Abstract

Municipal Limits.

Approving the proposed alterations in the limits of the Karúr Municipality and ordering the publication of the necessary notification in the Fort St. George and the Coimbatore District Gazettes.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From M.R.Ry. V. SUBBA RAO Avargal, B.A., Chairman, Municipal Council, Karúr, to the Secretary to Government, Local and Municipal Department (through the Revenue officer of the division, Coimbatore), dated 6th July 1897, No. 8.

I have the honour to submit herewith a copy of the resolution of the municipal council, dated 6th May 1897, proposing the extension of the municipal limits and requesting that Government may be addressed for sanction.

2. The present limits are defined in G.O., No. 143, dated 5th February 1889, according to which the railway line forms the northern boundary. Close to the railway station compound on the Vangal road, within a few yards of it, is a small village known as Balambapuram Pallatheru, which is rising in importance. There are about fifty houses belonging to Pallars and twenty houses belonging to Muhammadans. The place is in a very insanitary condition and is dangerous to the health of the town when epidemics break out. For all practical purposes it is a part of the town and affords people, who wish to evade payment of municipal taxes and carry on a trade requiring license, a facility to do so without any municipal control or supervision. Five meat shops have been opened in this place, and the market in the town, which the council has been maintaining at some cost, is vacated. Animals are slaughtered without examinations and all the supply of meat for the town is now obtained from them. The council is powerless to interfere. It is absolutely necessary to bring the village within municipal limits, and in doing so a few fields adjoining it have also to be added, and opportunity is taken to extend the northern boundary so as to include the new burial-ground and the proposed ground for cremation.

3. Towards the west, the construction of the new taluk cutcherry has resulted in an extension and a number of houses have already been built. The nanja lands lying to the west of the Brahmatheertham road, where there are at present two houses, are also proposed to be added, so that the western limit may be in a line with the Prathakshanam road.

4. The financial result of the proposed extensions will be an increase of Rs. 50 under house-tax, Rs. 40 under tax on carts, and Rs. 60 under tax on lands, making a total of Rs. 150. The charges that will have to be incurred are—for the repairing of the roads Rs. 40, for a sweeper at Rs. 5 a month Rs. 60, for a lantern and minor expenses Rs. 40.

5. The accompanying plan denotes the present boundaries in green and the proposed extensions in red lines.

6. The limits as revised will be as follows:—

East and South.—The western bank of the Puliyúr channel from the point where it touches field No. 1204 of Senappiratti to the northern side of the railway bridge, and thence the northern side of the railway line as far as the eastern bank of the Senappiratti channel. Thence following the eastern bank of the Senappiratti channel to the line forming the western boundary of field No. 956 in Tirumanilaiyur village.

West.—A line drawn from the above field across the river Amarávati to the south-eastern corner of field No. 895 of Karúr village and running along the southern and western boundary of that field and the western boundaries of fields, Nos. 1011, 949, 901, 851, 722, 720, 719, to the north-west corner of field No. 756, thence along the northern boundary of field No. 756 as far as its intersection with field No. 536, and thence due north across the Coimbatore road to the point where the Prathakshanam road meets the Coimbatore road. Thence, following and including the Prathakshanam road, to the south-west corner of field No. 507, and thence a line running along the western boundary of field No. 507 the southern and western boundaries of field No. 509, and the western boundary of fields Nos. 510, 511, 505, 502, and passing along the northern boundaries of Nos. 502, 503, 504 and 744 to the Pogalúr road, and thence following and including the said road up to the northern side of the railway line.

North.—The railway line from the above point to the crossing near the Hannumantharayan agraharam, and thence a line passing straight along the fence forming the western boundary of the railway station compound, and from the north-west corner of the said compound along the northern limits of fields Nos. 196, 198, 199 and 200 to the point where the northern boundary of field No. 200 meets the western boundary of field No. 159, and thence following the western boundary of field No. 159 to the northern side of the odai or water-course which it follows up to the north-east corner of field No. 268, thence following the boundary of that field up to the north-west corner of field No. 267, thence following the northern boundary of that field and crossing the Vangal road to the north-west corner of field No. 300 in Balambapuram village, the northern boundary of which it follows as far as the Amarávati river, from which point it crosses the river in a straight line up to the Puliyúr channel at its point of intersection with field No. 1204 in Senappiratti.

6. *Read*—Memorandum by the Chairman, dated 3rd May 1897, proposing the extension of the municipal limits towards the west and the north.

Resolution.—The extension towards the west as proposed and the inclusion of Balambapuram Pallars' street as per plan with the boundary line passing from behind the North Agraharam Hannumantharayan street up to the new burial ground and field No. 300 in Karúr, will be applied for. Three members out of seven dissent to the western extension, as it consists entirely of nanja lands.

Submitted.

2. I have revised the boundary description given by the Chairman so as to make it more accurate than as given by him.

3. The extension on the north of the railway line is most necessary. I have inspected it myself and discussed it with the Chairman.

