B.P. No. Mis.

Dated 29-9- 1882.

Not to be folded or roughly handled

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. R. GOVINDA ROW NAIDU Garu, Chairman, Municipal Council, Cuddapah, to the Chief Secretary to Government (through the Collector of Cuddapah), dated 18th July 1892, No. 613.

I have the honour to submit the administration report of the Cuddapah Municipality for the official year 1891–92 with all the prescribed statements.

I.—CONSTITUTION OF THE COUNCIL.

2. The sanctioned strength of the Council remained the same as in the preceding year, 16 councillors—12 elected and 4 nominated including the ex-officio Chairman; and the same number existed on the 31st March 1892. Six vacancies occurred during the year—five among the elected and one among the nominated councillors. The five elective seats were filled up—three contested and two uncontested—and the other vacancy was also filled up during the year. For electoral purposes the town is divided into six wards, and the total number of registered voters in them was 474 at the close of the year. The Council held in all 38 meetings against 29 in the previous year, and 6 of them were adjourned for want of a quorum. The attendance of the councillors at each meeting during the year was, on the average, 2 officials and 6 non-officials, against 2 and 7, respectively, in the preceding year. Compared with the previous year, there was a considerable increase in the number of meetings.

II.—RECEIPTS.

3. The following abstract shows the receipts under several heads in the year as compared with the figures of the previous year and with the revised estimates:—

	Actuals, 1890–91.	Actuals, 1891–92.	Increase.	Decrease.	Revised estimate, 1891–92.
	Rs.	Rs.	Rs.	Rs.	Rs.
Opening balance	4,483	1,763	..	2,720	280
Municipal Rates and Taxes—					
Tax on arts including penalties	3,543	3,604	61	..	3,900
,, buildings and lands including water-tax	13,189	13,096	..	93	13,160
and penalties	2,027	2,024	..	3	2,000
,, vehicles, animals and carts	11,250	9,409	..	1,841	9,350
Tolls	30,009	28,133	61	1,937	28,410
Total Income from Taxation ..	..	..	..	..	..
Realization under special Acts	8,673	10,529	1,856	..	9,109
Revenue derived from Municipal property and powers apart from taxation	11,942	5,397	..	6,545	4,860
Grants and contributions	..	..	..	..	..
Miscellaneous, including extraordinary and debt accounts	915	5,129	4,214	..	4,180
Total Receipts ..	51,539	49,188	6,131	8,482	46,559
Grand Total ..	56,022	50,951	6,131	11,202	46,839

Excluding the "opening balance," the total receipts for the year amounted to Rs. 49,188, whereof Rs. 28,133 were derived from taxation and Rs. 21,055 from other sources, the corresponding figures of the year 1890–91 being Rs. 30,009 and Rs. 21,530 respectively. The total expenditure amounted to Rs. 46,783, and the year thus closed with a balance of Rs. 4,168 at credit of the Council. Excluding grants from Provincial and Local Funds, the chief sources of the Council's income for the year were (1) Municipal rates and taxes, (2) Revenue derived from Municipal property and powers apart from taxation, and (3) Miscellaneous receipts. Compared with the previous year, excluding the Provincial grant of Rs. 8,000 for water-works, there was an increase of Rs. 5,649 in the total receipts. It occurred chiefly under "Revenue derived from Municipal property and powers apart from taxation," "Grants and contributions," and "Miscellaneous receipts." It was, however, partly counter-balanced by a considerable decrease under "Municipal rates and taxes." These variations are explained below:—

(1) *Municipal Rates and Taxes.*

4. The revenue derived from this source was made up of—

(*a*) Tax on arts.
(*b*) Tax on buildings.
(*c*) Tax on lands.
(*d*) Water-tax on buildings and lands.
(*e*) Tax on vehicles and animals.
(*f*) Tolls.

(*a*) *Tax on Arts.*—This tax was levied on the first seven classes. Including the arrear collection of Rs. 41, the total receipts under this head amounted to Rs. 3,603 against the revised estimate of Rs. 3,900. The final current demand of Rs. 3,636, added to the arrear demand of Rs. 146, made a total of Rs. 3,782. Rs. 3,560 of the current demand and Rs. 41 of the arrear demand were collected, Rs. 94 of the arrear demand written off as irrecoverable and Rs. 3 remitted on appeal, leaving a balance of Rs. 84 for collection during the current year.

(*b*) *Tax on Buildings.*—Including the arrear collection of Rs. 14, the receipts under this head amounted to Rs. 9,247 against the final demand of Rs. 9,395 including the arrear of Rs. 57 and the revised estimate of Rs. 9,300 and the actuals of the previous year, Rs. 10,157, including an arrear collection of Rs. 927. This tax was levied at the maximum rate of 7½ per cent. on the annual rent value of buildings. The house-tax register is now under revision.

(*c*) *Tax on Lands.*—The total extent of lands assessed was 645 acres and 55 cents dry. The assessment was fixed on the annual rent value at Rs. 3½ per acre. The total receipts amounted to Rs. 116 against the revised estimate of Rs. 160. The decrease of Rs. 44 under the estimate was due to failure of crops owing to adversity of the season. Rs. 30 of the balance have, however, been since collected. The register of lands was revised in 1890–91.

(*d*) *Water-tax on Buildings and Lands.*—This tax was levied at 3 per cent. on the annual rent value. Of the final demand of Rs. 3,808 inclusive of an arrear of Rs. 33, the collections amounted to Rs. 3,732 including an arrear of Rs. 11 against the revised estimate of Rs. 3,700 and the actuals of the previous year Rs. 2,754.

(*e*) *Tax on Vehicles, &c.*—The receipts under this head amounted to Rs. 2,024 against an estimate of Rs. 2,000. The collection of this tax was let on contract and the small increase over the estimate was due to interest having been collected from the contractor for the instalments paid after due dates.

(*f*) *Tolls.*—The collection of tolls at the nine Municipal gates was, as usual, sold by auction for Rs. 10,350. But owing to failure of crops in the sub-division and other parts in the district, a remission of Rs. 1,000 was granted to the contractor to make up the loss sustained by him. The amount realized was however, Rs. 9,409 against the revised estimate of Rs. 9,350. The increase of Rs. 59 over the estimate was due to the collection of interest on the instalments paid after due dates.

