V

Mr Griggs' scheme of Technico Normal Institute.

Report of the Subcommittee appointed under District Board's Resolution No. 149 dated 3rd December 1889.

The Subcommittee have the honor to submit the following report:—

The location of the Institute 1. The committee are of opinion that the building with its compounds now being purchased by the District Board is adequate to all the needs of the proposed institute so far as the Technical, Industrial and Normal Departments are concerned, if arrangements be made

- (1) to provide more light to the rooms on the first floor.
- (2) to utilize more fully the verandah on the upstairs.
- (3) to make available the present kitchens and godowns.
- and (4) to enlarge the stabling for the necessary workshops for the industrial department. It is also necessary to purchase enough of land on the southern side of the building for the purposes of a gymnasium.

2. In respect of the agricultural department of the Institute they are of opinion that the classes in agriculture

theoretical

theoretical as well as practical should be taught at the building proposed to be purchased at the farm, and that the agricultural operations should, for the present, be confined to demonstration purposes. A plot of land which is as near as possible to the building is indispensable for this purpose, and they recommend that the block of Panjah land to the south of the Observatory, about 3 acres in extent, be rented for, say, five years, and that as much land as may be required for Panjah cultivation be also required in the vicinity. In view of the fact that the Municipal Council of Madura has given its consent to the transfer of the farm lands from the Farmers Club to the District Board on the same terms on which they were held by the club, they further recommend that the Board do assume responsibility of the farm, and lease it for a period of say, 20 years, reserving to itself the right of taking up any portion of it, if necessary, at any time for the purposes of the agricultural department of the Institute. By making this arrangement the Committee desire to maintain it in the most economical way and at the same time keep in view its original object.

3. A good play ground for the institution which

which may also be available for the other schools of the Municipality is indispensable, and they suggest that the District Board in concert with the Municipality acquire the vacant piece of land between the road and the College compound with the plot already promised by the Railway company to the local college on the one side, and the small triangular coconut tops on the other, and convert the whole into a suitable play ground.

4. They are of opinion that the Museum and the Library being public institutions should be located in a building specially constructed for the purpose on the plot of land on which the Government observatory now stands, and if this plot be not available, on the corner between the college and the American Mission High school. The building should be circular with closed verandahs on all sides for the purposes of the Museum and the Library, the central portion being fitted up as a reading room. In view of the probable growth of the institution the building should be so constructed as to admit of the erection of a second story when funds permit. They consider that a suitable building of the above description may be erected for Rs 5000, and the cost thereof

thereof should be met equally by the local and Municipal bodies and the Government.

5. The expense involved in giving effect to these recommendations will not exceed the sum of Rs 16,000 which is the total estimate of the Director.

6. Passing on to the necessary queries for the institute, they suggest the following modifications of the proposals of the Director:—

Normal Department

7. The success of the whole institution depends upon the efficiency of the Superintendent, and to secure such a competent man the Board should be prepared to pay him adequately. They therefore recommend that the pay of the Superintendent and Head master, Normal Department, be Rs 100 to 150.

8. The pay of the second master should also be Rs 40 to 50. In suggesting this increase they keep in view the fact that the second master is to be virtually responsible for the efficiency of the Normal department, as the Superintendent and Head master will have much to do in supervising the different branches of the Institute. In other respects the Director's proposals may be adopted, especially as it is not proposed to introduce

introduce the Lower Secondary grade in the Normal school for the present.

Special Department.

9. All the special classes mentioned by the Director may be introduced at once; and the industrial work may comprise (1) Carpentry (2) blacksmithy (3) ratan making and (4) metal work. There should be in connection with these industries workshops so that this department may be as near as possible self-sustaining.

10. The Assistant Superintendent and the Chief Industrial instructor should be paid Rs 50 to 60 instead of Rs 40 to 50 and the pay of the teachers in Carpentry and metal work may be reduced to Rs 15-20. The industrial scholarships should be as follows:—

	Rs.	A.	P.
1 st Standard	1	8	"
2 nd - Do	2	"	"
3 rd - Do	3	"	"
4 th - Do	4	"	"

The reasons for these modifications are that a good Superintendent must at least be paid Rs 50 - the pay now given to the superintendent in the Municipal Industrial school - that it will be possible to get teachers in Carpentry and metal work for the pay proposed and

and that to make the industrial department attractive the highest stipends proposed are necessary. Particular stress is laid on the fact that there should be workshops in connection with each industry so without them this department can never be thoroughly instructive and reproductive.

11. In the agricultural department the only modification they have to propose is that in the place of the clerk and assistant instructor the chief Superintendent be given a clerk to assist him in keeping the accounts of all departments.

