FEBRUARY.

Municipal Budget.

Reviewing the Tinnevelly — for 1897–98.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From M.R.Ry. DALAVOY THEETHARAPPA MUDALIYAR Avargal, Chairman, Municipal Council, Tinnevelly, to the Secretary to Government, Local and Municipal Department (through the Revenue Divisional officer and Collector of Tinnevelly), dated 23rd December 1896, No. 393.

I have the honour to submit the budget estimates of the receipts and charges of Tinnevelly Municipality for the year 1897–98 together with revised estimate for the year 1896–97. The copy of the resolution of the councillors, dated 16th December 1896, passing the same, is enclosed.

Revised Estimate for 1896–97.

Receipts.

2. The total receipts for 1896–97, estimated at Rs. 26,030 in the budget estimate, have been raised in the revised estimate to Rs. 26,990. The increase occurs chiefly under tax on arts, tax on buildings, tax on vehicles, income from markets and slaughter-houses, license fees, fines under Municipal and other Acts and contributions from local boards. This increase is to some extent counterbalanced by decrease under tax on lands, sale-proceeds of night-soil and fees for private scavenging. Too high an estimate was made in the budget regarding the receipts under fees for private scavenging. The actuals under this item for 1895–96 are Rs. 750–12–6 as against the budget estimate of Rs. 1,500 for 1896–97. The system has not spread as rapidly as expected, the chief obstacle to its rapid spread being the inaccessibility from the rear of the backyards of many houses occupied by high-caste men. The feeling against the entry of Pallars, who alone are available as scavengers in the municipality, into the houses of high-caste men, is very strong. Prosecutions for keeping unclean backyards are, however, being largely resorted to and the system is spreading steadily though slowly. It is hoped by the close of the year the amount provided in the revised estimate will be fully realized. The councillors further contemplate the opening of lanes behind houses whose backyards are at present inaccessible from the rear. Efforts are also being made for the entertainment as scavengers of Oddars and Kuravars, whose entry into houses will not be seriously objected to. The several variations are explained in column 7 in Statement VI.

Charges.

3. The total charges shown in the revised estimate for 1896–97 are Rs. 29,570, against Rs. 29,250 provided in the budget estimate. There is a decrease of Rs. 740 in the expenditure under Grant 1. The construction of a building for the Panchama school cannot be undertaken this year, owing to the difficulty in securing a proper site. In paragraph 20 of last year's budget it was proposed to spend Rs. 1,000 on the construction of new drains. The council now consider that it is not advisable to spend a large sum of money on new drains as the introduction of a regular drainage scheme is in contemplation. Provision is, therefore, made only for the construction of a drain behind the Teppakulam street which is urgently wanted and which will not be affected by the introduction of a regular drainage system. Rs. 200 have been cut short from the provision made in the budget for the repairs of the drains already existing as the whole of the provision cannot be utilized within the year owing to the delay in

obtaining professional opinion as to the best way of improving them. The provision of Rs. 2,200 in the budget for the repair of communications has been raised to Rs. 2,500, as some of the roads damaged by the floods of December 1895 have to be put into order. Under Grant 3, an addition of Rs. 500 has been made under other charges for conservancy, road-cleaning, &c., on account of the increase in the rate at which bulls are now being hired. There is a large decrease of Rs. 770 under the provision for private scavenging establishment. The provision in the revised estimate, viz., Rs. 1,450, under this head is, however, in excess of the actuals of 1895–96, which amount only to Rs. 1,137–8–5. The decrease is due to the partial entertainment of the additional staff which was expected to be entertained. An additional sum of Rs. 450 has been provided for cholera charges with reference to G.O., No. 1536, dated 9th September 1896. The other variations, which are not very important, have been explained in column 7 in Statement VI. The revised estimate leaves a balance of Rs. 13,080 which forms the opening balance for 1897–98.

Budget Estimate for 1897–98.

Receipts.

4. For 1897–98 fees and taxes are proposed to be levied at the same rates as in the current year, except in the case of the fee for licensing carts and other vehicles without springs, which is proposed to be raised from Re. 1 to Re. 1–8–0 for every half-year, the maximum tax leviable being, under section 47 of Act IV of 1884, Rs. 2 per half-year.

5. The receipts, excluding the opening balance, are estimated at Rs. 27,970, against Rs. 26,990, the sum shown in the revised estimate for the current year. The increase is due to the following reasons:—

A sum of Rs. 200 over the revised estimate for the current year is expected to be realized in 1897–98 from tax on arts, as the professional tax register is proposed to be thoroughly revised. As the number of jutkas in the municipality has been increasing of late, an increase of Rs. 150 is expected in the receipts under tax on vehicles with springs. The proposed enhancement of the fee on carts and other vehicles without springs from Re. 1 to Re. 1–8–0 accounts for the increase by Rs. 400 under this head. Credit has been taken for a sum of Rs. 120, being the grant which is due from Government towards the construction of a Panchama school-house. Rs. 1,300 have been provided under fees for private scavenging, against Rs. 1,200 in the revised estimate; the system is likely to be more largely availed of. This accounts also for the increase of Rs. 30 in the estimate for the sale-proceeds of night-soil. Grass is proposed to be grown on the newly-acquired sewage farm. Rs. 100 are expected to be realized by the sale of the grass. The other items of receipts do not call for special remarks, the figures relating to them being the same, or very nearly the same, as those of the revised estimate for the current year.

Charges.

6. *Grant 1.*—A sum of Rs. 3,300, or nearly 71 per cent. of the estimated income from tolls, is provided under New Works and Repairs—Communications, as detailed in Statement II-A. A sum of Rs. 1,350 is provided under New Works—Buildings (1) for the construction of a school-house for Panchamas; (2) for the extension of the bridge over the Krishnaperi surplus channel at the entrance of the Kuravar street; (3) for the purchase of four corrugated-iron latrines. The bridge now in existence over the Krishnaperi surplus channel is too narrow to allow the surplus water of Krishnaperi to pass readily through it, in consequence of which the water overflows the channel and damages the main road running by its side and the buildings situated on its bank. The extension of the bridge has, therefore, been provided for. The suggestion of the District Medical and Sanitary Officer has been adopted in providing for the purchase of four new latrines. A sum of Rs. 750 is provided under repairs to buildings for repairing the markets and the dispensary building and some of the bathing ghâts. Rs. 200 have been provided for the construction of new drains wherever they may be absolutely necessary and Rs. 250 for the repair of the existing drains. The council has adopted the suggestion of Government in paragraph 4 (5) of G.O., No. 1342 M.,

dated 12th August 1896, and has provided a sum of Rs. 1,500 for sinking three wells in suitable localities within the limits of the municipality. Sites are being selected and plans and estimates will soon be forwarded to the Sanitary Board for approval. The sinking of the wells will, it is hoped, to some extent obviate the use of the polluted channel water for drinking purposes. A sum of Rs. 200 is provided as usual for repairs to existing wells. The council, agreeing with the Sanitary Commissioner in the remarks made by him in his last inspection report about the insufficiency and inefficiency of the present establishment to watch the sources of drinking-water supply, proposes to substitute for the two watchmen at present working four military pensioners on a salary of Rs. 6 each per mensem for guarding the channels and the Teppakulam from pollution; hence the increased provision of Rs. 170 under water-supply establishment.