5. *Incidence of Taxation.*—The total income from taxation being Rs. 28,133 including, and Rs. 18,724 excluding, tolls, its average incidence per head of the population was Rs. 1–7–9 in the former and As. 15–9 in the latter.

(2) *Revenue derived from Municipal Property and Powers apart from Taxation.*

6. The receipts under this head amounted to Rs. 10,529 against an estimate of Rs. 9,109 and were made up chiefly of—

(*a*) Fees from travellers' bungalow.
(*b*) Sale-proceeds of old materials, &c.
(*c*) Conservancy receipts.
(*d*) Fees from educational institutions.
(*e*) Sale-proceeds of medicines and other hospital receipts.
(*f*) Income from markets and slaughter-houses.
(*g*) Licenses and cart-stand fees.
(*h*) Fines under Municipal and other Acts.
(*i*) Interest on investments.

The increase of Rs. 1,420 over the estimate was the net result of the enhanced receipts under (*a*), (*b*), (*d*), (*e*), (*f*), (*h*) and (*i*) and the decrease under (*g*) as explained below:—

(*a*) *Fees from Travellers' Bungalow.*—The fees collected from travellers halting in the bungalow amounted to Rs. 263, against an estimate of Rs. 225, and the actuals of the previous year, Rs. 252.

(*b*) *Sale-proceeds of old Materials, &c.*—The estimate under this head was only Rs. 180, but the actual collection amounted to Rs. 838, showing thereby an increase of Rs. 658. This increase was chiefly due to Rs. 638 having been realized by the sale of some pig-lead and certain scrap-iron of water-works, and brought to credit under this head.

(*d*) *Fees from Educational Institutions.*—School fees were estimated at Rs. 2,200, but the collection amounted to Rs. 2,495 against Rs. 2,327 realized in the previous year.

(*e*) *Sale-proceeds of Medicines, &c.*—Under this head a sum of Rs. 670 was estimated in the revised budget. Sale-proceeds and composition-fees of medicines amounted to Rs. 235; and Rs. 487, being the interest on the hospital endowment fund, and Rs. 66, the sale-proceeds of lymph, &c., were taken credit for under this head. The total receipts amounted, therefore, to Rs. 788, showing thereby an increase of Rs. 118 over the estimate.

(*f*) The income from market and slaughter-houses amounted to Rs. 4,312 against the revised estimate of Rs. 4,290. The collection of market and slaughter-house fees was let on contract.

(*g*) License fees for offensive and dangerous trades, &c., and cart-stand fees were estimated at Rs. 400 and 216 respectively; but the collection under the former amounted to only Rs. 207 and under the latter Rs. 216, the full estimate. The decrease of Rs. 192 under license fees was due partly to a falling off in trade on account of adverse season and partly to the fees having been over-estimated in the budget.

(*h*) *Fines under Municipal and other Acts.*—Rs. 593 were collected under this head, as detailed below, against an estimate of Rs. 450:—

	Rs.	A.	P.
Municipal fines	243	12	6
Police fines	349	0	11
Total ..	592	13	5

The increase was due to the strict enforcement of law.

(*i*) *Interest on Investments.*—No receipts were anticipated under this head in the budget, but Rs. 261, being the interest on water-works sinking fund, Rs. 72, interest on Smith's endowment, and Rs. 4, interest on Jubilee fund, were taken credit for under this head, and the total receipts amounted to Rs. 337.

7. *Grants and Contributions.*—Including Rs. 765, being the balance of contribution due for the previous year, a sum of Rs. 3,371 was received as grant from Provincial funds towards the cost of the high school department of the Municipal high school during the year, against the revised estimate of Rs. 2,860, and the actuals of the previous year, Rs. 1,942; and a further sum of Rs. 26, being the Provincial contribution towards the cost of maintaining a carpentry teacher in the high school in 1890–91, was also received. The total grant from Provincial funds during the

year amounted, therefore, to Rs. 3,397. The usual contribution of Rs. 2,000 was received from the District Board towards the cost of the Municipal hospital. The total receipts in the shape of Local and Provincial contributions for the year amounted to Rs. 5,377 against Rs. 3,942 in the previous year. The increase was due to Provincial contribution during the year having been larger than in the previous year excluding the Provincial grant for water-works.

(3) *Miscellaneous Receipts.*

8. The receipts under this head amounted to Rs. 2,738 against Rs. 680 in the previous year. Particulars are given below:—

	Rs.
Private scavenging fees	726
Subscriptions made by private parties on account of house service branch lines and taps, water works	1,959
Fee for extracts from death and birth registers	1
Batta from court	2
Refund of expenditure of the previous year	50
Total ..	2,738

9. A sum of Rs. 2,318 was realized by the sale of a portion of the Government securities forming the funded capital of the Municipal hospital, as per G.O., No. 284 M., Mis., dated the 11th February 1892, to pay up the value of medicines purchased in the previous years, and a further sum of Rs. 73 was received as detailed below:—

	Rs.	A.	P.
Balance refunded by the Accountant-General after purchasing Government promissory notes for water-works sinking fund ..	28	2	9
Refund of law charges	18	6	0
Value of postage recovered from parties	1	11	0
Refund of unpaid vouchers	24	12	11
	73	0	8

The total amount of Rs. 2,391 is shown under the head "Extraordinary and debt," in accordance with the recent change in the system of accounts.

III.—EXPENDITURE.

10. The subjoined abstract shows the expenditure for the year on account of public works, education, medical services and sanitation, lighting and other miscellaneous municipal purposes, and supervision and management, &c., as compared with the actuals of the previous year and the revised estimate:—

—	Actuals, 1890–91.	Actuals, 1891–92.	Increase.	Decrease.	Revised estimate, 1891–92.
	Rs.	Rs.	Rs.	Rs.	Rs.
Grant I, Public Works	* 20,757	6,393	..	14,364	7,910
,, II, Education	7,779	8,632	853	..	8,670
,, III, Medical and Sanitary Services	14,742	17,456	2,714	..	17,610
,, IV, Lighting, &c.	4,627	5,447	820	..	4,020
,, V, Supervision and Management	2,852	3,579	727	..	3,620
Repayment of Debt and other expenditure	4,983	5,276	293	..	5,010
Total ..	55,740	46,783	5,407	14,364	46,840

* This includes Rs. 14,726 spent on water-works project.

