Dis No 754
7.2.97

Adoni Municipal Budget for
1897–98.

Forwarded with the following remarks

2. The report has not been submitted through the Revenue Divisional Officer as he is himself the Chairman.

3. Para 8 – item 9 – With reference to the Sanitary Commissioner's remarks on the Adoni Municipal Budget for 96–97 the Council has abandoned the provision for urinals but no mention is made as

to whether a sufficient number of night soil carts has been arranged for as suggested by that Officer.

4. Para 8 – item 13 and para 23 item 1

It does not seem advisable to incur any considerable Expenditure on Town Improvement – or in connection with the drainage scheme until the Survey is completed.

5. It does not appear that adequate provision

provision has been made for the purchase of the metal, which is now being collected on the Municipal famine work in the neighbourhood of Adoni. The expenditure on this work up to the end of January was Rs 2137. The Chairman will be asked to furnish further information on this point.

6. Para 19. A statement giving the extent of the fields concerned and a sketch showing their position with reference to the water works should have accompanied the report for the information of Government.

7. Para 23. Plans and estimates should have been prepared for works 3, 4, 5, 6 & 7 before including them in the Budget.

8. Para 39. The delay of a month in the submission of the report is regrettable, but the Chairman has had much work in connection with famine.

[signature] 8/2/97
for acting Collector

Mary Collr's Office

Water Tax – 14.0

Vide also Collector's endorsement in current No. 10674, linked with this.

Revised estimate for 1896–97.

2. The current receipts and charges are now estimated at Rs 35,950 and Rs 52,750 respectively against Rs 38,830 and Rs 46,580 anticipated in the sanctioned budget. The decrease in the receipts occurs mainly under the taxes on arts and buildings, water-tax and conservancy receipts, being partly set off by an increase under income from markets and refunds; while the increase in the charges appears under grant. 1. The collections under the principal taxes during the first eight months of the year were far from satisfactory. With reference to para. 3 of his endorsement, the Collector will be referred to para. 32 of the Chairman's letter, in which it is stated that the necessary conservancy carts and bullocks were purchased in the current year. The sum of Rs 1,500 provided under repairs – communi-cations for the purpose of cutting road metal as a famine relief work will be struck out, with reference to G.O. No. 279. M

dated 24th February 1897. ~~Copy communicated with Govt. letter No. dated March 1897.~~ The sanction of Government should be obtained for the entertainment of the temporary cholera establishment referred to in para. 15 of the Chairman's letter. The entertainment of three tank watchmen on Rs 5, Rs 4 and Rs 3 respectively, two lascars on Rs 5 each for the Slaughter-house, and three temporary peons on Rs 6 each for the Collection of taxes, and the increase from Rs 5 to Rs 6 in the pay of the ten existing peons referred to in paras. 11, 15, 16 and 17 are approved. As regards the watchman for the Ranjeny Spring, the attention of the Council is drawn to the remarks of the Sanitary Commissioner in the concluding portion of his letter read above, with reference to Govt. No 2391. L. & 17-12-96, that contribution for the central office establishments will be raised from Rs 240 to Rs 608 or Rs 610 / round figures. The balance to be carried forward to the ensuing year's budget will then be

, the Chairman requested to report what the Council proposes to do to carry out the Sanitary Inspection.

Rs 11,310.

Budget estimate for 1897-98.

3. Receipts. The receipts for the coming year are put down at Rs 40,420 against the revised estimate of Rs 35,950, the increase which appears chiefly under the taxes on arts and buildings and water-tax being fully counterbalanced by a decrease under income from markets and refunds. The municipal council's proposals to exempt certain lands from payment of the water-tax referred to in para. 19, should form the subject of a separate communication. In this connection, the Chairman's attention is drawn to the Collector's remarks in para. 6 of his endorsement.

4. Charges. (1) The provincial charges are entered as Rs 48,720 against Rs 51,620 in the revised estimate, the decrease under Grant. 1 being fully met by an increase under Grants 3 and 4.

