SIR,

Cur No 1368 M

in the Krishna dist

In continuation of my letter No 313 of 97 dated 22-3-97, I have the honor to inform you that cholera broke out in Vereavalli of the Surjoid Saluk on 2nd February 1897 and in Attur of the same Saluk on 29th January 1897. Both the places are on the Ellore Canal, between Buzpada and Ellore while the former is also a station on the East Coast line. There were 3 attacks in those places, before the 1st outbreak of the epidemic in the town of Ellore on 5th February 1897.

I therefore request that my subordinate officers and myself may be exonerated from all blame for the omission to give timely information