The total expenditure for the year amounted to Rs. 46,783, against the revised estimate of Rs. 46,840, and the actuals of the previous year, Rs. 55,740. Except under Grant I, the expenditure for the year was in excess of that in the previous year by Rs. 5,407. It occurred mainly under Grant III relating to medical and sanitary services, expenditure amounting in all to Rs. 4,086–14–1 having been incurred under that Grant on account of the value of medicines purchased during 1889–90, 1890–91 and 1891–92.

11. *Grant I, Public Works.*—The expenditure under this Grant was originally estimated at Rs. 8,910, but from the provision made under "New Works—Water-supply" Rs. 1,000 were subsequently transferred to "Water-works contingencies" under Grant IV for hire of machinery. The allotment available for expenditure under this Grant was, therefore, Rs. 7,910, of which Rs. 6,393 were spent during the year against Rs. 8,958 in the previous year. The decrease of Rs. 1,517 under the estimate was chiefly due to the non-utilization of the provision of Rs. 1,000 made under "New Works—Communications" for the construction of culverts and tunnels over the side-drains of the main roads and streets. The reason for the non-utilization was partly due to scarcity of water and partly to expenditure having been anticipated on account of water-supply, epidemics and relief works. But steps have, however, been taken for utilizing money in excess of the budget allotment for the current year. The allotments under other heads were spent according to requirements as detailed below.

12. *New Works—(b) Buildings.*—Under this head a sum of Rs. 250 was originally provided for tiling stalls at the market and for constructing a latrine in Gaddibazar; but the allotment was subsequently increased to Rs. 600 to meet the arrear payment on account of the market stalls. Of this, Rs. 499 were spent during the year—Rs. 330 for the construction of a slab-stone wall around the cart-stand at Masapet, and Rs. 169 for tiling market stalls. The remaining allotment of Rs. 101 was left unutilized.

(c) *Drainage.*—A sum of Rs. 1,000 was provided in the budget for a thorough survey of the whole town in view to submit proposals for a complete drainage scheme. Rs. 860 were spent for the purpose, leaving a balance of Rs. 140.

(d) *Water-supply.*—A sum of Rs. 300 was provided in the budget for the purpose of iron buckets and for works connected with the laying down of water-pipes, &c. But the expenditure actually incurred during the year was only Rs. 88, and this amount was spent for the construction of air-valves, hydrants, &c. The cost of buckets purchased during the year, amounting in all to Rs. 473, was, under the recent change in the system of accounts, debited to "Repairs to works and machinery" under Repairs—Water-supply.

13. *Repairs—Communications.*—Rs. 906 were spent on repairs to roads against the revised estimate of Rs. 1,000. In all five roads and streets to the length of one mile and two furlongs were metalled and remetalled during the year and they were well maintained so far as funds permitted.

(b) *Buildings.*—Rs. 88–8–0 were spent, as detailed below, against an allotment of Rs. 110:—

	Rs.	A.	P.
Repairing the tiled hut at the cart-stand	35	8	0
,, hospital assistant's quarters	26	0	0
,, travellers' bungalow	27	0	0
Total ..	88	8	0

(d) *Water-supply.*—Rs. 2,711–7–9 were spent for hire of bulls employed at a monthly cost of Rs. 80 for baling water at Bugga and for the purchase of iron buckets for the noria. A further sum of Rs. 56–2–0 was incurred for cutting trenches near the infiltration gallery, altering hydrants and repairing leakages in the main line. The total expenditure under this head amounted to Rs. 2,768 against the revised estimate of Rs. 2,900.

Establishment.—The cost of establishment maintained for water-works and for removing silt, &c., from wells amounted to Rs. 744 as shown below:—

	Rs.	A.	P.
Cost of establishment	543	14	0
Clearing wells	200	4	8
Total ..	744	2	8

14. *Establishment.*—For road works a separate establishment, consisting of an overseer on Rs. 30, a maistry on Rs. 15 and a peon on Rs. 6 per mensem, was maintained from April to the end of September 1891, and from October the services of the overseers and the peon were dispensed with, the water-works overseer looking after the road-works also with the assistance of the maistry. The cost of the above establishment including the pay of the road maistry from October to the end of the year amounted to Rs. 431.

15. *Tools and Plant.*—A small sum of Rs. 8-1-3 was spent for the purchase of tools.

16. *Grant II, Education.*—The total expenditure on education during the year amounted to Rs. 8,632, as shown below, against an estimate of Rs. 8,670, and the actuals of the previous year, Rs. 7,779 :—

	Rs.	A.	P.
Municipal High School—			
Establishment	5,970	7	1
Contingencies	600	2	3
Hindu Primary School—			
Establishment	775	6	7
Contingencies	159	11	8
Muhammadan Primary School on Salary-result System—			
Establishment	272	4	3
Contingencies	141	15	0
Result grant	100	0	0
Results grants to Pyal schools	491	0	0
Pay of the Municipal Inspector including contingencies ..	121	0	0
Total ..	8,631	10	2

As in the previous year, the Municipality maintained one high school, one primary school for Hindus on salary system and a primary school for Muhammadans on salary-result system. The proportion of expenditure incurred on account of the different departments of these schools and the progress of education therein are explained in Statements Nos. V-A and V-B. Deducting the school-fees realized in these schools and the Provincial grant allowed towards the cost of the high school department of the Municipal high school, the net cost to the Municipality on account of these schools amounted to Rs. 2,052.

Result-grant Schools.—There were during the year under report 18 schools of this class, all registered for examination. Of these, 17 were examined. They earned a grant of Rs. 491 at maximum rates against Rs. 473 in the previous year.