(2) Grant. 1:— None of the new works provided for in the budget should be undertaken

-ceited, the plans and estimates for them have been approved by competent authority. The allot-ment of Rs 2,000 for widening the Kumbarbaddi street will be struck out. As regards the defects in the water-works alluded to in the concluding portion of para. 23, the council's attention is drawn to the remarks of the Sanitary Engineer in paras. 2 and 3 of his letter read above. The proposed increase in the pony allowance of the overseer from Rs 10 to Rs 15 and the entertain-ment of a lascar on Rs 6 for him are sanctioned.

With reference to para. 4 of the Collector's endorsement, and the amount distributed one moiety under communications-new works, & the other moiety under Comns.-repairs, to be utilized in such improvements as may be carried out independently of the drainage scheme.

+20??

(3) Grant. 2. :— The muni-cipal council's proposal to increase by one rupee each the salary of the sweepers employed in the two night schools and the Panchy-ma school referred to in para. 28 is approved.

(4) Grant. 3 :— The alteration in the registration, conservancy and private scavenging establishments, proposed in paras. 31 and 32, are sanctioned; but the pony allowance to the Sanitary Inspector will be fixed at Rs 10 the same as that paid to the overseer & is sanctioned on the understanding that he actually keeps & uses a pony. With reference to G.O. No. 1536. M. dated 9th September 1896 and No. 1985. M. dated 18th November 1896, the allotment for epidemic disease charges will be raised from Rs ... to Rs 1,050, ~~to meet possible charges connected with the bubonic plague.~~

-5+12-80

(5) Grant. 5 — The enter-tainment of a watchman on Rs ... for the municipal office and the increase in the salary of one of the bill collectors from Rs 10 to Rs 12 proposed in para. 35 are sanctioned. With reference to G.O. No. 2391. L. dated 17th December 1896, the contribution for the controlling establishments will be raised from Rs 410 to Rs 437 or Rs 440 in round figures.

5. As revised by Govern-ment, the budget closes with a balance of Rs 2990 or 7.4 (~~4,930 or 12.2~~) percent of the estimated receipts. ~~but a considerable portion of this sum will be required to meet the expenditure on famine relief works.~~

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

From M.R.Ry. S. RAMU IYER Avargal, B.A., Chairman, Municipal Council, Adóni, to the Secretary to Government, Local and Municipal Department (through the Collector of Bellary), dated 30th January 1897, Dis. No. 45.

I have the honour to submit, for the sanction of Government, the budget of the Adóni Municipality for the ensuing official year (1897–98), together with the revised estimate as approved by the council at its meeting held on 26th instant.

Revised Estimate for 1896–97.

2. The budget grant for 1896–97 as entered in column 6 of the statement VI—Revised Estimate, is that shown in the abstract appended to G.O., No. 528 M., dated 25th March 1896.

3. The actual opening balance for 1896–97 was Rs. 26,978–3–11 or Rs. 26,980 in round figures, against Rs. 11,900 entered in the sanctioned budget, the increase being chiefly due, as already explained in paragraph 8 of the administration report of this municipality for 1895–96 embodied in G.O., No. 1251 M., dated 27th July 1896, to short outlay under Grant I, Public Works—Water-supply and Buildings.

Receipts.

4. The receipts, exclusive of the opening balance, are now estimated at Rupees 35,950 or Rs. 2,880 less than what was anticipated in the sanctioned budget. This is chiefly due to a falling off under (1) Tax on Arts of Rs. 560; (2) Tax on Buildings, Rs. 1,360; (3) Water-tax, Rs. 720; (4) Tax on Animals, Rs. 100; (5) Tax on Carts, Rs. 100; (6) License fees, (Rs. 70) and Sale-proceeds of Night-soil, Street-refuse, &c., Rs. 500. The decrease is due to the fall in the receipts under the respective heads, which is anticipated from the present distress. The only item which shows a noticeable increase is that under "Income from Markets," which fetched Rs. 450 over the budgeted amount owing to keen competition among the bidders.

