3. **Receipts**. The receipts during the year amounted to rupees 21654, exclusive of the opening balance: as against an estimate of Rs 24,650: and actuals of 1884-85 of Rs 23,755. The decrease occurs under all the items of receipts as shown in the above Statement. The main causes are:—

(1) Rs 800 due by Government on account of tax on lands not having been paid. In explanation of this it is submitted that the lands taxed have not been classified in the bills received into what are reserved by Forest Department and what are in charge of the Revenue Department, nor do they correctly give the Settlement number and area of the plots. The absence of the Coonoor Settlement map has caused the delay in payment, which will, however, be shortly adjusted.

(2) Owing to depression of trade a large n[illegible]ber of bills on a[illegible] of profess[illegible]x were cancelle[illegible]

(3) The fe[illegible] registration of car[illegible] were less, which the Chairman attributes to bad Season.

(4) The proceeds of night soil were Rs 780 less than the estimate. This is said to be due to the depression in Agriculture.

4. **Expenditure** The expenditure during the year amounted to Rs 23,357 as against the estimate of Rs 30,210 and actuals of 1884-85 of Rs 26,694. The comparatively smaller sum spent during the year is due first to the failure of the Municipal Councillors to realize the loan of Rs 7,000 sanctioned for new slaughter houses and the short income obtained as explained by the Chairman under the items of receipts. With regard to the loan, however, the Government sanctioned in G.O. N° 942. Mn. dated 12th December 1885, Financial Department, the proposal of the Councillors to raise the rate of interest to 6 percent. They have [illegible]ently succeede[illegible] obtaining [illegible] loan which w[illegible] expended in the current [illegible]ar in building

new slaughter houses, the want of which has been remarked upon both by Government and Sanitary Commissioner.

5. The municipal Council is doing its best with the amount at its disposal.- with letter No 51 dated 21st July 1886 a Scheme for the improvement of the water supply and drainage of the town was submitted to Government with a request that they will be pleased to contribute one-half of the estimated cost from Provincial Funds, leaving the Council to raise the remainder in the open market. The Scheme is under consideration in the Public Works Department vide G.O. No 747 M. Miscellaneous dated 4th August 1886

5. I regret the delay in submitting the report. It was received at the circuit a[illegible] in June last [illegible] Kotaghiri [illegible]ault is entirely [illegible] of the Coll[illegible]ffice

CHIEF SECRETARY 18 OCT 86

Municipal report.

Submitting the report of the Coonoor Municipality for the y [illegible]885-1886.

Municipal Councillors Office
Coonoor 12th June 1886.

Enclosures

4 8/9

From,
C. T. Charles Gray Esq.
Chairman, C. M. C.
Coonoor.

To,
The Chief Secretary to Government
of Madras,
Ootacamund.

Through
The Collector
of Nilgiris,
Ootacamund.

Sir,

I have the honor to submit the annual Report on the Coonoor Municipal Council for the Official year 1885/86. together with the statement of Accounts drawn up in the prescribed form.

2. Opening Balance. The opening balance of the year is Rupees 2324. 2. 3.

Receipts.

3. The following table shews the total sum collected under the various heads & from which it will be seen that the actual Receipts for the year amounted to Rupees 21653. 11. 9.

Rates on Houses.	8005	5	10
" " Lands.	868	15	3
Tax on arts, Profession &c.	794	8	"
" " Animals & Vehicles.	912	4	"
Registration of Ca	28	"	"
Licenses.	43	4	"
Contribution f ial Funds	2500	"	"
Surplus Pon	"	"	"
Fines and Fee	198	12	"
Income from	4850	"	"
Rent of Other Buildi	1437	3	8
Payment for Municipal vices	575	9	6
Miscellaneous	1239	12	10
Recoveries	"	"	"

The variation in regard to increase or Decrease is Explained in Comparat. Statement III. B.
The following statement shews the various heads under which there was an increase in the Receipts over the Budget Estimate.

	Actuals			Budget			Increase		
Rates and Taxes.	8005	5	10	7600	"	"	405	5	10
Market Sittings.	1325	"	"	1200	"	"	125	"	"

Expenditure.

4. Grant I. Public Works.

Budget Allotment 12730. 0. 0
Amount Expended. 7369. 3. 9.

