ORDER.

N^o 2233 N. mis. dy 13. 10. 97.

The rules framed by the municipal council in regard to headworks, damage and source of supply are unnecessary, as sections 150, 151, 152 and 155 of the Madras District Municipalities Act IV of 1884, as amended by Act III of 1897, of which the "rules" are mostly repetitions, confer on the municipal council ample power to deal adequately with these matters under the Act and Rules. Nor does it appear that a rule under the Act is required for setting apart a source of watersupply for drinking or other purposes under section 154 for the acceptance by the municipal council of charitable gifts of fountains.

And no rules requiring the sanction of the Council are required. It would however be an advantage if the provisions of these sections were printed & posted up in conspicuous places on or near the land or premises concerned.

the matter sh^d be dealt with by notification under the section. No rule is needed

ENCLOSURES. |

From

THE CHAIRMAN,
MUNICIPAL COUNCIL,

Kurnool.

To

The Secretary to Government
Local and Municipal Department,
with the Governor, Stonehouse Hill.
(Through the Collector of Kurnool)

SIR,

I have the honour to submit
herewith draft rules for the regulation
of the Water-supply and matters connected
therewith in regard to the Kurnool Water-
works, as adopted by the Council in
their resolutions Nos 1 and 10 dated 10th
April and 17th July 1897 for the sanction
of His Excellency the Governor in Council.

I have the honour to be

Sir,

Your most obedient Servant

Ucidambaram

Chairman

Source of supply.

Vide Sec: 154-155

Page 48 Act IV

This must not
be made by rule.
Vide Sec. 154

This is Comd by
Sec. 155 of the
act

This is Comd by
the Hon. Secy
in the manner
occuring in the
155.

The Municipal Council do hereby set apart for drinking purposes all that portion of the Canal lying between the Masa Maseed over bridge and the Canal lock, subject only to such exceptions as may be found necessary by the Officers of the Canal for the purposes for which the Canal was originally designed; viz irrigation and navigation. Whoever (including Canal Officials, boats crews or passengers) bathes, or in any other manner fouls the water, or commits any nuisance within the boundary of the Canal banks between the above points, shall be liable to a fine not exceeding Rs 20 for each offence. [No cattle nor other animal shall be allowed to enter, drink from or be washed on the banks between the above points the owner or owners whereof shall be

portion of the Head works, the town main or branches, fountains, stand pipes or other work connected with the water supply or without due authority opens or removes any lock, cock, valve surface box, or pipe, &c, belonging to or under control of the Municipal Council or unlawfully diverts, draws off, or takes water from any part of the water-works, shall be liable to a fine not exceeding Rs 20 and a further fine not exceeding Rs 10 for each day during which the offence is continued after notice in that behalf.

House service for domestic purposes.

1. On the application in Form A accompanied by a fee of Rupees three for preparing the estimate of the owner or occupier of any building, the Council will, if they approve of the application, submit an estimate of the cost of the work necessary, in the estimate and certificate

Sec: 147
Page 46 Act IV

(Form B) being signed, and the amount deposited, the Council will carry out the work fixing such size pipe as may be necessary, and supply water (free of cost) to such building for domestic purposes only, in such quantities as they may deem reasonable. Should the estimated amount prove insufficient (through any cause for which the Council is not itself responsible) the applicant shall be at once informed, and asked to deposit the deficiency. Should he decide not to do so any material laid will be taken up and its value (less any deterioration, and whatever expenses incurred in fixing or removing) returned to the applicant. Should he however, decide to pay the estimated balance required, he should do so at once when the work will be completed. Any unexpended balance of the estimated amount shall be returned to the applicant within

15 days of the completion of the work.

2. The Municipal Council may at any time, for sufficient reason, limit the amount of water whenever they consider it necessary.

3. The works necessary for such supply and all future repairs, estimations of such works shall be conducted by the Council only and the cost be defrayed by the owner or occupier. As regards the supply of taps for house-service for domestic purposes the taps ordinarily supplied will be Tyler's patent self-closing taps; but any person wishing to have a different kind of tap - should pay an additional water-tax of one rupee per annum for each tap. Spare ones will be kept by the Council so that they may be used for replacing any which may require repair. Information should be given to the water works overseer immediately any leak is noticed,

or the tap gets out of order.