Charges.

5. The variations under other items do not call for any remarks.

6. The total charges, omitting the closing balance, are estimated at Rs. 52,750 against Rs. 46,580 as per sanctioned budget, thus showing a net increase of Rupees 6,170 being the result of an increase of expenditure under Grant 1 amounting to Rs. 6,870 and a decrease of Rs. 700 under all other grants. The variations are explained below.

7. The charges under Grant 1 are now estimated at Rs. 22,610, against Rupees 15,740 budgeted for. The increase of Rs. 6,870 is made up of Rs. 4,590 under New Works, Rs. 2,100 under Repairs and Rs. 180 under Other minor items. The last-mentioned variation calls for no remarks.

8. As regards new works, the following statement shows the sanctioned and revised estimates for the several works :—

Name of Item.	As per sanctioned budget.	As per revised estimate.
	Rs.	Rs.
1. Improving Kumbardoddi street	..	870
2. Laying out a road to the night-soil depôt, branching off from the trunk road near the toll-gate on the Gooty road	500	500
3. Laying out a road over the present bandy-track passing through Messrs. Dymes & Co's. premises to cultivators' fields and villages in that direction	500	500
4. Constructing a new Municipal office building	..	6,700
5. Constructing a temporary cattle-shed	..	200
6. Constructing a cattle-shed	1,000	..
7. Constructing Havennapet poor school	2,000	..
8. Improving market	800	..
9. Constructing zinc latrines and urinals	1,380	2,900
10. Constructing slaughter-house	500	..
11. Providing batten trap doors for the cistern at the zinc latrines and zinc screen walls	..	200
12. Water-supply works	3,000	3,000
13. Drainage scheme	600	..

Work No. 1.—The amount shown against this represents the unspent balance of last year's allotment, which it is proposed to spend in the current year. Of this amount Rs. 560 have been spent up to date, and the balance will probably be expended before the end of this year. Works Nos. 2 and 3 have not been taken in hand as yet, but steps are being taken towards carrying them out. These works have also been included in the revised programme for famine-relief works recently sent to the Collector of Bellary.

Work No. 4.—This work, which was estimated to cost Rs. 7,320, was commenced in 1894–95 and has been completed during the current year at a total cost of Rupees 9,500. The increase of Rs. 2,180 is the net result of a decrease of Rs. 320 in the cost of land and an increase of Rs. 2,500 in the cost of building. The latter is due to certain departures from the original plan and estimate, which were deemed necessary or desirable, and partly to the low rates allowed in the estimate for which no contractors could be found willing to undertake the work, and which, when the work was carried out by departmental agency, had necessarily to be exceeded. A comparative statement of the details of the original estimate and the actuals will be shortly submitted to the Superintending Engineer. The Executive Engineer has personally inspected the work after completion, and has verbally expressed his approval of the manner in which it has been carried out.

Item No. 5.—Pending the construction of a cattle-shed according to the standard plan, a sum of Rs. 200 had to be spent in providing a temporary shed for the additional cattle purchased for conservancy purposes.

Item No. 6.—The Sanitary Board has favoured the Council with a design and estimate for a cattle-shed amounting to Rs. 4,240. Only Rs. 2,000 including the unspent balance of last year was available for the purpose, and the council has been, therefore, obliged to postpone the construction of the pucca shed indefinitely, being deterred by the costliness of the design furnished to it. The requirements are fairly met at present by the temporary structure in use.

Item No. 7—*School building.*—The council is of opinion that it must abandon the idea of having a new school-house for the present owing to want of funds. Therefore the provision has been struck out.

Item No. 8.—The allotment of Rs. 800 for the improvement of the market has been struck out, as the council does not expect that it can be spent in the current year. It is re-allotted in the next year's budget.