17. *Grant III, Medical Services, &c.*—The expenditure under this Grant amounted to Rs. 17,456 against an estimate of Rs. 17,610. It is detailed below :—

	Rs.	A.	P.
Municipal Hospital—			
Establishment	2,323	14	3
Medicines and supplies	4,086	14	1
Diet of patients	757	12	0
Sundries and contingent charges	758	2	4
Contribution to Provincial funds	496	0	0
Vaccination	488	2	7
Registration	191	1	4
Conservancy and cholera charges	8,354	8	2
Total ..	17,456	6	9

Irrespective of this expenditure, a sum of Rs. 26 was spent for repairs to hospital assistant's quarters as stated under Grant I. The working of the dispensary is explained in the accompanying report of the District Surgeon.

18. *Vaccination.*—The cost of the establishment and contingencies amounted to Rs. 488, against an estimate of Rs. 480, and the actuals of the previous year, Rs. 364.

The pay of the vaccinator was Rs. 15 per mensem. The number of cases vaccinated during the year was 709, of which 693 were successful, 11 unsuccessful and 5 unknown. The number of vaccine operations on children under one year of age was 333, all of which proved successful. The results of cases of vaccination performed with different kinds of lymph are shown below:—

—	Number vaccinated.	Successful.	Unsuccessful.	Unknown.	Percentage of success.
Animal lymph	708	692	11	5	98·43
Preserved do.	..	..	..	..	..
Lanoline paste	1	1	..	..	100·
Total ..	709	693	11	5	..

The number of vaccine operations performed independently by medical subordinates during the year was 79, and the number of prosecutions instituted during the year for failure to have children vaccinated was 87.

19. *Vital Statistics.*—The expenditure on account of the pay and contingencies of the registrar appointed solely for the registration of births and deaths amounted to Rs. 191, against an estimate of Rs. 190, and the actuals of the previous year, Rs. 182. The result of registration during the year is compared below with that of the previous year :—

	1890-91.	1891-92.
Births	247	405
Deaths—		
Cholera	77	44
Small-pox	10	4
Fevers	359	245
Dysentery	33	25
Suicides	..	1
Wounds	6	..
Accidents	2	4
Snake-bite	..	..
Killed by wild beasts	..	..
All other causes	268	157
Total deaths ..	755	480

The number of prosecutions instituted for failure to register births and for unauthorized burials was 13, against 26 in the previous year, as shown below :—

For failure to register births	10
„ unauthorised burials	3
Total ..	13

20. *Conservancy.*—The expenditure on account of the conservancy establishment and contingencies, including repairs to carts, &c., amounted to Rs. 6,991, as detailed below :—

	Rs.	A.	P.
Establishment	4,268	4	4
Contingencies	150	7	10
Repairs to carts	518	7	6
Sanitary services	2,053	8	0
Total ..	6,990	11	8

The details of the conservancy establishment, &c., are given in the accompanying report of the District Surgeon.

(*b*) *Private Scavenging.*—The cost of the establishment and contingencies amounted to Rs. 875, against an estimate of Rs. 880, and the actuals of the previous year, Rs. 898. The establishment consisted of two inspectors on Rs. 12 each, and 13 toties on Rs. 4 each per mensem. The number of private latrines cleaned during the year was 501 against 512 in the previous year. The receipts under the head amounted to Rs. 725-15-0, deducting which, the net cost to the Municipality was Rs. 150 although the rate of fees was raised during the year from 6 to 8 pies per head per mensem. The system, however, worked satisfactorily. The cost of the establishment having exceeded the receipts, certain reductions have been effected in the supervising agency, *i.e.*, the services of the two inspectors have been dispensed with in the current year.

(*c*) *Cholera.*—The expenditure amounted to Rs. 488-9-4 against Rs. 212-12-9 in the previous year, and the number of deaths on account of the disease was 44 against 77 in the previous year. Precautionary measures were adopted to arrest the progress of the disease. Quarantine sheds were put up in 4 different places and sulphur and tar fumigation maintained for a number of days in the different streets in the town as per advice of the District Medical and Sanitary Officer. The excess expenditure incurred was on account of these measures, which, no doubt, proved the cause of the disappearance of the dreadful epidemic in a shorter time than in former years. The disease was before this more an endemic than an epidemic one in this town. During the year under review there was a decrease both in the number of attacks and in the number of deaths when compared with the previous year.

21. *Grant IV, Lighting, &c.*—The lighting establishment consisted of 5 lamp lighters on Rs. 6 each per mensem. The cost of the establishment, including contingencies on account of the purchase of chimneys, burners and kerosine oil, &c., amounted to Rs. 1,484-9-8, against an estimate of Rs. 1,570, and the actuals of the previous year, Rs. 1,523. Thirteen additional lamps were introduced during the year and improvements were also effected in regard to the duration of lights. Hitherto, we had lights only for 15 days commencing from the 5th day after full moon. Now the number of days has been increased to 21, to have lights during the dark hours of nights. Uniform chimneys and burners also have been introduced throughout the town. With all these improvements, it is satisfactory to note that the expenditure for the year under this head is less than in the previous year.

22. *Market and Slaughter-houses.*—The cost of the establishments, including contingencies, amounted to Rs. 508-7-8, against Rs. 616-2-10 in the previous year, as detailed below :—

	Rs.	A.	P.
Market—			
Establishment	119	4	0
Contingencies	8	4	0
Slaughter-houses—			
Establishment	319	6	0
Contingencies	61	9	8
Total ..	508	7	8

The difference of Rs. 108 was due to abolition of the superintendent's place during the year.

23. *Travellers' Bungalow.*—As in the previous year, the establishment consisted of one maty on Rs. 7 and a water-woman on Rs. 3 per mensem. The cost of the establishment and contingencies amounted to Rs. 192-3-0 against Rs. 164-13-8 in the previous year. The increase of Rs. 27 over the actuals of the previous year was due to the purchase of the required furniture during the year. Besides this expenditure

of Rs. 192, a sum of Rs. 27 was spent in executing the necessary repairs to the building as noted in Statement II (*a*), Part II. The building was kept in a good condition with necessary furniture.