A supply of water for domestic purposes shall not include a supply of water for ~~horses~~^{use} or for washing vehicles, where such horses or vehicles are kept for sale or hire, or to use in any trade, manufacture or business, or for fountains or swimming baths or for any ornamental or mechanical purposes, or for purposes of irrigation.

See 148

Page 47

Act IV.

4. The Chairman or any person authorized in that behalf by him, may enter upon any building or land and examine the condition of any pipes, works, and fittings, and ascertain if there be any waste or misuse of water supplied thereto by the Municipal Council.

5. If the Chairman or such other person at any such time is without reasonable cause refused admittance to such building or land for the purpose aforesaid,

or is prevented without reasonable cause from making such examinations, or if necessary to prevent waste of water pending repair the Chairman or such other person may stop the supply of water to such building or land.

6. The owner or occupier of any building or land in which water supplied is wasted or misused from negligence or other circumstances under the control of the said owner or occupier, or used for any purpose other than those specified, or in whose building or land the pipes, works, and fittings for the supply of water are found to be out of repair to such an extent as to cause waste of water, and who, having knowledge thereof, omits to give reasonable notice thereof to the water-works overseer or Chairman, shall be liable to a fine not exceeding Rs 20 for every such neglect. misuse

See 149 P. 47
Act IV

Vide Bye law
of Madras
Municipality
para 4 page 394,
Jones's Manual

breach or omission and shall also pay such costs of the prosecution as shall be awarded.

7. Each house to which water is allowed shall be supplied with a separate service pipe and stop cock. No two houses (whether the property of one owner or not) shall be supplied through the same service pipe.

8. Any person who desires to have his house disconnected shall give notice in writing to the Chairman. The pipes, taps &c will then be removed; and the Council shall then (after deducting the cost of removal and incidental expenses) pay such person the value of the materials according to their value after examination. The Council shall be the sole judge of their value, and no claim for improper valuations, shall be valid.

Supply for other than Domestic purpose

1. Until it is known what are the

an ancestor's or other name. The donor may submit a design and specification for approval, or the maximum limit may be fixed and general wishes expressed as to style. If this be accepted by the Council, and the amount deposited a plan and specification in accordance with the donor's wish will be prepared and on the amount being deposited the work proceeded with. Any unexpended balance will be returned to the donor.

The cost shall include all charges for structure, pipes, fittings &c, and fixing the same and for preparing the specification, design and estimate, and for supervision. The rules as to errors in estimate for domestic supply shall also relate to gifts.

Before the work is commenced a properly drawn up deed of gift shall be executed, giving the structure unconditionally to the Council. The Council will give the water free, and maintain the same

same only so long as may consider it to be in the public interest to do so, they do not guarantee the perpetuity of the structure should events arise to prove it undesirable.

2. As a gift bearing an inscription, in a public thorough-fare should have some *aesthetic* appearance, the Council do not consider that a less sum than Rs 25 (and more is desirable) should be deposited for any gift, but in specially poor, out of the way localities, the Council will consider a lower offer. They also deprecate the specification for a large number of lamps on a structure as by the cost of maintenance of lighting them the gift may prove other than a boon.

J. Chidambaram
Chairman

Form A

To,

The Chairman,

Municipal Council,
Kurnool.

Sir,

I, the owner of the undernoted
occupier

building, hereby request that you
will arrange to supply me with
water for domestic purposes in house

N^o in Street. I am

prepared to pay for the cost of the
pipes required for the introduction
of supply, and I herewith send Rs 3/-
as a fee for the preparation of the
estimate. I also agree not to use
water in excess of the quantity
allowed by the Council under Section
147 (1) viz. gallons per head and
further, if I require or use water
in addition thereto, to pay for such
water at such rate as may be
fixed by the Municipal Council; and
water free

should there happen to be any
deficiency in the supply of water
to the public fountains or hydrants
at any time, or for any other reasons,
you may shut out the water for
such time as you may deem expe-
dient.