The particulars of Expenditure are as follows:—

on New Works Buildings.	1022	2	7
" " Drainage	426	6	4
" Repair Communications	3354	12	9
" " Buildings.	148	2	3
" " Drainage.	85	10	6
" " Water supply.	341	8	4
" " Miscellaneous	26	10	6
Establishment	1860	"	"
Tools & Plant.	103	14	6
Total Rupees	7369	3	9

Under New Work Buildings a sum of Rupees 1448. 8. 11. was spent out of an allotment of 5700. 0. 0 owing to the Slaughter Houses not having been erected and to the Drainage works on Mission Hill having been stopped from want of Funds in the Early part of the year.
Under Repair [illegible]mmunications a su[illegible] Rs 3354. 12. 9. was spent

spent out of an allotment of Rs 4000. 0. 0 owing to the roads being in fair order & under Water supply a sum of Rs 341. 8. 4. spent out of an allotment of Rs 500. 0. 0 owing to the water Channel not requiring any Extensive repairs.—

Grant II. Expenditure.

Budget Allotment Rs. 1320. 0. 0
Amount Expended Rs. 570. 11. 0.

A Sum of Rupees 90. 11. 0 was paid as Result Grant to the American Mission School for the previous year. nothing was paid as Result Grant to the Roman Catholic School till after the end of the year but a sum of Rs 360. paid to the Roman Catholic school as salary Grant.
There are Five Schools in this Municipality of which two are Boys' schools Two Girls & the remaining one receives both Boys and Girls, only Two of these schools viz: American Mission Boys school and Roman Catholic Boys school receive any aid from the Municipality of these Two one was worked during the year on the Result system & the other on the Combined system.

There are 115 Boys & 67 Girls during the year. The numbers in each school are particularized below.

Roman Catholic School. Rolls. 1884/85. Boys. 81. Girls 37.
1885/86. Boys. 55. Girls 17.

Shewing a Decrease of 26 Boys & 20 Girls on the Rolls of the year under review. The Result Grant earned by this School was Rupees 283. 15 but this was not paid till after the Close of the year.

2. Coonoor Day School. Rolls. 1884/85. Boys. 19. Girl 20
1885/86. Boys 12. Girls 16.

Shewing a decre[illegible] of 7 Boys & 4 Girls on [illegible]lls of the year under review.

3. American [illegible] School Rolls. 1884/[illegible] 70. Girl 39
18[illegible] 48. Girls 34.

Shewing a Decrease [illegible] 2 Boys & 5 Girls [illegible] Rolls of the past year. No Grant was earned by this School as no Examination was held

Grant III. Sanitation & Medical Services.

Budget Allotment Rs. 7990.0.0
Amount Expended Rs. 8002.9.0
Being an Excess of Rs. 12.9.0

Conservancy.

No alteration has been made in carrying out the Conservancy of the town.
The Establishment of the Sweepers & Scavengers remains the same. No alteration has been made in the manner of disposing of the Night soil & the sweepings. Under the head of Sanitary Services a sum of Rs 987.14.10 was expended in excess of allotment this is occasioned by an error in the Budget in Estimating an expenditure under this head of Rupees 1500. instead of Rs 2500.–
The numbers of Latrines remains the same as in the last year. No new ones were erected. The number of Cattle remains the same. The general health of the station was good throughout the year.– Cholera & Small Pox were entirely absent. The Rainfall was 59.14 inches against 64.71 inches in 1884/85.

Vaccination – a 3rd class Hospital Assistant performs the duty of Vaccinator & when not so employed gives assistance in the Hospital. The total number of persons vaccinated during the year was 42 of which number 30 Cases proved Successful this cannot be considered satisfactory & is due to the objection shewn by the public to Vaccination. The cost of Vaccine operations was Rs 178.0.0 for the year being at the ratio of 5.14.11 per each successful Case. The Official Return of Vaccination is forwarded with this Report.

Births and Deaths. – The number of Births was 49 with 80 Deaths being in the ratio of 10.25 Births and 16.76 Deaths per mille of the population. – The Official Return of Births and Deaths is submitted herewith.

Hospital.

Com[illegible] [illegible]vil Hospital has bee[illegible] more freely [illegible]port; there [illegible] during the year [illegible] the year 1884/85 resorted to by the [illegible]ns against 33[illegible] previous year which having been [illegible] out patients [illegible] against 5241 in the [illegible] as shewing the increasing [illegible] considered as satisfactory [illegible] public of this insti[illegible]

Grant IV. Miscellaneous.

Budget Allotment Rs. 3000.0.0
Amount Expended Rs. 2658.0.0.