Item No. 9—*Zinc Latrines and Urinals.*—There was a sum of Rs. 2,110 unspent last year. This, together with the sum of Rs. 1,380 provided in the current year's

budget, makes a total of Rs. 3,490. Of this, Rs. 2,900 has been allotted in the revised estimate on account of three large latrines of the revised type design. All these have been given out on contract, and Rs. 1,260 spent up to date thereon. The works are expected to be completed by the end of this year. The provision for urinals has been struck out with reference to the Sanitary Commissioner's remarks on the budget estimates for the current year, which were concurred in by Government.

Item No. 10—*Slaughter-houses.*—A slaughter-house, according to the design for a slaughter-house furnished by the Sanitary Board, costs Rs. 2,000 against the sum of Rs. 500 provided in the budget. The council has, therefore, been obliged to postpone the work for want of funds.

Item No. 11—*Providing trap doors for cisterns attached to latrines and screen walls thereto.*—These minor improvements to the existing latrines, though not provided for in the budget, were considered necessary and have been carried out.

Item No. 12—*Water works.*—There was an unspent balance of Rs. 4,680 at the close of last year on this account—*vide* paragraph 7, clause (3), of the administration report for 1895–96, embodied in G.O., No. 1251 M., dated 27th July 1896. A further sum of Rs. 3,000 was provided in the current year's budget, thus making a total of Rs. 7,680 to be spent on this important work. Up to date Rs. 1,690 has been spent on the following items, viz.: repairing the syphon (*vide* G.O., Mis. No. 710 M., dated 29th April 1896), providing new valves thereto, making new teak-wood shutters for valve pits, purchase of pipes, &c., for additional fountains, and a hand pump for drawing water from the Ramjherry spring. The balance of Rs. 1,400 will be spent before the end of this year on compensation for lands taken up for the increased water-spread of Nallacheruvu, laying pipes for a few additional fountains and sundry other purposes. The improvement of the supply channel has had to be postponed, as professional advice was considered necessary. The Superintending Engineer was, at my request, good enough recently to inspect the channel with me, and I am now in correspondence with him on the subject. It is not, however, possible to begin the work in the current year. It is not known what amount will eventually be required for this work. This and other works referred to in paragraph 11 of this office letter embodied in G.O., No. 528 M., dated 25th March 1896, have to stand over till next year.

Item No. 13—*Drainage.*—Nothing could be spent under this head until the Survey department is prepared to take the survey of the town. So the provision of Rs. 600 for levelling as a preliminary for the preparation of a drainage scheme has been struck out.

9. *Repairs—Communications.*—An expenditure of Rs. 2,300 has been incurred up to date on the repair of some of the town roads, against an allotment of Rs. 1,500 and unspent balance of Rs. 900 remaining out of the last year's allotment. A further sum of Rs. 1,500 is provided for expenditure in the current year for carting famine metal to the sides of municipal roads to be used thereon.

10. *Buildings.*—Rs. 550 out of Rs. 750 allotted for the repair of latrines and other buildings will be spent within the close of the current year. The balance, viz., Rs. 200, is the amount set apart for repairing the old municipal office for the accommodation of the Municipal Muhammadan school now held in a rented building, but it will not be spent as the building is now occupied by the weavers' relief office.

11. *Water-supply—Establishment.*—In the course of the year it has been found necessary to conserve the water in the Ramjherry spring and Vandannapunt's well, and two watchmen have been accordingly employed for the purpose on Rs. 4 and Rs. 3 per mensem. A watchman on Rs. 5 has been employed to prevent cattle from grazing on the Nallacheruvu tank-bed and people from cutting grass from it. The grass growing on it serves, to some extent, as fodder for the municipal cattle.

12. *Tools and plant and other stores.*—A sum of Rs. 150 was incurred against an allotment of Rs. 60 in the purchase of extra tools required for carrying out public works departmentally.

