G.O., No. 4 M., 4th January 1897.

JANUARY.

Sanitary Inspectors.

Passing orders on the proposals of the Sanitary Commissioner regarding the employment of trained — under Local Boards and Municipalities and the salaries that should be paid to these officers.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—again the following paper:—

G.O., No. 1658 M., dated 16th October 1895.

ABSTRACT.—Referring to all District Boards and Municipal Councils, for remarks, proposals of the Sanitary Commissioner regarding the employment of trained sanitary inspectors under local boards and municipalities, and the salaries that should be paid to these officers.

READ—also Files of replies to the above Government Order from the Presidents of District Boards and Chairmen of Municipal Councils.

ORDER—No. 4 M., dated 4th January 1897.

In the Government Order read above the proposals made by the Sanitary Commissioner for the employment of trained sanitary inspectors by local boards and municipal councils were referred to local bodies for remarks, with the observation that it did not at present appear necessary to employ so numerous a staff as that suggested by him for municipalities, nor to pay it at the high rates proposed.

2. After a careful consideration of the replies received, His Excellency the Governor in Council is of opinion that, so far as local boards are concerned, the proposals may be left out of consideration, at any rate for the present. In the case of municipalities, however, the Government resolves to recommend the following rules for their guidance:—

(1) That no municipal council should newly employ any person as a sanitary inspector on Rs. 20 or upwards who does not hold a certificate of having passed the intermediate test in Hygiene.

(2) That all sanitary inspectors now employed in municipalities on Rs. 20 or upwards and with less than five years' service should be required to pass, within two years, the test mentioned above, their salaries being reduced in the event of their not so qualifying.

(3) That every municipal council should employ at least one trained sanitary inspector, on pay of not less than Rs. 20, who should be required to keep and use a pony and who should draw on that account an allowance of Rs. 15 per mensem.

(4) That unpassed maistries or overseers should be employed in municipalities for the supervision of gangs of sweepers, latrine carts, &c., at such rates of pay not exceeding Rs. 15 and in such numbers as may be required according to local circumstances.

Proposals for sanitary establishments submitted by municipal councils will for the future be considered by Government with reference to these rules.

3. The Government would also recommend the following suggestions for adoption by municipal councils:—

(1) That municipalities with a population exceeding 30,000 inhabitants should employ not less than two trained sanitary inspectors—one on a minimum pay of Rs. 50 and the other on a minimum pay of Rs. 20; and

(2) that municipalities with a population exceeding 50,000 inhabitants should employ not less than three trained sanitary inspectors—one on a minimum pay of Rs. 70, another on Rs. 35 and a third on Rs. 20.

In all such cases pony allowance at Rs. 15 per mensem would be extra.

4. Chairmen of municipal councils should consult the Sanitary Commissioner before appointing men as sanitary inspectors. It would be of advantage to select them from the grade of hospital assistants, who have passed the intermediate test in Hygiene, if available.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—again the following paper:—

G.O., No. 1658 M., dated 16th October 1895.

ABSTRACT.—Referring to all District Boards and Municipal Councils, for remarks, proposals of the Sanitary Commissioner regarding the employment of trained sanitary inspectors under local boards and municipalities, and the salaries that should be paid to these officers.

READ—also Files of replies to the above Government Order from the Presidents of District Boards and Chairmen of Municipal Councils.

ORDER—No. 4 M., dated 4th January 1897.

In the Government Order read above the proposals made by the Sanitary Commissioner for the employment of trained sanitary inspectors by local boards and municipal councils were referred to the local bodies for remarks, with the observation that it does not at present appear necessary to employ so numerous a staff as that suggested by him for municipalities, nor to pay it at the high rates proposed.

2. After a careful consideration of the replies received, His Excellency the Governor in Council is of opinion that, so far as the local boards are concerned, the proposals may be left out of consideration, at any rate for the present. In the case of municipalities, however, the Government resolves to recommend the following rules for their guidance:—

(1) That no municipal council should newly employ any person as a sanitary inspector on Rs. 20 or upwards who does not hold a certificate of having passed the intermediate test in Hygiene.

(2) That all sanitary inspectors now employed in municipalities on Rs. 20 or upwards and with less than five years' service should be required to pass, within two years, the test mentioned above, their salaries being reduced in the event of their not so qualifying.

(3) That every municipal council should employ at least one trained sanitary inspector, who should be required to keep and use a pony and who should draw on that account an allowance of Rs. 15 per mensem.

(4) That unpassed maistries or overseers should be employed in municipalities for the supervision of gangs of sweepers, latrine carts, &c., at such rates of pay not exceeding Rs. 15 and in such numbers as may be required according to local circumstances.

Proposals for sanitary establishment submitted by municipal councils will for the future be considered by Government with reference to these rules.

3. The Government would also recommend the following suggestions for adoption by municipal councils:—

(1) That municipalities with a population exceeding 30,000 inhabitants should employ not less than two trained sanitary inspectors—one on a minimum pay of Rs. 50 and the other on a minimum of Rs. 20; and

(2) that municipalities with a population exceeding 50,000 inhabitants should employ not less than three trained sanitary inspectors—one on a minimum pay of Rs. 70, another on [illegible] Rs. and a third on Rs. 20.

4. Chairmen of municipal councils should consult the Sanitary Commissioner before appointing men as sanitary inspectors. It would be of advantage to select them from the grade of hospital assistants, who have passed the intermediate test in Hygiene, if available.

Sir,

In reply to G.O. 1658 M, 16-10-95, I have the honor to state that the Sanitary Commissioner wrote to me a letter embodying his proposals in September last, but subsequently withdrew them, on receipt by him of G.O. 1686 L, 14-9-95.

2. Under the latter G.O. and under the orders contained in G.O. 463 L, 11-3-95 para 5, I do not think the proposals can be entertained in this district.

I have the honor to be,

Sir,

Your most obedient Servant,

Hamachandra Iyer

Enclosure to Letter No. P.C. 660/96 dated 28-1-96.

19. Read papers on the subject of the Entertainment of trained sanitary Inspectors for work in rural Circles.

Resolution:-

The Board is in complete accord with the Sanitary Commissioner in regard to the importance of sanitation, but it is opposed to the proposal to add to the number of its reporting officers. It has the District Medical and Sanitary officer, the Divisional officer the Deputy Tahsildars, the Revenue Inspectors, the vaccinators, the medical subordinates, and others already to report to it on sanitary matters.

Under the peculiar circumstances of the Nilgiris there appear to be no necessity for the Entertainment of Sanitary Inspectors. The numerous Badaga villages on the Nilgiris are not conserved. but they are nevertheless amply provided for by nature in the matter of sanitation; being built on terraces, on the sides of precipituous slopes from which every thing objectionable runs off. The existing Sanitary Establishment sufficiently answers the requirements for sanitation in this District

Resolution No. 88 of 1896.

Read: (1) G.O. No. 1658 M, dated 16th October 1895, referring to District Boards proposals of the Sanitary Commissioner

Commissioner regarding the employment of trained Sanitary Inspectors.

(2) Letter No 2272/5, dated 11th December 1895 from the Sanitary Commissioner, Madras.

The Board recognises that it is desirable to employ trained Sanitary Inspectors where possible with due regard to the state of finances, but it does not consider it necessary to insist on any fixed scale of pay in the case of such trained men. - Probably men would go to some Districts on smaller salaries than to others, and it should be left to each Board to make the best terms it can. This Board would draw attention to the fact that it has already resolved to entertain 2 Sanitary Inspectors on Rs 45 per mensem.

Extract from the Proceedings of the Rajahmundry Board Godavari passed at its meeting held at ~~Cocanada~~ Rajahmundry ~~Rajahmundry~~. 19-12-1895.

* * *

371 Read District Board Presidents' Rep. on C no 2578/D&S of 7-12-95 on G.O no 1658 M of 16-10-95 regarding the appointment of Sanitary Inspectors on the following scales

First Class Sanitary Inspector - on appointment Rs 75 after 3 years' service Rs 100 per mensem.

Second class Sanitary Inspector on appointment Rs 45 after 3 years service Rs 60 per mensem.

Assistant Sanitary Inspector on appointment Rs 25 after 3 years service Rs 35 per mensem.

This Board is not at present in a position to afford the luxury of Sanitary Inspectors, its financial Condition requiring the abandonment of urgently required roads which ought to be a first charge on its revenues. The class of officers recommended by Dr. King are in the Board's opinion much better suited for Municipalities than for rural areas and

even

men in Municipalities, as remarked by Government, the pay asked for them appears too high.

Dept 15

FROM

U. A. Brodie Esquire
President

District Board, Godavari

TO

The Chief Secretary to Government,
Local and Municipal Department,
Madras.

SIR,

With reference to para 1 of G. O. No. 1658-M / 16.10.1895 and the subsequent reminders, I have the honour to state that all the Taluk Boards in this District with the exception of Ellore have come to the conclusion that their finances do not admit of the Sanitary Commissioner's proposals being adopted by them (vide Copies of the resolutions enclosed). The Taluk Board of Ellore is in favour of the entertainment of one 2nd class Sanitary Inspector for the 3 Taluks under its Control, but I doubt if this Board is in a position to afford the luxury of

a

a Sanitary Inspector when the other three Boards say distinctly that they cannot. The class of officers recommended by Dr King is much better suited for urban than for rural areas, as observed by the Rajahmundry Taluk Board. In this connection, I would invite the attention of Government to para 5 (3) of G. O. No. 371L / 20.2.93 reviewing the Budget of this District for 1893-94 in which Government vetoed the proposals made by the local boards in this District for the entertainment of a Sanitary Inspecting Agency of somewhat similar character. It is clear that past experience of the working of such an agency in other Districts is directly against its success. I am constrained to observe that each Department is alive to its own interests only and makes proposals for increased establishments, without troubling itself to see how far the action of these several Departments strains the limited resources of

Flag 7.

of the local boards. The Sanitary Commissioner has, however, thought fit to apprise me that, having regard to G. O. No 1686L dated 14th September 1895 demanding increased attention to Communications, his proposals regarding the entertainment of Sanitary Inspectors might be considered as cancelled. The local boards already maintain different kinds of inspecting staff, viz. Dy Inspectors of Vaccination and Inspecting Schoolmasters and the Government has also recently sanctioned the entertainment of Local Fund Inspectors. I doubt very much whether in the face of these establishments there is really any necessity for a separate Sanitary agency at all. The work proposed to be done by this Agency may conveniently be done by one or other of the agencies already in existence and I await definite proposals in this direction from the Sub Committee appointed by the District Board

The C

Letter from the Sanitary Commissioner for Madras, No. 1600/S dated 19-9-95, suggesting proposals for the entertainment of at least three certificated Sanitary Inspectors to be attached to each Taluk Board to look after the Sanitation of towns and Villages.—

Resolution No. 107 of 1895.