24. *Avenues.*—The cost of establishment, including contingencies, amounted to Rs. 78 against the actuals of the previous year, Rs. 141. The number of trees and plants on the 31st March 1892 was 915 and 93, respectively, the greater number being tamarind and margosa trees, as in the previous year. No improvements could be effected in the year under report on account of scarcity of water. It was found very difficult to maintain the existing ones.

25. *Miscellaneous other Charges.*—A sum of Rs. 3,183-11-9 was distributed as follows for other miscellaneous purposes :—

	Rs.	A.	P.
Value of pipes, &c., purchased for private house services of water-works	1,997	10	1
Centribution towards the cost of burial-ground purchased for Muhammadans at Viswanadhapuram	46	0	0
Rewards for killing dogs	73	0	0
Printing charges	588	1	9
Process fees	31	6	0
Pay of tom-tom beater	24	0	0
Kists on Municipal lands	14	7	8
For writing street-boards	1	8	0
Vakeel fees	25	0	0
Paid to Government for abstracting census figures	78	3	3
Value of village map	1	0	0
Premium paid for purchase of Government promissory notes for water-works sinking fund	110	0	0
For repairing the fire-engine	193	7	0
Total ..	3,183	11	9

The total expenditure under Grant IV amounted to Rs. 5,447 against the revised estimate of Rs. 4,020.

26. *Grant V, Supervision and Management.*—The cost of establishment and contingencies amounted to Rs. 2,682, against the revised estimate of Rs. 2,829, as noted below :—

	Rs.	A.	P.
Office establishment	1,439	12	8
Collection establishment	680	5	3
Contingencies	561	7	9
Total ..	2,681	9	8

A further expenditure of Rs. 894-1-0 was incurred under this Grant on account of contribution to Government for central office and audit establishments, and Rs. 3-10-0 were spent for repairing the toll-gates. The total expenditure under this Grant amounted, therefore, to Rs. 3,579, against an estimate of Rs. 3,620, and the actuals of the previous year, Rs. 2,852. The decrease occurred chiefly under the office contingencies and the contribution to Government on account of the controlling establishment. The office establishment consisted of one manager on Rs. 60, one writer on Rs. 25, one accountant on Rs. 10, three peons on Rs. 7 each, one sweeper on Rs. 5, one shroff on Rs. 20, and three bill-collectors on Rs. 12 each under collection establishment. As in the previous year, the office and the primary schools were located in one private building for which a rent of Rs. 540 was paid during the year.

27. *Repayment of Debt.*—Rs. 2,220 were paid during the year towards the sinking fund of water-works loan, and this sum was as usual invested in Government securities, and promissory notes were purchased paying a premium of Rs. 110. These, as well as those already purchased for Rs. 6,000, are in the safe custody of the Accountant-General.

28. *Refunds.*—A sum of Rs. 25-11-0, being the refund of house-tax during the year, was debited to this head.

29. *Pensions and Gratuities.*—Rs. 90 were paid to a compounder of the Municipal hospital as gratuity for his long and good service.

30. *General Administration.*—The unsatisfactory state of things referred to in column 3, paragraph 3, of G.O., No. 1475 M., dated 14th September 1891, has been fully enquired into by me with some of the Councillors, and the result reported to Government in my letters, Nos. 1135 and 441, dated 7th November 1891 and 9th May 1892, respectively—*vide* G.O., No. 938 M., dated 30th May 1892.

Enclosure.

Administration Report of the Municipal Dispensary, Cuddapah, for the year 1891-92.

I. The health of the people in the town of Cuddapah during the year has been better than the previous year. There were a few cases of cholera during the months of June and July, there having been 56 attacks with 42 deaths. On the appearance of the epidemic, all necessary preventive measures were adopted to check the further spread of the disease. The majority of cases were treated in their own houses, and paupers who were destitute of houses were admitted and treated in a separate shed in the hospital premises. Malarial fevers prevailed to some extent during the latter part of the year. There were only 3,540 cases, showing a decrease of 7,548 over the preceding year. Small-pox and chicken-pox did not appear in the town, but a few cases of measles occurred among children and the police force. There was no mortality from this disease.

II. The dispensary is well attended by all classes of people, many coming from distant villages.

III. The institution is maintained by the municipal funds with an annual contribution of Rs. 2,000 from Local Funds.

IV. The institution is occasionally visited by the Municipal Councillors and Civil authorities. All subjects connected with the hospital are discussed and disposed of by the Municipal Councillors at their general meetings in the Municipal office.

V. The hospital is under the charge of the District Surgeon, and during his absence on inspection duty in the district the Assistant Surgeon is in charge.

VI. During the official year, 12,466 out and 372 in patients were treated, showing a decrease of 7,526 out and 78 in patients over the preceding year. This large decrease is due to less number of admissions for fever and cholera and to the absence of influenza during the year. The number of admissions for fever last year was 11,088, whereas this year it was only 3,540.

VII. The most prevailing diseases during the year were malarial fevers, syphilitic and rheumatic affections, sore eyes, chest and bowel complaints and skin diseases.

VIII. Twenty-eight major and 338 minor operations were performed during the year, showing a decrease of 5 of the former and 12 of the latter over the preceding year. Except the following cases the others do not require particular mention in this report:—

Two cases of amputation of the right leg at lower 3rd for mycetoma—Both cured.

Four cases of amputation of the right leg at middle 3rd for mycetoma—Two cured and two remaining under treatment.

One case of amputation of the right forearm at middle 3rd for mortification—Cured.

One case of amputation at the left knee-joint for caries of left tibia—Discharged otherwise.

One case of amputation of the left shoulder-joint for ununited fracture of the left humerus with caries—Cured.

One case of amputation of the left upper arm middle 3rd for compound comminuted fracture left humerus—Cured.

Six cases of Paracentesis Abdominus for Ascitis—Four relieved and two died.

One case of reduction of dislocation of the right hip-joint under chloroform—Relieved.

One case of removal of the finger at its metacarpo-phalangeal articulation for contused wound of the right little finger—Cured.