13. *Grant 2, Education.*—There are variations in this grant under several heads, such as, (1) Stipends to Normal Students, (2) Stipends to Teachers, (3) Contingencies

in the schools on salary-result system. The decrease under item (1) is due to the unwillingness of pial school teachers to undergo training in the training school and that under (2) to the grant earned being less than was anticipated. The increase under item (3) is due to the purchase of furniture which was found necessary for the use of the schools.

14. *Grant 3, Sanitation and Medical Services—Hospitals and Dispensaries.*—There is an increase of Rs. 100 under medicines and supplies, owing to the purchase of certain medicines on extra indents necessitated by the increase in the number of out-patients. On the other hand, there is a corresponding decrease in dieting in-patients and sundries and contingencies, owing mainly to the smaller number of in-patients treated in the hospital.

15. *Conservancy—Road-cleaning and Road-watering.*—An expenditure of Rs. 200 was incurred in the employment of temporary establishment and purchase of necessary disinfectants during the prevalence of cholera and in the erection of a temporary shed for the accommodation of persons who may be found to be suffering from bubonic plague. This expenditure is more than covered by a large decrease, amounting to Rs. 516, in the establishment owing to the non-employment of certain toties and water-bearers provided for in the sanctioned budget, there being no necessity to employ them. Great difficulty having been experienced in securing the services of proper rubbish cart-drivers on Rs. 5 provided for in the sanctioned budget, the pay has had to be increased by one rupee each. The extra expenditure involved is met from the savings just mentioned.

16. *Grant 4, Lighting and Miscellaneous Municipal purposes.*—The decrease of Rs. 60 under "Avenues Establishment" is due to the avenue coolies not having been appointed till late in the year. The amount provided under "Rewards for destruction of wild animals and snakes" has been struck out, as no necessity has been found for granting such rewards.

16-*a*. *Slaughter-houses.*—Two sweepers on Rs. 5 each have been entertained for flushing and keeping the slaughter-houses clean, as it was found by experience that the system hitherto in vogue of requiring the contractor to keep them clean did not work well. The change was duly notified before the sale of the contract, so that the bidders might know that the expense in this respect would no longer fall on them, and the bids went up higher accordingly.

17. *Grant 5, Supervision and Management.*—The increase under collection establishment is due to the entertainment of three temporary batta peons on Rs. 6 per mensem for three months from 11th instant for the collection of the taxes, which is attended with peculiar difficulty in the current year on account of the distress. The increase of Rs. 280 under "Contingencies other than (*b*) (ii)" is due to the purchase of new furniture required for the new building to which the municipal office has been removed. The old furniture consisted of rickety worn out chairs, tables and the like.

Budget Estimate for 1897–98.

18. The closing balance (Rs. 10,180) arrived at in the revised estimate for the current year has been adopted as the opening balance for the ensuing official year. Excluding the above balance, the total receipts proper are estimated at Rs. 40,420, as against Rs. 35,950 and Rs. 38,830 anticipated in the revised and sanctioned budget estimates respectively. The increase occurs chiefly under Tax on Arts, Tax on Buildings and Water-tax, and is due to the expected realization next year of the arrears which may remain uncollected at the close of the current year after allowing for irrecoverable items. On the other hand, a reduction of Rs. 150 has been made in the estimated income from market rents, as it appears that the present contractor has incurred a considerable loss on account of present distress, and the bids therefore for the next year are not likely to be as keen as they were for the current year.

19. The income from water-tax on lands amounting to Rs. 272 has been omitted from the budget, as the council, on a consideration of a mahazar from the landowners, is of opinion that it is not fair to levy the tax on the lands in question, as they are

all situated outside the inhabited portion of the town and, therefore, do not receive any benefit from the water-supply scheme. The council accordingly requests Government to exempt the lands in question from water-tax under section 75 (2) of the District Municipalities Act. These lands have to pay land tax to the municipality in addition to the land assessment payable to Government. They are all dry lands, and the amount of taxes payable thereon taken in the aggregate is too disproportionate to the income derived from them by the holders thereof.

