8TH AUGUST 1887, No. 748 M., LOCAL AND MUNICIPAL.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M. W. ELLIOT, Esq., Chairman, Municipal Council, Cuddapah, to the Chief Secretary to Government (through the Collector of Cuddapah), dated Cuddapah, 30th June 1887, No. 113.

I have the honor to submit my report upon the working of the District Municipalities' Act (No. IV of 1884) for the year 1886-87 with the prescribed statements enclosed.

2. The actual receipts were Rs. 42,521-9-11, including an opening balance of Rs. 307-14-5 against Rs. 45,200 estimated. The decrease occurs chiefly under tolls and opening balance. It is partly counterbalanced by the arrear collection of house and land taxes.

3. *House Rates* were estimated at Rs. 8,000, but the actual demand assessed was Rs. 7,725-1-2, which was reduced to Rs. 7,639-3-2 after hearing appeals. The collection was Rs. 8,590-9-4, including an arrear of Rs. 1,630-3-2 on account of previous year. Of the balance (Rs. 678-13-0), Rs. 434-11-0 has since been collected.

4. *Land Rates.*—Rs. 300 were entered as receipts under this head, calculating at 12 annas per acre instead of at Rs. 1-8-0. The Government having called for explanation as to the grounds on which the reduction was made, the explanation was offered (*vide* Chairman's letter, No. 232, dated 2nd August 1886), and the reduction was disallowed (*vide* G.O., Mis. No. 891 M., dated 4th September 1886). Hence the estimate, Rs. 600—the actual demand assessed was Rs. 710. The collection was Rs. 1,285-8-3, including an arrear of Rs. 637-1-4½ on account of previous year. Of the balance (Rs. 61-9-1½), Rs. 6-5-0 has since been collected.

5. *Tax on Arts, &c.*—Estimate Rs. 4,000, assessment Rs. 4,340, but reduced to Rs. 3,904 after hearing appeals. Rs. 3,701-8-0 was collected, including an arrear of Rs. 314-8-0; of the balance Rs. 517, Rs. 46-8-0 has since been collected. The balance uncollected is being collected. The delay was due to the disposal of appeals against assessment of members of undivided Hindu families. A reference was made to Government and the matter was not disposed of by the council until the 4th March 1887.

6. *Taxes on Vehicles and Animals.*—The receipts amounted to Rs. 1,085-12-0 against Rs. 1,300 estimated.

7. *Registration of Carts.*—Estimate Rs. 1,000, collection Rs. 1,001.

8. *Tolls.*—This was estimated at Rs. 14,000 but was sold for only Rs. 12,000, of which Rs. 11,000 was collected and Rs. 1,000 has since been collected; also Rs. 34-10-0 was collected on account of previous year.

9. *Contribution from Provincial Funds.*—The estimate under this head was Rs. 3,450, but the actual receipts amounted to Rs. 3,228-3-5 as shown below:—

	RS.	A.	P.
Net cost of High school department for 1885-86	708	3	5
Do. do. do. for 1886-87	2,520	0	0
Total ..	3,228	3	5

10. *Realization under Special Act.*—The collections amounted to Rs. 81-2-0, as detailed below, against Rs. 50 estimated on account of Special pound fund.

	RS.	A.	P.
Surplus Pound fund ..	49	15	0
Police fines ..	31	3	0
Total ..	81	2	0

11. *Contribution from Local Funds.*

	RS.	A.	P.
Civil dispensary ..	2,000	0	0
Poor house ..	250	0	0
Total ..	2,250	0	0

12. *Municipal Fines.*—Estimate Rs. 200, collections Rs. 256-3-0 as detailed below :—

	RS.	A.	P.
House-tax, warrant fees ..	64	12	0
Land-tax, do. ..	7	8	0
Magisterial fines ..	183	15	0
Total ..	256	3	0

13. *Fees in Schools and Training Institutions.*—The income under this head was estimated at Rs. 3,770 and the actual collections amounted to Rs. 3,359-12-6 as detailed below :—

High school—

	RS.	A.	P.	RS.	A.	P.
High school department ..	643	0	0			
Middle do. ..	1,825	12	6			
Primary do. ..	124	12	0			
				2,593	8	6
Anglo-Vernacular school ..				639	4	0
Vernacular school ..				127	0	0
Total ..				3,359	12	6

14. *Income from Markets, &c.*—Estimate Rs. 3,600, sold for Rs. 3,336, realized Rs. 3,336.

15. *Rent of other Buildings.*—Estimate Rs. 1,200, collection Rs. 1,379-15-0 as shown below :—

	RS.	A.	P.
Travellers' bungalow ..	260	10	0
Cart-stands ..	464	0	0
Slaughter-houses ..	655	5	0
Total ..	1,379	15	0

The increase is due to the collection of arrears of Rs. 64 on account of cart-stands and Rs. 90 on account of slaughter-houses.

16. *Endowments, &c.*—Estimate Rs. 640, collection Rs. 576-9-0 as shown below :—

	RS.	A.	P.
Interest on Government promissory notes ..	440	0	0
Subscriptions ..	60	0	0
Sale of medicines ..	76	9	0
Total ..	576	9	0

17. *Miscellaneous Receipts.*—Estimate Rs. 430, receipts Rs. 562-13-0 as shown below :—

	RS.	A.	P.
Sale of street sweepings ..	475	0	0
Sale of avenues ..	24	14	0
Sale of old materials ..	60	1	0
Miscellaneous ..	2	14	0
Total ..	562	13	0

18. *Grant I—New Works—Buildings.*—The budget grant under this head was Rs. 1,500 and expenditure Rs. 1,766-14-11. Statement II-A, Part I, will give the details.

19. *Miscellaneous.*—Under this head Rs. 118-9-3 was spent. For details see the statement above alluded to.

20. *Repairs — Communications.*—The expenditure under this head was Rupees 3,718-14-11 against Rs. 7,000 allotted, on the supposition that Rs. 14,000 would be realized from tolls, but the tolls revenue for the year amounted to only Rs. 12,000. Nearly 5¼ miles of road were re-metalled.

21. *Buildings.*—Rs. 213-1-3 was spent under this head against Rs. 450 estimated.

22. *Miscellaneous.*—Under this head Rs. 14-2-6 was spent.

23. *Tools and Plant.*—Rs. 65-13-4 was spent for the purchase and repairs of tools.

24. *Grant II—Education—Training Schools.*—Estimate Rs. 240; expenditure Rs. 85-15-6, being pay of two teachers sent from the vernacular school for training in the Local Fund normal school.

25. *Municipal Schools.*—The expenditure under this head was Rs. 8,988-9-7, as detailed below, against Rs. 9,690 estimated.

	RS.	A.	P.	RS.	A.	P.
High school—						
Establishment ..	6,663	7	5			
Contingencies ..	69	1	4			
				6,732	8	9
Anglo-Vernacular school—						
Establishment ..	1,136	10	3			
Contingencies ..	30	15	4			
House-rent ..	120	0	0			
				1,287	9	7
Vernacular school—						
Establishment ..	832	7	1			
Contingencies ..	16	0	2			
House-rent ..	120	0	0			
				968	7	3
Total ..				8,988	9	7

The two last-mentioned schools were examined by the Deputy Inspector of Schools. Copy of his report is herewith submitted.

26. *Results Grants.*—Allotment Rs. 400, expenditure Rs. 217-5-2.

27. *Grant III—Sanitation and Medical Service—Hospitals and Dispensaries.*—The expenditure under this head was Rs. 5,522-14-11 for the establishment, medicines, contingencies against Rs. 5,550. A copy of the District Surgeon's report is herewith submitted.

