To

The Secretary, Sanitary Board.

Sir,

With reference to the Proceedings of the
Sanitary Board N^o 256 S., dated 18th November 1896,
I have the honor to note with regret that the Sanitary
Board still insists on my supplying figures for
which I have no basis.

2. When works were in my control I was able
to say with some definiteness how long it would
take to get materials and machinery out and when
I would pay for them but I am now required to state
what amount the Public Works Department will
spend, their machinery, pipes &c. having to come
through the Secretary of State and India Office Stores.

3. Again as no works have been actually
sanctioned for execution it is not really possible
to say when they can be begun or when funds will
be required; this is really a question for Govern-
ment and I do not even know what works Govern-
ment propose to sanction.

4. I have therefore to get the Board out of
their apparent difficulty entered figures in

To

The Secretary, Sanitary Board.

Sir,

I have the honor to inform you that the estimate of the Tirupati Water Supply Scheme as revised by the Sanitary Board amounts to Rs 2,31,000. Rs 1,89,000 entered in the statement which accompanied my letter No 3306 dated 20th November 1896 is the amount of the original estimate. The loans and plants should therefore be Rs 57,750 and Rs 1,73,250 respectively. The probable amounts required for 1897-98 are Loans Rs 57,000 and plant Rs 1,63,000. Please alter the statement accordingly.

I have the honor to be,
Sir,