The Board is in complete accord with the Sanitary Commissioner in regard to the importance of sanitation, and will endeavour in its next budget to add to the grant under that head.

2. But it is strongly opposed to the idea of merely adding to the number of its reporting officers; it has the District Medical officer, the Divisional officer, the Tahsildar the Revenue Inspectors, the Deputy Inspector of Vaccination, the various Civil Apothecaries and others already to report to it what is necessary; what is wanted is already known to it and is a matter of notoriety, and it has even now many estimates from the District Medical officer and from Divisional officers before it for works to be sanctioned.

3. What it requires is money to carry the work out with - This is the chief need, it has officers to inspect and report and officers to supervise - All of them quite competent to deal with the ordinary work of village Sanitation; what it needs is money to do the work itself—

4. To spend a considerable amount as is now proposed, or simply adding to its reporting agency, will only intensify this need: the men will be practically useless, or too low paid to be expected to possess tact in such a vexatious matter, as dealing with the habits of uneducated villagers and the amount of their pay will represent only a portion of their cost, for Travelling allowances,

prons

proms and contingencies of various sorts will have to be added to it.

5. The Board has recently proposed to place a fair sum, at the immediate disposal of Presidents of Taluk Boards for expenditure as needed, and without estimate, on village sanitation rough and ready measures of this sort, it trusts will prove useful; and it will now endeavour to enlist the services of Divisional officers and Village officers to assist by both their revenue and magisterial authority in the same direction, especially in preventing defecation near the houses, and in preserving the water supply from pollution.

6.— It trusts more to this, than to additional Sanitary Inspectors, but if it entertained any such staff, it would prefer to have one well-paid man, trustworthy and tactful, for the whole district than 9 ill-paid men, who could not be expected to have these characteristics.

This

This particular point will be considered when the budget is brought up.—

In a letter from the President, District Board, Coimbatore, to the Chief Secretary to Government, Local & municipal Department, dated 16-2-96, Disposal no 158/D.B of 96.

Subject

Resolution of the District Board Coimbatore, dated 30 September 1895 regarding the employment of trained Sanitary Inspectors

Disposal No 158/D.B of 96

Coimbatore,
District Board's Office,
16th February 1896.

FROM, Herbert Bradley Esquire,
PRESIDENT, DISTRICT BOARD,

Coimbatore,
Local & Municipal Dept.
CURRENT No. 613 L

TO,
THE CHIEF SECRETARY TO GOVERNMENT,
LOCAL AND MUNICIPAL DEPARTMENT,
Madras.

SIR,

In reply to G.O Rt no 1655 M L and M. dated October 16th 1895 received on the 27th November, I have the honour to state that the opinions of the Presidents of the 4 Taluk Boards in this district were called for and the last of them has just reached me.

2. The Erode Taluk Board recorded their resolution on the 16th the Kollegal Taluk Board on the 17th the Pollachi Taluk Board on the 17th Dec, and the Coimbatore Taluk Board on the 30th Dec. January 1896. But the resolution of the Pollachi Taluk Board with the President's report has only just reached me.—

3. The Erode Taluk Board considers that the finances of the Board will not admit of the entertainment of such a costly agency as that recommended by the Sanitary Commissioner, but that the present Nuisance Inspectors in Unions who are really only head Coolies employed to Supervise the work of Scavengers could be made to learn the simple principles of hygiene.

4. The Kollegal Taluk Board is of opinion that a reserve staff of Scavengers and more funds for Sanitary works would be better than the appointment of ill-paid Sanitary Inspectors. This resolution seems to be some what unreasonable.

5. The Pollachi Taluk Board considers that the proposal to employ trained Sanitary Inspectors cannot be entertained owing to lack of funds.

6. The Coimbatore Taluk Board records that the funds at the disposal of the Taluk Board do not admit of the employment of a specially paid agency as recommended by the Sanitary Commissioner.

7. The subject was placed before the District Board on the 30th September 1895 upon a letter from the Sanitary Commissioner dated September 19th 1895 No. 1600/5 in which he suggested that the Boards should employ 12 Sanitary Inspectors on the rates of pay suggested in the letter communicated with the G.O under reply. A copy of the Board's resolution is enclosed. The President also addressed the Sanitary Commissioner pointing out that the Board feared the creation of another expensive reporting agency and stating that what is required is money to carry out improvements rather than reports showing what improvements are required. The Sanitary Commissioner's reply was, that it is necessary to have some agency ready and at hand, not for reporting defects large and suggesting improvements, but for carrying out improvements, and giving immediate assistance in the case of outbreaks of epidemics. He therefor suggested

the employment of one officer in the district holding the qualifications of L.M.S and Licentiate in Sanitary Science of the Madras University, and expressed the opinion that such a man could probably be secured at a rate of pay somewhat in advance of the Assistant Surgeons' now employed in Government Service. He also advised that a certificated overseer who is also a capable draftsman should be attached to the officer proposed. In other words the Sanitary Commissioner recommended the employment of a staff which would probably cost 4500 rupees per annum. This proposal is simply out of the question. The annual allotments for Sanitation are now about 23480 rupees* and it appears absurd to expend 4500 rupees on a new establishment. The object also of employing a man to draw plans instead of the present Engineering establishment is not understood.

8. The Sanitary Commissioner's original proposal

* for 1890-91

proposal of 3 Sanitary Inspectors for each Taluk Board would mean an annual expenditure of Rs. 6960 rising to Rs. 9360 on salaries alone, to say nothing of travelling allowance, peon's pay, and Contingencies which would increase the expenditure by perhaps 3000 rupees per annum.

These proposals cannot be carried out with the funds at present at the disposal of the local bodies.

9. I believe that the Sanitary Commissioner considers that the greater part of the money now spent on rural Sanitation is wasted. I am referring to Dr King's letter printed in G.O No. 792 dated January 16 1891. If he is still of this opinion, I would suggest that some portion of the funds at the disposal of local bodies for Sanitation should be expended under some central body organized by him. The expenditure in several districts might be controlled

joint establishment bearing some
proportion to the total placed at his dis:
posal. But it seems to be utter waste of
money to employ such an expensive e:
establishment utterly out of proportion
to the expenditure in a single district.

10. If the Board had unlimited funds
at its disposal for sanitation or if
there were any chance of the funds at
its disposal for the purpose increasing
in the immediate future, it might be
possible to consider the Sanitary Com:
missioner's proposals, but at present
they seem to be utterly impracticable.

11. That the amounts now spent on
petty works are not wasted every dis:
trict officer, I think, must know. The
Sanitary Commissioner considers the
ordinary clearance of prickly-pear and
repairs to wells useless, and it may be
so from a strictly European view of
Sanitary Science, but the villagers
appreciate it and constantly come to
district

district officials with applications for
clearing out wells &c. Probably half,
at least, of these will have to be repeated
if the establishments proposed by the
Sanitary Commissioner are employed.
In many cases the expenditure is necessary
to supply water to villages which have
no wells.

12. The Sanitary Commissioner considers
that the services of the officers referred to
in para 6 would be of great value on
the outbreak of an epidemic, but the
District Board is already employing an
additional reserve Hospital Assistant
from its own funds whose services are
intended to be available in such an
emergency.-

13. The proposals of the Sanitary Commissioner
would, if put into effect, absorb a large
number of the unemployed among the
educated classes, but in a few years
time an outcry would be raised among

the

Sanitary Inspectors for increased pay
and prospects. Young men just out
of the schools should not be put into
places created for them upon such high
salaries as those recommended in this case,
otherwise it must cause discontent
among equally well educated men say
of 15 years standing already in Govern-
ment Service who are now drawing
perhaps considerably less, to say nothing
of the discontent that must follow when
the men appointed find that they have
little chance of future promotion. If
a new establishment is to be created
from men fresh from schools their pay
should be far lower than the Sanitary
Commissioner proposes to begin with,
and if his proposals are considered
reasonable, they may be worked up
to gradually.

16 The Erode Taluk Board some years
back entertained a Sanitary Inspector
on Rs. 40 but his services were dispensed

with

Judl 1421 25-1-93

with after he had been employed 9 months
vide letter dated December 23 1892 No 203/D&B.
from the President Erode Taluk Board
to Government.

15. The President of the Pollachi Taluk
Board suggests that Deputy Inspectors
of Vaccination should be employed
to inspect the Sanitation of minor
villages, and made to qualify themselves
by framing for the work and if necessary
an additional Deputy Inspector
might be employed, while one Sanitary
Inspector might be employed for
the District.

16. Rupees 40 per mensem could seem
to be ample pay for young men just
beginning their career and to begin with
it would appear advisable that
Sanitary Inspectors should be em-
ployed in Municipalities only.

17. To sum up then the present proposal
therefore appear to be quite impracticable

wi

Sanitary Inspectors for increased pay and prospects. Young men just out of the schools should not be put into places created for them upon such high salaries as those recommended in this case, otherwise it must cause discontent among equally well educated men say of 15 years standing already in Government Service who are now drawing perhaps considerably less, to say nothing of the discontent that must follow when the men appointed find that they have little chance of future promotion. If a new establishment is to be created from men fresh from schools their pay should be far lower than the Sanitary Commissioner proposes to begin with, and if his proposals are considered reasonable, they may be worked up to gradually.

14 The Erode Taluk Board some years back entertained a Sanitary Inspector on Rs. 40 but his Services were dispensed with after he had been employed 9 months vide letter dated December 23rd 1892 No. 203/D&S.

Info 1421/15-1-93

from the President Erode Taluk Board to Government.

15. The President of the Pollachi Taluk Board suggests that Deputy Inspectors of Vaccination should be employed to inspect the Sanitation of minor villages, and made to qualify themselves by training for the work and if necessary an additional Deputy Inspector might be employed, while one Sanitary Inspector might be employed for the district.

16. Rupees 40 per mensem could scarcely to be ample pay for young men just beginning their career and to begin with it would appear advisable that Sanitary Inspectors should be employed in Municipalities only.