28. *Contribution towards Medical College.*—Rs. 197.

29. *Contribution towards Sanitary Inspection.*—Rs. 197.

30. *Reserve Medical Staff.*—Rs. 16.

31. *Cutler's Establishment*—Rs. 11.

32. *Vaccination.*—Rs. 217-12-3 were spent on this account against Rs. 220 allotted. The number of cases vaccinated was 250, of which 202 were successful; the cost of each successful case was Rs. 2-1-3.

33. *Registration of Births and Deaths.*—The cost of the establishment was Rs. 192 against Rs. 190 allotted. The result of registration in the municipality during the year as compared with the previous year's results is exhibited below; population according to the census of 1881—18,982.

	1885-86.	1886-87.
Cholera	..	9
Small-pox	4	17
Fevers	124	154
Bowel-complaints	27	49
Injuries.		
Suicides	1	4
Wounds	1	..
Accidents	2	2
Snake-bites	1	..
Killed by wild beasts	..	..
All other causes	289	354
Total deaths	449	589
Total births	472	454

34. *Conservancy.*—The allotment under this head was Rs. 8,860. The expenditure was Rs. 7,636-6-9 as shown below:—

	RS.	A.	P.
Establishment	4,452	4	0
Sanitary service—Cost of conservancy cart	2,598	8	6
Cleansing of tanks and wells	96	0	0
Contingencies, including repairs of carts, dry earth, &c.	406	15	6
Muhammadan burial-ground	82	10	9
Total	7,636	6	9

Of the allotment of Rs. 1,000 for a new burial-ground for Muhammadans, only Rs. 82-10-9 was spent in clearing an old Muhammadan burial-ground made over to the municipality by the Collector (*vide* G.O., No. 248, dated 7th March 1887). The purchase of the ground selected by the municipality for a new burial-ground for Muhammadans has not been completed.

35. *Lighting.*—Allotment Rs. 1,200, expenditure Rs. 1,346-11-10 as shown below:—

	RS.	A.	P.
Establishment	332	12	0
Contingencies	705	7	10
Plant	308	8	0
Total	1,346	11	10

36. *Market and Slaughter-houses.*—Expenditure Rs. 623-0-11 against Rs. 550; the increase is under contingencies.

37. *Poor House.*—The cost of maintaining the poor house was Rs. 476-7-3, as shown below, against Rs. 580 estimated.

	RS.	A.	P.
Establishment	132	0	0
Contingencies	77	11	4
Feeding inmates	266	11	11
Total	476	7	3

The average number of inmates was 14.

38. *Avenues.*—Rs. 162-5-6 was spent for watering avenue trees.

39. *Fire.*—Rs. 84-2-0 was spent for quenching fire.

40. *Travellers' Bungalow.*—Rs. 184-11-6 was spent for the establishment and contingencies.

41. *Other Charges—Printing, Rewards, &c.*—Allotment Rs. 330, expenditure Rs. 709-7-9 as below:—

	RS.	A.	P.
Printing	525	15	4
Killing dogs	26	15	0
Tin tickets	38	10	9
Assessment	13	4	3
Law charges	11	6	0
Tom-tom	36	0	0
Polling officer	20	0	0
Processions	37	4	5
Total	709	7	9

42. *Grant V—General Establishment.*—The expenditure under this head amounted to Rs. 4,124-4-6 against Rs. 3,470 allotted. Details as follows:—

	RS.	A.	P.	RS.	A.	P.
Establishment	2,403	12	4			
Contingencies	165	9	10			
Office rent	110	0	0			
Stationery	100	10	1			
Printing	388	14	7			
Auditor's fee	173	0	0			
				3,341	14	10
Collection of municipal taxes	..			625	1	3
Contribution towards Government office	..			34	0	0
Collection of tolls establishment	107	5	2			
Contingencies	15	15	3			
				123	4	5
Total				4,124	4	6

43. Statements showing the number of coercive processes issued during the year are herewith submitted.

ENCLOSURES.

Letter from the Deputy Inspector of Schools, Cuddapah Range, No. 176, dated 2nd June 1887, to the Chairman, Municipal Council, Cuddapah (through the Inspector of Schools, Second Division).

Introduction.—I beg to submit, herewith, a report on the state and progress of education in the Cuddapah Municipality during the year 1886-87.

2. *Schools and Pupils.*—The subjoined table gives the number of schools of different grades and the number of pupils under instruction for the last two years:—

Grade of schools.	Schools.				Pupils.			
	Number on 31st March.		Change in		Number on 31st March.		Change in	
	1886.	1887.	Number.	Percentage.	1886.	1887.	Number.	Percentage.
Secondary	4	4	..	..	185	364	+ 179	96·75
Primary	17	20	+ 3	17·64	492	609	+ 117	23·78
Total	21	24	+ 3	14·28	677	973	+ 296	43· 7

3. One private middle school was closed during the year, but the high school, which had not appeared in my previous report, having been included in this report, the number under

secondary schools remains unaltered. The increase in the number of pupils attending these schools, which was 96·75 per cent., is due to the inclusion of the pupils of the high school. The increase in the number of primary schools and their pupils is owing to the addition of three unaided schools to that group during the year.

4. *Secondary Schools.*—Of the four secondary schools, one is the Municipal high school as already stated and the other three are middle results schools under the management of the London Mission Society.

5. *Municipal High School.*—The strength of the high school was 180 in March 1886 and it has since risen to 252. At the Matriculation Examination the result was good, 70 per cent. of the number that appeared having passed; the Comparative Examination produced but poor results, only 4 having passed out of 14 presented; the results of the Middle School Examination were fair, and those of the Lower Fourth Comparative Examination very good, the successful candidates being 41 per cent. in the former and 77 per cent. in the latter examination. At the Inspector's examination, the school as a whole is reported to have been in a condition far from satisfactory. The expenditure incurred on account of this school from various sources is shown below:—

Schools.	Expenditure from Municipal funds.	Provincial funds.	School fees.	Total.	Remarks.
	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.	
High school	910 12 10	* 3,228 3 5	2,593 8 6	6,732 8 9	* Of this Rs. 708-3-5 is the amount for 1885-86 but drawn in 1886-87.

6. *Middle Results Schools.*—Of the three middle results schools, one is a boys' school, the other two being schools for girls. They were all examined for results grants during the year. The boys' school earned a grant of Rs. 135-9-7 from Municipal funds and both the girls' schools Rs. 144-8-0 payable from Provincial funds.

7. *Primary Salary System Schools.*—Of the primary schools, two are municipal schools, one teaching both English and Telugu and the other Telugu only.

8. The strength of the Anglo-Vernacular school decreased by 7·5 per cent., and that of the vernacular school by 5·7 per cent. during the year. Both the schools were examined in March last and the results were fair. Two of the teachers of the vernacular school underwent training in the Cuddapah normal school. The expenditure incurred on account of these schools is shown in the table below:—

Schools.	From Municipal funds.	From School fees.	Total.	
	RS. A. P.	RS. A. P.	RS. A. P.	
Anglo-Vernacular school	648 5 7	639 4 0	1,287 9 7	
Vernacular school	841 7 3	127 0 0	968 7 3	

9. *Primary Results and Unaided Schools.*—Of the other schools of this grade 7 are results schools and 11 unaided schools under improvement. The grant earned by the former during the year is Rs. 104-13-7, of which Rs. 23-2-0 was not paid within the official year, as the teacher did not present the certifying memorandum for payment through illness.