As the present overseer of the municipality has to be on leave during next year for undergoing the required training in Madras, it is proposed to employ during the period of his leave a qualified man in his place, and a sum of Rs. 300 is provided for his salary under the head (3) Establishment.

7. *Grant 2.*—The proposals of the Director of Public Instruction have been fully adopted, except in regard to the increase of Rs. 20 proposed under "Inspection—(ii) Contingencies" for enhancing the carriage allowance of the inspecting schoolmaster. The increased provision of Rs. 90 under "Salary-results system—(*a*) Fixed payments" is due to the entertainment of an additional teacher on Rs. 7 per mensem and to the increase from Rs. 8 to Rs. 9 per mensem in the salary of the head master in the Panchama salary-result school.

8. *Grant 3.*—It is intended during 1897–98 to give effect to the proposal to add a Brahmin ward to the hospital by renting out the adjoining buildings. Hence the provision under this head of Rs. 80 over the revised estimate. The budget estimate for 1896–97 contained this provision, but as the buildings adjoining the hospital had been rented out to third parties for certain specified periods it was not found practicable to utilize the provision in the current year and the provision was consequently omitted in the revised estimate. The periods for which the buildings in question had been rented out terminate shortly and the buildings will then be secured for the use of the hospital. The council proposes to aid the Lady Dufferin's fund by offering a scholarship for the training of a female hospital assistant and wishes to offer the scholarship to a caste Hindu lady, if available, or, failing which, to a caste Native Christian lady; a sum of Rs. 180 has accordingly been provided in the budget for 1897–98. On the representation of the President, District Board, the council agreed, in its resolution, No. 2, dated 16th December 1896, to contribute a sum of Rs. 28 per annum towards the cost of the establishment of the District Medical and Sanitary Officer for services rendered to the municipality, and provision has accordingly been made. The council entirely concurs with the Sanitary Commissioner in the view that the offering of rewards to reporters of concealed cases of births and deaths would prove effectual in securing accurate registration, and proposes to reward the informers at the rate of one anna per case. Hence the provision of Rs. 20 under "Registration of births and deaths —Contingencies" in excess of the budget for the current year. The revised scale of sanitary establishment proposed by the council in its resolution, No. 11, dated 17th July 1896, on the lines suggested by the Sanitary Commissioner in his inspection notes for the year 1895 and approved of by Government in G.O., Mis. No. 1581 M., dated 16th September 1896, will be brought into force from the commencement of April 1897. It is further proposed, as suggested by the District Medical and Sanitary Officer, to entertain from the beginning of next year two additional sweepers and a peon for the night-soil depôt. These account for the increased provision made under the head of conservancy, &c., establishment. Details are given in Statement No. II-B. The proposal of the District Medical and Sanitary Officer to purchase two new sewage carts and a dozen dust-bins having been adopted, an excess of Rs. 300 is provided under "Conservancy, &c.—Other charges". A somewhat increased provision has been made under private scavenging establishment and contingencies with a view to meet the cost of entertaining additional hands and purchasing additional carts which might be necessitated by the increase in the number of houses served. A sum of Rs. 1,000 has been set apart for cholera charges with reference to G.Os., No. 1536 M., dated 9th September 1896, and Mis. No. 1943 M., dated 13th November 1896.

9. *Grant 4.*—The lighting charges incurred at present being very heavy and amounting nearly to 14 per cent. of the total receipts of the municipality, they have been cut short in the budget estimate for 1897–98 by a sum of Rs. 720. It is proposed to reduce the number of lights, dispense with two masalchies, and buy oil wholesale instead of retail.

A sewage farm has been acquired and grass is proposed to be grown on it with the aid of sewage water. Rs. 60 have, therefore, been provided for the entertainment of a gardener and Rs. 200 for purchase of seed and for other contingent expenses connected with the farm.

The question of acquiring a burial-ground for the use of Muhammadans and that of acquiring the land required for the extension of the bridge over the Krishnaperi surplus channel, referred to in paragraph 6 *supra*, are under correspondence. A suitable site outside the town for the construction of a cholera-shed will also be acquired in the course of next year. A sum of Rs. 700 has been therefore provided for payment of compensation for lands.

The other items of charges closely follow those in the revised estimate and do not call for any remarks.

10. If the figures proposed in the budget estimate be adopted, the year 1897–98 will close with a balance of Rs. 8,180.

11. A proposition statement for changes proposed in the establishment under several heads accompanies.

Cur. No. 2205.

Submitted to the Collector.

2. The budget was worked out by me and I have no remarks to offer.

3. The roads are in a tolerably good condition.

(Signed) T. RAGHAVIAH,
Hd.-qrs. Deputy Collector.

28*th December* 1896.

Cur. No. 2308-Gl.

Submitted.

2. *Revised Estimate for* 1896–97.—The increase in the principal taxes and in fines under Municipal and other Acts is satisfactory. The decrease under private scavenging system has been satisfactorily explained by the Chairman, and it is hoped that arrangements will be made for the opening of lanes and for the employment of Oddars or Kuravars as scavengers to facilitate the extension of the system.

3. *Budget Estimate for* 1897–98.—The proposal to raise the license fee for carts and other vehicles without springs from Re. 1 to Re. 1–8–0 for a half-year may be accepted.

