CURRENT No.

Misc:

Order N^o. 256 mins. 10-2-97

The Government regrets that the preparation of a scheme for the water supply of Uchdam. - baram cannot be undertaken by the Sanitary Engineer during the current year, as preference has to be given to schemes relating to more important towns. It will, however, be included in the programme for the year 1898.

From: A. C. Leath Stuart Esquire
Collector of Southport

To: The Sanitary Commission

Sir,
I have the honor to forward for your information copy of the Sanitary Engineer's letter no 3561 dated 28th November 1895, with copies of concerned papers and to request that if possible you will be so kind as to advise some method whereby a good water supply scheme for Chidambaram may be prepared at an early date.

The Chidambaram Municipal Council is prepared to do all in its power to provide funds for such schemes as may be sanctioned and these funds supplemented by private liberality and such contribution as Government may be pleased to make, will, it is hoped, give this Municipality the supreme blessing of a pure drinking water supply.

As you are aware, that Chidambaram is a special claim to early consideration in direction. Its celebrated temple constantly attracts visitors and its festivals are largely attended: the result is that the water supply is

to take.

behalf, I venture to plead: The preparation of the necessary scheme would not, I fancy, occupy any great length of time and once a good scheme has been prepared and sanctioned, am sure the Council may be safely trusted not to waste time in carrying it out. "Sanitas - Sanitas omnia Sanitas" is rapidly becoming the adopted motto of my District and I am confident that I may rely upon you to help us to act up to it.

I have the honor to be

Sanitary Commissioner for
Madras.

To
The Collector of South Arcot

Sir,

With reference to your letter no. 2055 dated 29th December 1895, I have the honor to state that I am glad to find the Chidambaram Municipality exhibits praiseworthy anxiety as to the provision of a protected public water supply. I fully agree with you as to the desirability of early action being taken in the matter.

My functions in respect to water, as can of course go no further than suggested after Sanitary Survey of the locality, and suitable sources. Thus supplying information that can subsequently be attended to by Sanitary Engineer's Department. This duty, with pleasure, take an early opportunity performing, when, as I at present hope able to do, I suspect other localities in district in the ensuing month.

I have the honor to be
(Signed) W. F. King
Sanitary Commissioner

Dated 29th December 1895.