10. The number of schools registered for examination during 1886-87 was 11, and 10 of them were examined for grant, the remaining school was not examined as the teacher left the town for his native place.

11. *Female Education.*—The number of girls under instruction during the year increased by 2·35 per cent.

12. *Muhammadan Education.*—The number of Muhammadan schools was 3 in March 1886 with 27 pupils. In March 1887, the number of these schools rose to 5 with 86 pupils. The number of pupils in the Muhammadan department of the high school was 43 and the number of Muhammadans under instruction in other schools was 199 at the end of 1886-87. Thus the total number of Muhammadans under instruction in the municipality was 328 during the year under report.

13. *Gymnastics.*—The Municipal high school and the London Mission school are supplied with gymnastic apparatus and the students practise gymnastics on the approved system. The Municipal Anglo-Vernacular and vernacular schools not being provided with any apparatus, the children go to the high school to practise gymnastics, each pupil of the Anglo-Vernacular school paying a fee of one anna a month and each pupil of the vernacular school paying 6 pies, which goes to the gymnastic instructor.

Administration Report of the Municipal Dispensary, Cuddapah, for the official year 1886-87.

The public health of the town during the year under reference was not so good as the preceding one. Cholera of a mild type has prevailed in the town and in its neighbourhood during the months of April, May, June and July. There were altogether sixteen attacks and eight deaths. On the appearance of the outbreak, the usual precautionary measures were adopted to prevent the further spread of the disease, such as white-washing the houses, keeping the streets, drains, latrines, cess-pools clean, disinfecting and fumigating the affected houses, for which a special conservancy establishment was employed, and wood-fires, burning sulphur and tar at different parts of the affected localities. Two medical subordinates were also specially deputed to treat cholera patients at their own houses under the supervision of Assistant Surgeon C. P. Ganapathi, L.M. & S. Small-pox and chicken-pox have also prevailed to a small extent in the cold season.

The usefulness and advantages of the dispensary are well appreciated, and is largely attended by all classes of people, many coming from distant taluks.

The institution is supported partly by the Municipality and partly by the Local Fund board, supplemented by the interest of the funded capital.

It is now and then visited by the civil authorities of the district and by the municipal councillors. There are no regular meetings held during the year, but the matters connected with the dispensary are disposed of usually at the general meetings of the municipal council.

The institution is under the medical charge of the District Surgeon, and during his absence on tour of inspection in the district the Assistant Surgeon is in charge.

During the period under reference 14,231 out and 456 in patients have been treated, showing an increase of 1,038 of the former and 43 of the latter over the preceding year.

The most prevailing diseases during the year have been malarious fevers, rheumatic and neuralgic affections, ophthalmia, cold and coughs, dyspepsia, diarrhœa and dysentery, and enlargement of spleen, and ulcers.

During the year 23 major and 234 minor operations have been performed, but none of them, except the following, need a separate comment in this report.

1. Four large cystic tumors removed by knife, all cured.
2. Amputation of leg for compound comminuted fracture, 1—1 died.
3. Amputation of right upper arm for compound comminuted fracture of right forearm, 1—1 cured.
4. Amputation of right leg for fungus foot, 1—1 cured.
5. Amputation of penis for cancer, 2—both cured.
6. Reduction of dislocation of hip-joint under chloroform, 1—reduced.
7. Reduction of dislocation of shoulder-joint, 5—all cured.
8. Removal of a large polypus growth hanging into the posterior nares, 1—1 cured.
9. Four cases of craniotomy—2 cured and two died.

Conservancy of the town is looked after carefully by the municipality. There are, at present, ten open and four closed box-carts, the former for removing street and the latter for latrine sweepings, besides two basket-carts for removing the rubbish. There are also three iron drum carts (one purchased during the year) for removing night-soil, &c., from road sides and lanes. I have, in my last and previous years' reports, recommended the adoption of box-carts in lieu of the basket bandies, which hold very little rubbish; but the municipality have not apparently taken any action on it.

Conservancy Establishment consists of 1 sanitary inspector, 4 maistries, 28 male and 29 female scavengers. The post of sub-inspector was abolished during the year.

Latrines.—There are altogether 27 latrines, most of them are in bad order. Many of them are constructed with tatties or mud, requiring constant repairs. I would, therefore, recommend that one or two pucka latrines be constructed every year in their stead; this would, I think, be cheaper on the long run.

Dust-bins, same as last year, 130. Many of them require repair and re-adjustment. They are quite inadequate for a scattered and thickly populated place like Cuddapah. A great many streets and lanes are, at present, without them. I have in my last year's report recommended the construction of 50 more bins, but none were built. I would again urge the necessity of constructing more bins during the next official year.

Manure Depôt.—I have, in my last report, strongly objected to the site where the street and latrine sweepings are deposited on account of its close proximity to the European cemetery and public road, and suggested that another unobjectionable place be selected and that the sweepings, &c., burnt in a cinerator constructed for the purpose and the product converted into poudrette, but no steps were taken to carry out the proposal.

House Drainage as usual let into cess-pools, which are occasionally cleaned out and filled with sand and shingles by people themselves.

Surface Drainage is carried away by the side channels, which are more or less filled up with silt, &c., or otherwise destroyed. They are, at most places, not wide or deep enough to carry away the flood water, hence water stagnates in many parts of the town, keeping the air damp even long after the rains, which adds not a little to the general unhealthiness of the place. I would, therefore, propose that pucka side channels, with proper levels, be constructed at the required localities.

Water-supply.—Good drinking water is supplied principally from percolation wells, situated on the bank of the Bugga channel. The principal wells that are largely used by the people are watched by two men from polluting them. Water from the Bugga channel is used by the inhabitants for bathing and washing purposes only. The higher and richer classes of natives as well as European gentry get their drinking water from the Bugga springs, which are about three miles from the town. During the hot season almost all the wells supplying drinking water are regularly cleaned out and otherwise improved.

Water Project.—Application has been made by the municipality to Government, soliciting permission to raise debenture loans for carrying out the sanctioned scheme for bringing Bugga water into town, but no answer has as yet been received.

General Remarks.—The health of the public during the year has not been so good as in the past year. Intermittent fever to an unusual extent prevailed in the months of January, February, March and April unlike the previous years, which confined to the cold season only. The total number of admission under this head is 3,376, showing an increase of 1,092 cases over the preceding year. This may be attributed to some extent to the late appearance of the north-east monsoon and consequent paddy cultivation.

(Signed) M. IYASAWMY,
District Surgeon.

Submitted to Government.

1st July 1887.

(Signed) G. STOKES,
Ag. Collector.

Order—dated 8th August 1887, No. 748 M., Local and Municipal.

The receipts and charges of the Cuddapah Municipality for 1886-87 are compared below with the budget and revised estimates for the year and the actuals for the previous year:—

In Statements I and VI-A the sum of Rs. 130 shown under "Loans" as "Appropriation from deposits (Imperial license tax)" should have been credited under the head "Realizations under Special Acts." In Statements II and VI-A, the sum of Rs. 3,235 paid to Government on account of the license-tax collections should have been shown under Grant IV—Miscellaneous, and not under Grant V—Repayment of debt. The necessary corrections have been made in the foregoing abstract. In Statement I, Rs. 35 are shown as arrear collections under tolls, but no corresponding entry appears in Statement IV-B. The discrepancy should be explained.

2. During the year under report the office of chairman was held by Mr. M. W. Elliot, a non-official councillor, who was elected by the council in May 1885. On the 31st March last the council consisted of 16 members, of whom 4 were officials and 12 non-officials. The former were all appointed by Government and the latter were elected by the rate-payers. No elections have yet been held under the new rules sanctioned in G.O., dated 11th June 1886, No. 550 M. The council met twenty-four times during the year, the average attendance at each meeting consisting of 8 members (official 1, non-officials 7).