17. To sum up then the present proposals therefore appear to be quite impracticable.

with the funds at our disposal. They represent an ideal to which the District Board aspires but which is at present utterly beyond its means. I think it probable that the Board would consent to abide by the Sanitary Commissioners advice as to the expenditure of a considerable proportion possibly more than half the funds expended from year to year upon sanitation, merely reserving certain sums for procuring rather than improving water supply in bad seasons and dry weather. In this district it is not always possible to obtain a satisfactory water supply even if there were funds. For instance, At Aravakurichi, where I am now writing, there is not a well in the village which is not brackish, and the people, as long as water can be obtained by scooping out the sand in the bed of the river, go several hundred yards for drinking water rather than have recourse to the wells. I doubt whether the

the Sanitary Commissioner himself could effect a remedy. But it would have to be distinctly understood that no new establishment should be entertained without the Board's Sanction.

I have the honour to be
Sir,
Your most obed.t Servant

COLLECTOR OF KURNOOL.

To

The Chief
THE SECRETARY TO Government
Local and Municipal Dept.
Madras.

CURRENT No. 662 L

Sir,

With reference to Government order No 1658 mis: dated 16th October 1895, I have the honor to report as follows:—

Dr. King's proposals are excellent and are to be welcomed as another step forward towards the organization of a regular sanitary department but they are

relitte applicable to district Boards whose sphere of action lies in the smaller towns and villages and whose sanitary allotments are not large enough to justify the employment of such an ex- -ecutive staff.

In all such questions the two main points to be considered are (1) Funds available and (2) work to be done. It is only after these particulars are ascertained that we can be in a position to decide what staff is necessary.

In this district the expenditure on sanitation from Local Funds during the past 5 years is as follows:—

	1890-91	1891-92	1892-93	1893-94	1894-95
Improvement of water supply	3582	1997	2252	2650	2724
Improvement of village sites	2988	1776	1317	1366	3631
Conservancy establishment	11,841	10864	10309	10612	10241
Arrangements at Fairs and Festivals	644	552	795	730	600
Other sanitary outlay	2912	662	517	3613	2765
Total	21967	15851	15190	19971	19961.

A glance at the above statement shows that the major portion of the expenditure on sanitation is incurred on the maintenance of the conservancy establishment. This establishment consists of many isolated small gangs employed to clean up village sites. They are at

present, satisfactorily worked
under the supervision of union
Chairmen who are in the
district in most cases medical
subordinates. The comparatively
small expenditure incurred on
the improvement of water supply,
improvement of village sites
and other sanitary outlay is
spent by Revenue officers
and the small outlay on
"arrangements at fairs and
festivals" is incurred under
the supervision of either the
medical subordinates or the Revenue
officers, who are quite competent

to conduct these quite satisfactorily.
Keeping in view the small expenditure
under these heads there is no
need whatever for such a highly
paid staff of sanitary inspectors.
The sanitary allotments are however
not efficient. There is no
want more severely felt by villagers
at present than the want of
good drinking water but very
little can be done for want
of funds. The first essential
is to provide money for sanitary
works; when this is done
it will be time to appoint
a special staff.

To

The President,
District Board,
South Canara.

Sir.

With reference to endorsement Ref. on C. No 1734 of 1895, D.B. I have the honor to report that it is not in my opinion at present advisable to introduce Sanitary Inspectors as far as the Taluk Boards are concerned. The conditions in this district are very different to those of other districts and severe epidemics are practically unknown. The water supply is principally from private wells which would entail much difficulty in examination and such examination would probably be a source of irritation to the people.

2. Another reason for the postponement may be found in the advisability of waiting to see how the newly trained Municipal Inspectors perform their duties. As Chairman of the Ellore Municipality, my

Diposal No 131

South Canara District Board Office,

Mangalore, 10th March 1896

From

W. H. Welsh Esquire,
President, District Board,
SOUTH CANARA.

Local & Municipal Dept.
CURRENT No. 813

To

The Chief Secretary to Government,
Local & Municipal Department,
Madras.

Sir,

With reference to G.O. No. 658 M, dated 16th October 1895, calling for remarks on the proposed employment of trained Sanitary Inspectors, the District Medical and Sanitary Officer and the Taluk Board of Mangalore are in favour of employing trained Sanitary Inspectors.

2. But the Taluk Boards of Kasaragod and Uppinangady and Mr. Robertson, President of the Taluk Boards of Udipi and Coondapoor, copy of whose report is submitted, as also the District Board, consider such employment unnecessary.

3. The District Medical and Sanitary Officer simply states that the proposals of the Sanitary Commissioner are recommended for adoption.

4. The Taluk Board of Mangalore "is of "opinion that a trained Sanitary Inspector be "Employed under the District Board" and recommends the following scale of pay:-

First

First Class – Rs. 45 rising to Rs. 60 with an annual increment of Rs. 3.

Second Class – Rs. 30 rising to Rs. 40 with ditto – ditto – of Rs. 2.

Assistant Sanitary Inspector – Rs. 20 rising to Rs. 25 with ditto – ditto – of Re. 1.

5. The Taluk Board of Ilppinangady considers that the "Configuration of the "country and the location of the houses" render the appointment of any Sanitary Inspector for the Taluk unnecessary. This view seems to me applicable to the whole district. The population does not generally live in urban communities where advice on sanitary matters is specially useful.

6. Even the towns and big villages which exist are rendered healthy by the custom of locating houses at a little distance from each other in gardens. There are fewer offensive smells than in most countries of the world. What money the Board have to spend is better devoted to sanitary works and wells under the advice of the District Medical officers and ... Officials who all take interest in the

Sir

With reference to your footnote No. 3472 dated 4th Dec. 95 to the G.O. No. 1658 M. 9/16th October 1895, I have the honor to send the following remarks.

2 I believe that the entertainment of Sanitary Inspectors by the District Board would be an entire innovation and it may reasonably be doubted whether the state of the finances, the proportion of grant iii. to the whole allotment and the orders of Government regarding roads would not together debar us from entertaining any such scheme.

3 In para 3 of the letter mention is made both of municipalities and of District Boards but the general tenor of the rest of the letter

is

especially of para 7 would seem to indicate that these officers are to be employed in Towns — generally Municipal towns. The word "Municipal" has been used in one place in Para 7 and left out in another with a result that it is not easy to say if the 1st para refers only to this class of towns and the last to all sorts.

4. As the introduction of these inspectors is entirely new it would be necessary first to consider what their range of inspection should be and then how many men would be — required; if their range of inspection is confined to a town what is to be taken as the minimum population for which such Inspector would be employed.

The principal towns and villages in my division are: —

Bellipada	with	5911	inhabitants
Ganjam	"	4695	" "
Gopalpore	"	2865	" "
Gusainawgam	"	2237	" "
Kaviti	"	4285	" "
Sitarampalli	"	2591	" "
Digupudi	"	3889	" "
Chikati	"	5008	" "
Kandasa	"	5240	" "

If population is to be taken as a standard, Gopalpore will stand very low in the list though I consider that it is more in need of sanitary supervision than perhaps any other place.

5 If on the other hand Sanitary Inspectors are given ranges which extend beyond the — actual towns I do not think much good will result — a certain amount of inspection is now done by Revenue officials and by the Vaccine Dept. as well as by the District Medical officer.

6. Concerning the question whether it is better to employ trained men there cannot be two opinions; the question of pay is a detail; the question of the introduction of these inspectors must first be decided. No proposals have been made and in my opinion it is impossible for us to extend our expenditure under grant III

closures. Five

Dated Chalrapur 11th April 1896.

Sir,

With reference to G.O. No: 1658 M. dated 16th October 1895 I have the honor to state that before laying the subject before the District Board I have invited the remarks of the District Medical and Sanitary Officer and of the Presidents of Taluq Boards on the proposals of the Sanitary Commissioner and copies of their reports are enclosed. The matter should have been discussed at the last meeting of the District Board but it was dissolved for want of a quorum. As the matter seems to me urgent I think it as well to give my own opinion of the question.

2. I consider the proposal in para 4 of the Sanitary Commissioner's letter is a good one.

As

as regards the employment of Sanitary Inspectors in rural areas so far as I know this has not been tried in any District yet and as far as Gayam is concerned I do not see how we could afford to pay such men; we have been obliged in our attempt to give effect to the G.O. concerning expenditure under grant I to cut down all other charges to the last pie.

Moreover I am somewhat doubtful as to how far such men would be really useful. They might perhaps be of some good in a cholera epidemic but ordinarily they would tour about and make recommendations for improving sanitation in villages which, however desirable, we have no money to carry out. We have hundreds of reports from the District Medical and Sanitary Officer recommending improvements in village sanitation which have simply to be shelved for want of funds and it does not seem to me to be worth while to pay an officer to write reports which a similar fate inevitably awits.

The few and simple improvements in village sanitation viz, digging here and there a tank or a well can be carried out by Tahsildar or L. D. Engineering Department.

Another objection is as to supervision. I do not know who would look after these Inspectors.

I have the honor to be,

Sir,

Your most obedient servant,

R. Aske.

for President District Board.

To

THE CHIEF SECRETARY TO GOVERNMENT,
LOCAL AND MUNICIPAL DEPARTMENT,
MADRAS.

SIR,

In reference to para 1 of G. O. No 1658 Dr dated 16th October 1895, I have the honor to state that the G. O. in question was referred to the Presidents of Taluq Boards, the District Medical and Sanitary Officer and the Vice President District Board for opinion and their replies on the subject together with my office note were placed on the 11th April 1896 before the District Board whose resolution on the subject is as follows.—

1. The Board will relieve the Taluq Boards of the cost of the Sanitary Establishments.

2. The Board considers that trained Hospital Assistants should be employed as suggested by the District Medical and Sanitary Officer and approves of the scale of emoluments proposed by the President

3.

. The Sanitary Inspectors should not be allowed
take private Medical practice.

. Each Sanitary Inspector will have one peon
n Rs 7.

. The scale of the emoluments proposed referred
to in para 2 of the resolution is —

Guntur Taluq Board	1st class	Rs 75 to Rs 100
Bezwda "	"	2nd class	50 to 75
Vinukonda "	"	2nd class	50 to 75
Masulipatam "	"	3rd class	40 to 50

The pay to rise in five annual increments.
The emoluments referred to include pay and
batta of Sanitary Inspectors.

The Board agreed with the District Medical and Sanitary Officer that by appointing trained Hospital Assistants to the post of Sanitary Inspectors, a better and more useful class of men would be obtained than if the Sanitary Inspectors were trained only in the manner suggested by the Sanitary Commissioner.

