Sir,

In forwarding herewith an extracts from the minutes of proceedings of the Municipal Council Tirupati passed at its general meeting held on the 6th Instant I have the honour to state that the Council has sanctioned the continuance of the services of the bubonic plague detective at the Tirupati East Railway Station until further orders his pay being met from the allotment of Rupees 100 specially provided under "Cholera Charges" in the revised estimate for the current official year.

[illegible] reqd. in office

2 With reference to para 2 of G.O. No: 175 M. Mis: dated 6th Instant I beg to submit that I already consulted the Sanitary Commissioner and who in response, has informed me that it was for me to decide whether I could not arrange for the observation of Railway Stations without special appointment being made. In this connection I might state for your information that all the toll gate keepers attached to this Municipality have been strictly directed to

perform the duty of observation of persons arriving at their gates from places affected with the aforesaid plague and that the detective at the Renigunta Railway Station having been found in no way better than the one at the Tirupati East Railway Station who attends to the observation of all persons arriving at that Station both day and night, the man posted at the former station for this purpose has been stopped from the 1st Instant in pursuance of the resolution of the Council dated 11th January last.

3 Under the circumstance I beg to request that you will be so good as to obtain the sanction of Government for the retention of the detective at the Tirupati East Railway Station until further orders. Necessary proposition statement is herewith submitted.

I have the honor to be
Sir
Your most obedient servant.

Enclosure.

SIR,

With reference to your endorsement No. 252 dated 2nd March 1897, I have the honor to state that I am of opinion that Tirupati is a locality that requires special observation as to possibility of outbreak of plague. It may safely be said that a small but continuous stream of pilgrims arrive at Tirupati from the Bombay Presidency. They resort within the town to Pilgrim houses which are in anything but good Sanitary Condition, and thence proceed to Upper Tirupati where conditions are of a worse type.

2. Pilgrims alight both at Renigunta and East Tirupati from the trains. Tirupati Municipality has not a Certificated Sanitary Inspector - although I believe a man has been sent up for training to Madras. A "detective" on Rs 7/- would I believe be of no utility.

3. I would therefore suggest the following arrangements:-

The

The Municipality should be required to entertain a Certificated Sanitary Inspector as a temporary measure, till the question of passing or not of its nominee has been ascertained. As the Council is hard pressed for funds, the minimum salary for which such a man can be obtained might be laid down, namely, Rs 20 plus Rs 15 horse allowance. The District Board should be also required to post a Certificated Sanitary Inspector on the same pay at Renigunta, and at Upper Tirupati. I may add that I have, year by year in connection with the festival at Upper Tirupati and when passing remarks upon the Budget of the North Arcot District Board, pointed to the necessity there exists for appointing either a hospital Assistant or a Certificated Sanitary Inspector at the latter place. I think the appointment of either one or the other at the present moment is of importance.

I have the honor to be,
Sir,
Your most obedient Servant,
W G King
Surgeon Lieut Col.
Sanitary Commissioner for
Madras
