READ—the following paper :—

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Camp, Gazulapalle, 11th February 1897, No. 366-S.

With reference to G.O., No. 85, Public, dated 29th January 1897, I have the honour to suggest the advisability of this office being informed simultaneously with Government by telegram as to the existence of plague. In September last, instructions were duly issued by me to District Sanitary Officers to wire to this office should any case come to their notice; but, in view of the Government order quoted, I fear that they will satisfy themselves by reporting to Government—unless Government be pleased to add this instruction.

The Surgeon-General is requested to arrange for the information regarding the bubonic plague required under G.O., No. 85, Public, dated 29th January 1897, being furnished to the Sanitary Commissioner also by wire.