4. The extension on the west is also in my opinion necessary.

Order—No. 1693 M., dated 30th July 1897.

The proposals made by the municipal council are approved, and the following notification will be published in the Fort St. George and the Coimbatore District Gazettes:—

NOTIFICATION.

Under the provisions of sub-section (1) of section 4-A of the Madras District Municipalities Act IV of 1884, as amended by Act III of 1897, His Excellency the Governor in Council hereby declares his intention to alter the limits of the Karúr Municipality as shown below. Any person objecting to the proposed alterations may submit his objection, in writing, to the Government within six weeks from the publication of this notification.

Proposed Boundaries of the Karur Municipality.

East and South.—The western bank of the Puliyúr channel from the point where it touches field No. 1204 of Senappiratti to the northern side of the railway bridge, and thence the northern side of the railway line as far as the eastern bank of the Senappiratti channel. Thence following the eastern bank of the Senappiratti channel to the line forming the western boundary of field No. 956 in Tirumanilaiyur village.

West.—A line drawn from the above field across the river Amarávati to the south-eastern corner of field No. 895 of Karúr village and running along the southern and western boundary of that field and the western boundaries of fields, Nos. 1011, 949, 901, 851, 722, 720, 719, to the north-west corner of field No. 756, thence along the northern boundary of field No. 756 as far as its intersection with field No. 536, and thence due north across the Coimbatore road to the point where the Prathakshanam road meets the Coimbatore road. Thence, following and including the Prathakshanam road, to the south-west corner of field No. 507, and thence a line running along the western boundary of field No. 507, the southern and western boundaries of field No. 509 and the western boundary of fields Nos. 510, 511, 505, 502 and passing along the northern boundaries of Nos. 502, 503, 504 and 744 to the Pogalúr road, and thence following and including the said road up to the northern side of the railway line.

North.—The railway line from the above point to the crossing near the Hannumantharayan agraharam and thence a line passing straight along the fence forming the western boundary of the railway station compound and from the north-west corner of the said compound along the northern limits of fields Nos. 196, 198, 199 and 200 to the point where the northern boundary of field No. 200 meets the western boundary of field No. 159, and thence following the western boundary of field No. 159 to the northern side of the odai or water-course which it follows up to the north-east corner of field No. 268, thence following the boundary of that field up to the north-west corner of field No. 267, thence following the northern boundary of that field and crossing the Vangal road to the north-west corner of field No. 300 in Balambapuram village, the northern boundary of which it follows as far as the Amarávati river, from which point it crosses the river in a straight line up to the Puliyúr channel at its point of intersection with field No. 1204 in Senappiratti.

From Off. Jt. Sec. P.W.D.

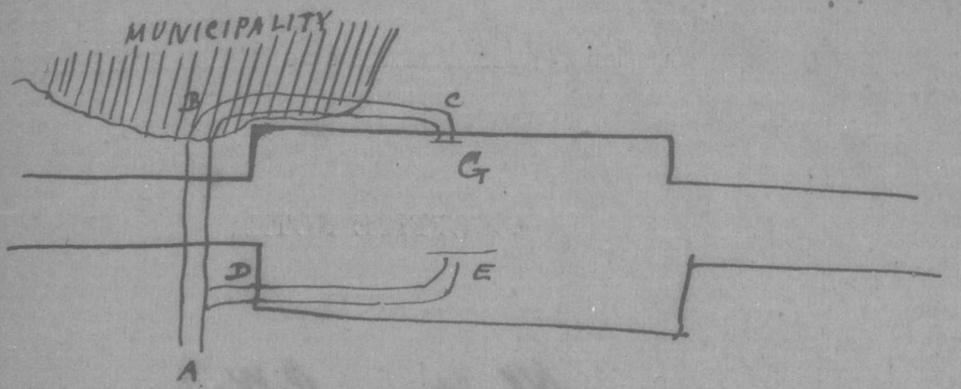
To To ~~Off~~. Sec. Local & Municipal Dept.

I see that in G.O. 1693.M. 30th July 97 it is proposed to alter a municipal boundary, and I see that the railway is mentioned in the boundary. Would it not be as well in such cases if this Dept were consulted?

I have not my notes by me at this moment but I think that this may have to do with a matter which came before me on inspection in which a Municipality wanted to alter their boundary simply to get toll out of a railway fuel contractor's carts which at present make no use at all of their roads.

I have wired the Agent. S.I.R. to notice the Gazette notificat if he has any grounds for objecting.

The case I saw on inspection was like this.



The carts of the fuel contractor going from A to C had to pay toll, which seemed likely to run to a large number of thousand rupees, at B. But the Railway, his customers, let him in through a gate at D. and he delivered the fuel to them at E. quite as convenient a place as as G used to be.

The Municipality Vakeel met the inspection party, and threatened to induce Govt. on some pretext or other to alter his boundary so as to include the gate D. unless that gate were closed and the carts sent round via B.! It is quite possible that the Collector might not see the motive, and also that there may have been some insanitary huts, to give a false motive, at or near D.

