GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

Read—the following paper :—

From M.R.Ry. P. JAGANATHAM ROW, Chairman, Municipal Council, Vizianagrum, to the Chief Secretary to Government, dated Vizianagrum, 25th September 1886, No. 54.

In forwarding herewith the annual returns as noted in the margin in detailed statements, I have the honor to report on the municipal administration during 1885-86 of this town.

2. The year opened with a balance of Rs. 838-15-10. The collections under all heads of "Statement I" in the year were Rs. 19,811-11-7. The amount available for expenditure totals to Rs. 20,650-11-5. The total expenditure incurred during the year was Rupees 20,505-11-5. The balance left at the close of the year was Rs. 144-15-11.

Educational Report.

3. The principal sources of income from which the municipal fund was raised were tolls, taxes on houses, lands, vehicles and animals.

4. The demand assessed under house and land rates was Rs. 3,781-0-6, and the collection under the both heads was Rs. 4,008-3-1. This comprises a large amount of arrears collected under house and land rates. Rs. 411-8-9 and Rs. 26-5-0 under the above heads, respectively, were left uncollected. Arrears balance of Rs. 276-15-7 and Rs. 15-6-10 under houses and lands is to be written off as irrecoverable, for the owners of some of these turned paupers, some left the station, and the houses of some belonging to Devarapeta were demolished by fire.

5. *Taxes on Vehicles and Animals.*—There has been a large increase of collection under these items. This was due to a number of Australian horses purchased and imported by the Maharajah, as also to some carriages bought by him.

6. *Registration of Carts.*—Several cartmen have registered their carts during the year. There was an increase of Rs. 34-2-0 under this head.

7. *Tolls.*—The demand of Rs. 8,287-8-0 was collected within the close of the year. By competition we had an in[illegible] under this head.

8. *License Tax.*—The ne[illegible] year was Rs [illegible] ections were Rs. 1,085. A sum [illegible] Government due was [illegible] difficulty, as will be [illegible] ment.

9. *Licenses* [illegible] owing to som[illegible]

10. *Muni*[illegible] fines impose[illegible]

w[illegible]

13. *Public Works.*—No roads were made in the year newly. A sum of Rs. 1,000 was spent as contribution towards rebuilding the houses of Devarapeta which were burnt down by accident—*vide* G.O., No. 302 M., dated 20th July 1885—and a sum of Rs. 85 was spent for building privies in the Police lines; Rs. 22-6-0 for building walls to the slaughter-house, which were considered necessary; Rs. 2,269-10-1 had been spent for purchasing the clock for the tower built last year. Several roads were metalled in the year measuring 7,875 yards at a cost of Rs. 7,530-3-2. This exceeds the budgeted allotment by Rs. 1,730. They are shown in detail Statement II-A. The general condition of the roads, especially that of main and traffic roads, is much improved by having them metalled under the valuable suggestion made and assistance given by the District Collector, Mr. Turner. Repairs have been made to several drains measuring 560 yards at a cost of Rs. 160-15-10. Although there is much to be done to improve the system of drainage in the municipality, yet nothing can easily be attempted with the present limited financial condition of the municipality.

14. *Education.*—There are two municipal schools on the combined system, which are solely protected by the municipality. They cost Rs. 492-1-0 in the year.

Boys are taught up to fourth standard. Masters get only half the grant. The total income derived from these schools is Rs. 135-7-0. There were 22 schools on the result grant system, which received grant to the amount of Rs. 1,144-5-4 in the year. This increase shews that primary education is much improved. All the above schools are under the charge of a municipal inspecting schoolmaster, who goes and inspects them and submits his reports from time to time through the Deputy Inspector of Schools. Rs. 140-4-6 were spent under his salary and contingencies. The municipal report is much delayed on account of the extracts from the educational report of the Deputy Inspector of Schools, which were received only yesterday evening in an incomplete form without the usual tabular forms. The figures in his report do not tally with those of mine.