Mr. K. M. Sankara Menon Avergal

Read Proceedings of the Government No. 1658
Local & Municipal, dated the 16th October 18

With refer... para 6 of the Sanitary
Commission... to Government —
we are of opinion... nitary Inspectors
may be classed as... graded as proposed
but, considering that living is very expensive
on the Nilgiris and the difficulty of obtaining
suitable men to fill the above posts, we propose
the following scales of salaries —

1st Class Sanitary Inspectors on
appointment Rupees ——— 75,
with pony allowance of Rs ——— 15.
After three years' service Rupees — 100
per mensem with pony allowance Rs 15.

2nd

1/3874

2nd Class Inspector on appointment Rs 50
After three years' Service Rupees — 60
with pony allowance of Rs — 15.
The Assistant Inspector on appointment Rs 45
After three years' service Rs — 55
with pony allowance of Rs — 15

It is impossible for Inspectors to carry out the instructions contained in the Proceedings of the Chairman dated 10 August 1892 unless they are well paid and mounted, the distances of their several districts being extensive and difficult.

3874 Qu

PROCEEDINGS
OF
The Chairman Ootacamund Municipal Council.
Ootacamund 10th August 1892.

The Sanitary Department now consists of the following staff :—

Four Sanitary Inspectors.

Mr. J. D. LAMOND.	Mr. V. A. KRISHNIAH, B.A.
Mr. J. A. COLLINS.	Mr. A. BUTTERS.

8 Maistries.
27 Cartmen.
22 Drain cleaners.
29 Sweepers.
42 Scavengers.

120

2. Messrs. Lamond and Collins will have charge respectively of the East and West Division of the town which will be separated by a line from North to South as follows:—

From the point where the Marlimund road intersects the Municipal limits along Commissioner's and Library roads, Bartholomew's Hospital road, across the Slaughter houses, Beef Butchers' street and Willow bund, and from thence along South lake road, and Cluny lane to its junction with the Lovedale road, and straight on due South to the Lawrence Asylum road.

3. Mr. Butters will have charge of the 'Centre Division,' the Municipal Cattle shed and cattle, and the Main Bazaar and Mettu chary. His Division will commence from Charing Cross bridge along Commercial and Upper Bazaar road, Butcher's street to junction with Peyton's road, via Peyton's lane, to junction with Hadfield's road to the Convent gate, from thence along the boundary of Eathorne property to North lake road and from thence by Willow bund, Race course, South lake road, A. B. C. ground, Zion chapel and Shorehain Hotel to the Charing Cross bridge. The Main Sewer for its entire length and the Gymkhana ground will be included in this Division.

4 Mr. V. A. Kristniah will, beside his other duties of collecting revenue and conducting prosecutions &c. inspect and report from time to time on the Sanitary condition of the old and new Agraharums altho' they are included in Mr. Butters' charge, as the inhabitants will allow him ready access into their houses and compounds when they would not perhaps allow it to Mr. Butters'.

5. The Divisions above noted are defined on a small map in the Municipal office which the Sanitary Inspectors may inspect for their information and guidance.

6. It will be the imperative duty of all the Sanitary Inspectors to promote the health, comfort and convenience of the inhabitants as required by the Municipal Act.

'Unwearying attention to details is a necessary condition of success in sanitary administration, and the most indomitable perseverance is needful for the pioneers of sanitary work. Small and partial measures can often be carried where larger and more comprehensive ones are impossible, and small and partial measures of improvement are not by any means useless. Public health is one of the most serious concerns of the State.'

7. Each Inspector must, as far as possible, inspect the whole of his Division every day both morning and evening, and ascertain personally that the Overseers, Maistries, Sweepers, Cartmen and Sca-

vengers do their work thoroughly and satisfactorily. He must note in his diary every infringement of the Sanitary sections of the Municipal Act and Bye-Laws, arrange to have the requisite notices issued, and see that they are complied with by the persons to whom they are sent.

8. Every house, every stable, every cattle-shed and cart stand, every compound, every road, every avenue, every hedge and fence, every public fountain, every lamp-post, every drain, every latrine, every night soil cart, and every rubbish cart, must be carefully and constantly inspected and examined, and every nuisance or defect immediately reported to the Chairman in view to his taking such action as may be found necessary to remedy it. Latrines not conserved by Municipal servants must be noted, and enquiry instituted as to how and by whom they are conserved and how the night soil is disposed of.

9. The cemeteries and burial and burying grounds in the East and West Divisons must also be carefully and frequently inspected in view to ascertaining whether the provisions of the Municipal Act are observed, and whether the grave diggers and other attendants are duly licensed by the Municipal Council,

10. The licenses issued for building houses, burning bricks or tile kilns, and for any of the purposes described in Section 188 (1) must be frequently overhauled to prove whether the conditions prescribed therein are faithfully carried out or not.

11 Every cart plying within Municipal limits should be examined to ascertain that it bears the registration number for the year; and every owner of a pony or dog in the bazaars and villages should be suddenly called upon to produce his license for keeping it, if the Sanitary Inspector has reason to suppose that such license has not been obtained.

12. Cattle, trespassing on roads and public lands or parks, must be invariably impounded and sent to the pound, as they do considerable damage to turfed banks. to embankments and hill slopes.

13. The Sanitary Inspectors should keep a record of the visitors, their names, the houses they occupy with the dates of their arrival aud departure.

14. Finally the Inspectors must keep the Chairman informed of every accident or untoward event which may occur within Municipal limits.

15. Any negligence or evasion of duty will be punished by fine, suspension or dismissal.

OOTACAMUND.

Enclosures 3

To

The Honorable J. F. Price M.S.I,
Chief Secretary to the Government,
Fort Saint George.

Sir,

With reference to para: I. of G.O. No. 1658 M. Local and Municipal dated 16th October 1895, I have the honor to Enclose an Extract from the Proceedings of a meeting of the Municipal Council held on the 21st December 1895, together with a Copy of the Proceedings of the Sub-Committee therein referred to.

2. In the Ootacamund Municipality there have been three Sanitary Inspectors since 1892, Exclusively Employed on Sanitary work, on salaries of Rupees 60 - 2.
on Rupees - 50 - 1.
as Europeans and East Indians cannot be induced to serve for less permanently.

3. A Mahomedan was tried as an Inspector but was found wanting.

4. In Consequence of the loss of land tax by a ruling of the High Court, the Council found it necessary to reduce the pay of two Inspectors as a temporary measure only, and this

Was.

3
3874 dt.

was approved of in G.O. No- 1418 A.M. dated 3rd September 1895.

5. My Experience of four years as Chairman Enables me to testify that an Inspector, without a pony, Cannot Supervise his range Satisfactorily on the Hills-

6. One of these Inspectors, a European, was trained in the Medical College at Madras in Hygiene, but I doubt whether, at the Expiration of his agreement to serve the Municipality, he will Continue as Sanitary Inspector.

The following business was transacted:-

1. Read Government Order no. 1658 M. Dated and Municipal dated 16th October 1895 regarding the employment of trained Sanitary Inspectors referring to all Municipalities and District Board

for remarks.

The Council is of opinion that there should be no hard and fast rule regarding the number of Sanitary Inspectors to be employed in any particular Municipality or District Board and regarding the pay of such Sanitary Inspectors. Discretion in these matters should be left to the several Municipalities and District Boards, which should be free to employ the requisite number of Sanitary Inspectors according to their respective requirements and to pay them according to their means. The Council however, thinks that whenever a Sanitary Inspector is employed by any Municipality or District Board in future such Inspector should be a trained man.

2. Read G.O. No 1658 M, dated 16th October 1895, calling for remarks of the Council regarding the employment of trained Sanitary Inspectors, and the Salaries that should be paid to them.
Read also Proceedings of the Sanitary Commissioner No $\frac{2272}{5}$ dated 11th December 1895.

The Council is of opinion that the number of Sanitary Inspectors to be appointed for each Municipality should be made to depend not only on the population, but also on local circumstances such as the situation of the villages constituting the Municipality &c.
Further whilst the Council is of opinion that higher scale of pay than at present obtains, should be paid to the qualified Sanitary Inspectors, the scale proposed in para 6 of the Sanitary Commissioner's report is high.

The Council fully recognizes the utility of employing trained Sanitary Inspectors.

Local & Municipal Dept.
CURRENT No. 541 M

From,

M. R. Ry.
P. I. Chinnasawmy Pillay Avargal Rao Bahadur
Chairman, municipal Council, Palghat

To

The Honorable T. F. Price,
Chief Secretary to Government,
Local & municipal Department,
Madras.

Sir,

With reference to G. O. No 1658 dated 16th October 1895 referring the proposals of the Sanitary Commissioner for Remarks, I have the honor to submit the following:-

2 I beg to state that, when a qualified and unqualified candidate offer themselves for employment, the former should always be given the preference. This could be arranged, were the Government pleased to require that local bodies should newly employ as Sanitary Inspectors only those who have passed the intermediate test in Hygiene, after having undergone a training

in the Medical College, madras. The issue of an order of this nature is not without precedent, as, in the case of medical Subordinates, Compounders and midwives, local bodies are required to employ none but qualified persons.

3 As regards the qualifications of the Sanitary Inspectors, I consider that the Chief or the 1st Class Sanitary Inspectors should be either Civil Apothecaries, or P. W. Overseers, and that the 2nd Class Sanitary Inspectors should be either Hospital Assistants, or Sub Overseers, or should have, at least, passed the matriculation Examination. All these persons should undergo a special training at the Medical College in practical Hygiene, and pass the [illegible]lifying examination. Those who take [illegible] place in the list of 2nd Grade Sanitary [illegible] Examination may be graded [illegible] Class Sanitary Inspectors or Assistant Sanitary Inspectors.

4 The District Medical & Sanitary Officer inspects the towns once or twice in a year, and the Sanitary Commissioner, or the Deputy Sanitary Commissioner will, under recent orders of Government, inspect every town once in two years. Under these circumstances, it is of great importance that every town should have a Sanitary officer, who, by his special training, will be fitted to advise local bodies, and to discharge the duties of executive officers under these institutions. With respect to the advantages which would be gained by the employment of medical subordinates as Sanitary Inspectors, I may be permitted to quote the following from the Resolution of the Government of India No 11, Sanitary - 313-326 dated 26th October 1895.