I cannot at the moment recollect, but I think Karur was the place.

The petrs. state as follows:-

The petrs. learn that the govt. intends to extend the limits of the Karur municipality. The extension of the western limit will not add to the Municipality any more houses but will only make certain wet lands liable to be taxed by the Municipality. These lands are of an inferior sort and the crops they yield are not enough even to meet the govt. assessment. It will therefore be impossible for the owners of the fields to pay both the govt. assessment and the Municipal tax. The only alternative open to them would be to relinquish the lands. A reference to the Revenue authorities will make these facts clear. An extension of the northern boundary will not only make certain wet lands liable to Municipal taxation but will also add to the Municipality about 40 huts of coolies and 10 of poor mussalmans. Under the Municipal Act these cottages could not be taxed and the cost of lighting this locality and other Sanitary expenses in connection with it will have to be borne by the inhabitants of Karur who are already unable to pay

their

2

their legitimate taxes imposed by the Municipality. Under the circumstances the petrs. believe that the govt. will not sanction the proposed extension. The Municipal Council has started the scheme only with the hope of receiving an additional income from the wet lands above alluded to. This will be apparent if any European Officer inspects the locality. The petrs. therefore pray that the proposal to extend the limits of the Karur Municipality may not be given effect to.

Right Honorable Sir,

We the undersigned ryots of Balambhapuram Karur and Lakshiminarayana Samudram Villages Karur Taluk, Coimbatore district most humbly beg to bring the following to ~~your honours~~ His Excellency's kind notice and for favourable orders.

1. We are given to understand that the municipal authorities have extended the municipal limits of Karur to a distance of 2 furlongs to the West and north. By this extension the Villages of Balambhapuram and Lakshiminarayana Samudram are included within the limits with lands situated therein.

2. The municipal authorities have done this with a view to include the houses of Balambhapuram which are occupied by poor Pallars and mohammadans of scanty means and the lands of Lakshiminarayana Samudram for taxation.

3. The above Balambhapuram contains only 40 hou... of

April ... 21st

pallars, and 10 houses of Mohamadans. They are very poor, and are living from hand to mouth solely depending upon their daily wages, and huts occupied by them cannot yield an annual rent of even annas 12. But in the Lakshiminarayanasamudram there are no houses worthy of taxation but the Nanja lands alone are to be taxed by the above authorities in addition to the Kist. For the above reasons the Municipality will have to bear much additional expenses meeting the funds obtained in Karur Town for the repairs of road and for the construction of lanterns and such like for the benefit of the public in the extended portion.

4. If the proposition regarding the limit extension that has been placed before the view of our Kind Government is carried out, most of the Nanja lands that are now situate without the Municipal limit will have to be further assessed by the Municipal authorities as being situate within the limit in addition to the paying of Government Kist. Thus we beg to take the liberty to expound that it would be unjust to put the poor Karur ryots into much inconvenience by making them pay the double assessments, one of the Municipality and the other of the Government.

5. The object of extending the Municipal limit as above stated, would be to sacrifice the convenience of the Ka ryots for the sake of that of Balambaparam and Lakshiminarayanasamudram in as much as the amount that will be collected from the said villages will be far inferior to that which will have to be spent for the public convenience there.

6 Further we beg to say that the Municipal authorities have already so highly rated the house taxes &c since last year, that we poor ryots are not even able to afford to remit the same to the said authorities conveniently.

For the above reasons we finally beg to pray that His Excellency ~~[illegible]~~ will be graciously pleased to take the above said grievances into kind consideration and to redress our grievances by suspending the orders, for the above said extension of municipal limits of Karur, from bringing into force and thus protect us from the unexpected troubles and difficulties that will result from the said extension.

We beg to remain
Right Honorable Sir
Your most obedt & humble
Servants.

Extension of limits, Karur Municipality

FOR ORDERS.

In the Government Order read above, the proposal of the municipal council of Karur to extend the limits of the municipality so as to include the Balambapuram Pallatheru, the new burial ground and the proposed cremation ground situated to the north of the existing limits and some houses and lands on the west forming the village of Lakshminarayana Samudram was approved by Government and a notification declaring its intention to alter the limits of the municipality and stating that any objections which may be taken to the proposed alteration should be submitted to Government within six weeks under

2. The inhabitants of the
villages of Balambapuram and
Lakshminarayana Samudram,
which it is now proposed to in-
clude within municipal limits,
ⓧ object to this measure on the grounds
that the former village contains
only a few huts inhabited by
poor labourers (Pallars and
Muhammadans) which cannot
yield any revenue in the shape
of house tax, that in the latter
village there are no houses worthy
of mention, but there are nunja
lands, which if included within
municipal limits, will be assessed
to the municipal land tax in
addition to the Government
land revenue, that as these lands

2. I have revised the boundary description given by the Chairman so as to make it more accurate than as given by him.

3. The extension on the north of the railway line is most necessary. I have inspected it myself and discussed it with the Chairman.

4. The extension on the west is also in my opinion necessary.