15. *Sanitation and Medical Service.*—There was a medical pupil on Rs. 5 attached to the Maharajah's dispensary, but paid by the municipality, as also a midwife on Rs. 10 to attend the labor cases of women in the town. She goes to the town and treats cases when she is called on. There was one lunatic that was sent from this town by the authorities to the Asylum at Vizagapatam. Rs. 142-8-3 were spent on the bills of the Superintendent of the Asylum passed by the District Magistrate. There was one first-class vaccinator in this municipality, and a temporary one was also employed when small-pox was severe in the place. They vaccinated 932 cases, of which 910 were successful, 11 unsuccessful and 11 unknown, against 1,215 vaccinated last year. There were 61 deaths from small-pox. All the townspeople come forward to undergo vaccination but those that are called Rangreezes and Oriyas, that settled here from the up-country.

16. *Registration of Births and Deaths* is effected by two registrars employed for that purpose. They registered 638 deaths and 736 births against 557 deaths and 662 births of la[illegible] respectively. T[illegible]us causes from which people were subjected [illegible]

[illegible]r the sanita-
[illegible] to be inade-
[illegible] 620 for

---

19. The general health of the town has been good during the year.

20. On the whole, the new Act has worked satisfactorily. The collections and disbursements were made with great care and attention. The accounts were audited by Mr. C. Brito, Assistant Inspector of Local Fund Accounts, who submitted his report to Government on the result of the audit.

21. The annual accounts were prepared in the month of May, when Mr. Brito came here to audit the municipal accounts. They were faired in June. The report was detained for want of material papers and returns from the Deputy Inspector of Schools and for the annual medical concise report, both of which were to be submitted to Government along with the municipal report.

ENCLOSURES.

From M.R.Ry. S. VENKATACHELAM, Acting Deputy Inspector of Schools, Vizianagrum Range, to the Chairman, Municipal Council, Vizianagrum, dated 23rd September 1886, No. 648.

As required in your letter, No. 53, dated 22nd instant, I have the honor to report on education in the Vizianagrum Municipality for the year 1885-86. Had you addressed me on the subject soon after the close of the year, I would have furnished you with the report in May last when I submitted my reports to the Inspector of Schools, First Division, and to the President, District Board, Vizagapatam, according to the instructions received from them.

2. The number of primary schools in the municipality on the 31st March 1886 was 31 with 1,164 pupils, against 29 schools with 1,033 pupils. This shows that there was an increase of two in the number of schools, and 131 in the number of pupils, at the end of the year under report.

3. *Combined System Schools.*—Under this class there were two schools with 36 pupils on the last day of the year under review, against two schools with 84 pupils on the corresponding day of last year. The number of pupils decreased by 48 though there was no change in the number of schools; this decrease is mainly due to the transfer of the Santapeta combined system school to a new locality. As the school has been lately removed to its former locality, it may ere long recover its former strength. The total receipts under fees from these schools amounted to Rs. 135-7-0, and the expenditure from Municipal funds was Rs. 356-10-0. The amount under expenditure includes salaries of the masters, contingencies and results grants paid to the teachers. One of the two schools earned a grant of Rs. 4-6-0 from Provincial funds also. The results of the examinations of these two institutions were very fair. In each of them, two certificated teachers are entertained.

4. *Result System Schools.*—At the end of the year the number of result system schools was 24 with 779 pupils, against 27 schools with 943 pupils on the last day of the last year. It is satisfactory to note that increase is seen both in the number of schools and of pupils. The former increased by 3, and the latter by 164. The total receipts of the 27 schools under fees and Dasara presents amounted to Rs. 1,444-7-6. The number of schools originally registered for examination was 25; of this number only 24 were examined and 22 were aided from public funds during the year. The amount of grant paid to the schools by the municipality during the year was Rs. 1,144-5-4, and that paid from Provincial funds was Rs. 98-14-0. The number of pupils examined for grant was 438, of which 291 were successful. From this it may be seen that the schools passed more than half the number of pupils presented for examination. Of the 27 teachers employed on the 31st March 1886, twenty-three were unpassed; thus it will be noted that there is still very much to be done in the way of training the teachers of elementary schools.