4. The proposals detailed below are important and desirable:—

(1) To increase the allotment for road repairs by Rs. 600.
(2) To sink three fresh-water wells at a cost of Rs. 1,500.
(3) To appoint four men to watch the sources of drinking-water supply.
(4) To rent a building as a Brahmin ward for the hospital.
(5) To offer a scholarship for the training of a female hospital assistant.
(6) To increase the strength of the Sanitary staff to suit the requirements of the town as recommended by the Sanitary Commissioner in his last inspection notes.

Tinnevelly, (Signed) A. W. B. HIGGENS,
6*th January* 1897. *Collector.*

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 11th January 1897, No. 298.

With reference to the budget estimate of the Tinnevelly Municipality for 1897–98, I have the honour to state that the provision for education therein made is in general accordance with my recommendations and may be accepted. The net expenditure proposed under Grant 2 is about 15 per cent. of the estimated receipts from taxation and markets.

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 23rd January 1897, No. 27.

With reference to Grant 3 of the budget estimate of the Tinnevelly Municipality for the year 1897–98, I have the honour to state that the provision made for the addition of a Brahmin ward is gratifying.

2. I would suggest the advisability of providing a scholarship for the training of a female for the apothecary grade instead of the one now provided for the female hospital assistant grade. The services of the latter are not now required.

3. The other items call for no remarks.

ORDER—No. 205 M., dated 11th February 1897.

The estimated receipts and charges of the Tinnevelly Municipality for 1897–98, as passed by Government, are compared below with the budget and revised estimates for the year 1896–97 and the actuals of 1895–96 :—

—	Actuals, 1895–96.	Budget estimate, 1896–97.	Revised estimate, 1896–97.	Budget estimate, 1897–98.

2680

REVISED ESTIMATE FOR 1896–97.

2. The current receipts and charges are now estimated at Rs. 26,990 and Rupees 29,570, respectively, against Rs. 26,030 and Rs. 29,250 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the taxes on arts, buildings and vehicles with springs and under fines, while that in the charges, which appears mainly under Grant 4, is partly counterbalanced by a decrease under Grants 1 and 3. The contribution for the central office establishments will be raised from Rs. 150 to Rs. 193, or Rs. 190 in round figures, with reference to G.O., No. 2391 L., dated 17th December 1896. The balance to be carried forward to the ensuing year's budget will then be Rs. 13,040.

BUDGET ESTIMATE FOR 1897–98.

3. *Receipts.*—The receipts for the ensuing year are put down at Rs. 27,970, against the revised estimate of Rs. 26,990, the increase being chiefly under the taxes on arts, vehicles with springs and carts. From the note to Statement I, it appears that the taxes on buildings and lands are levied at different rates. This is objectionable and should be discontinued, a uniform rate of $7\frac{1}{2}$ per cent. being adopted in both cases. The proposal of the municipal council to levy the tax on carts at three-fourths instead of one-half of the maximum rate is sanctioned. The estimate under recoveries for services to private individuals will be raised from Rs. 1,460 to Rs. 1,650, so as to make the service more nearly self-supporting. It is not proper that the general taxpayer should have to meet the charges on account of a private service. If necessary, the scale of fees should be revised, and steps should at once be taken, as indicated in paragraph 2 of the Chairman's letter, to make the backyards accessible. No provision on this account appears to be entered under Grant 1. This should be explained.

4. *Charges.*—The probable charges are entered as Rs. 32,870, against Rs. 29,570 in the revised estimate,—the increase, which occurs chiefly under Grants 1 and 3, being partly counterbalanced by a decrease under Grant 4.

(1) *Grant 1.*—The entertainment of four tank watchmen on Rs. 6 each, in lieu of the existing two on Rs. 5 each, and a public works overseer on Rs. 25 in the place of the present man on Rs. 15, proposed in paragraph 6 of the Chairman's letter, is sanctioned.

(2) *Grant 2.*—The alterations in the educational establishments, proposed in paragraph 7, are sanctioned.

(3) *Grant 3.*—The circumstances under which it is proposed to contribute towards the cost of the District Medical and Sanitary Officer's establishment should be explained. Meanwhile the amount provided for this purpose will be allowed to stand. The council's attention will be drawn to paragraph 2 of the Surgeon-General's letter read above. The allotments for vaccination and sanitation will be passed subject to the remarks of the Sanitary Commissioner.

(4) *Grants 4 and 5.*—The proposals to dispense with the services of two lamplighters and to entertain a gardener on Rs. 5, referred to in paragraph 9 of the Chairman's letter, are sanctioned. The contribution for the central office establishments will be raised from Rs. 150 to Rs. 269, or Rs. 270 in round figures, with reference to G.O., No. 2391 L., dated 17th December 1896.

5. The budget, as revised by Government, closes with a balance of Rs. 8,210, or 29·2 per cent. of the estimated receipts. Of this sum, however, the greater portion will be required for the water-supply scheme now under investigation.

FEBRUARY.

Municipal Budget.

Reviewing the Tinnevelly — for 1897-98.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. DALAVOY THEETHARAPPA MUDALIYAR Avargal, Chairman, Municipal Council, Tinnevelly, to the Secretary to Government, Local and Municipal Department (through the Revenue Divisional officer and Collector of Tinnevelly), dated 23rd December 1896, No. 393.

I have the honour to submit the budget estimates of the receipts and charges of Tinnevelly Municipality for the year 1897–98 together with revised estimate for the year 1896–97. The copy of the resolution of the councillors, dated 16th December 1896, passing the same, is enclosed.

REVISED ESTIMATE FOR 1896–97.

Receipts.

2. The total receipts for 1896–97, estimated at Rs. 26,030 in the budget estimate, have been raised in the revised estimate to Rs. 26,990. The increase occurs chiefly under tax on arts, tax on buildings, tax on vehicles, income from markets and slaughter-houses, license fees, fines under Municipal and other Acts and contributions from local boards. This increase is to some extent counterbalanced by decrease under tax on lands, sale-proceeds of night-soil and fees for private scavenging. Too high an estimate was made in the budget regarding the receipts under fees for private scavenging. The actuals under this item for 1895–96 are Rs. 750–12–6 as against the budget estimate of Rs. 1,500 for 1896–97. The system has not spread as rapidly as expected, the chief obstacle to its rapid spread being the inaccessibility from the rear of the backyards of many houses occupied by high-caste men. The feeling against the entry of Pallars, who alone are available as scavengers in the municipality, into the houses of high-caste men, is very strong. Prosecutions for keeping unclean backyards are, however, being largely resorted to and the system is spreading steadily though slowly. It is hoped by the close of the year the amount provided in the revised estimate will be fully realized. The councillors further contemplate the opening of lanes behind houses whose backyards are at present inaccessible from the rear. Efforts are also being made for the entertainment as scavengers of Oddars and Kuravars, whose entry into houses will not be seriously objected to. The several variations are explained in column 7 in Statement VI.