One case of amputation of the penis for cancer—Cured.

One case of removal of the phalanges of all the toes except that of the big toe for compound comminuted fracture of the phalanges of the left foot—Cured.

One case of delivery of fœtus by turning and extraction for inertia of uterus—Delivered.

One case of hypertrophied labia removed by knife—Cured.

One case of cancer of the breast removed by knife—Remaining.

One case of delivery by forceps.

IX. The dispensary medical subordinate vaccinated 79 cases, of which 53 were successful, 19 unsuccessful and 7 unknown.

X. *Conservancy of Town.*—The establishment consists of—

General Conservancy.

		Rs.
1	Inspector on	25
1	Inspector on	15
6	Peons on	6 each.
29	Male toties on	6 „
29	Female toties on	4 „

4 Closed, wooden box-carts for removing night soil.

1 Closed cask for removing urine.

12 Country carts for removing street sweepings.

Latrines.—There are 31 latrines, of which 25 are pucka-built and 6 mud-walled. The dry-earth system is adopted. The latrines are kept clean and are freely used by the people.

Dust-bins.—There are 173 dust-bins, of which 7 are of iron movable ones, and 166 of stone slabs.

Private Scavengering.—Two inspectors on Rs. 12 each. Thirteen scavengers on Rs. 4 each. The number of private latrines cleaned is 501. This is a very small number for a town with about 5,000 houses. The sanitary inspectors and peons ought to exert themselves in inducing people to apply for private scavengering, and prosecute those that still adhere to the objectionable custom of depositing night-soil in deep pits in the backyards of their houses. The income from private scavengering is Rs. 704-10-0, whereas the expenditure under this head is Rs. 875-3 2. Although the system was introduced into this town three years ago, still it is not in a position to pay itself.

Manure Depôt.—The latrines and street sweepings are collected and deposited in pits outside the town and covered over daily with a layer of earth and sold by public auction as manure once a year.

Drainage.—There are no proper drains constructed in the town, but shallow channels are maintained on either side of the roads to carry off the surface water during rains.

Roads.—These are maintained in a fairly good condition. But owing to the failure of rain and the scarcity of water, the repairs of some of the roads were not undertaken.

House Drainage.—The house-drains are let into cesspools constructed with stones and slabs in the backyard of each house and which are cleaned out occasionally.

Water-supply.—The town was supplied with the Bhooga pipe-water till about the end of December, when the supply failed entirely, and since then drinking-water is obtained from several wells that were in use before the introduction of the pipe-water. All these wells have been cleared and some deepened to meet the requirements of the people. At present the water-supply is sufficient, but if the monsoons should fail this year the scarcity of drinking-water will be very much felt by the people.

General Remarks.—The general health of the public was bad, but *on the whole better than* the previous year. The total rainfall registered at the Observatory during *the year was 17·27* inches, that of the preceding year being 30·12 inches. Owing to the scanty rainfall there has been a general failure of all crops, and consequently food-grains had to be imported in large quantities from other districts and sold at high rates. Fifty-one cases of labour were attended by the Eurasian midwife.

Cuddapah,
18*th May* 1892. (Signed) A. J. O'HARA, Surgeon-Captain, I.M.D.,
District Surgeon.

Forwarded to the Chief Secretary to Government, Local and Municipal Department, Madras.

Cuddapah,
21*st July* 1892. (Signed) W. DUMERGUE,
Ag. Collector.

Order—dated 29th September 1892, No. 1582 M., Local and Municipal.

The receipts and charges of the Cuddapah Municipality for 1891-92 are compared below with the budget and revised estimates for the year and the actuals of 1890-91.

	Actuals, 1890–91.	Budget estimate, 1891–92.	Revised estimate, 1891–92.	Actuals, 1891–92.

			46,840	50,923

The principal variations between the revised estimate and the actuals for 1891–92, except in the cases noted below, are explained in the Chairman's letter :—

A. These increases are evidently due to special receipts for the laying of house service pipes and to the expenditure thereupon.

B. Decrease not explained.

2. The Council held 32 meetings, or 6 more than in the previous year, but the number adjourned for want of a quorum was 6—an unduly large figure. The attendance of the members was, on the whole, satisfactory. Five seats were filled by election, of which three were contested, the average number of voters who went to the poll being 52·1 per cent. of the number interested.

3. *Receipts.*—(1) No time should be lost in completing the revision of the house-tax registers and in reporting the result to Government. It does not appear that the enquiry into the low incidence of the land-tax, directed in paragraph 3 (1) of G.O., dated 14th September 1891, No. 1475 M., has been instituted—an omission which should be explained. The current collections under the taxes on arts and houses were, as in the previous year, excellent. Those under the tax on lands were poor, and this is not explained but was probably due to the unfavorable character of the season. The arrear collections under all three of these taxes were very poor indeed, comparing anything but favorably with the realizations of 1890–91. The collections under the water-tax bore a satisfactory proportion to the demand. The arrears outstanding at the close of the year should be speedily adjusted. The number of warrants issued for the collection of these taxes was small, though nearly four times that in the previous year. Execution was promptly effected. Property was sold in two cases.

(2) The grant of remission to the toll-contractor was uncalled for. He entered upon his agreement with his eyes open, and had no more claim to remission because he found he could not make the profit that he had expected than the Council would have had to exact extra payments from him if he had experienced exceptional success in his venture. The collection of the taxes on vehicles, animals and carts through a contractor is objectionable and should be discontinued as soon as possible.

(3) The income from license fees and Police and other fines showed a satisfactory increase, owing, in the one case, to the revision of the scale of fees and in the other to the energetic enforcement of the law. The receipts from the sale of the town sweepings were fair, but this source of income is capable of further development.

(4) It is to be regretted that, notwithstanding the remarks in paragraph 3 (3) of G.O., dated 14th September 1891, No. 1475 M., the number of houses served by the private scavenging agency fell from 512 to 501. The failure to extend the operations of the service during the year under review is disappointing and the reverse of creditable to the Council. There is no doubt that if the sanitary provisions of the law were vigorously and systematically enforced, a large number of householders would have recourse to the services of the Municipal conservancy staff. The service cannot well be expected to pay its way until it has been placed upon a satisfactory footing. It is evident from the medical officer's remarks in paragraph X of his report that the sanitary inspectors have not been doing their duty. The Chairman will report what steps he now proposes to take in the matter.

