GOVERNMENT OF MADRAS.

OFFICE OF SANITARY ENGINEER,

Fort St. George, 17th Nov 1897.

From

J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E.,

SANITARY ENGINEER TO GOVERNMENT.

To

The Secretary to Government,

Local & Municipal Department.

SIR,

With reference to para³(2) of G.O.No.2207.M of 11th. October 1897, I have the honor to report that I do not remember any reference to the Municipal Council as to the position or number of the fountains- but the lines of Mr.Oldham's scheme which had been before the Council, for years were practically followed when locating the pipes and the fountains were as equally distributed as possible (having regard to density of population) over the area so served.

2. Government will remember that when the scheme was being considered it was with difficulty financed and that economy had to be exercised in many particulars and if fountains had been located in the places now mentioned by the Chairman they would have had to be omitted at other places. It may be added ,however, that in no town has the number of fountains even if exceedingly numerous been found to meet the requirements of the people who individually want to have a fountain as near their own particular dwelling as possible.

I have the honor to be,
Sir,
Your most obedient servant,

[Signature]

Sanitary Engineer to Govt.