"It will have to be considered whether candidates
"for these appointments should be required
"to go through a full medical course or to obtain
"a medical qualification. Among the advantages
"to be gained from taking officers for the Sanitary
"Department from members of the general body

"of Assistant Surgeons and Hospital Assist-
"ants, who have been through a special course
"of hygiene, would be that the field of selection
"would be wider and that men with medical
"qualifications employed in the Sanitary
"Department and provided with appropriate
"medicines and instruments for treating
"minor ailments, would be able not only
"to afford proper medical relief to many
"who do not now obtain it, but also by this
"means to render their advice in Sanitary
"matters more acceptable than it might
"otherwise be. They would also be extremely
"useful in outbreaks of epidemic disease."

5 If the qualifications required of the Sanitary Inspectors meet with the approval of Government, I beg to suggest that the rate of Salaries proposed by the Sanitary Commissioner as noted in the margin may be sanctioned by Government. The

First Class Sanitary Inspector – On appointment, Rs 75, after three years' service Rs 100 per mensem.

Second Class Sanitary Inspector – On Appointment Rs 45, after three years' service Rs 60 per mensem.

Assistant Sanitary Inspector – On appointment Rs 25, after three

Substitution of trained Sanitary Inspectors in the place of the existing Sanitary agency in each municipality is not possible from a financial point of view, but it would be reasonable to require that each municipality should, at least employ one qualified Sanitary Inspector with a staff of the existing Conservancy Overseers or maistries to be in charge of different sections of the town, under him.

6 In conclusion I beg to request that it may be ruled by Government that it shall be the duty of the Chairman of municipal Councils to consult the Sanitary Commissioner before Sanitary Inspectors are appointed in municipalities, and that the recommendations of the Sanitary Commissioner shall be acquiesced in generally.

I have the honour to be,
Sir,
Your most obedient Servant,

Chairman

"of Assistant Surgeons and Hospital Assist-
"ants, who have been through a special course
"of hygiene, would be that the field of selection
"would be wider and that men with medical
"qualifications employed in the Sanitary
"Department and provided with appropriate
"medicines and instruments for treating
"minor ailments, would be able not only
"to afford proper medical relief to many
"who do not now obtain it, but also by this
"means to render their advice in Sanitary
"matters more acceptable than it might
"otherwise be. They would also be extremely
"useful in outbreaks of epidemic disease."

5 If the qualifications required of the Sanitary Inspectors meet with the approval of Government, I beg to suggest that the rate of Salaries proposed by the Sanitary Commissioner as noted in the margin may be sanctioned by Government. The

First Class Sanitary Inspector – On appointment Rs 75, after three years' service Rs 100 per mensem.

Second Class Sanitary Inspector – On Appointment Rs 45, after three years' service Rs 60 per mensem.

Assistant Sanitary Inspector – On appointment Rs 25, after three years' service Rs 35 per mensem.

Substitution of trained Sanitary Inspectors in the place of the existing Sanitary agency in each municipality is not possible from a financial point of view, but it would be reasonable to require that each municipality should, at least employ one qualified Sanitary Inspector with a staff of the existing Conservancy Overseers or Maistries to be in charge of different Sections of the town, under him.

6 In Conclusion I beg to request that it may be ruled by Government that it shall be the duty of the Chairman of municipal Councils to consult the Sanitary Commissioner before Sanitary Inspectors are appointed in municipalities, and that the recommendations of the Sanitary Commissioner shall be [illegible] in generally.

Sir,

With reference to G.O. No. 1658 dated the 16th of October 1895 regarding the Employment of trained Sanitary Inspectors under Local Boards and Municipalities, as therein proposed by the Sanitary Commissioner for Madras, I have the honor to state that the Council approves of the Sanitary Commissioner's suggestions subject to the Conditions (1) that the Municipalities shall not be required to Contribute from their funds for the Education of these men as in the case of the Medical College and (2) that the Control of the Municipalities in the matter of appointments and punishments, fine, suspension or dismissal, of these men is maintained in its integrity as at present.

(2) The Council further Considers that the rates of pay

pay proposed by the Sanitary Commissioners are, as observed by Government, rather high, as also the number of Inspectors with reference to populations as recommended in para 7 of the Sanitary Commissioners letter embodied in the G. O.

Received

No. 19

ENCLOSURE. 1

SUBJECT.

Informing that the Council does not approve of the high rates of pay proposed by the Sanitary Commissioner for the Sanitary Inspectors in G.O. 1658 M. October 1895

CHIEF SECRETARY
-2 APR. 1896
GOVERNMENT OF MADRAS

Extract from the Proceedings of the Municipal Council Vizianagaram passed at a meeting held on Wednesday the 19th February 1896.

Present

1. M.R.Ry V. Venkatrayasastri garu B.A. Chairman
2. L. C. Miller Esqr Divisional officer & Ex-officio Councillor
3. M.R.Ry K.V. Kristnaraw Pantulu garu, Councillor
4. " G. Baulakristnamma garu, do
5. " N. Pattaiya garu. do

I. Read G.O., No 1658 M., 16th October 1895 referring, for remarks, proposals of the Sanitary Commissioner regarding the employment of trained Sanitary Inspectors and the salaries that should be paid to these officers

Read also letter No 2272 dated the 11th December last from the Sanitary Commissioner giving more definite information in regard to the nature of educational qualifications &c than that contained in the G.O. under reference.

The Council is of opinion that the number of Sanitary Inspectors required for a municipality should be left to the Council and that the area along with population should be taken into account in fixing the number. It is of opinion that the scale of pay recommended is high. Considering the general educational qualifications required and that salaries of the second and third grade

of the Sanitary Commissioner Contained in G.O. No 1658 M 16.10.95 regarding the entertainment of trained Sanitary Inspectors on a Scale of number & pay proposed by him.

× The Municipality having undertaken × to provide Certificated Sanitary Inspectors × does not think it necessary to increase the rate of pay to that Suggested in the G.O.

" A M Sundarasiva Avergal B A.

The Sub Committee is of opinion that the present system is working satisfactorily. As it is difficult to procure off-hand the services of technically qualified men to replace the present Sanitary Inspectors who from their experience are liable to keep the scavengers properly at work; as Dr King's proposal omits the cost of the private scavenging Establishment which must be continued and which if added to his figure would raise it to Rs 524 (not 519); as from a financial stand point Dr King's proposed change would furnish the Municipal Council with only 52 scavengers against 80 under the system now prevailing with only a saving of Rs 114 (not 109); as Dr King's number is altogether inadequate to cope with the work owing to the large number of miles (43) to be kept clean, which when compared with other Municipalities show a much larger area to be cleansed, whose scavenging

Establishment

are quite as large as and in some cases, larger than this council, we recommend the continuance of the present system; but the Committee suggests that whenever a qualified man is procurable, he may be appointed to supervise the work of the Conservancy staff

1331/96

From

M.R.Ry. P. Venkatakrishnayya naidugaru
Chairman, Municipal Council,
Guntur

To

The Chief Secretary to Government
Local and Municipal Department,
Madras.

Sir,

With reference to G.Os nos 1658 M dated 16th October 1895, 56 M dated 11th January 1896 & 302 M dated 20th February 1896, calling for an expression of opinion from this Council on the Sanitary Commissioner's proposal to reorganise the Sanitary staff, I have the honor to submit a copy of the Sub-Committee's report and a copy of the Council's resolution thereon adopted at a meeting held on the 28th Instant.

2 In considering the proposal of the Sanitary Commissioner, it requires to be treated under two heads - firstly - the need for the organisation; Secondly, the scale of pay and grade.

I.

3. I beg to say that the first question has received the very careful consideration of the Council, but it fails to see why a large number of highly paid men, however technically qualified they may be, is required for the ordinary sanitary needs of a Municipality. The duties that ordinarily devolve upon these men are (1) Surface cleanliness of streets, lanes &c; (2) Securing domestic cleanliness, (3) the protection of water sources (4) removing house rubbish and animal refuse outside the outskirts of the town, (5) removal of ruinous & dilapidated buildings and walls, and such like. These objects may be secured by the employment of men of ordinary intelligence with some experience in such matters, and in fact, as far as this Municipality is concerned, the system now in vogue is found working satisfactorily. The whole town is divided into six wards, each being placed under the immediate charge of a Sanitary Overseer who is provided with the requisite staff of Sweepers and Scavengers. By this means, the area to be dealt with by a Sanitary Overseer is limited, and as he has a limited sphere for his concentrated efforts, he is able to keep it in as efficient and effective Sanitary state as is ordinarily required. The Council is therefore of the humble opinion that highly paid men, though technically qualified, are not expected to do more than what is being done by these men.

4 But I beg permission to remark that when the Sanitary Commissioner points out that the water supply is bad and the drainage is defective with a view to get them remedied, neither these men nor the technically qualified men whom the Sanitary Commissioner recommends may be said to be competent to judge of any scheme for water supply or drainage. The present set of Sanitary Overseers are altogether unfit, and the technically qualified men ~~whom the~~ may be considered as on a par with them, for with three & months' training in Hygiene they may not be said to be so far qualified as to grapple with such scientific sanitary improvements as Water supply or drainage schemes. In such cases, the Municipality is entirely beholden to the generosity of the Government, which entertains experienced & competent officers to initiate and carry

carry into effect such sanitary measures.

5. The Council, however, begs to suggest that one trained man, whenever procurable, may be employed by this Municipality to supervise the work done by the Sanitary Overseers and to impress upon the people the attention they have to bestow to avoid insanitary conditions of their habitations. He will be a very useful assistant to the Civil Surgeon who is at present, cooperating with the Municipal executive in such matters.

6 Passing to the second point — i.e. the rates of pay proposed by the Sanitary Commissioner, I am directed to say that they are too high and liberal. A person of the grade of a Hospital Assistant notwithstanding the four years' comprehensive training he receives and the severe examination he undergoes, is made to begin with Rs 25 and end with Rs 55, whereas a Sanitary Inspector undergoing training for 4 months in one subject is promised a pay ranging from Rs 25 to Rs 100. The Council is not in a position to pay such high rates of salary. Both the pay and grade require modification.

9

7 I beg to be excused for the delay in the Submission of these remarks as the Sub Committee appointed to report on the subject took up some time in carrying on correspondence with other Municipalities.

Sir, With reference to your reminder No. 1315 dated 25-3-96 but received only on the 27th at 11-30 a.m. we have the honour to submit our views for the consideration and adoption by the Council.

2. That persons to be employed as Sanitary Inspectors should be selected from the Grade of Hospital Assistants for employment under Local Boards and Municipalities.