3. The opening balance was Rs. 308, and the current receipts of the year amounted to Rs. 42,214 against Rs. 44,200 and Rs. 46,460, respectively, anticipated in the budget and revised estimates. The total expenditure aggregated Rs. 40,955 and the year thus closed with a balance of Rs. 1,567.

4. The chief sources of municipal income, excluding assignments by Government and contributions from Local Funds, are the taxes on buildings and lands which brought in Rs. 9,876, tax on arts Rs. 3,744, tolls Rs. 11,035, school fees Rs. 3,360, and market fees Rs. 3,336.

5. The tax on buildings amounted to Rs. 8,591 and that on lands to Rs. 1,285, making a total of Rs. 9,876 against Rs. 10,830 anticipated in the revised estimate. The tax on lands is levied at Rs. 1½ per acre, presumably under section 63 (2) of the Act. A proposal to reduce it to one-half this rate was made by the council during the year but was disallowed by Government in G.O., dated 4th September 1886, No. 891 M. The current collections amounted to 90·2 per cent. of the demand, but only 52·7 per cent. of the arrears, which are still very high, were realized. For the collection of these taxes 206 warrants were issued, but the amount involved (Rs. 294) was realized without recourse to distraint of property in any case. The statement showing the incidence of the tax on buildings in the form prescribed in paragraph 9 of G.O., dated 31st March 1887, No. 304 M., has not been submitted, an omission which should be supplied as soon as possible.

6. The tax on arts yielded Rs. 3,744 against Rs. 4,340 expected in the revised estimate, the decrease being accounted for in paragraph 5 of the chairman's report. The number of persons assessed to this tax under each class should be reported without delay, as required in paragraph 10 of G.O., dated 31st March 1887, No. 304 M.

7. The revenue from tolls, which are levied at full schedule rates, was Rs. 11,035 against Rs. 12,040 anticipated in the revised estimate, the decrease being due to a sum of Rs. 1,000 not having been collected till after the close of the year. The variations in the other items of receipt, as compared with the revised estimate, are not satisfactorily explained.

8. The incidence of municipal taxation per head of the population was as shown below:—

	Including tolls.			Excluding tolls.		
	RS.	A.	P.	RS.	A.	P.
Cuddapah 1885-86	1	7	9	0	11	4
Cuddapah 1886-87	1	6	6	0	13	3
Average for all municipalities—1885-86	0	12	5	0	8	10

9. The total expenditure amounted, as above stated, to Rs. 40,955 against Rs. 44,950 provided in the revised estimate and Rs. 43,414, the actuals of the previous year. It was distributed among the several grants as shown below:—

	RS.	Per cent.
Grant I—Public Works	6,726	16·4
„ II—Education	9,292	22·7
„ III—Sanitation, &c.	13,990	34·2
„ IV—Lighting and Miscellaneous	6,822	16·6
„ V—Supervision and Management	4,125	10·1
Total ..	40,955	100·0

10. Under Grant I, Rs. 1,386 were spent for the construction of stalls in the municipal market, the total expenditure on which up to the end of the year amounted to Rs. 30,162 against an estimate of Rs. 29,445. On the gunpowder magazine an expenditure of Rs. 76 was incurred without any allotment of funds, and the total outlay thereon up to the end of the year was Rs. 1,805 against an estimate of Rs. 1,260. A sum of Rs. 305 was spent in constructing three mud wall latrines, without any estimate. Such irregularities should be guarded against in future. The outlay on the repair of roads was Rs. 3,719, or only 33·7 per cent. of the income from tolls, against Rs. 6,000 provided in the revised estimate. The reason for not working up to the estimate has not been explained. If the expenditure on communications during the current year does not come up to 50 per cent. of the toll revenue, the rates of tolls will have to be reduced. Nearly 5¼ miles of road are stated to have been re-metalled, but no information is given as to the general condition of the roads in the town.

11. The outlay on educational operations was Rs. 9,292. Of this sum Rs. 8,989 were spent on the upkeep of the three municipal schools and Rs. 217 on aided schools. Primary education does not seem to receive adequate attention. The following table gives the statistics of all the schools in the municipality:—

	RS.
On primary education	2,424
On secondary do.	6,868
Total ..	9,292

—	Primary schools.		Secondary schools.		Total.		Total number of children of school-going age.	
	Number of schools.	Attendance.	Number of schools.	Attendance.	Number of schools.	Attendance.	Boys.	Girls.
On the 31st March 1886.*	17	492	4	185	21	677	1,436	1,411
On the 31st March 1887.	20	609	4	364	24	973		

The council maintain a high school and two primary schools under their direct management. There are three other secondary schools in the town—one for boys and two for girls, which are reported by the Deputy Inspector to be aided by results grants. Excluding these schools there are, according to the Deputy Inspector, ten schools in receipt of results grants, while Statement V only shows 7. The discrepancy should be explained. The expenses of the high school came to Rs. 6,732 (of which Rs. 2,520 were paid by Government), while the receipts from fees only amounted to Rs. 2,593. Efforts should be made to reduce the charges. The attention of the council is drawn to the Deputy Inspector's remark that "at the Inspector's examination the school as a whole is reported to have been in a condition far from satisfactory." Muhammadan education in this town appears to be progressing.

12. In the municipal dispensary 456 in and 14,231 out-patients were treated against 413 and 13,193 respectively in the previous year. The cost of the institution was Rs. 5,523, which was met partly by a contribution from the District Board (Rs. 2,000) and partly by Municipal funds supplemented by the interest on its funded capital. The District Surgeon reports that the dispensary is largely attended by all classes of people, of whom many come from distant taluks.

13. The number and cost of vaccine operations and the number of births and deaths registered during the year are shown below:—

—	Number of vaccine operations.	Average cost of each.	Births.	Rate per mille.	Deaths.	Rate per mille.
		RS. A. P.				
1885-86	321	0 13 6	472	24·9	449	23·7
1886-87	250	0 13 11	454	23·9	589	31·0

The falling off in the number of vaccine operations, notwithstanding the introduction of compulsory vaccination in July 1886, is extremely unsatisfactory. The Inspector of Vaccination and Deputy Sanitary Commissioner, who inspected the town in

---

* The Municipal high school, which had 252 pupils at the close of 1886-87, was not included in the returns for 1885-86.

March 1887, states that vaccination work has been almost entirely neglected and that the machinery for properly carrying it out is wanting. As a consequence, the cost per case is exceedingly high, being Annas 13-11 against an average of Annas 4-1 for all municipalities in 1885-86. The Government must insist on this matter being taken in hand with vigour during the current year. The present vaccinator, it is noted, was appointed only in January last. The registration of vital statistics also needs improvement, the births registered being obviously below the actual number.

14. On conservancy Rs. 7,636 were spent against Rs. 8,920 provided in the revised estimate and Rs. 7,832, the actuals of 1885-86. The District Medical and Sanitary officer says that the conservancy of the town is carefully looked after, but the serious defects pointed out in his report should receive attention. There is no system of private scavenging though from the medical officer's remarks it is evidently much wanted. The council should endeavour to start the system in the town. The public health was not so good as in the previous year. Cholera of a mild type prevailed in the town and in its neighbourhood from April to July and 9 deaths were registered from this cause. Fever was prevalent to a large extent in the last three months of the official year, the total number of admissions under this head being 3,376 against 2,284 in 1885-86. The new water-supply project, for which the council have lately been authorized to raise a loan, will, it is hoped, soon be undertaken, and may be expected to effect considerable improvement in the health of the town. The closing of the existing burial-grounds, which is a matter to which the Sanitary Commissioner attaches much importance, appears to be engaging the attention of the council, but the allotment in the budget for a new burial-ground was left unutilized.