Leaving an unexpended Balance of Rs 342.0.0. This is partly accounted for by the fact that no money was spent under the head of Unforeseen Charges during the year and large Savings were effected under Market, Lighting and Water Works Contingencies, and nothing was spent under Chuttrum. – There was an Excess of Rs 94.3.3 Over allotment under Printing Charges which was owing to payments for advertizments for Loan of 7000 Rs. – The Lighting is carried out on the Contract system and no Establishment is therefore entertained.

Grant V. Supervision &c.

Budget Estimate Rs. 3609.0.0.
Amount Expended Rs. 3579.0.0.

Shewing an unexpended Balance of Rs 24.0.0 this is owing to Contribution to Central Office Establishment not having been paid till after the close of the year.

Debt Account.

Budget Estimate Rs 1170.0.0.
Amount Expended Rs. 400.11.2.

This is owing to the Loan not having been raised.–

Refunds.

A[illegible] of Rupees 376.3.6 [illegible] refunded in Excess of the allotme[illegible] to a large number [illegible] Houses being vacant during [illegible] year.

Municipal Board

The Board consisted of the following Members:-

Officials.	Non-Officials
L. R. Burrows Esq.	C. T. Charles Gray Esq.–Chairman
Surgeon G. S. Walker, M.D.	L. Reilly Esq.
M. R. Ry. K. A. Seshiengar avergal	W. Lee Kirby Esq.

No. 1131. Coonoor, 28th May, 1886.

27

15

From,

The Deputy Inspector of Schools,
North Coimbatore
and Nilgiris.

To,

The Chairman,
Municipal Council,
Coonoor.

Sir,

I have the honor to report on the state and progress of education in the Coonoor Municipality during the official year 1885-86.

2. The subjoined table gives for the past two years the names of Schools arranged according to Standards of instruction, together with the number of pupils and the increase or decrease in such numbers

Names of schools.	No. of Schools on 31st March		No. of pupils on 31st March		Increase or decrease in schools.	Increase or decrease in pupils.	Remarks.
	1885.	1886.	1885.	1886.			
Middle Schools.							
Aided.							
Stanes' Day School.	1	1	39	46	"	+7	46.
Roman Catholic Boys School.	1	1	81	81	"	"	81.
Primary Schools.							
Aided.							
Am[illegible] Mission Boy's School.	1	1	70	47	"	–23	47.
[illegible] do — Girls-do–	1	1	39	6[illegible]	[illegible]	+23	62.
N[illegible]vent School.	1	1	3[illegible]	[illegible]	"	–12	25.
Nor[illegible] Night Boy's School.	"	1	"	[illegible]	1	+16	16.
Total	5	6	266	277	1	+11	277.

The number of schools and pupils increased by 1 and 11 respectively. The increase of pupils was chiefly due to the increase of girls studying in the American Mission Girls School. The increase in [illegible] school was due to the establishment of a private Night School.

3. The Roman Catholic School remained stationary in strength, while the Native Convent School showed a considerable decrease, probably owing to its inconvenient situation and to the inferior character of the instruction imparted there at present.

Education in regard to population.

4. The number of boys and girls under instruction at the close of the year were 167 and 110 respectively. The number of children of school-going age being 389 boys and 328 girls, the proportion of children under instruction to those of school going age was 40 per cent under boys and 34 per cent under girls. These percentages compared with those of the past year, show a considerable increase under girls and a slight decrease under boys. The decrease under boys is to be regretted. [illegible] Two Infant schools opened in s[illegible]ent [illegible] children than [illegible] school convenient[illegible] likely that [illegible] schools are [illegible]

a large number of young children, who now merely waste their time at home. These schools, if opened, should be worked only as feeders to the older schools in the town and should not be taken beyond the 2nd Standard. The Combined system of aid is best adapted for establishing these schools, and as a special case owing to the exceptional character of a hill station, the Councillors may also have to provide house-rent and furniture for the two schools. I would suggest the opening of one of these schools in the Lower bazaar Street, and another in the Milk Village (Ottupattrai) a few miles away from the town. One school may be opened first as an experimental measure. If this scheme is approved, proposals will be submitted for opening the school.

5. As to nationality, the 167 boys consisted of 23 Europeans, 28 Native Christians, 9 Mahomedans, 1 Brahman, 6 Vysias, 82 Sudras, 17 Parayas, 1 Parsi, and the girls consisted of 23 Europeans, 33 Native Christians, 9 Vysias, 42 Sudras and 3 Parayas. It will be observed that the majority of the [illegible] belonged to the Tamil [illegible]dra community. [illegible] Boys under instruction in the [illegible] Roman Catholic School were returned as Sud[illegible]

Distributed according to occupation of parents there were 47 pupils under officials, 13 petty officials, 57 traders, 9 land holders, 64 Artizans, 71 Coolies and 16 mendicants. These figures show that all classes of the community are fairly represented, and that the Cooly element preponderates, which is natural in a town like Coonoor.

