No. 862  
S

OFFICE OF SANITARY COMMISSIONER,  
Fort St. George, 7<sup>th</sup> April 1897.

Depd 9  
1555M

From

SURGEON LIEUT.-COL. W. G. KING, M.B., C.M., D.P.H.,

SANITARY COMMISSIONER FOR MADRAS,

To

THE

Secretary to Government,  
Local and Municipal Department,  
Fort Saint George.

Enclosure.

SIR,

With reference to the concluding sentence of para 4(2) of G. O. No 558M dated 16<sup>th</sup> March 1897, I have the honor to state that, as the wells in question are proposed to be sunk in ground set apart for the burial and cremation of dead bodies, it is absolutely necessary they should not be drawn upon for drinking purposes. They should preferably be draw wells with the mouths closed and provided with a pump and cistern served by taps. Should the Council be unable to provide the necessary funds, I would advise the sinking of Norton's tube wells which would cost about Rs 90 each. Care should be taken to place the wells as far removed from the grave yard and on the <sup>side</sup> opposite ~~side~~ to that of the direction of

Sub-soil

sub-soil water flow. The wells should have inscriptions prohibiting use of the water for any purpose but that of ablution.

I have the honor to be,  
Sir,

Your most obedient servant,

*W. M. M.*

Sanitary Commissioner for Madras.  
Surgeon Lieut.-Col.