(5) The Chairman is requested to state what the Smith's Prize and Jubilee Fund endowments are and in whose custody the funds appertaining to them are at present.

4. *Expenditure—Public Works.*—With the exception of a wall for the Municipal cart-stand, no new work of any importance was undertaken during the year, but the town was surveyed at a cost of Rs. 861 with a view to the preparation of a scheme of drainage. The outlay on roads amounted to only Rs. 906, or 9·6 per cent. of the net income from tolls. As remarked in paragraph 3 of G.O., dated 23rd February 1892, No. 364 M., the action of the Council in diverting the income from tolls from its legitimate object is regarded with displeasure, and it is to be hoped that the budget allotment for communications in the current year will be fully worked up to. Neither the Chairman nor the Divisional officer, as such, has furnished any information on the condition of the roads, which, from the Sanitary Commissioner's last inspection notes, appears to have been unsatisfactory, as indeed it must have been considering that only 1 mile and 2 furlongs were repaired during the year.

5. *Education.*—The net expenditure on education amounted to Rs. 2,663, or 9·5 per cent. of the receipts from taxation, and of this sum Rs. 954 were spent on secondary,. and Rs. 1,709 on primary, education. The Council continued to maintain one high school and two primary schools, and aided 16 primary schools with result grants against 15 in 1890–91. The attendance of the Municipal schools improved considerably, but that of the aided schools slightly declined. These schools did well on the whole at the public examinations. The reduction of expenditure on the high school was satisfactory, though in part due to the payment during the year of Provincial grants earned in the previous year. Nearly the whole of the allotment for result grants was utilized before the close of the year. The managers of the aided schools should be induced to replace the large number of unpassed teachers now employed by them by trained or passed men. Payment of grants at less than maximum rates to those managers who make no effort in this direction will be found an effectual inducement. It should have been explained why the allotments under Training schools and Miscellaneous were not utilized. The present inspecting schoolmaster is, it is observed, too young and inexperienced for his work besides being indolent. He should be got rid of and an efficient officer appointed in his place. 58·4 per cent. of the male population of school-going age were under instruction in the Municipal and Aided schools against 50·5 per cent. in 1890–91. The advance is encouraging.

6. *Medical Relief.*—There was a very large fall in the number of out-patients treated in the Municipal hospital. This is accounted for by the small number of cases of malarial fever as compared with the previous year. The Eurasian midwife attached to the hospital attended only 51 cases of labour, and it is not reported how many cases were attended by the nurse. The midwife's work was not satisfactory. She should be required to attend on an average at least 7 cases a month.

7. *Vaccination and Vital Statistics.*—The work done by the Municipal vaccinator was anything but good. He operated on 709 cases against 808 in the previous year, and the average cost of each successful case was As. 11-3 against As. 7-8 in that year. The number of infants successfully vaccinated was 333, or only 19·2 per mille of the population. The Chairman's report is silent on the subject, but it is certain that there can be no excuse for this discreditably poor outturn of work. No information whatever has been given as to the check that is exercised over the work of the vaccinator (the high percentage of success is suspicious), nor as to the arrangements made to ensure a supply of animal lymph. The District Surgeon has made no mention of vaccination in his report. He should now be called upon to supply the omission, and the Chairman will furnish the information above alluded to, at the same time reporting the results of the prosecutions instituted against parents who failed to get their children vaccinated. The registration of births improved considerably and the fall of the death-rate is, partly at least, accounted for by the fact that the year was generally a less unhealthy one than 1890–91; still the figure cannot be accepted as accurate.

8. *Sanitation.*—The whole of the budget allotment under conservancy was utilized before the close of the year, but the expenditure amounted to only 17 per cent. of the current receipts. The sanitary condition of the town appears to have somewhat improved; that the subject has received attention is evidenced by the increase in the receipts from fines under the Police and Municipal Acts. As required in paragraph 3 (4) above, the private scavenging service should be extended and effect given to the suggestions of the Deputy Sanitary Commissioner printed in G.O., dated 11th February 1892, No. 279 M. The town rubbish should, as pointed out in G.O., dated 14th September 1891, No. 1475 M., be sold more frequently than once a year.

9. *General Remarks.*—The year closed with a balance of Rs. 4,168, or 8·4 per cent. of the current receipts. The Chairman's report is exceedingly meagre and was submitted nearly two months after the prescribed date, and no explanation of this is offered. The delay was unsatisfactory and should not be allowed to occur in future.

The statements that accompanied the report were most carelessly prepared. Except as regards public works, vaccination and the registration of vital statistics, the results of the year's administration were, on the whole, satisfactory.

Footnote

The principal variations between the revised estimate and the actuals for 1891-92 except in the cases noted below, are explained in the Chairman's letter:—

A. These increases are evidently due to — special receipts for the laying of house service pipes and to the expenditure thereon

B. Decrease not explained.

---

2. The Council held 32 meetings or 6 more than in the previous year, but ~~it is to be regretted that~~ the number of ~~meetings~~ adjourned for want of a quorum was 6, an unlikely ~~or double the~~ large ~~number~~ figure ~~in 1890-91 and that the Average~~ attendance of the non-official members was one less than in that year although the number of such members on the Council who one more. Five seats were filled

The attendance of the members was on the whole satisfactory. ~~Does it know~~

filled by election, of which three were contested, the average number of voters who went to the pole being 52·1 per cent of the number interested.

