charges.*—(1) The charges are placed at Rs. 13,500 against Rs. 15,970 in the revised estimate, the decrease appearing chiefly under Grant 1.

(2) *Grant 1.*—The allotment for communications is only Rs. 1,450, or 36·2 per cent. of the estimated income from tolls, but, in the present state of the municipal finances, this will be allowed to stand. The Government, however, cannot accept the Chairman's argument in paragraph 18 of his letter. The municipal council's attention will be drawn to paragraph 2 of the Sub-Collector's endorsement regarding the provision for a latrine and to clause (1) of the Surgeon-General's letter regarding the construction of huts for the hospital servants. The sum of Rs. 500 which has been provided for this purpose will, however, be struck out for want of funds.

(3) *Grant 2.*—The entertainment of two additional teachers on Rs. 8 and 5 for the salary-result school and a common gymnastic instructor on Rs. 10 is sanctioned, but reference should have been made to the former in the Chairman's letter.

(4) *Grant 3.*—The council's proposals to rent a building in the heart of the town for use as a dispensary and to give the apothecary a carriage allowance of Rs. 10 per mensem to enable him to attend there cannot be approved. Its attention will be drawn to the Surgeon-General's remarks on the subject in clause (2) of his letter. The provision for sundries and contingencies under hospitals and dispensaries will accordingly be reduced by Rs. 60. The proposed reduction of one rupee in the pay of the private scavenging peon is approved. A sum of Rs. 500 will be provided to meet possible charges connected with the bubonic plague. The attention of the municipal council will be drawn to the remarks of the Sanitary Commissioner in his letter read above.

(5) *Grants 4 and 5.*—In the present state of the council's finances, the proposed increases in the salaries of the slaughter-house kavalgar and the office clerk, and the entertainment of two watermen for a water-pandal, cannot be sanctioned. The council's proposal to increase the remuneration of the two bill collectors is approved; but, as pointed out by the Sub-Collector in paragraph 5 of his endorsement, it may take the form of a bonus. The contribution for the central office establishments will be raised from Rs. 60 to Rs. 144, or Rs. 140 in round figures, with reference to G.O., No. 2391 L., dated 17th December 1896.

5. The budget, as revised by Government, closes with a balance of Rs. 670, or 5·2 per cent. of the estimated receipts.

(True Extract.)

G. S. FORBES,
Secretary to Government.

To the Chairman, Municipal Council, Palni.
,, Collector of Madura.

Government {1897} of Madras.

LOCAL AND MUNICIPAL.

C.A.

Proof for approval.

Note for the Secretary. Under No. 27 of the rules in G.O. No. 1985 M. dt 18-11-96, a sum of Rs 680 must be provided for possible charges connected with the bubonic plague. The balance as it now stands is only Rs 670, and it is therefore proposed to strike out the provision of Rs 500 made for the construction of huts for the hospital servants and to enter that amount under Grant 3. as an epidemic reserve. Please let alterations be made in paras. 4(2) & 4 (4).

Municipal Budget.

Reviewing the Palni — for 1897-98.

18/2/97.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From M.R.Ry. G. S. PONNUSWAMI PILLAI, B.A., Chairman, Municipal Council, Palni, to the Secretary to Government, Local and Municipal Department (through the Sub-Collector and Collector of Madura), dated 16th December 1896, No. 12.

I have the honour to submit herewith the budget estimate of the Palni Municipality for the year 1897–98 for the sanction of Government.

Revised Estimate for 1896–97.

Receipts.

2. The receipts amount to Rs. 17,220 against Rs. 13,330 anticipated in the original budget, the increase occurring mainly under taxes on houses, animals and carts, tolls, fishery rents and the opening balance.

3. The tax on houses was revised during the current year (1896–97) and the demand has risen from Rs. 3,580 to Rs. 3,740.

4. The increase under tolls and fishery rents is due to competition in the sales.

Charges.

5. The total charges amount to Rs. 15,970 against Rs. 12,540, the provision in the original budget, and the increase appears chiefly under Grants 1 and 5.

