OFFICE OF SANITARY COMMISSIONER,

Fort St. George, 11th December 1897.

From

SURGEON-LIEUT.-COL. W. G. KING, M.B., C.M., D.P.H.,

SANITARY COMMISSIONER FOR MADRAS,

To

THE

Secretary to Government,
Local and Municipal Department.

Enclosure.

SIR,

With reference to para 2 of G.O. No. 2543 M.
his, dated 18th November 1897, I have the honour
to state that the result of placing a tube-
well upon the bund of Venkannah's tank
would be to supply the people with the
imperfectly filtered water of the tank,
which I consider unfit for use. From what
I know of the locality and this question
generally, I am not of opinion that the
necessity for a water supply at this special
point is of the great importance that has
been represented by those who wish the
tank to be retained. If, however, this be
the sole desire, the Chairman's suggestion
of giving a water supply by means of
one or more tube wells is a suitable
compromise. Care, however, should be taken
to select a spot for sinking the well at
a point having clean soil, and not
within

within the immediate neighbourhood
of the tank.

I have the honour ble,
Sir,
Your most. obed^t. Servant,
W. M. S.
Surgeon Lieut. Col.
Sanitary Commissioner for Madras.