12. The total yearly cost of maintaining the Institute as per modified proposals will be Rs 12,960 or Rs 13,000 in rounded numbers as shown below:

Normal Department

1. Superintendent and Headmaster	Rs 100-150	125	137-8-0
2 Second master	Rs 40-50	45	47-8-0
3 Third master	Rs 20-25	22½	23-12-0
4 Fourth master	Rs 10-15	12½	13-12-0
5. (Jr) Instructor	Rs 10-15	12½	13-12-0
35 scholarships at Rs each	Rs 175	175	175
(Primary grade) 15 — do — at Rs 6 each	Rs 90	90	90
(Primary Higher) 10 Special — do — at Rs 7 each	Rs 70	70	70
Peon, Bearer, Lighting and Contingencies	Rs 25	25	25
		577½	596-4-0
		540-6-5	7155-0-0

or Rs 6930 yearly.

Special Department.

57-8-0	Assistant Superintendent	Rs 50-60	55
28-12-0	Drawing master	Rs 25-30	27½
18-12-0	Instructor in Carpentry	Rs 15-20	17½
18-12-0	Instructor in blacksmithy	Rs 15-20	17½
18-12-0	do in metal work	Rs 15-20	17½
45	30 scholarships at Rs 1½ each (1st standard)	Rs 45	45
40	20 — do — at Rs 2 each (2nd standard)	40	40
45	15 — do — at Rs 3 each (3rd standard)	45	45
40	10 — do — at Rs 4 each (4th standard)	40	40
45	Miscellaneous including tools and plant	45	45
7-8-0			
4290-0-0		335-365	350

or Rs 4200 a year.

Agricultural Department.

47-8-0	Lawn Manager	Rs 40-50	45
13-12-0	Bailiff and asst instructor	Rs 10-50	15
15	Clerk	15	15
30	12 scholarships for ryots at Rs 2-8-0	30	30
50	Working expenses	50	50
156-4-12			152½
1875-0-0		145-160	or Rs 1830 a year

Normal Department 6930

Special Department 4200

Agricultural Dept 1830

Total 12,960 a year

13. * (Deducting therefrom Rs 6000, the receipts from Provincial Funds as before calculated, the net cost will be Rs 7000; and if from this again Rs 1000 the Contribution which may reasonably be expected from the Madura Municipality be deducted the net cost to the District Board will be Rs 6000, when the institution is in full working order. The immediate cost will however be something more than this, and it may reasonably be fixed at Rs 8000.

Receipts

Figures as per
Sub Committee
Proposals
Rs 7 P 8

Figures as
per Director's
Proposals

Remarks

(a) Normal Department

Grants from Provincial Funds	Figures as per Sub Committee Proposals Rs 7 P 8	Figures as per Director's Proposals Rs 7 P 8	Remarks
Superintendent	42	30	* The increase is due to the
Three assistant masters	27	80	increase in the pay.
Arithl Instructors	6	6	8
35 scholarships at Rs 2 each	70	70	8
15 — do — at Rs 3 each	45	45	8
10 — do — at Rs 2½ each	25	25	8
Add Results grants for Practising school	2536	2536	8
School fees for	300	3078	8
So total	3000	3700	8

These figures are too high.

(b) Special Department

Grants from Provincial Funds	Figures as per Sub Committee Proposals Rs 7 P 8	Figures as per Director's Proposals Rs 7 P 8	Remarks
Assistant Superintendent	27	22	8
Drawing masters and Industrial instructors	40	45	8
Industrial grants	810	810	8
Literary	457	457	8
sale proceeds calculated at Rs 1.00 per	361	361	8
mensure for each pupil	900	900	8
So total	2528	2528	8

These are uncertain sources of income and should not be expected for some years to come.

(c) Agricultural Department

Grants from Provincial Funds	Figures as per Sub Committee Proposals Rs 7 P 8	Figures as per Director's Proposals Rs 7 P 8	Remarks
Agricultural Instructors	22	22	8
Assistant — do	6	6	8
So total	28	28	8
Add Results grants	342	342	8
So total	370	370	8
Total (a), (b) and (c) Rs 6020-8-	3700	3700	8
at Rs 6000 in round numbers	3700	3700	8
So total	3700	3700	8

These sources of income do not exist according to our proposals.

4. The question whether the other Municipalities and the Taluk boards may not be asked to supplement with their own funds the cost of the Institute, should be taken up only later on when the institute has been in existence for some time and proves a success. The best method in which their help may then be solicited will be by requesting every one of those bodies to send up for training in the Institute a number of students, they themselves bearing the average cost of educating them.