20. *Grants and Contributions from Government.*—The grants from Government are put down at Rs. 230, being the same as the figure entered in the revised estimate, and as against Rs. 380, in sanctioned estimate, for the current year. The former sum is made up of Rs. 40 on account of normal stipends for a teacher undergoing training at the training school, of Rs. 50 result grants to girls attending municipal schools and Rs. 140 being one-third of the amount required for the pay of the gymnastic instructor and drawing master. In the budget proposals received from the Director of Public Instruction, the contribution to the pay of the gymnastic instructor and provision for results grants to girls attending municipal schools have been, apparently by mistake, omitted.

21. The figures under all other heads of receipts closely follow the revised estimate and do not call for any remarks.

Charges.

22. The charges for 1897-98 are estimated at Rs. 48,720. The chief heads of expenditure are as follows:—

	Rs.
Grant 1, Public Works	17,370
„ 2, Education	4,940
„ 3, Sanitation and Medical Services	16,630
„ 4, Lighting and miscellaneous Municipal purposes	2,450
„ 5, Supervision and Management	3,400
Loans	3,930
Total ..	48,720

23. *Grant 1, Public Works—New Works.*—A sum of Rs. 12,600 is allotted in the budget for the following works:—

	Rs.
1. Improving Kumbardoddi street	2,000
2. Improvement to market stalls	800
3. Public Works store-shed and office for the overseer	1,000
4. A shed for conservancy stores, lanterns, lamp-posts, &c.	1,000
5. A latrine and urinal to be attached to the new Municipal office ..	550
6. Kerosine-oil depôt	250
7. A compound wall to the new Municipal office and its attached buildings	700
8. Additions to the Police hospital in order to convert it into apothecary's quarters	600
9. Improvement to the municipal choultry	500
10. Constructing a Panchama school	500
11. Water-works	4,700
Total ..	12,600

Work No. 1.—This is part of the work of improving the town by widening and straightening the streets and lanes in it, which is so very necessary from the points of view of sanitation and public convenience and which has been repeatedly urged by the Sanitary Commissioner on the council's attention (*vide* remarks made in his inspection notes embodied in G.O., No. 1769 M., dated 17th October 1896). It was thought that this had better be carried out side by side with the drainage scheme; but as the scheme will not be taken in hand for some time to come, the council resolves to proceed with the town improvement without reference to that scheme.

Work No. 2.—This work was provided for in the current year's budget, but it being not possible to do it this year in view of other more urgent works demanding attention, it is postponed for execution next year.

Items 3, 4, 5, 6 *and* 7.—These are obviously necessary works, now that a new municipal office has been constructed in a convenient locality, and the provision made for them is only moderate. Plans and estimates have not yet been prepared for them.

Item No. 8.—The Police hospital has been abandoned, and as it is conveniently situated close to the municipal hospital, the Collector and the District Medical and Sanitary Officer have recorded their opinions that it may, with slight additions, be converted into quarters for the apothecary, who is put to great inconvenience for want of suitable accommodation. It is estimated that, with some additions to the building at a cost of Rs. 600, it may be fitted for his occupation. A separate application will be made to the Government for the transfer of the building to the municipal council. It is proposed to let the apothecary occupy it on payment of rent, the amount of which will be fixed after the work shall have been carried out.

Item No. 9.—The present building is incommodious. It is proposed to effect some improvements to it at a cost of Rs. 500. This is necessary for the convenience of travellers.

Item No. 10.—The Panchama school is at present held in a small temple in the midst of the dwellings of Madigas, which is quite unsuited as a school-house. It is, therefore, proposed to build a separate school-house in a convenient locality.