6. Inspection. — I have been in charge of the district from 8th May 1885. The work of the Inspecting schoolmaster may be described as fairly satisfactory. A statement of his work is appended. He visited and prepared for inspection six schools. The average number of visits paid to each school was 4. There was some improvement in his work of instructing and training the untrained masters so as to render them efficient teachers according to improved methods of teaching, but there is considerable room for further improvement.

Name.	Designation.	Qualification.	Time spent in Camp.	Number of villages visited		Number of schools visited and prepared for inspections				Total number of visits paid to all schools.	Average number of times each school was visited.
				Having schools under inspection	Not having schools under inspection.	Municipal schools	Grant-in-aid schools	Other schools	Total.		
T. K. Venkata Rao	Inspecting Schoolmaster, Nilgiris	T. A. Untrained	[illegible]		"	"	5	1	6	[illegible]	[illegible]

7. I shall now proceed to remark briefly on the working of each school mentioned above.

I. Stanes' Day school. — This school was examined in May 1885. It required organization. The teaching staff was weak for the number of classes it contained. The results of the examination were, not very satisfactory in most of the important subjects owing to defective classification and constant changes in the teaching staff. The school has since been properly organized, and arrangements have been made to remedy the various defects pointed out. The teaching staff has been changed and it is hoped that the school will now improve in its working.

II. Roman Catholic Boys school. — This, one of the most important schools in the town, contains a large number of Hindus and a few Badagas. The condition of the school as to order, cleanliness, organization, efficiency of instruction, teaching staff and furniture ~~is~~ was not satisfactory. But the defects in many instances are such as require a large expenditure to remedy them and it is therefore hoped that the necessity of a liberal [illegible] to this important school will be [illegible] by the Council

III. American Mission Boys' School. — The teaching staff of this school consisted of three untrained masters. The school has suffered much both in attendance and instruction from the constant changes in the staff. The results of my examination were middling to fair. A general defect in the school was that the teaching did not appeal sufficiently to the intelligence of the pupils. The Infant Class, constituting the bulk of attendance, needs working up. The school building requires to be enlarged and improved.

IV. American Mission Girls' School. — The strength of the school has increased very much after its transfer to the present locality. The mistresses are unpassed. The Headmistress is energetic but her modes of teaching are antique. The results of my examination were middling to fair.

V. Native Convent Girls' School. — This school passed a fair examination. It is under the charge of native nuns who devote most of their time to the education of children. Some furniture are needed, and the school building should be enlarged. The strength of the school has decreased by [illegible]

The

for the little girls who live in the bazaar street.

VI. Arnold's Night School. — This school was started in April last for the benefit of children and adults belonging to the Tamil and Mahomedan communities who can spare time to read at nights. There was a strength of 20 pupils. The manager is willing to bring the school under inspection.

8. The following statement shows the operations of the Result and the Combined System rules during the year and the amount of grant earned by schools from Provincial and Municipal Funds.

Name of Schools	I		II		III		IV		V		VI		Provincial grant									Municipal grant								
	Presented	Passed	Presented	Passed	Presented	Passed	Presented	Passed	Presented	Passed	Presented	Passed	Sanctioned			Arrears drawn			Stipends drawn			Sanctioned			Arrears drawn			Stipends drawn

8/

9. The expenditure for the year under grant II including contribution to Local Funds for educational inspection, amounted only to Rs. 570.11.. against a budget provision of Rs 1320. This great difference between the expenditure and the provision in the budget is ~~was~~ due to the inability of the Councillors to pay within the year the grants due to certain schools.

I have the honor to be,
Sir,
Your most obedient servant
J. A. Hewit

Deputy Inspector of Schools
for the Coimbatore
and Nilgiris.

Municipal Council,
Coonoor.

Dated 28th May, 1886.
Recd. 12th June 1886

No. 1131.

Submitting report on the state and progress of education [illegible] the Coonoor Municipality during the year 1885-86.

128/

Brief medical & Sanitary Report on Coonoor for the year 1885-1886.

35

Season. The total rainfall for the year amounted to 59.14 inches. The Season throughout was favourable to health.

Necessaries of life. A plentiful Supply of food of all kinds was received from the plains throughout the year, and sold in the bazaar at moderate rates.