Charges.

3. The total charges shown in the revised estimate for 1896–97 are Rs. 29,570, against Rs. 29,250 provided in the budget estimate. There is a decrease of Rs. 740 in the expenditure under Grant 1. The construction of a building for the Panchama school cannot be undertaken this year, owing to the difficulty in securing a proper site. In paragraph 20 of last year's budget it was proposed to spend Rs. 1,000 on the construction of new drains. The council now consider that it is not advisable to spend a large sum of money on new drains as the introduction of a regular drainage scheme is in contemplation. Provision is, therefore, made only for the construction of a drain behind the Teppakulam street which is urgently wanted and which will not be affected by the introduction of a regular drainage system. Rs. 200 have been cut short from the provision made in the budget for the repairs of the drains already existing as the whole of the provision cannot be utilized within the year owing to the delay in

obtaining professional opinion as to the best way of improving them. The provision of Rs. 2,200 in the budget for the repair of communications has been raised to Rs. 2,500, as some of the roads damaged by the floods of December 1895 have to be put into order. Under Grant 3, an addition of Rs. 500 has been made under other charges for conservancy, road-cleaning, &c., on account of the increase in the rate at which bulls are now being hired. There is a large decrease of Rs. 770 under the provision for private scavenging establishment. The provision in the revised estimate, viz., Rs. 1,450, under this head is, however, in excess of the actuals of 1895–96, which amount only to Rs. 1,137–8–5. The decrease is due to the partial entertainment of the additional staff which was expected to be entertained. An additional sum of Rs. 450 has been provided for cholera charges with reference to G.O., No. 1536, dated 9th September 1896. The other variations, which are not very important, have been explained in column 7 in Statement VI. The revised estimate leaves a balance of Rs. 13,080 which forms the opening balance for 1897–98.

BUDGET ESTIMATE FOR 1897–98.

Receipts.

4. For 1897–98 fees and taxes are proposed to be levied at the same rates as in the current year, except in the case of the fee for licensing carts and other vehicles without springs, which is proposed to be raised from Re. 1 to Re. 1–8–0 for every half-year, the maximum tax leviable being, under section 47 of Act IV of 1884, Rs. 2 per half-year.

5. The receipts, excluding the opening balance, are estimated at Rs. 27,970, against Rs. 26,990, the sum shown in the revised estimate for the current year. The increase is due to the following reasons:—

A sum of Rs. 200 over the revised estimate for the current year is expected to be realized in 1897–98 from tax on arts, as the professional tax register is proposed to be thoroughly revised. As the number of jutkas in the municipality has been increasing of late, an increase of Rs. 150 is expected in the receipts under tax on vehicles with springs. The proposed enhancement of the fee on carts and other vehicles without springs from Re. 1 to Re. 1–8–0 accounts for the increase by Rs. 400 under this head. Credit has been taken for a sum of Rs. 120, being the grant which is due from Government towards the construction of a Panchama school-house. Rs. 1,300 have been provided under fees for private scavenging, against Rs. 1,200 in the revised estimate; the system is likely to be more largely availed of. This accounts also for the increase of Rs. 30 in the estimate for the sale-proceeds of night-soil. Grass is proposed to be grown on the newly-acquired sewage farm. Rs. 100 are expected to be realized by the sale of the grass. The other items of receipts do not call for special remarks, the figures relating to them being the same, or very nearly the same, as those of the revised estimate for the current year.

Charges.

6. *Grant 1.*—A sum of Rs. 3,300, or nearly 71 per cent. of the estimated income from tolls, is provided under New Works and Repairs—Communications, as detailed in Statement II-A. A sum of Rs. 1,350 is provided under New Works—Buildings (1) for the construction of a school-house for Panchamas; (2) for the extension of the bridge over the Krishnaperi surplus channel at the entrance of the Kuravar street; (3) for the purchase of four corrugated-iron latrines. The bridge now in existence over the Krishnaperi surplus channel is too narrow to allow the surplus water of Krishnaperi to pass readily through it, in consequence of which the water overflows the channel and damages the main road running by its side and the buildings situated on its bank. The extension of the bridge has, therefore, been provided for. The suggestion of the District Medical and Sanitary Officer has been adopted in providing for the purchase of four new latrines. A sum of Rs. 750 is provided under repairs to buildings for repairing the markets and the dispensary building and some of the bathing ghâts. Rs. 200 have been provided for the construction of new drains wherever they may be absolutely necessary and Rs. 250 for the repair of the existing drains. The council has adopted the suggestion of Government in paragraph 4 (5) of G.O., No. 1342 M.,

dated 12th August 1896, and has provided a sum of Rs. 1,500 for sinking three wells in suitable localities within the limits of the municipality. Sites are being selected and plans and estimates will soon be forwarded to the Sanitary Board for approval. The sinking of the wells will, it is hoped, to some extent obviate the use of the polluted channel water for drinking purposes. A sum of Rs. 200 is provided as usual for repairs to existing wells. The council, agreeing with the Sanitary Commissioner in the remarks made by him in his last inspection report about the insufficiency and inefficiency of the present establishment to watch the sources of drinking-water supply, proposes to substitute for the two watchmen at present working four military pensioners on a salary of Rs. 6 each per mensem for guarding the channels and the Teppakulam from pollution; hence the increased provision of Rs. 170 under water-supply establishment.

As the present overseer of the municipality has to be on leave during next year for undergoing the required training in Madras, it is proposed to employ during the period of his leave a qualified man in his place, and a sum of Rs. 300 is provided for his salary under the head (3) Establishment.

7. *Grant 2.*—The proposals of the Director of Public Instruction have been fully adopted, except in regard to the increase of Rs. 20 proposed under "Inspection—(ii) Contingencies" for enhancing the carriage allowance of the inspecting schoolmaster. The increased provision of Rs. 90 under "Salary-results system—(*a*) Fixed payments" is due to the entertainment of an additional teacher on Rs. 7 per mensem and to the increase from Rs. 8 to Rs. 9 per mensem in the salary of the head master in the Panchama salary-result school.

