GOVERNMENT OF MADRAS.

OFFICE OF SANITARY ENGINEER,

Fort St. George, 4 March 1897.

From

J. A. JONES, Esq. MEM. INST. C.E., F.R.S.E.,

SANITARY ENGINEER TO GOVERNMENT,

To

The Secretary to Government,

Local & Municipal Department.

SIR,

In reply to your reference No. 253 dated 2nd. March 1897, I have the honor to point out that the Proceedings of the Kurnool Council of 22nd. August 1896 were not sent to this department. Col. Campbell in his note of the 4th December 1896 assumes, vide his paras 2 & 3, that it had been & that my estimate included the recommendation of the Council. My estimate for the extension had reference (vide my No. 2560 of 20th. August 1896) to the resolution of the Council dated 13th. June 1896 alone & this did not include any amount for the pipe line to Mr. Thorburn's house.

2. A 3" line to serve Mr. Thorburn's house and ending between it & the Assistant Sanitary Engineer's house (Government property) will amount to

2600 feet at Rs 1-4-0 ----- Rs 3250-0-0

1 Fountain ----- Rs 110-0-0

Rs 3360-0-0.

A 2½" diameter line will cost about Rs 2710-0-0.

3. These are the only houses in this portion of Kurnool not served. The Irrigation Company's buildings are ruined & the Superintendent of Police's house is served by another line -vide plan accompanying.

4. I think the cost far out-weighs anything that would ever be recovered in the way of tax & I am in some doubt as to whether the Chief Engineer thought this extension ought to be included as he did not approve of Mr. Thorburn's original proposals.

I have the Honor to be,

Sir,

Your most obedient servant,

H. G. Jones

Sanitary Engineer to Government.

28th Feb 97.

To the Secretary to Government, Local and Municipal Department.

893 M

Sir

With reference to G.O. no 76 M of 21st Jan 1897, received on 23rd Feb, I have the honour to invite the attention of Government to the fact, that no orders have been passed on the main subject of my letter: the supply of water to my house and others on the south side of the Bellary Road. My proposals to lay two pipes, one of 1900 feet running north and south, and one of 1100 feet running east and west, at a cost of about R2500, were approved by the Karnool Municipal Council on August 22nd. But this resolution has not been noticed in the G.O., though printed with it.

2. My letter was referred to the Chief Engineer for remarks, but he has made no definite recommendation to accept or reject these proposals. No estimate has been submitted by the Sanitary Engineer for carrying out these extensions of the pipe-system. Government is perhaps under the impression that they were provided for in his supplementary estimate of R23.112. But the reference to the dates of that estimate (Aug 20 & 25, 1896) will show that it cannot have dealt with proposals which did not even come before the Municipal Council till August 22nd. That estimate deals only with the resolution of June 13th, which included no provision for supply to the houses in question.

3. I beg therefore that Government will order the immediate preparation of estimates for the two lines described in my letter of August 2nd, and approved in the municipal resolution of Aug 22nd. I will point them out to the Sanitary Engineer, if he can come to Karnool in the latter half of March.

I have the honour to be Sir
Your most obed^t servant
W. A. Thos. (Karnool)

Please see the notes and orders in
G.O. No. 76m, dated 21st January 1897.

2. Mr. Thorburn points out that
the estimate for the extension of
the Kurnool water works sanctioned
in the Government order above quoted
does not include the two lines of
pipes 1900 feet and 1100 feet long,
respectively, proposed by him in
paras. 7 and 8 of his letter dated
21st August 1896, and approved by
the Municipal Council of Kurnool in
its resolution of the 22nd August
1896. The Chief Engineer to whom
this proposal was referred for re-
marks considered it objectionable
on sanitary grounds and it was
then decided to accept Mr. Jones'
proposals as they stood.

3. The cost of the extension in question
is estimated by the Sanitary Engineer
at Rs 3,600 if 3" pipes are used and

The extension proposed by Mr
Thorneburn practically serves
nothing but ~~the~~ the Judge
house & the ant. Engineers. The
old Company's premises are, Mr
Jones tells me, in ruins.