3. That after selection the Municipal Council should send them to Madras to undergo at least 3 months course of lectures on Hygiene in the Madras Medical

medical college.

That each Municipality should at least have one qualified Sanitary Inspector to look after the Sanitation of it respective institutions.

That Government should by a notification compel each municipality to have an Hospital assistant Sanitary Inspector after a certain date.

That the present staff of Sanitary Inspectors should either be dispensed with after giving them a months notice or employed as assistant Sanitary Inspectors or Sanitary maistries on a reduced pay under the qualified head of Sanitary Inspector.

That to give time to the present staff of Sanitary Inspectors to qualify themselves by undergoing 3 months lectures on Hygiene in the Madras medical College and ultimately to be employed as Sanitary Inspectors on the salaries proposed by Doctor King is simply useless; for their Education is so—

poor

have made the above [illegible]
accordance with instruc
comment of India
month of [illegible]
as to require them to undergo a
lectures on Scientific subjects as
sanitation
scrutiny that they pass the examina
by cramming, their knowledge would
to the public subsequently
forget everything as soon
the College. Besides they
not be able to cope with the
advance of Sanitation by
keeping books and
published from time to
on Sanitation
paramount importance to
hospital assistants as Sanitary
for they are not on a

would save Municipal Council
during outbreaks of epidemic diseases
from resorting to ~~extra~~ medical for-
help.

11. The above system if adopted, would
also be a successful one in a financial
point of view

12. That Hospital Assistants whose
employed as Sanitary Inspectors should
prohibited from private practice
13. Their transfer, promotion, suspen
and dismissal should be vested
the Sanitary Commissioner subject
control of the Sanitary officers
Medical & Municipal Council.

14. Their pay should be graded
as follows:— inches
Rs 15— by Inspectors from on
do do from
employed in Hygiene in
College and re— do from
Sanitary Su— Rs
proposed by Doctor King is simply
useless; for their Education is so—
poor

Chairman,
Municipal Council,
Tellicherry.

To.

The Chief Secretary to Government
Fort St George.

Sir,

With reference to G. O. No. 1658. M.
dated 16th October 1895, referring for remarks proposals of
the Sanitary Commissioner regarding the employment of
trained Sanitary Inspectors, and the salaries that should
be paid to them, I have the honor to enclose extract from
the Council's Proceedings, dated 19th June 1896, recording
its opinion that the rates proposed by the Sanitary Commissioner
appear to the Council to be too high for this Municipality,
which has but a small extent, and whose resources are limited.

2. The Sanitary Inspector of this Municipality
underwent a course of training in Hygiene at the Medical
College Madras, in 1895 and is as such a duly qualified
man. There are, besides, two Sub Inspectors, who have
had a service of more than 5 years. There is not, therefor
a necessity at present for replacing these officers.

I have the honor to be,
Sir,
Your most obedient servant

V. Karunakara

Subject.

Submitting remarks of the Council passed at a meeting held on the 6th July 1896 regarding the employment of trained Sanitary Inspectors

Proposals of the Sanitary Commissioner regarding the employment of trained Sanitary Inspectors under Local Boards & Municipalities.

Kept separately

A

Local and Municipal Department.

Again G.O.No.1658 M., dated 16-10-95, Read files of replies to the same from the Presidents of District Boards and Chairmen of Municipal Councils.

[redacted]

For orders.

In the Government order read above, the following proposals made by the Sanitary Commissioner were referred to all District Boards and Municipal Councils for remarks, with the observation that it does not at present appear necessary to employ so numerous a staff as that suggested by Dr. King for Municipalities, nor to pay it at such high rates as those proposed by him:-

(1) Local Boards and Municipal Councils should not newly employ any person as Sanitary Inspector after April 1896, unless he holds a certificate showing that he has passed the intermediate test in Hygiene, after having undergone a course of training in the Madras Medical College, including both a theoretical and practical course of Hygiene.

(2) Any Sanitary Inspector now employed and not having a total service with the local body concerned of over five years should be required to pass the

the necessary examination within two years or, subsequent to that period, be paid at a rate below an assistant Sanitary Inspector and rank as a conservancy overseer.

(3) In justice to the men now employed and with the object of securing a steady demand for such vacancies as occur in future, Sanitary Inspectors should be classed for grade and pay as follows:-

First class- On appointment Rs.75 and after three years' service Rs.100 per mensem.

Second class- On appointment Rs.45 and after three years' service Rs.60 per mensem.

Assistant Sanitary Inspector.- On appointment Rs.25 and after three years' service Rs.35 per mensem.

(4) At least one qualified Sanitary Inspector (subject to the conditions mentioned in clause (2) above as to former service of present incumbents) should be employed in municipal towns having populations below 20,000 and for this number two men, and for every 10,000 above this number one additional man.

(5) The Chief Sanitary Inspector of any town of between 15,000 and 40,000 inhabitants should be of a grade not less than the second class and in municipalities having more than this population there should be at least one of the first class.

justify special grade examinations, first and second class appointments should be opened for competition after examination for physical fitness among qualified Sanitary Inspectors and nomination by the Sanitary Commissioner and the Municipal Councils concerned.

2. The letters read above contain the replies of the local bodies and the following is a summary of the same:-

(1) The President of the District Board of Malabar says that the Board has no remarks to offer.

(2) The District Board of Anantapur merely states that it cannot approve of the proposals contained in the Government order.

(3) The Local Boards of South Canara, except the Taluk Board of Mangalore, and the District Boards of Nellore, Nilgiris and Madura report that there is no necessity to appoint Sanitary Inspectors in their districts.

(4) The North Arcot, Chingleput, Bellary Cuddapah, Salem and Vizagapatam District Boards state that the Sanitary Commissioner's proposals cannot be carried out by them for want of funds. The Presidents

(5) The District Board of Tanjore thinks that until some means of enabling Sanitary Inspectors to act effectually are provided by law, there is no use of appointing them merely to preach sanitation.

(6) The District Board of South Arcot does not consider it advisable to entertain

any

^ of the North Arcot and Godavari District Boards state that the Sanitary Commissioner himself has withdrawn his proposals in regard to Local Boards on receipt of G.O No. 1686, dated 14th September 1895, requiring that one half of the receipts from land cess plus the net income from tolls should in future be spent on roads.

any Sanitary Inspector as there is no difficulty in discovering sanitary defects, but the difficulty is to remedy them and ~~that~~ the appointment of a few such men will not prove a solution of the problem. In forwarding the Board's resolution the President says that in view of the small expenditure now incurred on sanitation in the rural tracts there is no need whatever for such a highly paid staff of Sanitary Inspectors. The first essential is to provide funds for sanitary works and when this is done it will be true to appoint a special ~~staff~~.

(7) The District Board of Ganjam cannot afford to pay the proposed Sanitary Inspectors. It is doubtful as to how far such men would be really useful, as they can merely submit recommendations for improving sanitation which cannot be carried out and there would be difficulty about supervising them.

(8) The President of the District Board Godavari, ~~replies~~ reports that for want of funds all the taluk boards except Ellore are not prepared to adopt the Sanitary Commissioner's proposals. The Ellore Taluk Board is in favour of entertaining a second class Sanitary Inspector for the three taluks under its control, but the President doubts whether this board can afford the luxury. As observed by the Rajahmundry Board, he thinks that the class of officers recommended by Dr. King are better suited for urban than for rural areas. He invites the attention of Government para 5 (3) of G.O.No.371 L. dated 20th February 1893, in which similar proposals made by the Local Boards were ~~noted~~ voted by Government. He states that the work to be done by the proposed agency may conveniently be done by one of the agencies already in existence and that he awaits the proposals of the sub-committee appointed by the District Board in December 1895 to report upon the question of the re-organization of the different departments.

(9) The Coimbatore District Board is in complete accord with the Sanitary Commissioner in regard to the importance of sanitation and will endeavour in the ~~with~~ next budget to add to the grant under that head, but it is strongly opposed to the idea of merely adding to the number of its reporting officers. It has even now many estimates for works to be sanctioned. What it requires is money to carry out the works. This is the chief need and to spend a considerable amount as is now proposed or simply adding to its reporting agency will only intensify it. In forwarding the District Board's resolution, the President says that the proposals appear to be quite impracticable with the funds at the disposal of the Local Boards and that they represent an ideal to which the District Board aspires, but which is at present utterly beyond its means.

10. The District Board of Kurnool thinks

thinks that the Sanitary Commissioner's proposal is a good one, but that the rates of salaries fixed are rather high. In for-warding the Board's resolution, the Presi-dent says that in view of the small ex-penditure now incurred on sanitation in the rural tracts, there is no need what-ever for such a highly paid staff of Sanitary Inspectors. The first essential is to provide funds for sanitary works and when this is done it will be time to appoint a special staff.

(11) The District Board of Tinnevelly approves of the resolution of the Tinnevel-ly Taluk Board proposing the entertain-ment of an assistant Sanitary Inspector on Rs 25 per mensem.

(12) The District Board of Trichinopoly recognizes the desirability of employing trained Sanitary Inspectors where possible with due regard to the state of the finances but does not consider it necessary to insist on any fixed scale of pay in the case of these men as they would probably go to some districts on smaller pay than to others. This Board has already resolved to entertain two Sanitary Inspectors on Rs 45 each per mensem.

(13) The District Board of Kistna has re-solved to relieve the Taluk Boards of the cost of the sanitary establishments. It considers that trained hospital assistants should be employed as suggested by the District Medical officer and approves of the following scale of emoluments proposed by the President. The Board thinks that the Sanitary Inspectors should not be allowed to take private medical practice and that each

each of them should have one peon on Rs 7.

Guntur Tk.Bd.	First class	Rs 75-100	
Bezwada ,, ,,	Second ,,	,,	50-75
Vinukonda ,, ,,	,,	,,	50-75
Masulipatam ,,	Third ,,	,,	40-50

Pay to rise in five annual increments and to include ~~pay and~~ batta.

3. (1) The Municipal Councils of Tinne-velly, Bimlipatam and Wallajanpet have merely recorded the Government order. The Chairmen of the last named two councils (Bimlipatam and Wallajah-pet) however add that the councils are not in a position to pay high salaries as those proposed by the Sa-nitary Commissioner.

(2) The Adoni Council states that the subject will be considered when funds are available.

(3) The Conjeeveram Council says that its present finances will not permit of the Sanitary Commissioner's proposals being entertained.

(4) The Chicacole Municipal Council thinks that the question of sending a man for training may be put off for the present and considered at the next year's budget meeting.

