Note The Municipal Council can close a well, which it considers is likely to prove injurious to the health of the neighbourhood. Vide Sec 227 of Act IV 1884.

SUBJECT.

Praying that in the circumstances stated orders may be issued to the Municipal Council, Raywada not to close the well in Wyanchpett as there is no other source of water supply.

His Excellency the Right
Honorable the Governor in Council
13 MAR 1897
Fort Saint George
GOVERNMENT OF MADRAS

Madras
The humble representation of undersigned
inhabitants of Wynchpett, in Bezmada,
Kristna District
Most respectfully and humbly sheweth.

That, when Mr. A. J. Arundal was
the collector of the district and Mr. L. M. Hynes
was the Head Assistant of the place, we were
forcibly removed from our houses in the old
town as we were given sites for building
purposes in a very distant place from the
town. The place where we built new houses
was styled 'Wynchpett'.

- That there was no source of water for our
drinking and domestic purposes. The municipality
during Mr. F. C. Parsons time has sunk a
well for our use on the western side of
'P. indigattu'. To our great fortune, the well
has a supply of the best water available
in the town from a subterranean spring
flowing into the well.
- That ever since this well was sunk (is) for
the last 7 or 8 years, all parts of people
have been using this water and we beg to
submit that no complaints were ever made
or heard, that by the use of that water of the
well, any person lost his health. On the other
hand, we submit, that those who lost their health

have been reconnoitering it by the use of this water.
4) That except this well there is no other public
source of water than the river Kistna from
which we are allowed to take water.
The river Kistna is more than a mile and a
half distant from our petta and the difficulties
and troubles we have to undergo generally
in all seasons and much more in this
hot season, may better be imagined than
described. All of us are persons living from
hand to mouth and when we feel it difficult
even to keep the body and soul together
by our earnings it cannot be supposed that
we can engage water carriers. Most of us
being Mohammedans and our females do not appear
in public, and thus we ourselves who have
to work from morning to sunset for our daily
bread are not able to travel long distances
to bring water and thus lose any time. Loss of
any portion of day-time means to us only a
proportionate reduction in our daily wages,
which in other words, is only a reduction in
our daily bread.

5) To our great misfortune our Municipal
council closed the well though reluctantly
under the instructions of the Local Apothecary,
we have represented in the above paragraphs
that the water of this well is the best available
well-water in the town and even supposing
there is any defect in it, it is not fair on the
part of the Local authorities to close the
well altogether instead of remedying the defect.

Before they closed the well, they ought to have shown us any convenient water source which is in our easy reach and we may be excused if we submit that the remedy they have proposed at this season of the drought - whether, is worse than the evil they want to cure.

6 That we therefore humbly beg that orders may be issued rectifying the resolution of the council on the subject.

We most humbly beg to remain,

Your most obedient servants,

10th March 1897