5. *Girls' Schools.*—The number of primary schools for girls at the end of the year was [illegible] with 185 pupils, against the same number of schools with 152 pupils on the last day of the preceding year. The two schools (a day girls' school and a boarding girls' school) are maintained by His Highness the Maharajah of Vizianagrum. They produced satisfactory results at r[illegible] examination. Besides the number of girls under instruction in these two [illegible] there we[illegible] the end of the year [illegible]nety-six girls reading in boys' schools in the m[illegible]

6. *Muham*[illegible] *Schools.*—There was only one school of this cla[illegible] years with 16 an[illegible] pupils respectively. The increase in the num[illegible] 25 pupils at the e[illegible] of the year, six wer[illegible] girls. Besides the number [illegible] this school, there we[illegible]e 42 of this class [illegible] schools intended [illegible]

7. *Inspecting Schoolm*[illegible]*ter.*—All [illegible]d and the resu[illegible] supervision of the inspecti[illegible] schoolm[illegible] per mensem and is a matri[illegible] Du[illegible] examined 325 schoo[illegible] [illegible]8 pupi[illegible] by him was 13. The a[illegible]

Annual concise Report of His Highness the Honorable the Maharajah's dispensary for the year ending 31st March 1886.

Population—22,577.

1. The quantity of rain for the year was 39 inches—three inches less than the previous year.

2. No want of market supplies throughout the year, and prices moderate.

3. The public health was satisfactory; the average death-rate was 28 per thousand and the birth-rate 32.

The prevailing diseases were fevers, lung diseases, rheumatism, venereal, dropsy, bowel-affections and small-pox.

4. No cholera.

5. Sixty-one deaths from small-pox during the first ten months of the year; 910 successful cases of vaccination.

6. Fever less prevalent than the previous year; 251 deaths from this cause, against 314 in last report.

7. Dispensary works satisfactory and is well attended; 185 in and 9,324 out patients treated, showing an excess of 62 in and 242 out patients over the past year; 92 surgical operations, of which 4 were major operations. The municipal midwife attended 74 cases during the year (54 less than the previous year) besides those delivered in the dispensary. The institution is entirely supported by the Maharajah, and has no connection with Government. No means spared for the relief of the sick and indigent, everything supplied on a liberal scale. All medicines, &c., are obtained direct from England.

8. The sanitary condition of the town is satisfactory, water-supply good and abundant. Latrines sufficient and conservancy well attended to. The attempt to establish private conservancy of latrines mentioned in last report failed, owing to the cost being great and more than the municipality could obtain from the people.

2. License-tax transactions are again shown in Statements I, II and VI-B, and not in Statement III as required by G.O., dated 12th February 1885, No. 304, and the figures in the budget column of these statements have not been revised with reference to G.Os., dated 17th April and 20th July 1885, Nos. 23 and 302 M. In column 2 of Statement VI-B, charges for killing dogs are shown under Grant III, Conservancy, instead of under Grant IV, Miscellaneous. The necessary corrections have now been made in the foregoing abstract.

3. In the note to Statement I, the authority under which license fees were levied should have been quoted. The contribution of Rs. 1,000 for [illegible]building the houses destroyed by fire in Devarapeta should have been omitted fr[illegible] Statement II-A and exhibited in [illegible]tement II, not under Buildings, but as a contribution under Grant [illegible] In the latter [illegible]tement the charges incurred on die[illegible]ing lunatics should be shown unde[illegible] Grant IV, Other Charges, and not under Hospitals and Dispensaries. The two sums Rs. 9 and Rs. 50-13-3 shown in this statement under R[illegible] (P[illegible] laneous) do not [illegible]pear in Part II of Statement II-A. [illegible] in connectio[illegible]h educational inspection should have [illegible] II-B, as also [illegible] sum of Rs. 30-7-[illegible] shown under Conser[illegible] to a watchman. The number of [illegible]wives employed [illegible] Statement II-B is t[illegible], whereas [illegible] to paragraph [illegible] one. The discrepan[illegible] should b[illegible]. From the [illegible] VI-B, it is observed t[illegible] the su[illegible]-2-0, [illegible] was incurred in[illegible]wider[illegible] and repa[illegible] wa[illegible] should be shown un[illegible]

4. Statement V should give the names of the combined system and result grant schools and omit the fee-collections made in the latter. The sum of Rs. 5-4-6 shown as contingencies under Educational Inspection in Statement II should be added to the inspection charges shown in Statement V. In this statement the net cost of primary and secondary education has not been separately given, as required by official memorandum, dated 18th October 1884, No. 2336. The necessary information should now be furnished without delay.