Conservancy. The conservancy of the town is carried out by means of 38 dust bins, 14 Public latrines, and 62 private latrines. 5 Dust carts and 5 night Soil carts together with a Sufficiently large conservancy establishment. The night Soil is carted out direct to a neighbouring coffee estate where it is utilized as manure; the dust bin sweepings being deposited at a temporary depôt near the Slaughterhouse, from whence it is carted away daily for use as manure.

The municipal Conservancy establishment clean out daily the private, as well as the public latrines, the owners of the former paying a monthly fee. The old Slaughter houses continue to be a public nuisance; but plans and estimates for new ones, have been drawn up, and approved; and a new and more Satisfactory Site has been Selected.

Drainage. The drainage is in the Same imperfect condition that it was last year. A regular Scheme of drainage for the whole town has been planned, which would be a great boon if it could be [illegible] out. It is estimated to cost Rs 40,000.

but

but this Sum, (equal to 1½ years income), it is quite impossible for the municipality to provide; an application has been made to Government for a grant for the purpose. 27

Water Supply. The source is good, but the distribution very defective. The chief source is from Springs which arise amongst the hills some three miles from the town, to which the water is conveyed in open unprotected channels, which are liable to pollution at any point. The proper protection of the water supply is a work far too costly for this poor municipality to carry out without a large Government grant. There are some small Springs on private premises in different parts of the Station.

Vaccination. Vaccination continues in the same unsatisfactory condition as heretofore, and I anticipate no improvement until it is made compulsory in the town. This matter has been made the subject of several communications to the Coonoor Municipal Council, by me, and by my predecessor.

General Health. The general health of the Public was good throughout the year. No case of cholera or Small pox occurred, nor was any other disease epidemic.

The following table shows the admissions into Hospital during the last 3 years.

	1883-84	1884-85	1885-86
In-patients	196	239	337
Out-Patients	3843	5241	7491
Total	4039	5480	782[illegible]

The [illegible]ase here shown does n[illegible]t indicate a g[illegible]mount of Sickn[illegible] amongst the people but

but an increased appreciation of the relief afforded at the Hospital. This increase is especially marked amongst females, for whom the indoor accomodation is extremely limited and inconvenient. It consists of a small narrow slip of a ward capable of containing only two cots, whilst accomodation of eight at least is required: a lying-in ward is also much wanting. The municipality is quite unable to supply these wants. I am endeavouring by the aid of voluntary contributions and a Fancy Bazar which is about to be held, to raise funds for the purpose of adding a convenient female ward and Lying-in ward to the Hospital, the probable cost of which would be about Rs 3500.

The prevailing diseases during the year were malarious fevers, Rheumatic and Respiratory affections, Bowel complaints and Injuries.

1. Average no. of persons daily aided during 1885-86 viz old and new patients attending at present in the Hospital	..	65.23.
2. Number aided in the year	. ..	7828.
(a) Number of old persons continuing under treatment from previous year	.	77
(b) Number of new admissions during the year	.	7751
3. Income		
(a) From Government	Rs.	1362—11—11
(b) Endowment	Rs	.. .. ..
In land	Rs.	.. .. ..
In money	Rs	.. .. ..
(c) Subscriptions & Donations	Rs	1521—5—3
Nature of relief afforded		
(a) In door admitted		337 Died 32
Out Door Do		7491 .. ..

2. In Statements II & III-B the names of the Schools aided from Municipal Funds ~~should be omitted~~, the expenditure along being ~~alone~~ shown under the appropriate heads. ~~The entries in~~ According to the former statement ~~differ from those in~~ Statements II-A & II-B as shown below. These discrepancies should be explained.

	Statement III.	Statement II-A Part II
	Rs	Rs
es-Miscellaneous	26-10-6 .	125-10-6
		Statement II-B
pensaries-Establishment	693-4-8 .	708-"-"

this school

4. In Statement II-A ~~[illegible]~~ the expenditure for the year ~~in 1884-85~~ on new works is erroneously shown in the Column of past expenditure. The amount ~~of the contract~~ for which the Lighting ~~[illegible]~~ of the town was leased out on contract is erroneously shown in Statement II B as a charge for establishment.

~~4.~~ 5. In Statement IV the arrears of 1884-85 and those of ~~the~~ previous years have been transposed. It is moreover evident from Statement I that the Collections ~~for the current [illegible]~~ shown in ~~the former~~ Statement II erroneously include ~~the~~ arrear collections also. Fees collected in private Sch should sho the

which relates