6. A sum of Rs. 3,150 was subsequently allotted to "New works—Buildings," Rs. 2,750 for an office building and Rs. 400 for the construction of two privies (*vide* G.Os., Mis. No. 1190 M., dated 15th July 1896, and Mis. No. 1514 M., dated 7th September 1896). The provision as supplemented consists of Rs. 3,000 for an office building, Rs. 1,000 for the acquisition of land for a market and Rs. 400 for the construction of two privies. Application has been made to the Collector to arrange for the acquisition of a market site, and the office building and privies are under construction. Owing to heavy rains the works are delayed. Every effort will be made to complete the works within the year and to utilise the whole allotment.

7. Under "Repairs—Buildings," the provision had, to be exceeded, as certain masonry dust-bins and the market shed where the butchers' stalls are kept had necessarily to be repaired.

8. The provision under "Cost of medicines" under "Hospitals" has been raised by Rs. 120, as a supply on extra indent during the last year had to be paid for in the current year, the excess being met from the savings in the provision under "Diet" and "Contingencies."

9. As cholera is prevalent here at present, certain medicines had to be got from Madras and temporary establishment entertained; hence the increased provision.

10. The other variations are explained in statement VI.

11. The year, as per revised estimate, closes with a balance of Rs. 1,250 against Rs. 790 expected in the original budget.

Budget Estimate for 1897–98.

Receipts.

12. *Tolls.*—Rs. 4,000 only is taken credit for under this head against Rs. 4,500, the revised estimate of 1896–97, as it is not certain that there will be keen competition in the bid.

13. *School Fee Collections.*—The Director of Public Instruction has proposed the opening of lower standards in the municipal salary-results school and hence the increase.

14. *Contribution from Government on account of Education.*—A sum of Rs. 90 is taken credit for, Rs. 50 being half the cost of gymnastic apparatus to be supplied and Rs. 40 being a third of the pay of a common gymnastic instructor.

Charges.

15. *Grant 1, New Works—Communications.*—A sum of Rs. 450 is provided for meeting the cost of constructing a tunnel at the junction of north and east car streets. The drainage water of the northern portion of the town which runs towards the north has to cross the road at that junction and as the old tunnel which exists there is small and useless, the water flows over the road and damages it; and a large tunnel is therefore considered necessary.

16. *Buildings.*—A provision of Rs. 1,150 is made under this head—Rs. 400 for the purpose of enclosing the market which will be acquired during the year and improving it, Rs. 500 for constructing a few huts for the use of hospital servants and Rs. 250 for the construction of a privy. The District Surgeon has in two successive reports impressed upon the council the necessity of providing wards for hospital servants within the hospital compound. The council also is of opinion that it will be of great use to the public if the hospital servants live there, because at present the people are afraid to stay in hospital as in-patients as it is far away from the town and in a lonely compound and besides the servants will be ready for help during the night time also. Without their assistance the apothecary alone may not be able to do anything in certain classes of cases. A small rent may be charged for such quarters. The necessity for adding to the number of latrines has already been pointed out by Government.

17. The provision under "Water-supply" is for the purpose of sinking a new well. Scarcity of water is much felt during the hot season and there are not many public wells in the town.

18. *Repairs—Communications.*—The provision of Rs. 1,000 consists of Rs. 750, cost of maintaining town roads, and Rs. 250, cost of repairing certain lanes. The town roads are all in good order and certain roads are also remetalled during the current year (1896–97). Some lanes were repaired during the current year and some more will be repaired during the budget year. It would be useless to spend too much of money on the repair of lanes before they are provided with proper drains, which should be done only after a scheme is prepared.

19. *Grant 2, Education.*—The figures of the educational authorities have been adopted. Provision is made for the opening of lower standards in the municipal salary-results school, as this was recommended as a step for furthering primary education in the town. The provision under results grant has been reduced by the educational authorities with reference to the actuals of the previous years. A common gymnastic instructor is also provided for, the provision under "Establishment" being the pay of a gymnastic instructor and that under "Contingencies" the cost of necessary apparatus.

