Resolution.

With the letters read above, the Sanitary Engineer and the Public Works Department forward, in compliance with para 2 of Government Order, No. 1794 M. Ins. dated 23rd October 1896, statements showing the amounts required for expenditure during 1898-99 from loans and grants from Provincial Funds in aid of water supply and drainage schemes in Municipalities. These statements have been consolidated and are herewith submitted

submitted to Government.

2. It would appear from Memorandum No. 1051 R., dated 13th October 1897 and No. 1119 dated 2nd November 1897 from the Local and Municipal Department that revised figures are also required for the current year, the budget figures for which were submitted to Government with Proceedings of the Sanitary Board No. 276 S, dated 25th November 1896. The Sanitary Board has no means of revising budget figures, and as neither the Sanitary Engineer nor the Public Works Department has given the revised figures, the statement cannot be rectified in the Board's Office.

3. The statement was due with Government on the 1st September 1897 and can be no longer delayed. It, will, therefore, be submitted in its present form, but the Sanitary Engineer and the Public Works Department will be requested to forward as soon as possible the requisite
revised

revised figures for 1897-98 in regard to the Schemes under execution by them respectively.