5. From the foregoing abstract, it will be seen that the budget grants have, in several cases, been exceeded without the sanction of Government. This was irregular and should be avoided in future.

Result system schools. At the end of
ber of Result system
779 pupils against
the last
dory

under fees and Dasara presents amounted
Rs. 1444-7-6. The number of schools originall
registered for examination was 25, of the
number only 24 were examined and 22 were
aided from Public Funds during the year.
Amount of Grant paid to the Schools by the municipality during the year wa
Rs. 1144-5-4 and that paid from Provincial F
was Rs. 98-14-0. The number of pupils exami
for grant was 438 of which 291 were succes
From this it may be seen that the schoo
passed more than half the number of p
presented for examination. Of the 27 tea
employed on 31st March 1886 twenty three
unpassed. Thus it will be noted that the
is still very much to be done in the w
of training the teachers of elementary sc

5. Girls' schools. The number of Primary
schools for girls at the end of the year was tw
with 185 pupils against the same number of
schools with 152 pupils on the last day of the
preceding year. The two schools (1. Day girls' sch
2. Boarding Girls' School) are maintained by His
Highness the Maharajah of Vizianagram. The
produced satisfactory results at my Exami-
nation. Besides the number of girls
tion in these two schools,
the year ninety-six girls
the munic

girls. Besides the number of Mahommedan pupils in this school there were 42 of this class reading in schools intended for Hindus.

7. Inspecting school master. All the combined and the result system schools are under the supervision of the Inspecting school master entertained by the municipality. He is paid Rs. 15 per mensem and is a matriculate. During the year he spent 108 days in examining schools and examined 325 schools with 10558 pupils. The average number of times each school was visited by him was 13. The amount of charges under this Head was Rs. 135 for the year under report

I have the honor to be
Sir,
Your most obedient servant

Ag. Dy. Inspector of Schools.

Government.

VIZIANAGRAM

Annual Concise Report of H. H. the Honble the Maharajahs Dispensary for the year ending 31st March 1886.

Population 22,577

I The quantity of rain for the year was 39 inches, three inches less than the previous year.

II No want of Market supplies throughout the year, and prices moderate.

III The public health was satisfactory, the average death rate was 28 per thousand and the birth rate 32.

The prevailing diseases were fevers, lung-diseases, rheumatism, venereal dropsy, bowel affections and Small pox.

IV No cholera.

V S t one deaths from Small during
t ten months of es-
s of Vacci

well attended. 185 in & 9324 out patients treated shewing ~~shewing~~ an excess of 62 in and 242 out patients, over the past year. 92 Surgical operations, of which 4 were major operations. The Municipal midwife attended 74 cases during the year, 54 less than the previous year, besides those delivered in the Dispensary. The Institution is entirely supported by the Maharajah, and has no connection with Government. No means spared for the relief of the sick and indigent - every thing supplied on a liberal scale. All medicines &c are obtained direct from England.

VIII The Sanitary Condition of the town is Satisfactory, water supply good and abundant. Latrines sufficient and Conservancy well attended to. The attempt to establish private Conservancy Latrines mentioned in last report failed,

Statement VI B

Comparative statement.

Explanation of variations between the Budget allotments and the actuals for the year 1885–86.

1 1 The decrease is so small that any explanation is not necessary under this head.

2 2 The assessment was reduced when the lists were examined by the Chairman & were found that vacant sites were also assessed & the tax on them could not be collected, and as such they were excluded from assessment. Hence the decrease.

3 3 Some Carriages were bought by the Maha
which were taxed newly. Hence the in

4 4 The increase was due to the
Many horses imported by the M
Australiah

5 5 Many Cartsmen registered in
which were more than last year

6 6 The Increase was due to the
Competition in the auct

7 7 This decrease wa
dyers who left the pl

8 8 The decrease
trade owing to
here an increa

almost all bargains in the place.

