Forwarded to the Secretary  
to Government Local and  
Municipal departments  
with reference to this Office  
No. 754 of 7.2.97. No  
provision on account of  
Famine expenditure seems  
necessary in the budget  
already submitted, for  
under para 3 of G.O. No 164  
Financial of 18.2.97, all  
Famine outlay is to be  
recorded for the present  
in the Provincial accounts  
and the question of adjust-  
ment between Provincial  
and Local is to be considered  
only on the closure of the  
Famine accounts.

Adoni Municipal Councils  
Office  
Dated 2nd March 1897.  
No. 98  
1897  
From  
Mddy. S. Ramu Sagar Aungale  
B.A.  
Chairman, Municipal Council  
Adoni  
To,  
The Collector of  
Bellary  
Sir,  
With reference to your  
Disposal No 754 Dated 7th  
February 1897, communicating  
for report para 5 of your  
foot note on Adoni Municipal  
Budget for 1897-98, I have  
the honor to inform you that  
no separate provision has  
been made either in the  
Revised Estimate for the  
current year or in the  
Budget Estimate for the next  
year, for recouping to Govern-  
ment the value of metal  
now

how being collected by means of famine labor.

The Council was not aware that it was the intention of Government to levy from the Municipality the normal value of any municipal work which the Government might find it necessary to carry out, in order to give relief to people in distress.

2. If Government insist upon claiming the value of Famine metal that may be utilized for municipal purposes, the Council must of course pay for it. But no separate provision on this account need be made in the Budget. It will suffice if the value of such Famine metal as may be actually used for the works carried out by the Council be adjusted to the credit of

Government

Government at the end of each year, a separate account being maintained for the metal so appropriated. It should be borne in mind that the value of the metal to be paid will decrease as the cartage exceeds the rate usually provided for in the Municipal estimate on a uniform load of  $2\frac{1}{2}$  miles. —

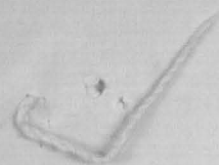

3. A sum of Rs 1500- was provided in the Revised estimate for the current year, for carting Famine metal to the sides of the Municipal roads without reference to immediate requirements, under the impression that the Council will not be called upon to pay for the metal. Now that it appears that the intention of Government is

Other

otherwise, the provision is unnecessary. Some of this amount will have to be appropriated towards the construction of a right-of-way depot for which an estimate for Rs 1820-0-0 has been sanctioned, as against a sum of Rs 1000-0-0 only available for new works under communication. The balance will merge into the Reserve which, it will be observed, is now much below the prescribed minimum. The value of famine relief that may be used for this road will, of course, be credited to the Government, unless Government is pleased to waive its claim. —

In the foot note communicating your undertaking on the

Budget

No such thing has been said but the Chairman has only asked if Government has any objection for making provision

Budget, it is observed that no provision has been made to meet the expenditure on the Famine work, as though the Council is bound to contribute to the expenditure on Famine Relief. This question as you are aware, has been set at rest by G.O. No 18 Revenue, Dated 11th January 1897, embodied in Board's Proceedings No 44 Dated 22nd January 1897 Revenue Settlement, Land Records and Agriculture. —  
5. A copy of Council's resolution on the subject is herein enclosed. —

Sir,

Municipal Council Dated 1st March 1897.

2. Read endorsement of the Collector of  
Bellary District No. 754 Dated 7th  
February 1897, Communicating Copy of  
para 5 of his foot note on the Adoni  
Municipal Budget for 1897-98, enquiring  
whether any provision has been made  
in the budget to meet the expenditure  
on the Famine Work. —