20. *Grant 3, Hospitals and Dispensaries.*—The provision is almost the same as in previous years and as recommended by the District Surgeon, but with slight modifications. The hospital being at one end of the town, people find it inconvenient and difficult to go so far for the treatment of small diseases. The council is therefore of opinion that a small building be rented in the heart of the town and the apothecary

be made to dispense medicines there during the evening hours, the hospital servants also being made to work there in the evening. For this purpose it is necessary that a carriage allowance should be given to the apothecary, and so a provision of Rs. 120 is made under establishment. The provision under Contingencies also is increased to meet the rent of a building and other petty charges. The council is of opinion that this arrangement will be of real use to the public.

21. The provision under "Conservancy" is almost the same as in the previous year except that Rs. 160 is provided under "(*a*) (ii) Contingencies" for the purchase of two night-soil carts, the carts at present in use having become too old. The pay of the private scavenging peon is reduced to Rs. 5 as it is found useless to entrust collection work also to him. His pay was raised to Rs. 6 only on that account in the last budget.

22. *Grant 4.*—It is proposed to raise the pay of the slaughter-house cavalgar from Rs. 3–8–0 to Rs. 4 as it is found difficult at times to secure men for a low pay.

23. The provision under compensation of lands is for the purchase of sites for cattle and temporary markets which are held during festival occasions. It has been the custom hitherto to hold bazaars in the tank-bed and also to allow bandies there, but the practice is taken objection to by the District Surgeon and apothecary as the tank water is used for drinking purposes. Hence it is found necessary to provide other places for these markets. I have also sent in an application to the Collector for the alienation of certain porambokes, as the provision will not suffice for the purchase of sites necessary for all the purposes and as the limited funds of the municipality will not allow of a large outlay. One place is required for the cattle-market, another for a temporary market in the town, a third for the same in Adiwaram and a fourth for a bandy-stand in Adiwaram.

24. The provision under (9) (i) Other items is for the opening of a water-pandal during the hot season.

25. *Grant 5, Office Establishment.*—The office clerk has been doing his duty to my and to the council's complete satisfaction. He is a willing worker and manages the office in an able manner. He has had no increase to his pay for the last four years. It would be mere justice to him to increase his pay by Rs. 5 per mensem which the council is of opinion is very moderate considering the ability and tact with which he discharges his work.

26. As the bill collectors have been entrusted with the additional work of collecting private scavenging fees, their pay is increased by Rs. 2 each per mensem. This arrangement has been made as the peon who was deputed to collect the fees was found inefficient in discharging his duties. The bill collectors would be able to do this more easily from their status being higher than that of peons.

27. The provision under "Contingencies" is reduced as there will not be necessity for paying office-rent during the budget year.

28. The year closes with a balance of Rs. 500.

29. A proposition statement in form and copy of the resolution of the council approving of the budget are enclosed.

Forwarded.

2. Rs. 200 appears to be sufficient for the construction of a privy, whereas Rs. 250 has been allotted.

3. The proposal to rent a building in the heart of the town for use as a dispensary and to give the civil apothecary a carriage allowance appears to me to be quite unnecessary. I do not believe that any serious inconvenience or difficulty is experienced as the council supposes.

4. I think that the distribution of water during the hot season, which is recognized by natives to be a work of charity, should not be undertaken by the municipal council. I disapprove, therefore, of the proposed water-pandal.

5. If the proposed increase in the remuneration of the bill collectors is sanctioned, I venture to suggest that it should take the form of a bonus of Rs. 24, to be paid only if the uncollected balance at the end of the year is below a certain fixed percentage of the total demand. I have great faith in the salary-result system, and I think that it might be adopted with advantage, as a rule, in the case of those who cannot look forward to promotion as the reward of hard work well done and whose work is such that its results can be readily ascertained.

MADURA,
24*th December* 1896.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 5th January 1897, No. 78.

With reference to the educational portion of the budget estimate of the Palni Municipality for 1897–98, I have the honour to report that the allotments made under the several heads are in accordance with the recommendations of this department and may be approved. The net expenditure to the council on account of education is Rs. 1,490 (Rs. 1,700—210), or a little over 14 per cent. of its estimated income from taxation and rents.

2. The opening of lower standards in the municipal salary-results school has been recommended by the inspecting officers as a first step in the direction of furthering the cause of education in the municipality, as desired by Government in paragraph 4 (2) of its review of the council's administration report for 1895–96. This, I hope, will have the desired effect.

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 8th January 1897, No. 3.