8. *Grant 3.*—It is intended during 1897–98 to give effect to the proposal to add a Brahmin ward to the hospital by renting out the adjoining buildings. Hence the provision under this head of Rs. 80 over the revised estimate. The budget estimate for 1896–97 contained this provision, but as the buildings adjoining the hospital had been rented out to third parties for certain specified periods it was not found practicable to utilize the provision in the current year and the provision was consequently omitted in the revised estimate. The periods for which the buildings in question had been rented out terminate shortly and the buildings will then be secured for the use of the hospital. The council proposes to aid the Lady Dufferin's fund by offering a scholarship for the training of a female hospital assistant and wishes to offer the scholarship to a caste Hindu lady, if available, or, failing which, to a caste Native Christian lady; a sum of Rs. 180 has accordingly been provided in the budget for 1897–98. On the representation of the President, District Board, the council agreed, in its resolution, No. 2, dated 16th December 1896, to contribute a sum of Rs. 28 per annum towards the cost of the establishment of the District Medical and Sanitary Officer for services rendered to the municipality, and provision has accordingly been made. The council entirely concurs with the Sanitary Commissioner in the view that the offering of rewards to reporters of concealed cases of births and deaths would prove effectual in securing accurate registration, and proposes to reward the informers at the rate of one anna per case. Hence the provision of Rs. 20 under "Registration of births and deaths —Contingencies" in excess of the budget for the current year. The revised scale of sanitary establishment proposed by the council in its resolution, No. 11, dated 17th July 1896, on the lines suggested by the Sanitary Commissioner in his inspection notes for the year 1895 and approved of by Government in G.O., Mis. No. 1581 M., dated 16th September 1896, will be brought into force from the commencement of April 1897. It is further proposed, as suggested by the District Medical and Sanitary Officer, to entertain from the beginning of next year two additional sweepers and a peon for the night-soil depôt. These account for the increased provision made under the head of conservancy, &c., establishment. Details are given in Statement No. II-B. The proposal of the District Medical and Sanitary Officer to purchase two new sewage carts and a dozen dust-bins having been adopted, an excess of Rs. 300 is provided under "Conservancy, &c.—Other charges". A somewhat increased provision has been made under private scavenging establishment and contingencies with a view to meet the cost of entertaining additional hands and purchasing additional carts which might be necessitated by the increase in the number of houses served. A sum of Rs. 1,000 has been set apart for cholera charges with reference to G.Os., No. 1536 M., dated 9th September 1896, and Mis. No. 1943 M., dated 13th November 1896.

9. *Grant 4.*—The lighting charges incurred at present being very heavy and amounting nearly to 14 per cent. of the total receipts of the municipality, they have been cut short in the budget estimate for 1897–98 by a sum of Rs. 720. It is proposed to reduce the number of lights, dispense with two masalchies, and buy oil wholesale instead of retail.

A sewage farm has been acquired and grass is proposed to be grown on it with the aid of sewage water. Rs. 60 have, therefore, been provided for the entertainment of a gardener and Rs. 200 for purchase of seed and for other contingent expenses connected with the farm.

The question of acquiring a burial-ground for the use of Muhammadans and that of acquiring the land required for the extension of the bridge over the Krishnaperi surplus channel, referred to in paragraph 6 *supra*, are under correspondence. A suitable site outside the town for the construction of a cholera-shed will also be acquired in the course of next year. A sum of Rs. 700 has been therefore provided for payment of compensation for lands.

The other items of charges closely follow those in the revised estimate and do not call for any remarks.

10. If the figures proposed in the budget estimate be adopted, the year 1897–98 will close with a balance of Rs. 8,180.

11. A proposition statement for changes proposed in the establishment under several heads accompanies.

Cur. No. 2205.

Submitted to the Collector.

2. The budget was worked out by me and I have no remarks to offer.

3. The roads are in a tolerably good condition.

28*th December* 1896. (Signed) T. RAGHAVIAH,
Hd.-qrs. Deputy Collector.

Cur. No. 2308-G1.

Submitted.

2. *Revised Estimate for* 1896–97.—The increase in the principal taxes and in fines under Municipal and other Acts is satisfactory. The decrease under private scavenging system has been satisfactorily explained by the Chairman, and it is hoped that arrangements will be made for the opening of lanes and for the employment of Oddars or Kuravars as scavengers to facilitate the extension of the system.

3. *Budget Estimate for* 1897–98.—The proposal to raise the license fee for carts and other vehicles without springs from Re. 1 to Re. 1-8-0 for a half-year may be accepted.

4. The proposals detailed below are important and desirable:—

(1) To increase the allotment for road repairs by Rs. 600.
(2) To sink three fresh-water wells at a cost of Rs. 1,500.
(3) To appoint four men to watch the sources of drinking-water supply.
(4) To rent a building as a Brahmin ward for the hospital.
(5) To offer a scholarship for the training of a female hospital assistant.
(6) To increase the strength of the Sanitary staff to suit the requirements of the town as recommended by the Sanitary Commissioner in his last inspection notes.

Tinnevelly,
6*th January* 1897. (Signed) A. W. B. HIGGENS,
Collector.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 11th January 1897, No. 298.

With reference to the budget estimate of the Tinnevelly Municipality for 1897–98, I have the honour to state that the provision for education therein made is in general accordance with my recommendations and may be accepted. The net expenditure proposed under Grant 2 is about 15 per cent. of the estimated receipts from taxation and markets.

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 23rd January 1897, No. 27.

With reference to Grant 3 of the budget estimate of the Tinnevelly Municipality for the year 1897–98, I have the honour to state that the provision made for the addition of a Brahmin ward is gratifying.

2. I would suggest the advisability of providing a scholarship for the training of a female for the apothecary grade instead of the one now provided for the female hospital assistant grade. The services of the latter are not now required.

3. The other items call for no remarks.

ORDER—No. 205 M., dated 11th February 1897.

The estimated receipts and charges of the Tinnevelly Municipality for 1897–98, as passed by Government, are compared below with the budget and revised estimates for the ~~current~~ year and the actuals of 1895–96 :—

—	Actuals, 1895–96.	Budget estimate, 1896–97.	Revised estimate, 1896–97.	Budget estimate, 1897–98.

REVISED ESTIMATE FOR 1896–97.