(5) The Coimbatore, Erode and Guntur Municipal Councils think that the present staff is sufficient and may be continued. The Guntur Council further thinks that the rates of pay proposed are too high.

(6) The Negapatam Council is of opinion that the proposed scheme is a cost-ly one and beyond its means. It has already entertained a Chief Sanitary Inspector on Rs 65 including horse allowance and 4 Sanitary Inspectors on salaries ranging from Rs 15 to Rs 20.

(7) The Municipal Council of Trichinopoly having undertaken to provide certifi-cated Sanitary Inspectors, does not think it necessary to increase the rate of pay to that suggested by the Sanitary Commissoiner and the Chairman adds that three men are now under training in the Madras Medical college.

(8) The Bellary, Calicut, Cuddapah, Coonoor Dindigul, Kumbakonam, Madura, Masulipatam, Mayavaram, Nellore, Parlakimidi, Palni, Periyakulam, Salem, Srirangam, Tanjore and Vellore Councils concur in the views expressed by Government in paragraph 2 of the order. The Tanjore and Mayavaram Councils think that one trained Sanitary Inspector on moderate pay would be sufficient for their towns. The Municipal Council of Madura states that new men need not be appointed in future as Sanitary Inspectors unless holding a certificate where such men are available, and that Sanitary Inspectors of less than five years' service should be required to pass the necessary examination at the first opportunity after training, in default of which they should be reduced. The Cuddapah Council says that municipalities should not be required to contribute from their funds for the education of these men as in the case of the Medical college and that

The Periyakulam Council states that one Sanitary Inspector for a town having 20,000 inhabitants and under, and an additional man for every 10000 will be sufficient and that the pay of these men may range from Rs 20 to Rs 50. In forwarding this resolution the Sub-Collector (Mr. Batten) says that it would be better to have one really efficient Sanitary Inspector for a group of municipalities and that this would be better than having one man on small pay for each municipality, but this suggestion was rejected by Government (G.O. No.245 M./12-2-96.) *G

* The suggestion was not rejected. It was merely not taken up the general question being before Govt. S.V.T. 10/11/96

that the control of municipalities in the matter of their appointments, punishments, fine, suspension or dismis-sal should be maintained in its inte-grity as at present.

(9) The Municipal Councils of Anakapalle, Cocanada, Cochin, Cannanore, Ellore, Karur, Mangalore, Palamcottah, Rajah-mundry, Srivilliputtur, Tirupattur, Tirupati, Tellicherry and Vaniyambady approve generally the proposals of the Sanitary Commissioner, but consider that the rates of pay suggested are too high. The Cannanore, Tirupati, Mangalore, Srivilliputtur and Vizagapatam councils propose the following scale of salaries:-

		Tirupati	Cannanore
		Rs Rs	Rs
1st Class	Sany. Inspr.	60-75	40 after 3 years Rs50
2nd ,,	,,	30-45	25 ,, 35
3rd ,,	,,		15 ,, 25
Assistant	,,	15-25.	

	Mangalore.	Srivil-liputtur.	Vizaga-patam.
1st class	Rs 45-3-60	Rs 35-3-50	Rs60-5-80
2nd ,,	,, 30-2-40	,,25-2-35	,,35-5-50
3rd ,,	,, 25-1-30		
Assistant Inspr.		,,15-2-25	,,20-2½-30

+ Exclusive of horse allowance.

⊖ Increments to commence after 3 years' service and the last two classes to draw the pay of the higher classes after reaching the highest pay of their classes and qualifying themselves by examinations.

The Mangalore Council thinks that the number of Inspectors to be employed should be determined according to the requirements and circumstances of each town and the Srivilliputtur

Council

Council makes the following suggestions.

(a) In muncipalities with a population of less than 20.000, one Assistant Sanitary Inspector,

(b) In municipalities with population of from 20,000 to 40,000, one second grade Sanitary Inspector for the first 20,000 and one Assistant Sanitary Inspector for every 10,000 above 20,000,

(c) In municipalities with a population of over 40.000, one first grade Sanitary Inspector and a second grade Sanitary Inspector and an Assistant Sanitary Inspector for every 10,000 over 40.000,

The Vizagapatam Council considers

(1) that in every town containing a population of 15,000 one Sanitary Inspector should be employed, and

(2) that in towns having a population of between 20,000 and 40,000 one Sanitary Inspector of the 2nd class and two assistants should be entertained and

(3) In towns having a population of more than 40,000 there should be at least one first class Sanitary Inspector.

(10) The Ootacamund Municipal Council approves of the Sanitary Commissioner's proposals, but in view of the fact that living is very expensive on the Nilgiris and that suitable men cannot be secured easily for these posts, proposes the following rates with a pony allowance of Rs ~~15~~ 17, without which it is stated that Inspectors cannot do their work satisfactorily on the hills.

	On appointment.	After 3 years.
1st class	,, Rs 75	,, Rs 100
2nd ,,	,, ,,50	,, Rs 60
Assistant	,, ,,45	,, Rs 55

(11) The Chairman of the Municipal Council, Tuticorin says that the Council has adopted the Sanitary Commissioner's proposals and appointed recently a qualified Sanitary Inspector on Rs 25+7½ horse allowance and has also resolved to send two other men for training at the beginning of next year.

(12) The Berhampore Council resolved to appoint an Assistant Sanitary Inspector on Rs. 25 rising to Rs 35 after 3 years' approved service, with a horse allowance of Rs 7-8 and this proposal has been sanctioned in G.O.No.978 M. dated 11-6-96. The Municipal Council of Ongole objects to the salaries and grades proposed, and says that an Assistant Sanitary Inspector is sufficient.

(13) The Cuddalore Municipal Council states that it has provided in the budget for 1896-97 for the employment of an Inspector on Rs 30-5-50 with a pony allowance of Rs 15.

(14) The Municipal Council of Chidambaram considers that a maximum pay of Rs 30 for its Sanitary Inspector would be sufficient.

(15) The Municipal Council of Anantapur concurs with the Sanitary Commissioner

* Biennial increments

Commissioner in his opinion that it is very desirable that trained men should be entertained.

(17) The Bezwada Council states that trained men will be appointed when vacancies occur.

(18) The Municipal Council of Kurnool thinks that local bodies should be free to employ the requisite number of men according to their requirements and to pay them according to their means, and that whenever a Sanitary Inspector is employed by any municipal council or district board in future, he should be a trained man.

(19) The Municipal Council of Gudiyattam, while fully recognizing the utility of employing trained Sanitary Inspectors, thinks that the number of men to be appointed for each municipality should depend not only on population, but also on local circumstances such as the situation of the several villages comprised in it, and that a higher scale of pay than at present obtained should be paid to qualified men, but that the scale proposed in para 6 of the Sanitary Commissioner's letter is high.

(20) The Municipal Council of Vizianagaram is of opinion that the number of Sanitary Inspectors to be appointed for each municipality should be left to the Council, that the area and population should be taken into consideration in fixing the number, that the scale of pay recommended is high considering the general educational qualifications

I am afraid men of these classes can't be trained for sanitary work generally. They are required for their own hospital work

BA

salaries of the second and third officers may be fixed at Rs 20 to 35 and Rs 15 respectively.

(21) The Chairman of the Municipal Council, Palghat, in whose views the Council concurs, suggests that the chief or first class Sanitary Inspectors should be either Civil Apothecaries or D.P.W. overseers, that the second class men should be either hospital Assistants or sub-overseers or should have at least passed the Matriculation examination, that these men should undergo a special training in the Madras Medical college in practical Hygiene and pass the qualifying examination, that those who take a low place in the list of second grade Sanitary Inspector's examination may be graded as third class Sanitary Inspectors or Assistant Sanitary Inspectors, that every town should have at least one qualified man, that if the qualifications proposed meet with the approval of Government the following rates of salary may be sanctioned and that it may be ruled by Government that it shall be the duty of all Chairmen of Municipal Councils to consult the Sanitary Commissioner before appointing these men, the recommendations of that officer being acquiesced in generally:-

1st Class.	On	Rs 75	After 3 years	Rs 10
2nd ,,	,,	,,45	,,	,,6
Assistant	,,	,,25	,,	,,3

...ipal Council ... the following su... tions of the Sub-Committee appointed by it to consider the subject:-

(a) Persons to be employed as Sanitary Inspectors should be selected from the grade of Hospital Assistants.

(b) After selection, the Municipal Council should send them to Madras to undergo at least 3 months course of lectures on Hygiene in the Medical college.

(c) Each municipality should at least have one qualified man to look after the sanitation of its respective institutions.

(d) The Government should by notification compel each municipality to have an Hospital Assistant Sanitary Inspector after a certain date.

(e) The present staff of Sanitary Inspectors should either be dispensed with after giving them a month's notice or employed as Assistant Sanitary Inspectors or Sanitary Maistries on reduced pay under the qualified head of Sanitary Inspector.

(f) It is useless to give time to the present staff to qualify themselves by ~~attending~~ allowing three months' lectures on Hygiene in the Madras Medical College with a view to employ them ultimately as Sanitary Inspectors on the salaries proposed by Dr.King, as their education is so poor as to unfit them to understand a lecture on scientific subjects as

...sidering the general educational ... qualifications

as sanitation.

(g) Even supposing that these men pass their examination by cramming, their knowledge would be of no use to the public subsequently as they will forget every thing as soon as they leave the college. Besides, they being men of very poor attainments would not be able to cope with the present advance of sanitation by reading and grasping books and pamphlets published from time to time on sanitation.

(h) It is of paramount importance to employ Hospital Assistants as Sanitary Inspectors, for they are not only useful as Superintendents of sanitary matters, but also of much service as medical men during outbreaks of epidemics when the Councils need not resort to extra medical help.

(i) The above system if adopted would also be a successful one in a financial point of view.

(j) Hospital Assistants when employed as Sanitary Inspectors should be prohibited from private practice.

(k) Their transfer, promotion, suspension and dismissal should be vested in the Sanitary Commissioner, subject of course to the control of the District Medical and Sanitary officer and the Municipal Council.

(l) Their pay should be graduated

as

as follows:-

1st Class	Rs 60 to Rs 90	plus Rs 15 horse allowance
2nd ,,	,,40 to ,,60	
3rd ,,	,,25 to ,,40	

(13) Promotions to higher grades should be given on length of service as well as on proved ability and merit.

The Sub-Committee says that the above suggestions have been made in strict accordance with instructions issued by the Government of India on this subject in the month of October 1895 vide G.O.Pub.Depatt.No.1000, dated 9th December 1895.