G.O., dated 13th May 1887, No. 447 M.

15. The outlay under Grants IV and V calls for no special remark except that a sum of Rs. 3,235 was paid to Government on account of the license-tax collections for 1884-85 and 1885-86, and that the cost of office establishment is high.

16. The note to Statement II shows that at the end of the year there was a cash balance of Rs. 1,567 or only 3·7 per cent. of the year's receipts, besides premises of the value of Rs. 60,000, funded capital of the dispensary amounting to Rs. 11,000, and claims to the extent of Rs. 113. The liabilities amounted to Rs. 2,078. The sum of Rs. 723 due to contractors should not have been shown under "Claims."

17. The report is very meagre, being nothing but a summary of the figures in the statements. On the whole it appears to Government that an increase of energy in carrying out the purposes of the Act is to be desired.

No 113

Municipal office,
Cuddapah, 30th June 1887.

From

M. W. Elliot Esqre

Chairman Municipal Council,
Cuddapah.

Local & Municipal Dept
CURRENT No 1112

To

H. E. Stokes Esqre

Ag. Chief Secretary to Government
Local and Municipal Department
Fort St George.

Through the Collector
of Cuddapah

(Lt No 8748 [illegible] 8/8/87)

Enclosures 16 stitched together

Sir

I have the honor to submit my report upon the working of the District Municipalities Act (No IV of 1884) for the year 1886-87 with the prescribed statements enclosed.

2. The actual receipts were Rs 42521-9-11 including an opening balance of Rs 307-14-5 against Rs 45200 estimated. The decrease occurs chiefly under Tolls and opening balance. It is partly counterbalanced by the arrear collection of House and land taxes.

3

Lt No 1112 [illegible] of 87

111

3. House rates were estimated at Rs 8000, but the actual demand assessed was Rs 7725-1-2 which was reduced to Rs 7639-3-2 after hearing appeals. The collection was Rs 8590-9-4 including an arrears of Rs 1630-3-2 on account of previous year. Of the balance (Rs 678-13--) Rs 434-11-- has since been collected.

4 Land rates - Rs 300 were entered as receipts under this head calculating at 12 annas per acre instead of at Rs 1-8--. The Govt having called for explanation as to the grounds on which the reduction was made, the explanation was offered (Vide Chairmans letter No 232 dated 2nd August 1886) and the reduction was disallowed (Vide G.O No 891 M (Misc) dated 4 September 1886). Hence the estimate Rs 600 the actual demand assessed was Rs 710. The collection was Rs 1285-8-3 including an arrears of Rs 637-1-4½ on account of previous year. Of the balance (Rs 61-9-1½) Rs 6-5-- has since been collected.

5: Tax on Arts &c. Estimate Rs 4000 - assessment Rs 4340, but reduced to Rs 3904 after hearing appeals. Rs 3701-8-- was collected including an arrear of Rs 314-8--; of the balance Rs (517----)

Rs

Rs 46-8-- has since been collected. The balance uncollected is being collected. The delay was due to the disposal of appeals against assessment of members of undivided Hindu Families. A reference was made to Government and the matter was not disposed of by the council until the 4th March 1887

6. Taxes on vehicles and animals:—

The receipts amounted to Rs 1085-12-- against Rs 1300 estimated.

7. Registration of Carts. Estimate Rs 1000 - Collection Rs 1001.

8. Tolls - This was estimated at Rs 14000, but was sold for only Rs 12000, of which Rs 11000 was collected and Rs 1000 has since been collected - Also Rs 34-10-- was collected on account of previous year.

9. Contribution from Provincial Funds - The estimate under this head was Rs 3450, but the actual receipts amounted to Rs 3228-3-5 as shown below:—

Net Cost of High school Department for 1885-86	708-3-5
Do Do for 1886-87	2520--
Total Rs	3228-3-5

10 Realization under special Act.

The collections amounted to Rs 81-2-„, as detailed below, against Rs 50 estimated on account of Special Pound Fund.

Surplus Pound Fund	49-15-„
Police Fines	31-3-„
	81-2-„

11. Contribution from Local Funds:—

Civil Dispensary	2000-„-„
Poor House	250-„-„
Total	2250-„-„

12 Municipal Fines — Estimate Rs 200. Collections Rs 256-3-0 as detailed below:—

House tax warrent fees	Rs 64-12-„
Land tax Do	Rs 7-8-„
Magisterial Fines	Rs 183-15-„
	256-3-„

13 Fees in schools and training institutions — The income under this head was estimated at Rs 3770 and the actual Collections amounted to Rs 3359-12-6 as detailed below:—

High

High School —

High school Department	643-„-„	
Middle School Do	1825-12-6	
Primary	124-12-„	2593-8-6
Anglo Vernacular School		639-4-„
Vernacular School		127-„-„
Total		3359-12-6

14. Income from Markets &c Estimate Rs 3600. Sold for Rs 3336, realized Rs 3336.

15. Rent of other buildings. Estimate Rs 1200. Collection Rs 1379-15-„ as shown below:—

Travellers' Bungalow	Rs 260-10-„
Cart Stands	464-„-„
Slaughter House	655-5-„
Total	1379-15-„

The increase is due to the collection of arrears of 64 on account of Cart Stands and Rs 90 on account of Slaughter Houses.

16 Endowm[illegible] Estimate Rs 640 Collection Rs 576-9-„ as [illegible]n below—

Interest on Govt Promissory Notes	Rs 440-„-„
Subscriptions	60-„-„
Sale of Medicines	76-9-„
Total	576-9-„

17. Miscellaneous receipts — Estimate Rs 430.

Receipts Rs 562-13-" as shown below:—

Sale of street Sweepings	Rs 475-"-"
Do Avenues	24-14-"
Do Old Materials	60-1-"
Miscellaneous	2-14-"
	562-13-"

18. Grant I New Works – Buildings – The Budget grant under this head was Rs 1500 and expenditure Rs 1766-14-11 Statement II A Part I will give the details.

19 Miscellaneous. Under this head Rs 118-9-3 was spent. For details see the Statement above alluded to.

20. Repairs – Communications. The expenditure under this head was Rs 3718-14-11 against Rs 7000 allotted, on the supposition that Rs 14000 would be realized from Tolls, but the tolls revenue for the year amounted to only Rs 12000. Nearly 5¼ miles of road were remetalled.

21. Buildings Rs 213-1-3 was [illegible] spent under this head against Rs 450 es[illegible]ted.

22. Miscellaneous under this head Rs 11-2-6 was spent.

23. Tools and Plant Rs 66-13-4 was spent for the purchase and repairs of tools.

24 Grant II – Education – Training Schools – Estimate Rs 240. Expenditure Rs 85-15-6 being pay of two teachers sent from the Vernacular school for training in the Local Fund Normal School.

25. Municipal Schools. The expenditure under this head was Rs 8988-9-7 as detailed below, against Rs 9690 estimated.

High School Establishment	6663-7-5	
Do Contingencies	69-1-4	6732-8-9
Anglo Vernacular School Estt	1136-10-3	
Contingencies	30-15-4	
House rent	120-"-"	1287-9-7
Vernacular School		
Establishment	832-7-1	
Contingencies	16-"-2	
House Rent	120-"-"	968-7-3
Total		8988-9-7

The two last mentioned schools were examined by the Deputy Inspector of schools. Copy of his report is herewith submitted.

