Through the Collectors, Godavari
Lr Coovada.

In Submitting herewith letter
No. 239 of 24-5-97, of the Civil Apothecary, I have the honor
to report as follows on the recent
out-break of Cholera.

On receipt of intimation from
the Civil Apothecary, I have divided
the Town into four circles and
Appointed preventive Staff in the
infected circles and observation
Staff in the non-infected ones.

The Civil Apothecary was appointed
as.

as Divisional Inspector with an
orderly.

2/ Care was also taken to secure
better sanitation of the town by
strictly supervising the General
Conservancy Establishment as well
as the Special Cholera Establishment.

The Civil Apothecary was also
directed to keep on all wells
and an additional watchman was
also entertained to prevent
pollution at Cagjivelliv-vi-Laut
which was the only drinking
water source during that period
as Krishna Canal was closed.

3/ On receipt of information of
1st Attack of Cholera in the
non-infected wells, preventive
Staff was also appointed in
addition to the then existing

observation staff.

Ellore

Sir

I have the honor to inform that on the 16th of April 1897 a certain Mohamadan came to the Hospital and wanted medicine for his daughter who, he said, was suddenly taken ill the previous night with vomiting and purging. On getting this information I went to see the patient and she was found in a collapsed state. There were also 2 other cases of a similar nature brought to my notice and they were also in a state of collapse. The occurrence of these cases was at once reported to the Municipality who raised a special staff consisting of 2 Sub Inspectors, 12 peons 11 hokers and a Divisional Inspector. The town was divided into circles and the special staff distributed over these. The systematic peholling through the streets and attending to the disinfection and

And disposal of Choleraic vomit and excreta
 as well as the sanitation of the place were
 attended to with the result that there were
 only 10 attacks on the whole out of these 2
 proved fatal death occurring in each
 of these cases within 6 hours after the 1st
 symptom of the disease.

I have the honor to
 Sir