NOTE FOR THE

H. M.

Local Bodies generally are not favourable to Dr. King's scheme. As anticipated by the H. M. when the reference was made (Notes with G.O. 16/10/96 no 1658-67) the rates of pay proposed are considered unnecessarily high, while the staff proposed for the population-area is deemed larger than need be.

So far as District Boards are concerned the scheme may be left out of the question, at any rate for the present.

The case of Municipalities requires more consideration.

The Sanitary training class established in the Med. College under the G.O. no. 1914 M. D. 10th Dec. 94 has been on the whole very successful. In 1895 there were 54 students & in 1896 as many as 96. Probably a considerable measure of its popularity is due to the lavish proposals of Dr. King as to pay & prospects of future em-

HS

Inspectors. This year there were 59 private students & 37 Municipal employees – the latter being sent up by the Unions, & receiving instruction free – vide paras. 16 & 18, pages 16 & 17 Fo. No 667 d. 21st Oct. 96. Ed:.

There being thus a fair prospect of securing a sufficient supply of trained candidates, Govt. might safely lay down the 1st of D. King's rules & declare that after 1pi 97 (or 98) a Municl. shd not employ any person as a San. Inspr. unless he holds an Intermed. certificate in Hygiene after a course in the Med. Coll.; & also 2ly that any San. Inspr. now employed with less total service than 5 years shd be required to pass the exam: within two years.

Meantime I think no scale of gradation need be prescribed; Unions might be left to decide, subject to Govt. revision of the budget, what pay they can afford to offer, & procure trained men accordingly. D. King is always willing to send the best man he can

dont think we can lay any absolute rule, but 25 could recommend would be that every Municl. must pay to every passed man on Rs 20. Perhaps this might be that Municls with ob taining 30000 the Inspr. should pay as Rs50 future Sanitary Inspectors

have not less than 3 men on Rs 30 or more, more of the third

[L. & M. 200—6/96.]

Rs
or not less than 20.

4. In every case Rs 15 horse allce should be given to the man he is required to keep and use for inspy.

5. Municls or combinations of Municls employing 9, 10, 12 certainly not more than 15 shd be employed in such a number as required according to local circs for the supervision of Sanys inspectors – Latrine cart &c. These might all be superintended by one Sanitary Inspector.

I think in Municls of 20 or 25 thousand inhabts. & upwards, the appointment of a Municl Sanitary Officer should be insisted on. Please consult the Hon'ble Arundel whether he & you think this would be too much.

DO
1/11/96

I think H.M's rules 1. 4. 5. are throughly sound. 2 & 3 are I think too rigid. They might be recommended as ordinarily desirable but open to modification according to local conditions & needs.

HA
5.12.96

H.M. I agree except that I approve Scale recommended in rules (2) & (3) as a minm to wh. I do not think any Municl can be asked to subscribe, but I would not fix the scale as a maximum

19

NOTE FOR THE

for the money. Nor is the same rate of pay required in every district. Gungam must offer more than Tanjore to secure the same qualifications. Already a large number of trained men have been employed by Unions at very different rates of pay.

The next question is whether Govt. shd fix a scale of sanitary establt with reference to population.

D. King proposed as a minm (para. 7 of letter to G.O. 16 Oct 95)

1 San. Inspr. for towns below 20,000
2 . of 20,000
1 " . additional for every additional 10,000

And he also defined the qualifications they shd possess, & consequently the pay they shd receive.

The scale is certainly not extravagant if the Unions are not to be bound to employ as San. Insprs the highly paid men prepared by D. King but left are

I don't see why this rule should be brought into force at once, & suffer by the alteration I have made in red ink

WS

Inspectors. This year there were 59 private students & 37 Municipal employees — the latter being sent up by the Cities, & receiving instruction free — vide paras. 17 & 18 pages 16 & 17 Fo. No 667 d. 21st Oct. 96 Ed:.

There being thus a fair prospect of securing a sufficient supply of trained candidates, Govt. might safely lay down the 1st of D'Kings rules & declare that after 1st April 97 (or 98) a Municl. Ch'd not employ any person as a San. Inspr. unless he holds an Internedt. certificate in Hygiene after a course in the Med. Coll.; & also 2ndly that any San. Inspr. now employed & with less total service than 5 years shd be required to pass the examn. within two years.

Meantime I think no scale of pay or gradation need be prescribed; Mcties. being left to decide, subject to Govt. revision of the budget, what pay they can afford to offer, & procure trained men accordingly. D'King is always willing to send the best man he can

don't think we can lay down any absolute rule, but 25 would recommend would be that every Municipality must have one trained man on Rs 20 — Perhaps this might be that Municipalities with a population of 30000 the husband of the Chairman Rs 50 King as Sanitary Inspector

future Chairman

[L. & M. 200—6/96]

Rs
or not less than 20 —
4. Railway cases Rs 15 horse allce should be given & the man be required to keep and use it.
5. Maistries or overseers or subordinates of pay not 9, 10, 12 — certainly not more than 15 — shd be employed in such numbers as required according to local circs — under the supervision of Sanitary Inspectors — Latrine cartmen &c. There might all be superintendence under one Municipal Officer —

I think in Municipalities generally afford such a scale, & that it would be a great improvement in that respect, without being too burdensome. Please consult the Hon'ble Arundel & let me know what he & you think

DO
1/11/96

I think H. M's rules 1. 4. 5. are strongly sound. 2 & 3 are I think too rigid. They might be recommended as ordinarily desirable but open to modification according to local conditions & needs.

KA 5.12.96

H.H. I agree except that I approve Scale recommended in rules (2) (3) as a minm to us. I do not think any duty can be laid down but I would not fix the scale of pay

19

File of replies to the above G.O., from the Presidents of District Boards and Chairmen of Municipal Councils.

~~From~~

Kept separate

ORDER No 4 dated 4-1-97

In the Government order read above the proposals made by the Sanitary Commissioner for the employment of trained Sanitary Inspectors by Local Boards and Municipal Councils were referred to the local bodies for remarks, with the observation that it does not at present appear necessary to employ so numerous a staff as that suggested by him for municipalities, nor to pay it at the high rates proposed.

2. After a careful consideration of the replies received, His Excellency the Governor in Council is of opinion that so far as the Local Boards are concerned the proposals may be left for consideration, at any rate for the present. In the case of municipalities however, the Govt resolves to make rules for their guidance:-

(1) No municipal council shall newly employ

Note Is it necessary to issue these formally as rules having the force of law?

Yes. Please print order + draw form

19/12/96

employ any person as a Sanitary Inspector on Rs.20 or upwards unless he holds a certificate of having passed the Intermediate test in Hygiene.

(2) All Sanitary Inspectors now employed in municipalities on Rs.20 or upwards and with less than five years service shall be required to pass the test mentioned above within two years, failing which their salaries will be reduced.

(3) Every municipal council shall employ at least one trained Sanitary Inspector.

(4) Maistries and Overseers not exceeding Rs.15 per mensem should be employed in municipalities for the supervision of gangs of sweepers, latrine carts, &c, in such numbers as may be required according to local circumstances.

3. The Government would also recommend the following suggestions for adoption by municipal councils:-

(1) Municipalities with a population exceeding 30,000 inhabitants shall employ not less than two trained Sanitary Inspectors; and

(2) Municipalities with a population exceeding 50,000 inhabitants shall employ not less than three trained Sanitary Inspectors.

4. The following will be the minimum scale of pay allowed to Sanitary Inspectors, who will be required to keep and use a pony and be paid a horse allowance of Rs.15:-

Municipalities

Municipalities with a population exceeding 50,000

1 Sanitary Inspector on Rs.70
1 .. do .. Rs.35
1 .. do .. Rs.20

Municipalities with a population exceeding 30,000.

1 Sanitary Inspector on Rs.50
1 .. do .. Rs.20

Municipalities with a population of 30000 and less.

1 Sanitary Inspector on Rs.20.

4 Chairmen of Municipal Councils should consult the Sanitary Commissioner before appointing men as Sanitary Inspectors. It would be of advantage to select them from the grade of Hospital Assistants who have passed the intermediate test in Hygiene, if available.

(From orders)

thinks that the Sanitary Commissioner's proposal is a good one, but that the rates of salaries fixed are rather high. In for-warding the Board's resolution, the Presi-dent says that in view of the small ex-penditure now incurred on sanitation in the rural tracts, there is no need what-ever for such a highly paid staff of Sanitary Inspectors. The first essential is to provide funds for sanitary works and when this is done it will be time to appoint a special staff.

(11) The District Board of Tinnevelly approves of the resolution of the Tinnevel-ly Taluk Board proposing the entertain-ment of an assistant Sanitary Inspector on Rs 25 per mensem.

(12) The District Board of Trichinopoly recognizes the desirability of employing trained Sanitary Inspectors where possible with due regard to the state of the finances but does not consider it necessary to insist on any fixed scale of pay in the case of these men as they would probably go to some districts on smaller pay than to others. This Board has already resolved to entertain two Sanitary Inspectors on Rs 45 each per mensem.

(13) The District Board of Kistna has re-solved to relieve the Taluk Boards of the cost of the sanitary establishments. It considers that trained hospital assistants should be employed as suggested by the District Medical officer and approves of the following scale of emoluments proposed by the President. The Board thinks that the Sanitary Inspectors should not be allowed to take private medical practice and that each of them should have one peon on Rs 7.

Guntur Tk.Bd. First class Rs 75-100
Bezwada ,, ,, Second ,, ,,50-75
Vinukonda ,, ,, ,, ,,50-75
Masulipatam ,, Third ,, ,,40-50

Pay to rise in five annual increments and to include ~~pay and~~ batta.

3. (1) The Municipal Councils of Tinne-velly, Bimlipatam and Wallajanpet have merely recorded the Government order. The Chairmen of the last named two councils (Bimlipatam and Wallajan-pet) however add that the councils are not in a position to pay high salaries as those proposed by the Sa-nitary Commissioner.

(2) The Adoni Council states that the subject will be considered when funds are available.

(3) The Conjeeveram Council says that its present finances will not permit of the Sanitary Commissioner's proposals being entertained.

(4) The Chicacole Municipal Council thinks that the question of sending a man for training may be put off for the present and considered at the next year's budget meeting.

(5) The Coimbatore, Erode and Guntur Municipal Councils think that the present staff is sufficient and may be continued. The Guntur Council further thinks that the rates of pay proposed are too high.