With reference to Grant 3 of the budget estimate of the Palni Municipality for the year 1897–98, I have the honour to offer the following remarks:—

(1) The huts proposed to be constructed for the hospital servants should be on the standard plan.

(2) The proposal of the municipality to have a building rented in the centre of the town and the apothecary to dispense medicines during the evening hours does not meet with my approval, as such visits must be at the expense of his duties at the hospital. If a separate dispensary is absolutely necessary in such a small town, it should be built on the standard plan and given an adequate establishment.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Camp, Malliala, 23rd January 1897, No. 223–S.

With reference to the budget estimate of the Palni Municipality for 1897–98, I have the honour to state that the provision made for the conduct of vaccination calls for no remark. That for conservancy is about 27 per cent. of the estimated current receipts and needs supplementing if the council is at all solicitous about giving effect to my suggestions on the current year's budget regarding staff and plant—*vide* my letter, No. 93–S., dated 15th January 1896, embodied in G.O., No. 190 M., dated 4th February 1896.

ORDER—No. 193 M., dated 10th February 1897.

The estimated receipts and charges of the Palni Municipality for 1897–98, as passed by Government, are compared below with the budget and revised estimates for the year 1896–97 and the actuals of 1895–96 :—

REVISED ESTIMATE FOR 1896–97.

2. The current receipts and charges are now estimated at Rs. 13,440 and Rupees 15,970, respectively, against Rs. 12,010 and Rs. 12,540 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the tax on houses and animals and under tolls and fishery rents, and that in the charges under Grants 1 and 5. The collections under the tax on lands during the first eight months of the year were again not satisfactory. The contribution for the central office establishments will be raised from Rs. 60 to Rs. 81, or Rs. 80 in round figures, with reference to G.O., No. 2391 L., dated 17th December 1896. The balance to be carried forward to the ensuing year's budget will then be Rs. 1,230.

BUDGET ESTIMATE FOR 1897–98.

3. *Receipts.*—The receipts for the ensuing year are put down at Rs. 12,750 against the revised estimate of Rs. 13,440, the decrease being mainly under tolls and fishery rents.

4. *Charges.*—(i) The charges are placed at Rs. 13,500 against Rs. 15,970 in the revised estimate, the decrease appearing chiefly under Grant 1.

(ii) *Grant 1.*—The allotment for communications is only Rs. 1,450, or 36·2 per cent. of the estimated income from tolls, but, in the present state of the municipal finances, this will be allowed to stand. The Government, however, cannot accept the Chairman's argument in paragraph 18 of his letter. The municipal council's attention will be drawn to paragraph 2 of the Sub-Collector's endorsement regarding the provision for a latrine and to clause (1) of the Surgeon-General's letter regarding the construction of huts for the hospital servants for which a sum of Rs. 500 has been provided for this purpose will however be struck out for want of funds.

(iii) *Grant 2.*—The entertainment of two additional teachers on Rs. 8 and 5 for the salary-result school and a common gymnastic instructor on Rs. 10 is sanctioned, but reference should have been made to the former in the Chairman's letter.

(iv) *Grant 3.*—The council's proposals to rent a building in the heart of the town for use as a dispensary and to give the apothecary a carriage allowance of Rs. 10 per mensem to enable him to attend there cannot be approved. Its attention will be drawn to the Surgeon-General's remarks on the subject in clause (2) of his letter. The provision for sundries and contingencies under hospitals and dispensaries will accordingly be reduced by Rs. 60. The proposed reduction of one rupee in the pay of the private scavenging peon is approved. The attention of the municipal council will be drawn to the remarks of the Sanitary Commissioner in his letter read above.

(v) *Grants 4 and 5.*—In the present state of the council's finances, the proposed increases in the salaries of the slaughter-house kavalgar and the office clerk, and the entertainment of two watermen for a water-pandal, cannot be sanctioned. The council's proposal to increase the remuneration of the two bill-collectors is approved; but, as pointed out by the Sub-Collector in paragraph 5 of his endorsement, it may take the form of a bonus. The contribution for the central office establishment will be raised from Rs. 60 to Rs. 144, or Rs. 140 in round figures, with reference to G.O., No. 2391 L., dated 17th December 1896.