2. The current receipts and charges are now estimated at Rs. 26,990 and Rupees 29,570, respectively, against Rs. 26,030 and Rs. 29,250 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the taxes on arts, buildings and vehicles with springs and under fines, while that in the charges, which appears mainly under Grant 4, is partly counterbalanced by a decrease under Grants 1 and 3. The contribution for the central office establishments will be raised from Rs. 150 to Rs. 193, or Rs. 190 in round figures, with reference to G.O., No. 2391 L., dated 17th December 1896. The balance to be carried forward to the ensuing year's budget will then be Rs. 13,040.

BUDGET ESTIMATE FOR 1897–98.

3. *Receipts.*—The receipts for the ensuing year are put down at Rs. 27,970, against the revised estimate of Rs. 26,990, the increase being chiefly under the taxes on arts, vehicles with springs and carts. From the note to Statement I, it appears that the taxes on buildings and lands are levied at different rates. This is objectionable and should be discontinued, a uniform rate of $7\frac{1}{2}$ per cent. being adopted in both cases. The proposal of the municipal council to levy the tax on carts at three-fourths instead of one-half of the maximum rate is sanctioned. The estimate under recoveries for services to private individuals will be raised from Rs. 1,460 to Rs. 1,650, so as to make the service more nearly self-supporting. It is not proper that the general taxpayer should have to meet the charges on account of a private service. If necessary, the scale of fees should be revised, and steps should at once be taken, as indicated in paragraph 2 of the Chairman's letter, to make the backyards accessible. No provision on this account appears to be entered under Grant 1. This should be explained.

4. *Charges.*—The probable charges are entered as Rs. 32,870, against Rs. 29,570 in the revised estimate,—the increase, which occurs chiefly under Grants 1 and 3, being partly counterbalanced by a decrease under Grant 4.

(1) (i) *Grant 1.*—The entertainment of four tank watchmen on Rs. 6 each, in lieu of the existing two on Rs. 5 each, and a public works overseer on Rs. 25 in the place of the present man on Rs. 15, proposed in paragraph 6 of the Chairman's letter, is sanctioned.

(2) (ii) *Grant 2.*—The alterations in the educational establishments proposed in paragraph 7, are sanctioned.

(3) (iii) *Grant 3.*—The circumstances under which it is proposed to contribute towards the cost of the District Medical and Sanitary Officer's establishment should be explained. Meanwhile the amount provided for this purpose will be allowed to stand. The council's attention will be drawn to paragraph 2 of the Surgeon-General's letter read above. The allotments for vaccination and sanitation will be passed subject to the remarks of the Sanitary Commissioner.

(4) (iv) *Grants 4 and 5.*—The proposals to dispense with the services of two lamplighters and to entertain a gardener on Rs. 5, referred to in paragraph 9 of the Chairman's letter, are sanctioned. The contribution for the central office establishments will be raised from Rs. 150 to Rs. 269, or Rs. 270 in round figures, with reference to G.O., No. 2391 L., dated 17th December 1896.

5. The budget, as revised by Government, closes with a balance of Rs. 8,210, or 29·2 per cent. of the estimated receipts. Of this sum, however, the greater portion will be required for the water-supply scheme now under investigation.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. DALAVOY THEETHARAPPA MUDALIYAR Avargal, Chairman, Municipal Council, Tinnevelly, to the Secretary to Government, Local and Municipal Department (through the Revenue Divisional officer and Collector of Tinnevelly), dated 23rd December 1896, No. 393.

I have the honour to submit the budget estimates of the receipts and charges of Tinnevelly Municipality for the year 1897–98 together with revised estimate for the year 1896–97. The copy of the resolution of the councillors, dated 16th December 1896, passing the same, is enclosed.

REVISED ESTIMATE FOR 1896–97.

Receipts.

2. The total receipts for 1896–97, estimated at Rs. 26,030 in the budget estimate, have been raised in the revised estimate to Rs. 26,990. The increase occurs chiefly under tax on arts, tax on buildings, tax on vehicles, income from markets and slaughter-houses, license fees, fines under Municipal and other Acts and contributions from local boards. This increase is to some extent counterbalanced by decrease under tax on lands, sale-proceeds of night-soil and fees for private scavenging. Too high an estimate was made in the budget regarding the receipts under fees for private scavenging. The actuals under this item for 1895–96 are Rs. 750–12–6 as against the budget estimate of Rs. 1,500 for 1896–97. The system has not spread as rapidly as expected, the chief obstacle to its rapid spread being the inaccessibility from the rear of the backyards of many houses occupied by high-caste men. The feeling against the entry of Pallars, who alone are available as scavengers in the municipality, into the houses of high-caste men, is very strong. Prosecutions for keeping unclean backyards are, however, being largely resorted to and the system is spreading steadily though slowly. It is hoped by the close of the year the amount provided in the revised estimate will be fully realized. The councillors further contemplate the opening of lanes behind houses whose backyards are at present inaccessible from the rear. Efforts are also being made for the entertainment as scavengers of Oddars and Kuravars, whose entry into houses will not be seriously objected to. The several variations are explained in column 7 in Statement VI.

Charges.

3. The total charges shown in the revised estimate for 1896–97 are Rs. 29,570, against Rs. 29,250 provided in the budget estimate. There is a decrease of Rs. 740 in the expenditure under Grant 1. The construction of a building for the Panchama school cannot be undertaken this year, owing to the difficulty in securing a proper site. In paragraph 20 of last year's budget it was proposed to spend Rs. 1,000 on the construction of new drains. The council now consider that it is not advisable to spend a large sum of money on new drains as the introduction of a regular drainage scheme is in contemplation. Provision is, therefore, made only for the construction of a drain behind the Teppakulam street which is urgently wanted and which will not be affected by the introduction of a regular drainage system. Rs. 200 have been cut short from the provision made in the budget for the repairs of the drains already existing as the whole of the provision cannot be utilized within the year owing to the delay in

obtaining professional opinion as to the best way of improving them. The provision of Rs. 2,200 in the budget for the repair of communications has been raised to Rs. 2,500, as some of the roads damaged by the floods of December 1895 have to be put into order. Under Grant 3, an addition of Rs. 500 has been made under other charges for conservancy, road-cleaning, &c., on account of the increase in the rate at which bulls are now being hired. There is a large decrease of Rs. 770 under the provision for private scavenging establishment. The provision in the revised estimate, viz., Rs. 1,450, under this head is, however, in excess of the actuals of 1895–96, which amount only to Rs. 1,137–8–5. The decrease is due to the partial entertainment of the additional staff which was expected to be entertained. An additional sum of Rs. 450 has been provided for cholera charges with reference to G.O., No. 1536, dated 9th September 1896. The other variations, which are not very important, have been explained in column 7 in Statement VI. The revised estimate leaves a balance of Rs. 13,080 which forms the opening balance for 1897–98.