9 9 The fines by such magistrates were comparatively low.

10 10 The increase was due to the levying of School Fees according to the new high scale of Fees.

11 11 No provision was made in the budget as there was no fixed amount of rent assessed on Municipal lands which were given out on joint share system.

12 12 No amount was realised under this as the rubbish which was intended to be preserved & sold was, on a second consideration, given to cartsmen & kept them on, on a low salary in return.

Expenditure.

This was composed of three items:
...300 Contributed towards the building
...wara st destroyed by fire vide
...0. No 302 of the 20th July 1885; Rs 85/
that were spent in providing lat...e
accomodation to the Police in their lines as
...ggested by the Inspector General of Police and
...-0 that were spent in building
... to the Slaughter House.

...due to the shipping and

...ed
... expenditure ... lash
... the 10...

16 4 Some drains were to be urgently repaired under the suggestion of the Sanitary Commissioner in hi... inspection and this charge was met from the amount sanctioned in minor head (E) miscella... repairs.

17 5 Miscellaneous repairs were curtaile... & the allotment reserved providing funds to other heads. Hence the decrease.

18 6 Iron rollers were not bought having no funds to spare.

19 7 It appears from the Dy Inspectors report that passing in the Grant Inspection of the pupils was good i.e. more than half the number brought under inspection had passed so the grants earned by the boys were mor... than the estimated amount.

20 8 The decrease was due to the Inspecting School Master's pay reduced to Rs 10/- for some months in the year.

21 9 This was a charge which was ~~not much~~
anticipated when the Bu... ...framed.
No provision was the...

23 11 The decrease was due to the establishment charges reduced for some months.

24 13 Sanction was obtained for the employment of the Tank watchman vide G. O No 274 dated 13th July 84

25 14 ue oil had been cheap in the year and so a saving was effected.

26 .16 This is an item which fluctuates every year.

27 .17 Water Courses of several tanks were to be repaired & widened in the year. This was not provided for in the Budget.

28- 18 The salary of the accountant was increased by G. O. No 274 dated the 13th July 84. Hence the increase.

29 20) Miscellaneous charges were curtailed [illegible]e the decrease.

2. ~~The~~ The license tax transactions are have again ~~not been excluded from~~ shown in statements I, II and VI B and ~~not~~ ~~listed~~ not in statement III as required by G.O. 12th February 1885 No. 304, ~~nor have~~ and the figures in the budget col: of these statements have ~~not~~ been revised with reference to G.O. 17th April and 20th July 1885 Nos 23 and 209 M. In col: 2 of Statt VI B charges for killing dogs are shown under Grant III, conservancy, instead of under Grant IV, Mis. The necessary corrections have now been made in the foregoing abstract.

3. In the note to statement I the authority under which license fees were levied should have been g[illegible] G.O.
conta[illegible]
the
mi

Statement the charges incurred on dieting lunatics should be shown under Grant IV - other charges - and not under Hospitals and Dispensaries. The two sums of Rs 9 and Rs 50-13-3 shown in the statement under Repairs (Buildings and Miscellaneous) do not appear in Part II of Statement II A - ~~an omission which should be explained.~~ The establishment maintained in connexion with Educational Inspection should have been exhibited in statement II B, as also the sum of Rs 30-7-4 shown under conservancy in statement II as paid to a watchman. The number of midwives employed by the council is given in

t where as

report

Grant IV, water works, was incurred in widening and repairing the water courses of certain tanks. This should be shown under Grant I, water supply.

4. Statt. V should ~~have~~ give~~n~~ the names of the combined system and result grant schools and omit~~ted~~ the fee collections made in the latter. The sum of Rs 5-4-6 shown as contingencies under Educational Inspection in Statt. II should be added to the Inspection charges shown in Statt. V. In this statement the net cost of Primary and secondary education has not been separately given as required by G.O. dated 18th October 1884 No. 2336. The necessary information should now be furnished without delay.

5. From the foregoing abstract it will be seen that the budget grants have, in several cases been exceeded without

of Government. This

irr should