5. The budget, as revised by Government, closes with a balance of Rs. 670, or 5·2 per cent. of the estimated receipts.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. G. S. PONNUSWAMI PILLAI, B.A., Chairman, Municipal Council, Palni, to the Secretary to Government, Local and Municipal Department (through the Sub-Collector and Collector of Madura), dated 16th December 1896, No. 12.

I have the honour to submit herewith the budget estimate of the Palni Municipality for the year 1897–98 for the sanction of Government.

REVISED ESTIMATE FOR 1896–97.

Receipts.

2. The receipts amount to Rs. 17,220 against Rs. 13,330 anticipated in the original budget, the increase occurring mainly under taxes on houses, animals and carts, tolls, fishery rents and the opening balance.

3. The tax on houses was revised during the current year (1896–97) and the demand has risen from Rs. 3,580 to Rs. 3,740.

4. The increase under tolls and fishery rents is due to competition in the sales.

Charges.

5. The total charges amount to Rs. 15,970 against Rs. 12,540, the provision in the original budget, and the increase appears chiefly under Grants 1 and 5.

6. A sum of Rs. 3,150 was subsequently allotted to "New works—Buildings," Rs. 2,750 for an office building and Rs. 400 for the construction of two privies (*vide* G.Os., Mis. No. 1190 M., dated 15th July 1896, and Mis. No. 1514 M., dated 7th September 1896). The provision as supplemented consists of Rs. 3,000 for an office building, Rs. 1,000 for the acquisition of land for a market and Rs. 400 for the construction of two privies. Application has been made to the Collector to arrange for the acquisition of a market site, and the office building and privies are under construction. Owing to heavy rains the works are delayed. Every effort will be made to complete the work within the year and to utilise the whole allotment.

7. Under "Repairs—Buildings," the provision had to be exceeded, as certain masonry dust-bins and the market shed where the butchers stalls are kept had necessarily to be repaired.

8. The provision under "Cost of medicines" under "Hospitals" has been raised by Rs. 120, as a supply on extra indent during the last year had to be paid for in the current year, the excess being met from the savings in the provision under "Diet" and "Contingencies."

9. As cholera is prevalent here at present, certain medicines had to be got from Madras and temporary establishment entertained; hence the increased provision.

10. The other variations are explained in statement VI.

11. The year, as per revised estimate, closes with a balance of Rs. 1,250 against Rs. 790 expected in the original budget.

BUDGET ESTIMATE FOR 1897–98.

Receipts.

12. *Tolls.*—Rs. 4,000 only is taken credit for under this head against Rs. 4,500, the revised estimate of 1896–97, as it is not certain that there will be keen competition in the bid.

13. *School Fee Collections.*—The Director of Public Instruction has proposed the opening of lower standards in the municipal salary-results school and hence the increase.

14. *Contribution from Government on account of Education.*—A sum of Rs. 90 is taken credit for, Rs. 50 being half the cost of gymnastic apparatus to be supplied and Rs. 40 being a third of the pay of a common gymnastic instructor.

Charges.

15. *Grant* 1, *New Works—Communications.*—A sum of Rs. 450 is provided for meeting the cost of constructing a tunnel at the junction of north and east car streets. The drainage water of the northern portion of the town which runs towards the north has to cross the road at that junction and as the old tunnel which exists there is small and useless, the water flows over the road and damages it; and a large tunnel is therefore considered necessary.

16. *Buildings.*—A provision of Rs. 1,150 is made under this head—Rs. 400 for the purpose of enclosing the market which will be acquired during the year and improving it, Rs. 500 for constructing a few huts for the use of hospital servants and Rs. 250 for the construction of a privy. The District Surgeon has in two successive reports impressed upon the council the necessity of providing wards for hospital servants within the hospital compound. The council also is of opinion that it will be of great use to the public if the hospital servants live there, because at present the people are afraid to stay in hospital as in-patients as it is far away from the town and in a lonely compound and besides the servants will be ready for help during the night time also. Without their assistance the apothecary alone may not be able to do anything in certain classes of cases. A small rent may be charged for such quarters. The necessity for adding to the number of latrines has already been pointed out by Government.

17. The provision under "Water-supply" is for the purpose of sinking a new well. Scarcity of water is much felt during the hot season and there are not many public wells in the town.