Item No. 11.—The sum of Rs. 4,700 is the amount which is expected to remain at the credit of the water-works at the beginning of next year, and will be fully required for carrying out the various works already under contemplation in connection therewith, such as, the improvement of the supply channel, direct road to headworks, providing drainage near existing taps and fountains and, if possible, additional fountains and stand-pipes. The present syphon has already been found to give way twice, and though it has been repaired, it is feared that it cannot be relied upon by itself. It appears also that the bore of the syphon pipe is too big for the purpose. Moreover, the filter beds seem not to work well, and I am now in correspondence with the Sanitary Engineer on the subject. It is not known what additional expenditure will have to be incurred to ensure the proper working of the filters.

24. *Repairs.*—Under this head a sum of Rs. 2,500 has been allotted. This sum includes Rs. 1,000 for executing ordinary repairs to roads, culverts, &c., Rs. 300 to latrines, Rs. 300 to drains and Rs. 900 (the usual allotment) to water-works. Rs. 1,000 for road repairs is provided for spreading the metal collected by famine labour on the roads.

25. The provision for water-supply and Public Works establishments has been raised by Rs. 204 and Rs. 72, respectively. The increase in the former case is due to the raising the pony allowance of the overseer from Rs. 10, which is insufficient, to Rs. 15, to the entertainment of three watchmen on Rs. 5, Rs. 4 and Rs. 3, respectively, for the purposes mentioned in paragraph 11 *supra*. The increase under the Public Works establishment is intended to provide for the entertainment of a lascar on Rs. 6 per mensem to the overseer.

26. *Grant 2, Education.*—The expenditure under this is put down at Rs. 4,940 against Rs. 4,960 and Rs. 5,050, respectively, in the current year's revised and sanctioned budgets.

27. *Training Schools.*—A sum of Rs. 60 required for the training of one teacher only is provided for stipends to normal students against Rs. 180 (the usual amount) shown in the budget proposals forwarded by the educational authorities. The reduction has been made at the suggestion of the Sub-Assistant Inspector of Schools, who as a councillor attended the budget meeting.

28. *Municipal Schools.*—An increase of Rs. 36 under "Establishment" is provided to meet increase of pay proposed to be given to the sweepers employed in the two night schools and in the Panchama school from Re. 1 to Rs. 2 each, as the present pay is considered too low.

29. *Results Grants.*—The current year's provision has been repeated and is believed to be sufficient. It is proposed to pay the results grants at 75 per cent. to such of the schools as continue to employ untrained or uncertificated teachers, as well as to infant standards.

30. *Inspection.*—The current year's sanctioned budget provision is repeated for the next year, as the inspecting schoolmaster has again appeared for examination for a training certificate and may pass.

31. *Grant 3, Sanitation and Medical Services.*—The provision for hospital is the same as in the current year's budget, but there are variations under minor items to which the explanation given in paragraph 14 *supra* applies. The pay of the registrar of births and deaths is proposed to be increased by Rs. 3 per mensem. His work has considerably increased and become more responsible since the introduction of the new forms of registers and returns for the efficient working of the compulsory vaccination rules.

32. *Conservancy—Road-cleaning and Road-watering.*—The provision under this head is Rs. 12,700 against Rs. 12,050 and Rs. 12,310, respectively, in the revised estimate and sanctioned budget. The increase under "Establishment" as compared with the sanctioned budget is due to provision being made for a pony allowance of Rs. 15 per mensem to the sanitary inspector under G.O., No. 4 M., dated 4th January 1897, and to the raising of the pay of the rubbish cart-drivers by Re. 1 each for reasons explained in connection with the revised estimate. On the other hand, there is a decrease of Rs. 12 in the charges on account of watering establishment which has been fixed at three men on Rs. 6 each instead of four on Rs. 5 each. A sum of Rs. 1,000 has been provided for cholera charges as directed in G.O., No. 1536 M., dated 9th September 1896. The decrease of Rs. 948 in the allotment for other charges, such as, purchase or hire of carts, &c., as compared with the sanctioned and revised estimate for the current year, is explained by the fact that the necessary carts and bullocks for conservancy purposes having been purchased in the current year, similar provision for next year is not needed. The pay of the maistry on the private scavenging establishment is raised by Rs. 2. This servant has put in $7\frac{1}{2}$ years' service and has been discharging his duties satisfactorily. Private scavengering service being one for which there is considerable room for expansion, the increase is proposed as an incentive to good work.