26. Results Grants. Allotment Rs 400. Expenditure Rs 217-5-2.

27. Grant III. Sanitation and Medical Service – Hospitals and Dispensaries.

The expenditure under this head was Rs 5522-14-11 for the establishment, medicines, Contingencies against Rs 5550. A Copy of the District Surgeon's reports herewith submitted.

28. Contribution towards Medical College. Rs 197.

29. Contribution towards Sanitary Inspection - Rs 197.

30. Reserve Medical Staff - Rs 16.

31. Cutler's Establishment - Rs 11.

32. Vaccination - Rs 217-12-3 were spent on this account against Rs 220 allotted. The number of cases vaccinated was 250 of which 202 were successful; the cost of each successful case was Rs 2-1-3

33. Registration of Births and Deaths - The cost of the establishment was Rs 192 against Rs 190 allotted. The result of registration in the Municipality during the year as compared with the previous year's results is exhibited below. Population according to the census of 1881 - 18982.

	1885-86.	1886-87
Cholera		2
Small Pox	4	17
Fevers	124	154
Bowel Complaints	27	49
Injuries

Contingencies	15-15-3	
		123-4-5
Total		4124-4-6

43 Statements showing the number of coercive processes issued during the year is herewith submitted.

I have the honor to be
Sir
Your most obedient Servant
Chairman

Letter from the Deputy Inspector of Schools, Cuddapah Range, No 176, dated 9th June 1887, to the Chairman Municipal Council Cuddapah through the Inspector of Schools Second Division.

I beg to submit, herewith a report on the state and progress of Education in the Cuddapah Municipality during the year 1886-87.

2. The subjoined table gives the number of Schools of different grades and the number of pupils under Instruction for the last two years —

Grade of Schools	Schools				Pupils			
	Number on 31st March		Change in		Number on 31st March		Change in	
	1886	1887	Number	Percentage	1886	1887	Number	Percentage
Secondary	4	4	"	"	185	364	+179	96.75
Primary	17	20	+3	17.64	492	609	+117	23.78
Total	21	24	+3	14.28	677	973	+296	43.7

3. One private Middle School was closed during the year but the

High School which had not appeared in my previous report having been included in this report the number under Secondary Schools remains unaltered. The increase in the number of pupils attending these Schools, which was 96·75 Per cent, is due to the inclusion of the pupils of the High School. The increase in the number of Primary Schools and their pupils is owing to the addition of three unaided Schools to that group during the year.

4 – Of the four Secondary Schools, one is the Municipal High School as already stated and the other three are Middle Results Schools under the management of the London Mission Society.

5. The strength of the High School was 180 in March 1886 and it has since risen to 252. At the Matriculation Examination the result was good, 70 Per cent

cent

cent of the number that appeared having passed; the Comparative Examination produced but poor results, only 4 having passed out of 14 presented; the results of the Middle School Examination were fair and those of the Lower IV, Comparative Examination very good, the successful candidates being 41 Per cent in the former and 77 Per cent in the latter Examination. At the Inspector's Examination, the School as a whole is reported to have been in a condition far from satisfactory. The Expenditure incurred on account of this School from various sources is shown below

Schools	Expenditure from Municipal Funds			Provincial Funds			School fees			Total			Remarks
High School	910	10	10	×3228	5	5	2593	8	6	6732	8	9	×Of this Rs 78·3 is the amount for 1885·86 but drawn in 1886·87

6. Of the three Middle Results Schools, one is a boys' school, the other two being Schools for Girls. They were all examined for results grants during the year. The Boys' school earned a grant of Rs 135-9-7 from Municipal Funds and both the Girls' schools Rs 144-8-– payable from Provincial Funds.

7. Of the Primary Schools, two are Municipal Schools, one teaching both English and Telugu and the other Telugu only.—

8. The strength of the Anglo Vernacular School, decreased by 7.5 per cent, and that of the Vernacular School by 5.9 per cent during the year. Both the schools were examined in March last and the results were fair. Five of the teachers of the Vernacular school, underwent

training

training in the Cuddapah Normal school. The Expenditure incurred on account of these schools, is shown in the table below:—

Schools	From Municipal Funds			From School fees			Total		
Anglo Vernacular School	648	5	7	639	4	–	1287	9	7
Vernacular School	841	7	3	127	"	"	968	7	3

9. Of the other schools of this grade 7 are results schools, and 4 unaided schools under improvement. The grant earned by the former during the year, is Rs 104-13-7 of which Rs 23-2-" was not paid within the official year as the teacher did not present the certifying memoranda for payment through illness.

10. The number of schools registered for examination during 1886-87 was

11

11 and 10 of them were examined for grant, the remaining school was not examined as the teacher left the town for his native place.

11— The number of girls under instruction during the year increased by 2.35 per cent.

12— The number of Mahamedan Schools was 3 in March 1886, with 27 pupils. In March 1887, the number of these schools rose to 5 with 86 pupils. The number of pupils in the Mahamedan Department of the High School was 43 and the number of Mahamedans under instruction in other Schools was 199 at the end of 1886-87. Thus the total number of Mahamedans under instruction in the Municipality was 328 during the year under report.

13. The Municipal High

School and the London Mission School are supplied with gymnastic apparatus and the students practise gymnastics on the approved System. The Municipal Anglo-Vernacular and Vernacular schools not being provided with any apparatus the children go to the High School to practise gymnastics, each pupil of the Anglo Vernacular school paying a fee of one anna a month, and each pupil of the Vernacular School paying 6 pies, which goes to the gymnastic instructor.

Dr/

Administration report of the Municipal Dispensary, Cuddapah for the official year 1886-87.

The public health of the town during the year under reference was not so good as the preceeding one. Cholera of a mild type has prevailed in the Town and in its neighbourhood during the months of April, May, June and July. There were altogether 16 attacks and 8 deaths. On the appearance of the out-break, the usual precautionary measures were adopted to prevent the further spread of the disease, such as whitewashing the houses, keeping the streets, drains, latrines, cess-pools clean, disinfecting and fumigating the affected houses, for which a special Conservancy Establishment was employed, and wood-fires burning sulphur and tar, at different parts of the affected localities. Two Medical subordinates were also specially deputed to treat Cholera patients at their own houses under the supervision of Assistant Surgeon C. P. Ganapati L. M & S. Small-pox and Chicken-pox have also prevailed to a small extent, in the cold season.

The usefulness and advantages of the Dispensary are well appreciated and is largely attended by all classes of people many coming from distant Talugs.

The Institution is supported partly by the Municipality and partly by the Local Fund Board, supplemented by the interest of the Funded capital.

It is now and then visited by the Civil Authorities of the District and by the Municipal Councillors. There are no regular meetings held during the year, but the matters connected with

the

the Dispensary are disposed of usually at the General Meetings of the Municipal Council.

The Institution is under the Medical Charge of the District Surgeon and during his absence on tour of inspection in the District the Assistant Surgeon is in charge.

During the period under referen

14,231 out- and 456 In-patients have been treated, showing an increase of 1038 of the former and 43 of the latter over the preceeding year.

The most prevailing diseases during the year have been Malarious fevers, Rheumatic and Neuralgic affections, Ophthalmia, cold and coughs, Dyspepsia, Diarrhœa and Dysentery and enlargement of spleen and ulcers.