18. *Repairs—Communications.*—The provision of Rs. 1,000 consists of Rs. 750, cost of maintaining town roads, and Rs. 250, cost of repairing certain lanes. The town roads are all in good order and certain roads are also remetalled during the current year (1896–97). Some lanes were repaired during the current year and some more will be repaired during the budget year. It would be useless to spend too much of money on the repair of lanes before they are provided with proper drains, which should be done only after a scheme is prepared.

19. *Grant* 2, *Education.*—The figures of the educational authorities have been adopted. Provision is made for the opening of lower standards in the municipal salary-results school, as this was recommended as a step for furthering primary education in the town. The provision under results grant has been reduced by the educational authorities with reference to the actuals of the previous years. A common gymnastic instructor is also provided for, the provision under "Establishment" being the pay of a gymnastic instructor and that under "Contingencies" the cost of necessary apparatus.

20. *Grant* 3, *Hospitals and Dispensaries.*—The provision is almost the same as in previous years and as recommended by the District Surgeon, but with slight modifications. The hospital being at one end of the town, people find it inconvenient and difficult to go so far for the treatment of small diseases. The council is therefore of opinion that a small building be rented in the heart of the town and the apothecary

be made to dispense medicines there during the evening hours, the hospital servants also being made to work there in the evening. For this purpose it is necessary that a carriage allowance should be given to the apothecary, and so a provision of Rs. 120 is made under establishment. The provision under Contingencies also is increased to meet the rent of a building and other petty charges. The council is of opinion that this arrangement will be of real use to the public.

21. The provision under "Conservancy" is almost the same as in the previous year except that Rs. 160 is provided under "(*a*) (ii) Contingencies" for the purchase of two night-soil carts, the carts at present in use having become too old. The pay of the private scavenging peon is reduced to Rs. 5 as it is found useless to entrust collection work also to him. His pay was raised to Rs. 6 only on that account in the last budget.

22. *Grant* 4.—It is proposed to raise the pay of the slaughter-house cavalgar from Rs. 3-8-0 to Rs. 4 as it is found difficult at times to secure men for a low pay.

23. The provision under compensation of lands is for the purchase of sites for cattle and temporary markets which are held during festival occasions. It has been the custom hitherto to hold bazaars in the tank-bed and also to allow bandies there, but the practice is taken objection to by the District Surgeon and apothecary as the tank water is used for drinking purposes. Hence it is found necessary to provide other places for these markets. I have also sent in an application to the Collector for the alienation of certain porambokes, as the provision will not suffice for the purchase of sites necessary for all the purposes and as the limited funds of the municipality will not allow of a large outlay. One place is required for the cattle-market, another for a temporary market in the town, a third for the same in Adiwaram and a fourth for a bandy-stand in Adiwaram.

24. The provision under (9) (i) Other items is for the opening of a water-pandal during the hot season.

25. *Grant* 5, *Office Establishment.*—The office clerk has been doing his duty to my and to the council's complete satisfaction. He is a willing worker and manages the office in an able manner. He has had no increase to his pay for the last four years. It would be mere justice to him to increase his pay by Rs. 5 per mensem which the council is of opinion is very moderate considering the ability and tact with which he discharges his work.

26. As the bill collectors have been entrusted with the additional work of collecting private scavenging fees, their pay is increased by Rs. 2 each per mensem. This arrangement has been made as the peon who was deputed to collect the fees was found inefficient in discharging his duties. The bill collectors would be able to do this more easily from their status being higher than that of peons.

27. The provision under "Contingencies" is reduced as there will not be necessity for paying office rent during the budget year.

28. The year closes with a balance of Rs. 500.

29. A proposition statement in form and copy of the resolution of the council approving of the budget are enclosed.

Forwarded.

2. Rs. 200 appears to be sufficient for the construction of a privy, whereas Rs. 250 has been allotted.

3. The proposal to rent a building in the heart of the town for use as a dispensary and to give the civil apothecary a carriage allowance appears to me to be quite unnecessary. I do not believe that any serious inconvenience or difficulty is experienced as the council supposes.