BUDGET ESTIMATE FOR 1897–98.

Receipts.

4. For 1897–98 fees and taxes are proposed to be levied at the same rates as in the current year, except in the case of the fee for licensing carts and other vehicles without springs, which is proposed to be raised from Re. 1 to Re. 1–8–0 for every half-year, the maximum tax leviable being, under section 47 of Act IV of 1884, Rs. 2 per half-year.

5. The receipts, excluding the opening balance, are estimated at Rs. 27,970, against Rs. 26,990, the sum shown in the revised estimate for the current year. The increase is due to the following reasons:—

A sum of Rs. 200 over the revised estimate for the current year is expected to be realized in 1897–98 from tax on arts, as the professional tax register is proposed to be thoroughly revised. As the number of jutkas in the municipality has been increasing of late, an increase of Rs. 150 is expected in the receipts under tax on vehicles with springs. The proposed enhancement of the fee on carts and other vehicles without springs from Re. 1 to Re. 1–8–0 accounts for the increase by Rs. 400 under this head. Credit has been taken for a sum of Rs. 120, being the grant which is due from Government towards the construction of a Panchama school-house. Rs. 1,300 have been provided under fees for private scavenging, against Rs. 1,200 in the revised estimate; the system is likely to be more largely availed of. This accounts also for the increase of Rs. 30 in the estimate for the sale-proceeds of night-soil. Grass is proposed to be grown on the newly-acquired sewage farm. Rs. 100 are expected to be realized by the sale of the grass. The other items of receipts do not call for special remarks, the figures relating to them being the same, or very nearly the same, as those of the revised estimate for the current year.

Charges.

6. *Grant 1.*—A sum of Rs. 3,300, or nearly 71 per cent. of the estimated income from tolls, is provided under New Works and Repairs—Communications, as detailed in Statement II-A. A sum of Rs. 1,350 is provided under New Works—Buildings (1) for the construction of a school-house for Panchamas; (2) for the extension of the bridge over the Krishnaperi surplus channel at the entrance of the Kuravar street; (3) for the purchase of four corrugated-iron latrines. The bridge now in existence over the Krishnaperi surplus channel is too narrow to allow the surplus water of Krishnaperi to pass readily through it, in consequence of which the water overflows the channel and damages the main road running by its side and the buildings situated on its bank. The extension of the bridge has, therefore, been provided for. The suggestion of the District Medical and Sanitary Officer has been adopted in providing for the purchase of four new latrines. A sum of Rs. 750 is provided under repairs to buildings for repairing the markets and the dispensary building and some of the bathing ghâts. Rs. 200 have been provided for the construction of new drains wherever they may be absolutely necessary and Rs. 250 for the repair of the existing drains. The council has adopted the suggestion of Government in paragraph 4 (5) of G.O., No. 1342 M.,

dated 12th August 1896, and has provided a sum of Rs. 1,500 for sinking three wells in suitable localities within the limits of the municipality. Sites are being selected and plans and estimates will soon be forwarded to the Sanitary Board for approval. The sinking of the wells will, it is hoped, to some extent obviate the use of the polluted channel water for drinking purposes. A sum of Rs. 200 is provided as usual for repairs to existing wells. The council, agreeing with the Sanitary Commissioner in the remarks made by him in his last inspection report about the insufficiency and inefficiency of the present establishment to watch the sources of drinking water-supply, proposes to substitute for the two watchmen at present working four military pensioners on a salary of Rs. 6 each per mensem for guarding the channels and the Teppakulam from pollution; hence the increased provision of Rs. 170 under water-supply establishment.

As the present overseer of the municipality has to be on leave during next year for undergoing the required training in Madras, it is proposed to employ during the period of his leave a qualified man in his place, and a sum of Rs. 300 is provided for his salary under the head (3) Establishment.

7. *Grant 2.*—The proposals of the Director of Public Instruction have been fully adopted, except in regard to the increase of Rs. 20 proposed under "Inspection—(ii) Contingencies" for enhancing the carriage allowance of the inspecting schoolmaster. The increased provision of Rs. 90 under "Salary-results system—(*a*) Fixed payments" is due to the entertainment of an additional teacher on Rs. 7 per mensem and to the increase from Rs. 8 to Rs. 9 per mensem in the salary of the head master in the Panchama salary-result school.

8. *Grant 3.*—It is intended during 1897–98 to give effect to the proposal to add a Brahmin ward to the hospital by renting out the adjoining buildings. Hence the provision under this head of Rs. 80 over the revised estimate. The budget estimate for 1896–97 contained this provision, but as the buildings adjoining the hospital had been rented out to third parties for certain specified periods it was not found practicable to utilize the provision in the current year and the provision was consequently omitted in the revised estimate. The periods for which the buildings in question had been rented out terminate shortly and the buildings will then be secured for the use of the hospital. The council proposes to aid the Lady Dufferin's fund by offering a scholarship for the training of a female hospital assistant and wishes to offer the scholarship to a caste Hindu lady, if available, or, failing which, to a caste Native Christian lady; a sum of Rs. 180 has accordingly been provided in the budget for 1897–98. On the representation of the President, District Board, the council agreed, in its resolution, No. 2, dated 16th December 1896, to contribute a sum of Rs. 28 per annum towards the cost of the establishment of the District Medical and Sanitary Officer for services rendered to the municipality, and provision has accordingly been made. The council entirely concurs with the Sanitary Commissioner in the view that the offering of rewards to reporters of concealed cases of births and deaths would prove effectual in securing accurate registration, and proposes to reward the informers at the rate of one anna per case. Hence the provision of Rs. 20 under "Registration of births and deaths —Contingencies" in excess of the budget for the current year. The revised scale of sanitary establishment proposed by the council in its resolution, No. 11, dated 17th July 1896, on the lines suggested by the Sanitary Commissioner in his inspection notes for the year 1895 and approved of by Government in G.O., Mis. No. 1581 M., dated 16th September 1896, will be brought into force from the commencement of April 1897. It is further proposed, as suggested by the District Medical and Sanitary Officer, to entertain from the beginning of next year two additional sweepers and a peon for the night-soil depôt. These account for the increased provision made under the head of conservancy, &c., establishment. Details are given in Statement No. II-B. The proposal of the District Medical and Sanitary Officer to purchase two new sewage carts and a dozen dust-bins having been adopted, an excess of Rs. 300 is provided under "Conservancy, &c —Other charges". A somewhat increased provision has been made under private scavenging establishment and contingencies with a view to meet the cost of entertaining additional hands and purchasing additional carts which might be necessitated by the increase in the number of houses served. A sum of Rs. 1,000 has been set apart for cholera charges with reference to G.Os., No. 1536 M., dated 9th September 1896, and Mis. No. 1943 M., dated 13th November 1896.