During the year 23 Major and 234 Minor Operations have been perform but none of them, except the following, need a separate comment in this report:

1. 4 large Cystic tumours - removed by knife, all cured.
2. Amputation of leg for compound Comd. Fracture 1 — 1 died
3. Amputation of right upper arm for compound Comd. Fracture of right forearm 1 — 1 Cured.
4. Amputation of right leg for fungus foot 1 — 1 Cured
5. Amputation of Penis for cancer 2 - both cured.
6. Reduction of dislocation of hip-joint under Chloroform 1 - Reduced.
7. Reduction of dislocation of shoulder joint 5 - all cured
8. Removal of a large Polypus growth hanging into the Posterior Nares 1 - 1 Cured.
9. 6 Cases of Craniotomy - 2 cured and 2 died.

Conservancy of the town is looked after carefully by the Municipality. There are, at present, 10 open and 4 closed box-carts, the former for removing street and the latter for latrine sweepings; besides 2 basket carts for removing the rubbish. There are also 3 iron drum carts (one purchased during the year) for removing night soil &c from road sides and lanes. I have, in my last and previous years' reports, recommended the adoption of box carts in lieu of the basket handc, which hold very little rubbish; but the Municipality have not apparently taken any action in it.

Conservancy Establishment consists of 1 Sanitary Inspector, 4 Maistries, 28 male and 27 female scavengers. The post of Sub Inspector was abolished during the year.

Latrines. There are altogether 27 latrines, most of them are in bad order. Many of them are constructed with tatties or mud, requiring constant repairs; I would, therefore, recommend that one or two pucka latrines be constructed every year in their stead; this would, I think, be cheaper in the long run.

Dust-bins. Same as last year, 130. Many of them require repair and readjustment. They are quite inadequate for a scattered and thickly populated place like Cuddapah; a great many streets and lanes are, at present, without them. I have in my last year's report recommended the construction of 60 more bins, but none were built. I would again urge the necessity of constructing more bins, during the next official year.

Manure Depot— I have in my last report, strongly objected the site where the street and latrine sweepings are deposited on account of its close proximity to the European Cemetery

and

and public road and suggested that another unobjectionable place be selected and that the sweepings &c burnt in a incinerator constructed for the purpose and the product converted into poudrette, but no steps were taken to carry out the proposal.

House Drainage. as usual, let into cess-pools which are occasionally clean out and filled with sand and shingles by people themselves.

Surface Drainage — is carried away b the side channels, which are, more o less, filled up with silt &c or otherwise — destroyed. They are, at most places, no wide or deep enough to carry away the floo water, hence water stagnates in many parts of the town, keeping the air damp even long after the rains, which adds no a little to the general unhealthine of the place. I would, therefore, — propose that pucka side-channel with proper levels, be constructed at the required localities.

Water supply - good, drinking water is supplied principally from percolation wells, situated on the bank of the Bugga Channel. The principal wells, that are largely used by the people are watched by two men from polluting them. Water from the Bugga Channel is used by the inhabitants for bathing and washing purposes only. The higher and richer classes of Natives as well as European gentries get their drinking water from the Bugga springs, which are about 3 miles from the Town. During the hot season almost all the wells supplying drinking water are regularly cleaned out and otherwise improved.

Water Project - Application has been made by the Municipality to Government soliciting permission to raise debenture loans for carrying out the sanctioned

Scheme

Scheme, for bringing Bugga water into the Town but no answer has as yet been received.

General Remarks - The health of the public during the year has not been so good as in the past year -

Intermittent fever, to an unusual extent, prevailed in the months of January, February, March and April, unlike the previous years, which confined to the cold seasons only. The total number of admission under this head is 3376 showing an increase of 1092 Cases over the preceding year, this may be attributed to some extent, to the late appearance of the North-East monsoon and consequent paddy cultivation

In statements I & VII-A the Sum of Rs 130
shown under "Loans" as "Appropriatio
from deposits (Imperial License tax)
should have been credited under the
head "Realizations under special acts.
In Statements IV & VI-A, the Sum of Rs
3,235 paid to Government on accoun
of the license tax collections should
have been shown under Grant IV-
Miscellaneous, and not under Gran
V Repayment of debt. The necessary
corrections have ~~now~~ been made
in the foregoing abstract. In state-
ment I Rs 35 are shown as arrear
collections under Tolls, but no corres-
ponding entry appears in Statem
IV-B. The discrepancy should be
explained.

2. During the year under report the
office of Chairman was held by Mr.
M. W. Ell

M. W. Elliot, a non-official Councillor, who was elected by the Council in May 1885. On the 31st March last the Council consisted of 16 members, of whom 4 were officials and 12 non-officials. ~~All~~ The former ~~except the ex-officio members~~ were all appointed by Government ~~while~~ & the latter were elected by the rate-payers. No elections have yet been held under the new rules sanctioned in G. O. dated 11th June 1886 No. 551 M. The Council met 24 times during the year, the average attendance at each Meeting ~~being~~ consisting of 8 members (official 1, ~~and~~ non-officials 7)

~~No information is given in the report as to the interest evinced by the councillors in carrying out the provisions of the Act~~

3. The opening balance was Rs 308, and the current receipts of the year amounted to Rs 42,214, against Rs 44,200 and Rs 46,460 respectively anticipated in the budget and revised estimates. The total expenditure aggregated Rs 40,955 and the year thus closed with a balance of Rs 1,567.

4. The

4. The chief Sources of Municipal income — excluding assignments by Government and Contributions from Local Funds, are the Taxes on ~~Houses~~ building and Lands which brought in Rs 9,876, Tax on Arts Rs 3,744, Tolls Rs 11,035, School fees Rs 3,36 and Market fees Rs 3,336.

5. The tax on buildings amounted to Rs 8,591 and that on lands to Rs 1,285, making a total of Rs 9876 against Rs 10,830 anticipated in the revised estimate. * The current collections ~~were~~ amounted to 90.2 per cent of the ~~current~~ demand [illegible] ~~and~~ only 52.7 per cent of the arrears ~~demand~~ which are still very high, were realized. For the collection of these taxes 206 warrants were issued, but the amount involved (Rs 294) was realized without having recourse to distraint of property in any case. The statement showing the

* The tax on lands is levied at Rs 1/- per acre presumably under s. 63(2) of the Act. A proposal to reduce it to one half this rate was made by the Council during the year but was disallowed by Govt. in G.O. 4th Sept 1886 No. 891 M.

the incidence of the tax on buildings in the form prescribed in para 9 of G.O. dated 31st March 1887 No. 304 M. has not been submitted, an omission which should be supplied as soon as possible.

6. The tax on Arts yielded Rs 3,744 against Rs 4,340 expected in the revised estimate, the decrease being accounted for in para 5 of the Chairman's report. The number of persons assessed to this tax under each class should be reported without delay, as required in para 10 of G.O. dated 31st March 1887 No. 304 M.

7. The revenue from Tolls, which are levied at full schedule rates, was Rs 11,035 against Rs 12,040 anticipated in the revised estimate, the decrease being due to a sum of Rs 1000 not having been collected till after the

the close of the year. The variations in the other items of receipt, as ~~are not~~ compared with the revd estimate, are not Satisfactorily explained.