4. I think that the distribution of water during the hot season, which is recognized by natives to be a work of charity, should not be undertaken by the municipal council. I disapprove, therefore, of the proposed water-pandal.

5. If the proposed increase in the remuneration of the bill collectors is sanctioned, I venture to suggest that it should take the form of a bonus of Rs. 24, to be paid only if the uncollected balance at the end of the year is below a certain fixed percentage of the total demand. I have great faith in the salary-result system, and I think that it might be adopted with advantage, as a rule, in the case of those who cannot look forward to promotion as the reward of hard work well done and whose work is such that its results can be readily ascertained.

12540

Revised Estimates for 1896-97.

2. The current receipts and charges are now estimated at Rs.13440 and Rs.15970 respectively against Rs.12010 and Rs.12340 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the taxes on houses & animals & sundry, tolls and fishery rents and that, in the charges, under Grants I and 5. The collections under the tax on lands during the first eight months of the year were again not satisfactory. The contribution for the Central office establishments will be raised from Rs.60 to Rs.81 or Rs.80 in round figures, with reference to G.O.No.2391 L dated 17th December 1896. The balance to be carried forward to the ensuing year's budget will then be Rs.1230.

Budget Estimate for 1897-98.

3. Receipts The receipts for the ensuing year are put down at Rs.12,750 against the revised estimate of Rs.13,440, the decrease being mainly under tolls and fishery rents. ~~The estimated income from private scavenging fees will be raised from Rs.610 to 650 so as to cover the cost of the service.~~

4. Charges (1) The charges are placed at Rs.13,500 against Rs.15,970 in the revised estimate, the decrease appearing chiefly under Grant 1.

4. (2) Grant 1 The allotment for communicationsis only Rs.1450 or 36.2 per cent of the estimated income from tolls, but in the present state of the municipal finances, this will be allowed to stand

stand. The Government, however, cannot ~~ac-~~ -cept the Chairman's argument in para. 18 of his letter. The Municipal Council's attention will be drawn to para. 2 of the Sub-Collector's endorsement regarding the provision for a latrine and to clause (1) of the Surgeon General's letter regarding the construction of huts for the hospital servants ~~for which a sum of Rs. 500 has been provided.~~ The sum of Rs 500 which has been provided for this purpose will however be struck out for want of funds.

(3) Grant 2 The entertainment of two additional teachers on Rs. 8 and Rs. 5 for the salary results school and a common gymnastic instructor on Rs. 10 is sanctioned, but reference should have been made to the former in the Chairman's letter.

(4) Grant 3 The Council's proposals to rent a building in the heart of the town for use as a dispensary and to give the apothecary a carriage allowance of Rs. 10 per mensem to enable him to attend ~~this~~ there cannot be approved. Its attention will be drawn to the Surgeon General's remarks on the subject in clause (2) of his letter. The provision for sundries and contingencies under Hospitals and Dispensaries will accordingly be reduced by Rs. 60. The proposed reduction of one Rupee in the pay of the private scavenging peon is approved, ~~subject to the remarks of the Sanitary Commissioner.~~

A sum of Rs 500 will be provided for unforeseen possible charges connected with the bubonic plague.

The attention of the Municipal Council will be drawn to the remarks of the Sanitary Commissioner in his letter read above.

(4) Grants 4 and 5. In the present state of the Council's finances, the proposed increases in the salaries of the slaughter house kavalgar and the office clerk, and the entertainment of two watermen for a water-pandal cannot be sanctioned. The Council's proposal to increase the remuneration of the two bill collectors is approved; but as pointed out by the Sub-Collector in para. 5 of his endorsement, it ~~should~~ may take the form of a bonus. The contribution for the Central office establishment will be raised from Rs. 60 to Rs. 144 or Rs. 140 in round figures, with reference to G.O. No. 2391 L dated 17th December 1896.

5. The budget as revised by Government closes with a balance of Rs. 710 or Rs. 670 or 5.6 per cent of the estimated receipts.

F.R. 23/11/97

To
The Chairman, M.C. Palni.
" Collector of Madura
" President District Board Madura.
" Accountant-General.
" Director of Public Instruction
" Surgeon-General.
" Sanitary Commissioner
" Sanitary Engineer
Sanitary Board.
Editors' Table.