33. *Grant 4, Lighting and Municipal Purposes—Lighting.*—The increase under "Contingencies" is provided for meeting the additional expenditure of oil, &c., required for additional lights about to be put up in the town.

34. *Slaughter-houses.*—The provision of Rs. 120 made under this head is intended to meet the charges on account of the two sweepers on Rs. 5 each per mensem, referred to in paragraph 16 (*a*) *supra*, employed to cleanse the slaughter-houses.

35. *Grant 5, Supervision and Office Management.*—The expenditure under this head is put down at Rs. 3,400 as against Rs. 3,370 and Rs. 3,370, respectively, in the revised estimate and in the sanctioned budget for the current year. The increase under office and collection establishments, as compared with the sanctioned budget, is due to the proposed employment of a watchman on Rs. 6 per mensem to watch the office and stores and to the increase of pay of the second bill-collector, who is a trustworthy municipal servant of eleven years' standing, from Rs. 10 to Rs. 12 per mensem.

36. A sum of Rs. 410 is provided for the payment of contributions to Government on account of controlling establishment in the Government office, and is calculated at the rate sanctioned in G.O., No. 2391 L., dated 17th December 1896.

37. The necessary proposition statements accompany.

38. The budget now submitted closes with a balance of Rs. 1,880, or 4·6 per cent. of the receipts. It has not been found possible to provide for a larger percentage of reserve.

39. The delay in the submission of this budget is, as already explained in my letters Nos. 821 and 845, dated 15th and 18th December 1896, respectively, to the Collector, due to the extra work thrown on the municipal office by the opening of a

relief kitchen and a relief work under municipal management. It was relieved of the charge of the latter only on the 16th instant. The two works necessarily threw additional correspondence, account-keeping and checking on the municipal office establishment, and the manager had personally to assist the sub-registrar who is in charge of the kitchen, especially in its infant condition.

40. A copy of the council's resolution passing the budget is enclosed.

ENCLOSURE.

GOVERNMENT OF MADRAS.

OFFICE OF SANITARY ENGINEER,

Fort St. George, 8th February 1897

LOCAL & MUNICIPAL DEPT.
CORR. No. 507/M

From

J. A. JONES, ESQ. MEM. INST. C.E., F.R.S.E.,

SANITARY ENGINEER TO GOVERNMENT,

To

The Secretary to Government,

Local & Municipal Department.

SIR,

I have the honor to state that the Budget Estimate for 97/8 of the Municipal Council of Adoni of which a copy has been forwarded to me calls for no remarks in regard to the figures given, but it is necessary to reply to certain observations of the Chairman in para 23 of his report on the Budget for 1897/98.

2. The syphon failed for the second time owing to a very minute leak at the lead joint of the pipe, due to expansion & contraction of the pipes. The leak was stopped at once and the syphon is now working as usual. Now that the cause of the failure is known a little timely attention will prevent the recurrence of any stoppage in future. I do not understand on what grounds the Chairman makes the statement that the bore of the syphon is too large.

3. As regards the filter beds the matter has already been reported upon, vide my No. 195 dated 29th. January 1897. The filters worked very satisfactorily for a long time after they were first started & their bad working is due entirely to either ignorance or carelessness on the part of those attending to them though full printed instructions were issued to ensure proper working.

BACK PAPERS.

I have the honor to be,

Sir,

Your most obedient servt.

[signature]

Sanitary Engineer to Govt.