15. The Committee have now only to offer their opinion as to the method of working the Museum and the Library. In accordance with the suggestion of the Director, the funds collected for the Museum and Library should be invested in Government securities and the proceeds utilized towards the maintenance of the same. A curator on a salary of Rs 25 should be placed in charge of it, and the general supervision should be vested in a Committee of 5 gentlemen to be appointed by the District Board annually. A Provincial grant may also be expected under this head and public subscriptions and donations may also be invited. The Committee consider that to begin with, the Municipality and the Board should jointly lay out

Rs

12000
4820
7420
1000
6400

13. Rs 3000 in the purchase of books furniture
and specimens.

No 16

Madura District Board's office

7th February 1890.

586 L

From

E. Turner Esquire,

President, District Board,
Madura.

To

The Honorable J. Grose.

Ag. Chief Secretary to Government
Local and Municipal Department
Madras.

Sir,

With reference to Government order dated 15th October 1889 No 2390 L, and in continuation of paras 10 and 99 of the covering letter to the Budget for 1890-91, I have the honor to submit for the orders of Government Copy of the District Board's resolution No 13 dated 7th January 1890, deciding to adopt the scheme of the Director of Public Instruction for the Technico-Normal Institute at Madura, as amended by the Sub-committee appointed to adapt it to local requirements.

2. The modifications proposed by the Sub-Committee may be briefly summarised as follows:-

(1) The institute is to be located in the building whose purchase Government have sanctioned in their order dated 21st January 1890 No. 101 & Mis instead of in a new building to be erected for the purpose.

(2) The Agricultural Classes are to be in the same building and a plot of ground is to be acquired near it for demonstration purposes.

(3) The proposed expenditure on the farm is to be economised by leasing it out for the present.

(4) The portion of the Railway Compound and the triangular piece of ground referred to by the Director are to be converted into a large play ground for the students of the whole town.

(5) The Museum and the Library are to be

be located in a separate building to be erected for the purpose on the plot of ground on which the Government observatory now stands.

(6) The salary of the Superintendent and Head Master is to be raised to Rs 100 to 150 and some minor changes to be made in the salary of the subordinate staff.

(7) and lastly the stipends of the students of the Industrial Department are to be raised slightly so as to be attractive to the pupils.

The reasons for the above modifications are embodied in the report of the Sub-Committee, a copy of which is enclosed.

3. It is expected that the net cost District Board will be about Rs 8000 the Commencement, though the burden may fall less heavily later on, when institution expands and Provincial and other contributions increase.

4. If the institute is to be started this year as there is not much time to be lost, I have the honor to request that I

20
I may be favored with the orders of Govern-
ment at an early date and that arrange-
ments may also be made to transfer to the
District Board the observatory ground sub-
ject to the condition that the proposed build-
ing for the Museum and the library is not
to interfere with the present observatory.
It is also requested that the budget figures
for the institute may be altered so as to
correspond with the figures given in the
Sub Committee's report.

5. A Copy of the resolution of the Muni-
cipal Council Madura no 17 dated 17th
January 1890 consenting to the adoption
the scheme proposed by the Sub Com-
mittee of the District Board is enclosed.

I have the honor to be,

Sir,

Your most obedient servant

W. S. S. S.

President.

Master in Carpentry, blacksmithing and metal work	45	"	60	"	56	4	35	"
30 Scholarships at \$1/2 each (1st Standard)	45	"	45	"	45	"	"	"
20 do	40	"	40	"	40	"	"	"
15 do	45	"	45	"	45	"	"	"

The sanction of Government be accorded for the organization of the institution at an early date.

2. The President has been negotiating for the purchase of a building for the location of the institution, and I trust that the arrangements will soon be completed.

3. As amended by the Sub Committee and approved of by the Board, the scheme is estimated to cost as follows:—

	Minimum.	Maximum.	Average.
Normal Department Rs. 6,480		7,380	7,155.
Special Department..... 4,020		4,380	4,290.
Agricultural Department..... 1,740		1,920	1,875.
	12,240	13,680	13,320.

The average has been calculated on the principle laid down in Article 104 of the Civil Service Regulations at $\frac{1}{2}$ minimum plus three-fourths of the difference between

between the minimum and the maximum. The decrease in the provision for working expenses of the Agricultural department is due to the proposal of the Board to lease out the farm for the present.

4. Against the estimated charges, the Board is entitled to a grant from Provincial

Normal, Rs. 3,492½. Funds of Rupees 5,683½,
Special..... 1,073½. assuming that the
Agricultural..... 517½. whole cost of stipends
5,683½ of teachers of Primary

Grade Higher is borne by Government as proposed by Mr. Griff in his letter to Government recorded in G.O.

No. 420, Ed, of 10th July 1889.

The grant will be Rs. 5,248½ if calculated on the minimum scale. The sale proceeds of the manufactures of the Industrial Department are expected to yield Rupees 900
