 Current No. 3912 m. of 1897, dated 8th November. 97. from the Collector of Godavari
 Current No. 3980 m. of 1897, dated 13th Nov. — 97 from the Chairman. M. C. Coanada

SUBJECT. Closure of burial grounds
 in the Coanada Municipality.

FOR ORDERS.

In June last, the Collector of Godavari submitted two draft notifications for the acquisition of 15.59 acres of land required by the Municipal Council of Coanada for opening new burial grounds for Muhammadaus, native Christians and Hindus in lieu of others situated in objectionable localities, which it was proposed to close. On this he was requested in the first of the G.O.s read above to ascertain and report whether the sites which it was proposed to acquire had been approved by the District Medical and Sanitary Officer and how the Municipal Council proposed to meet the cost of their acquisition and to submit a sketch showing the position of the existing and proposed burial and burning grounds. In reply to this, The Collector

A.

Collector now reports that the sites in question have been approved by the local Civil Surgeon and that the necessary funds have been provided by the Municipal Council by allotments from the balance, since sanctioned by Govt., and also submits a sketch of the existing and proposed sites.

2. In the meantime the Chairman forwarded (Civ. N^o. 3300.M) a resolution of the Municipal Council proposing that such of the burial and burning grounds situated within the town, as are considered ^{to be} unobjectionable should be registered and that four grounds, three in Cocanada and one in Jagannaikepur, which are situated in objectionable localities should be closed, lands being acquired for opening three burial grounds instead, - one for Muhammadans, one for Native ^{Christians} and one for Hindus - and a strip of Govt. land measuring 77 cents being given in exchange for the other ground proposed to be closed. The Chairman submits that the above proposals will suit the requirements of the town with no inconvenience whatever to the

the public. Both the Deputy Collector and the Collector consider that the Chairman's proposals are wise and may be sanctioned. It is, however, not known whether the burial and burning grounds of which, it is now proposed to retain no less than ten within municipal limits, are all situated in unobjectionable localities. The papers may, therefore, be referred for the remarks of the Sanitary Commissioner. The draft order on C. N^o. 3912.M. is submitted for approval.

Mr,
 Adverting to my letter no 673 dated
 20th August 1897 submitted through the
 Collector of Godavari, I have the honour
 to request that you will be good enough
 to sanction the closure of the burial grounds
 therein referred to, which the Council
 resolved upon.

2. Early orders are solicited as the Sanitary Commissioner suggests that some may be closed in view of the advance of plague towards the borders of this Presidency, where they cannot be effectually watched.

To
All Chairmen
Municipal Councils.

Sir,
I have the honour to advise that all burial
grounds in your Municipality be carefully watched
so that the nature of deaths be clearly ascertained
before burial. Where you have some many burial
grounds that the expense of effectually watching
them would be heavy I advise you to temporarily
close those that cannot be so watched. The
history of all fever cases should be especially
carefully entered into, and where there is the
slightest doubt of the nature of the complaint
the body should be examined by a medical officer.
I need not say that the advice above
is with reference to the advance of Plague
this Presidency and I would add that
rapid detection of cases that might otherwise
in ignorance be classed as "fever" you
possess a powerful Sanitary aid against its
spread.
