burial grounds till a more
spacious ground is acquired for
us to close the several other
smaller burial grounds in the Col
Down, which I consider are
equally objectionable on Sanitary
grounds although nothing
specially appears to have been
said of them as yet.

I have not been in a position
to be able to ascertain why my
predecessors has named only the
Municipally Mosque one of the
3 Mosques subounded by the
Manaparam burial ground in
the letter to Government in
October 1891 to identify, as is
obvious, the whole Manaparam
ground, as the objectionable Mosque
Mosque burial ground, and yet
in the statement he styles it
as Municipally in the Manaparam

Locality.

By the Order dated 11th Nov.
No. 1937 M. Mis: which remains
under suspension vide S.D. dated
25th May 1892 No. 905 has no
reference to the whole of the ground
surrounding the one large and
two small Mosques, the view of
the Sanitary Commissioner I am
inclined to think has not been
fully represented, as condemned
by that Officer. I may also
point out a legal difficulty the
Municipality may have to contend
with, when the Order is enforced
and has reference only to that
portion of the Municipally ground.
The portion of the Municipally
Mosque ground as you will be
on reference to the plan is
demarcated not as the

to place restriction on a small
portion of our general burial
ground which in the interim
has been strongly condemned
Sanitary grounds. There was
an order a Corps., at the time
the Order No. 1937 dated 4. Nov.
1891 remained in force, buried
in the Kumpipally ground and
when the question arose as to the
illegality of the action in using
the closed ground it was argued
that the interment was within the
Jamathpally boundary; and if
another case occurred it will
also be argued that it was within
the limits of the Rudia Chalampally
and you can see from this
no prosecution for the offence
will stand as advised by the
Collector in paras of his letter
embodied in D.O. dated 4. Nov. 95
No. 1829 M. for using a burial
ground closed in Sanitary
grounds.

Under these circumstances
I am of opinion that the whole
Manapuram burial ground which

surrounds

surrounds the 3 Mosques, and
is objectionable for Sanitary
reasons as a burial place,
should be ordered to be closed
at once. The ground is marked
by the red dotted line running
across the Jamathpally Mosque
to the red dotted line bordering the
Rudia Chalampally Mosque which
extends in length to 792 feet.
The red dotted line running
across the Jamathpally Mosque
shows that prior to the extension
of the Mosque in 1894 or 1895
thereabouts a masonry wall
existed showing the limit of the
Manapuram burial ground
place. The Pothanick and
should also be closed as
proposed.

The Dohannick and a Ca should also be closed as proposed.

I may be saying that the Majahim. my measuring the which the present Mosque stands of the evident ground to Mosque and to

this, the plan in other respects
is correct.

Chairman submits an Estimate for
erecting a Masjid, and another for

estimates the cost of acquiring the
land. The total cost of the new burial
ground is therefore Rs. 6500 in round numbers.
Chairman does not say how he proposes

submit, a mere waste of money to
acquire a burial ground for the Moslems of
the district until we know that they will use it.

They have already expressed their
disapproval of the site now proposed.
5. The Moslems have taken up an
attitude of passive resistance
which may perhaps be overcome
by skilful management. In
any case no pains should be spared
to arrive at an amicable settle-
ment. If we bungle the burial
ground question at Cannanore,
we shall have our difficulties
increased tenfold, when we come
to deal with burial ground in
other Moslem towns in the district,
the sanitary condition of which
is far worse.

6. If the Government approve
I will see what I can do in the
matter when I next go to Cannanore.
