SURGEON LIEUT.-COL. W. G. KING, M.B., C.M., D.P.H.,

SANITARY COMMISSIONER FOR MADRAS,

To

THE Secretary to Government
Local & Municipal Dept.

Enclosure.

SIR,

I have the honour to offer the following remarks on the Chingleput Municipal Budget for the 2nd half of 1896-97:-

- (1) A pupil vaccinator on Rs. 8 per mensem is proposed to be employed. In view of the possible introduction of compulsory vaccination in the town at no distant date, and of the intelligence and care requisite for the correct preparation and maintenance of the form prescribed in G.O. No. 1502 M dated 19th Oct 1894, I would advise that a 1st class vaccinator on Rs. 15 be entertained, the salary now offered by the Council being quite insufficient to enlist the services of those of men above described.

vaccination be made compulsory, it would suffice if the Municipality made arrangements with the District Board to effect its vaccination as hitherto on payment of "results" of successful cases.

(2) For Cussorancey, a sum of Rs 860, or about 14 per cent of the probable receipts is allotted, a proportion considerably below the average allowed in other municipalities. ^{They} Particulars of the establishment proposed to be employed have not been furnished. I cannot therefore say whether it is adequate.

For the proper working of the Municipality in this respect I consider that a staff consisting of a Sanitary Inspector, two buras, sweepers and 20 scavengers is essential, and that the plant for disposal should comprise not less than 3 night soil carts of 120 cubic feet each and 9 carts each of 27 cubic feet capacity. These should make 12 trips daily.

(3) No

(3) An extract from statement II has been forwarded, and in consequence I am unable to say whether the execution of any sanitary works is in prospect. For the requirements of the town population no less than 10 public latrines are required.

I have the honour to be,
Sir

Your Most Obedt Servant

W. M. S.

Surgeon Lt Col
Sanitary Commissioner