9. *Grant 4.*—The lighting charges incurred at present being very heavy and amounting nearly to 14 per cent. of the total receipts of the municipality, they have been cut short in the budget estimate for 1897–98 by a sum of Rs. 720. It is proposed to reduce the number of lights, dispense with two masalchies, and buy oil wholesale instead of retail.

A sewage farm has been acquired and grass is proposed to be grown on it with the aid of sewage water. Rs. 60 have, therefore, been provided for the entertainment of a gardener and Rs. 200 for purchase of seed and for other contingent expenses connected with the farm.

The question of acquiring a burial-ground for the use of Muhammadans and that of acquiring the land required for the extension of the bridge over the Krishnaperi surplus channel, referred to in paragraph 6 *supra*, are under correspondence. A suitable site outside the town for the construction of a cholera-shed will also be acquired in the course of next year. A sum of Rs. 700 has been therefore provided for payment of compensation for lands.

The other items of charges closely follow those in the revised estimate and do not call for any remarks.

10. If the figures proposed in the budget estimate be adopted, the year 1897–98 will close with a balance of Rs. 8,180.

11. A proposition statement for changes proposed in the establishment under several heads accompanies.

—

Cur. No. 2205.

Submitted to the Collector.

2. The budget was worked out by me and I have no remarks to offer.

3. The roads are in a tolerably good condition.

(Signed) T. RAGHAVIAH,
Hd.-qrs. Deputy Collector.

28*th December* 1896.

—

Cur. No. 2308-Gl.

Submitted.

2. *Revised Estimate for* 1896–97.—The increase in the principal taxes and in fines under Municipal and other Acts is satisfactory. The decrease under private scavenging system has been satisfactorily explained by the Chairman, and it is hoped that arrangements will be made for the opening of lanes and for the employment of Oddars or Kuravars as scavengers to facilitate the extension of the system.

3. *Budget Estimate for* 1897–98.—The proposal to raise the license fee for carts and other vehicles without springs from Re. 1 to Re. 1–8–0 for a half-year may be accepted.

4. The proposals detailed below are important and desirable:—

(1) To increase the allotment for road repairs by Rs. 600.
(2) To sink three fresh-water wells at a cost of Rs. 1,500.
(3) To appoint four men to watch the sources of drinking-water supply.
(4) To rent a building as a Brahmin ward for the hospital.
(5) To offer a scholarship for the training of a female hospital assistant.
(6) To increase the strength of the Sanitary staff to suit the requirements of the town as recommended by the Sanitary Commissioner in his last inspection notes.

29,250 29,570 32,870

Revised Estimate for 1896-97.

2. The current receipts and charges are now estimated at Rs 26,990 and Rs 29,570 respectively against Rs 26,030 and Rs 29,250 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the taxes on arts, buildings and vehicles with Springs and fines, while that in the charges, which appears mainly under grant 4 is partly counter-balanced by a decrease under grants 1 and 3. The contribution for the central office establishments will be raised from Rs 150 to Rs 193 or Rs 190 in round figures, with reference to G.O. No 2391 L dated 17th December 1896. The balance to be carried forward to the ensuing year's budget will then be Rs 13,040.

Budget Estimate for 1897-98.

3. Receipts. The receipts for the ensuing year are put down at Rs 27,970 against the revised Estimate of Rs 26,990, the increase being chiefly under the taxes on arts, vehicles with Springs and Carts. From the note to Statement I

it appears that the taxes on buildings and lands are levied at different rates. This is objectionable and should be discontinued, a uniform rate of 7½ per cent being adopted in both cases. The proposal of the Municipal Council to levy the tax on carts at instead of one half. three-fourths of the maximum rate appears to be in accordance with the Chairman's letter is sanctioned. The estimate under receveries for services of private individuals will be raised from Rs 1460 to Rs 1650 so as to make the service more nearly self supporting. It is not proper that the general tax payer should have to meet the charges on account of private services. If necessary the scale of fees should be revised: and steps should at once be taken to an increased as proposed in para 2 of the Chairman's letter to make the bankers available. No provision on this account appears to be entered under the charges grant I. This should be explained.

4. Charges - The probable charges are entered as Rs 32,870 against Rs 29,570 in the revised Estimate, the increase which occurs chiefly under grants 1 and 3, being partly counterbalanced by a decrease under grant 4

(1) grant 1 - The entertainment of four tank watchmen on Rs 6 each each in lieu of the existing two on Rs 6 each and

Yes - it should be well. Every year provision is made for the construction of side walls. Please see last budget. Mag A

h in the place of the present man on Rs 15

h The circumstances under which it is proposed to contribute towards the cost of the District Med! and Sanitary officers Establ! proposed should be explained. Meanwhile the amount provided for this purpose will be allowed to stand.

The additions to the conservancy establ! proposed in para 8 of the Chairman's letter are sanctioned.

The Municipal Council's attention will be drawn to the remarks in this letter as above.

a public works overseer on Rs 25 proposed in para 6 of the Chairman's letter is sanctioned.

(2) para 2. The alterations in the educational Establishment proposed in para 7 are sanctioned.

(3) para 3. The Municipal Council's attention will be drawn to para 2 of the Surgeon General's letter read above. The allotments for vaccination and sanitation will be passed subject to the remarks of the Sanitary Commissioner

(4) para 4 & 5 - The proposals to dispense with the services of two lamplighters and to entertain a gardener on Rs 5 referred to in para 9 of the Chairman's letter are sanctioned. The Contributions for the central office Establishments will be raised from Rs 150 to Rs 269 or Rs 270 in round figures with reference to G.O. No 2391 dated 17th December 1896.

5. The budget as revised by Government closes with a balance of Rs ~~8380~~ 8260 or 29.8 per cent of the estimated receipts. Of this sum however the greater portion will be required for the water supply scheme now under investigation.