8. The incidence of municipal taxation per head of the population was as shown below

		Including tolls	Excluding tolls
		Rs. as. P	Rs. As. P
Cuddapah	1885-86	1-7-9 ✓	„ -11-4 ✓
	1886-87	1-6-6 ✓	„ -13-3 ✓
Average for all Municipalities	~~1885-86~~	„ -12-5 ✓	„ -8-10 ✓

9. The total expenditure amounted as above stated, to Rs 40,955 against Rs 44,950 provided in the revised estimate and Rs 43,414, the actuals of the previous year. It was distributed among the several grants as ~~follows~~ shown below

	Rs	
Grant I Public Works	6,726	16.4 per cent
„ II. Education	9,292	22.7 „
„ III. Sanitation &c.	13,990	34.2 „
„ IV Lighting & Misc	6,822	16.6 „
„ V. Supn & Management	4,125	10.1 „
Total	40,955	100.0 „

10. Under Grant I Rs 1,386 were spent for the construction of stalls in the Munl. market ~~against an allotment of Rs [illegible] and~~ the total expenditure on ~~the work~~ which up to the end of the year amounted to Rs 30,162 against an estimate of Rs 29,445. On the gunpowder magazine an expenditure of Rs 76 was incurred without any allotment of funds, and the total outlay thereon up to the end of the year was Rs 1,805 against an estimate of Rs 1260. A Sum of Rs 305 was spent in constructing 3 mudwall latrines, without any estimate. Such Irregularities ~~like these~~ should be guarded against in future. The outlay on the repair of roads was Rs 3,719, or only 33 per cent of the income from tolls, against Rs 6000 provided in the revised estimate; ~~but~~ The reason for not working up to the ~~the decrease~~ estimate has not been explained. If the expenditure on communications during the current year does not come up to 50 per cent of the toll revenue the rates of tolls will have to be reduced. Nearly 5¼ miles of road are stated to have been remetalled, but no information is given as to the general condition of the roads in the town.

For primary education		Rs 2424
" secondary	"	6868
		9292

11. The outlay on Educational operations was Rs 9,292* ~~against Rs 9920 provided in the revised estimate~~. Of this ~~former~~ Sum Rs 8,989 were spent on the upkeep of the 3 Municipal Schools and Rs 217 on aided Schools. The following table gives the Statistics of all the Schools in the Municipality

^ Primary Education does seem to receive adequate attention

	Primary Schools		Secondary Schools		Total		Total number of children of School going age	
	Number of Schools	Attendance	Number of Schools	Attendance	Number of Schools	Attendance	Boys	Girls
On the 31st March 1886 +	17	492	4	185	21	677	1436	1411
On the 31st March 1887	20	609	4	364	24	973		

+ The [illegible] High School which had 252 pupils at the close of 1886-87 was not included in the returns for 1885-86.

The Council maintain a
~~of these only three the High the~~
High School & two Primary
~~Anglo Vernacular and the Vernacular~~
schools under their direct
~~Schools were under the direct manage~~
management. There are three
~~ment of the Municipality while~~
other secondary schools in the
~~other Schools were aided by results~~
town, one for boys & two for girls,
~~grants. The Deputy Inspector of~~
which are reported by the Dy. Inspr
~~Schools reports favorably on the work~~
to be aided by results grants. Including these schools there
~~ing of the High and the two Primary~~
are, according to the Dy. Inspr's, 10 schools in receipt of results
reports, while Stt. IX only shows 7). The discrepancy shd be
~~Schools.~~ explained. The expenses of the High School came to Rs 6732
~~while the receipts~~ (of which Rs 2520
were paid by Govt.) while the
receipts from fees only amounted
to Rs 2593. Efforts shd be
made to reduce the charges.
The attention of the Council
is drawn to the Dy. Inspr's
remark that "at the Inspr's
examn: the school as a whole
"is reported to have been in
"a condition far from satis-
-factory". Muhammadan
education in this town appears
to be progressing

7

12 In the Municipal dispensary 456 in and 14231 out patients were treated against 413 and 13193 respectively in the previous year ~~and 23 major operations were conducted during the year~~ The cost of the institution was Rs 5,523 which was met partly by a Contribution from ~~Local Funds~~ the Dist. Bd. (Rs 2000) and partly by Municipal Funds supplemented by the interest on its funded capital. The District Surgeon reports that the dispensary is largely attended by all classes of people, of whom many come from distant Talukas.

13. The number and cost of vaccine operations, and the number of births and deaths registered during the year, are shown below:—

	No. of vac: operations	Average cost of each	Births	Rate per mille	Deaths	Rate per mille
1885-86	321	13-6	472	24.9	449	23.7
1886-87	250	13 11	454	23.9	589	31.0

The ~~large~~ falling off in the number of vaccine operations notwithstanding the introduction of compulsory vaccination in July 1886 is ~~very~~ extremely unsatisfactory

The Inspector of vaccination and Deputy Sanitary Commissioner, who inspected the town in Nov. 1887 states that the vaccination work has been almost entirely neglected and that the machinery for properly carrying it out ~~out~~ is wanting. As a consequence ~~This subject should engage~~ the

So 11 July 1887 No 8352

~~the special attention of the Council and every endeavour should be made to reduce~~ the cost ~~of each~~ per case ~~which~~ is ~~very~~ exceedingly high, being As 13-11 against an average of as 4-1 for all Municipalities in 1885-86. The registration of vital Statistics also needs improvement the births registered being obviously below the actual number

x The [illegible] must insist on this matter being taken in hand with vigour during the current year. The present vacc., it is noted, was appd. only in Jany. last

14. On Conservancy Rs 7,636 were spent against Rs 8,920 provided in the revised estimate and Rs 7,832 the actuals of 1885-86. The District Medical and Sanitary Officer says that the Conservancy of the town is carefully looked after; but the serious defects pointed out ~~by him~~ in his report should receive attention. The public health was not so good as in the previous year. Cholera of a mild type prevailed in the town and in its neighbourhood ~~during the months of~~ from April to July and ~~8 out of~~ 9 deaths were registered from this cause ~~4 attacks proved fatal~~. Fever was pre

There is no system of private scavenging though from the Medical Officer's remarks it is evidently much wanted. The Council should endeavour to start the system in the town

X. This is [illegible] in para 33 of the Chairman's report. The Dist Surgeon in his report the cases that came under his notice [illegible]

prevalent to a large extent in the ~~month~~ last 3 months of ~~January to April~~ the official year, the total number of admissions under this head being 3376 against 2284 in ~~the preceding year~~ 1885-86. ~~It is hoped that~~ The new ~~project of~~ water supply project for which the Council have lately been authorized to raise a loan will it is hoped soon be undertaken ~~& may be expected to effect considerable improvement in~~ ~~as it will greatly improve~~ the health of the town~~s people~~. The closing of the existing burial grounds, which is a matter to which the sanitary commissioner attaches much importance, appears to be engaging the attention of the Council, x but the allotment in the budget for a new burial ground was left unutilized.

G.O. 13th May 1887 No 4467 M.

x They wrote a letter about it the other day & were asked for a list of the burial grounds they proposed to close [illegible]

15. The outlay under Grants IV & V ~~does not~~ calls for ~~any~~ no special remark except that a sum of Rs 3,235 was paid to Government on account of the license tax collections ~~under License tax (Imperial License tax)~~ for 1884-85 and 1885-86, & that the cost of office establt. is high.

16. ~~From~~ The note to Statement II ~~it appears~~ shows that at the end of the year there was a cash balance

of Rs 1,567 only or 3.7 percent of the receipts, besides premises of the value of Rs 60,000, funded capital of the dispensary amounting to Rs 11,000, and claims to the extent of Rs 113 The liabilities amounted to Rs 2,078 The sum of Rs 723 due to contractors should not have been shown under "claims".

27/7

P.R. 14/7/07 The report is very meagre being nothing but a summary of the figures in the statements. On the whole it appears to Govt. that an increase of energy in carrying out the purposes of the Acts is to be desired.
