This Municipality in respect of trades carried on under Section 188 of Act IV of 1884, is to require from each Sanitary Inspector at the commencement of each official year a list of the persons who are exercising the trades, and upon the receipt of such list to issue the notice (Copy enclosed) through the Inspector concerned.

It will be apparent from this that the statement "that licenses were issued from the Municipal Office without any preliminary enquiry by the Sanitary Inspector being required by the Chairman" &c. &c. is not correct, and was apparently made to pacify Dr. King.

The number of licenses issued for the year 1896-97 is five only. and where the "numerous other bakeries" which Dr. King writes about are situated, is not known, in as much as the Sanitary Inspectors have not included them in their lists.

The greater portion of the bread and biscuits sold in the Bazaars which is eaten by the natives is made not only in the so called "bakeries" noticed by Dr. King, but also in native houses, and my experience in this Municipality is, that without the aid of a most efficient detective agency it is impossible to trace who the persons are who bake bread and biscuits made for sale in the bazaars.

He

The conditions prescribed in a license for a bake house will convince the Government that every care has been taken to ensure that such houses shall as far as possible be kept in a proper condition, and that they shall be inspected by the certificated Sanitary Inspectors.

Note - The general order in force issued on the 10th August 1892. to Sanitary Inspectors regarding licenses is as follows:-

"The licenses issued for any of the purposes described in Sec. 188 (1) must be frequently overhauled, to prove whether the conditions prescribed therein are faithfully carried out or not."

I have the honor to be,
Sir,
Your most obedient servant,

W. Hammett
Chairman