3. Receipts ~~on account~~ demand of the taxes on buildings lands and arts remained almost stationary. Although the total number of houses brought under taxation appears to be only 45·7 per cent of the number according to the census, it is clear from column 3 of statement IX that the correct percentage would have been 99 had the same mode of numbering houses been adopted for municipal and census purposes. The house tax registers are however now under revision and the result should be reported to government as soon as the work is completed. It does not ~~seem~~ appear that the enquiry into the low incidence of the tax ~~disputed~~ discussed in para 30 of f.o. dated 14th September 1891 No 1475 M has been instituted ~~by you~~ - an omission which should ~~now~~ be explained. ~~The current collections under the tax~~ on buildings were slightly worse than in the previous year, while those under the tax on arts were a little better, but in both cases they ~~continued to be very unsatisfactory~~

The arrear collections under these heads and the current and arrear collections under the tax on lands were considerably worse than in 1890-91 and extremely poor, but in the case of the former the major portion had to be written ~~off as irrecoverable~~ among. The balance ~~still outstanding~~ at the close of the year ~~under these heads~~ should be speedily adjusted, a ~~Similar course being adopted~~ ~~in the case of the tax on lands~~ also

The current collections under the taxes on arts and houses were on a par with the previous year's excellent. Those under the tax on lands were poor and this is not explained but can probably due to the unfavourable character of the season. The arrear collections under all three of these taxes were very poor indeed, comparing anything but favourably with the realizations of 1890-1

The collections under the boat tax were a satisfactory proportion of the demand.

No trained Revenue Officer should be lost sight of in connection with the working of the house tax registers and in reporting the result to government.

also. The number of warrants issued for the collection of these taxes was small though nearly 4 times that in the previous year, and an increase was promptly effected. but it was still Considering Property had to be distrained and sold in two cases.

(4) As Compared with the previous year, there was a large falling off in the revenue from tolls which is principally due to the remission of Rs 1000 granted to the Contractor. Such remissions are very unsatisfactory and if continued can only encourage reckless bidding. The collection of the taxes on vehicles, animals & Carts through a Contractor is objectionable and should be discontinued as soon as the former mode is possible

The grant of remission to the toll contractor was uncalled for. He entered upon his agreement with his eyes open and had no more claims to remission because he found he could not make the profit that he had imputed to the Council would have had to grant extra payments from him if he had experienced exceptional profit. Losses as his venture.

(3) The income from license fees and Police and other fines showed a satisfactory increase owing in the one case to the revision of the Scale of fees and in the other to the more effective enforcement of the law. The Sanitation of the town. The receipts from the sale of manure of the town Sweeping was fair also showed a small increase in the amount of income but this item is capable of further development.

The fact that the operations of the service during the year under review is disappointing and the source of considerable to the Council. There is no doubt that if the sanitary provisions of the law were vigorously and systematically enforced a large number of house holders would have income to the services of the Municipal scavenging staff. The service cannot be expected to pay its way until it has been placed upon a satisfactory footing. It is evident that the Sanitary Inspector and his subordinates are not doing their duty

further improvement.

(4) It is to be regretted that notwithstanding the remarks in para 3 (3) of G.O. dated 14th September 1891 No 1475M the number of houses served by the private scavenging agency fell from 572 to 501. although the receipts from this source were a little more and the charges a little less than in the previous year, the result being a fall in the number of houses served by Rs 224 is not satisfactory decrease which has not been explained. The chairman will report what steps he proposes to take in the matter and for the extension of the service in this Connection his attention is drawn to the remarks on para X of the District Surgeon's report.

(5) The chairman is requested to state what the Smith's Prize and Jubilee Fund endowments are and in whose custody

funds appertaining to them
custody these are at present.

4. Expenditure - Public works
~~in connection~~
With the exception of a wall
for the municipal cartoland
no new work of any importance
was undertaken during the year
but the town was surveyed at a
cost of Rs 861 with a view to the pre-
-paration of a scheme of drainage.
The outlay on roads amounted
to only Rs 906 ~~which bore the~~
or
~~disproportionate percentage of~~ 9·6 per cent of
~~to~~ the net income from tolls.
Neither the chairman nor the
divisional officer as such has
furnished any information
on the condition of the roads
which
sent from the Sanitary Commissioner
last inspection notes it appears
~~that has been unsatisfactory~~ as indeed it
~~that it was with reason~~
must have been considering that only 1 mile
~~of metalled road~~ and 2 furlongs were
repaired during the year.

As remarked in para 3 of G.O. 23.7.9
No. 364. No. the action of the Commissioners in diverting the income from tolls from it. Municipalities object ~~to this~~ to the disposition and it is to be hoped that the budget allotment for communications in the current year will be fully worked up to.

Note. Woven anything but good in the last 3 months of the year

5. Education. The net
Expenditure on Education
amounted to Rs 2663 or 9·6

The new schools did well on the whole at the public examinations.
The reduction of expenditure on the Upper School was satisfactory though in part due to the payment during the year of provincial grants earned in the previous year.

per cent of the receipts from
taxation, and of this sum Rs 954
were spent on Secondary and
Rs 1709 on primary Education.
The Council continued to main
-tain one High School and two
primary schools, and aided
16 primary schools with result
grants against 15 in 1890-91.
The attendance of the municipal
schools ~~showed a large increase~~ improved considerably
but that of the aided schools
has slightly fallen off. These decline
schools appear to have done
well at the public and depart
-mental examinations, but
the cost of the municipal schools
ranging between Rs 9 and Rs 15
per pupil is still very high
~~and should be reduced~~. Nearly
the whole of the allotment for
result grants was utilized before
the close of the year. The manage

of the aided schools should be induced to replace the large number of unpassed teachers now employed by them by trained or passed men. ~~It is gratifying to note that~~ 53·4 per cent of the male population of schoolgoing age were under instruction in the municipal and aided schools against 50·5 per cent in 1890-91. The advance is encouraging.

Payment by results at the three examinations will make an effort on their duration will be found an effective incentive to diligence. It would have the merit of simplicity & economy by the abolishment of the present Inspecting Schoolmaster & it is obtained to young and inexperienced teachers who would be trained by him. He should be ~~dismissed~~ and an efficient officer appointed in his place.

6. Medical relief. There was a very large ~~decrease~~ fall in the number of outpatients treated in the municipal hospital for the reasons explained in para VII of the District Surgeon's report. Whether this was owing to the introduction of the Buggawater supply or the extreme dryness of the season it remains to be seen. The Eurasian midwife attached to ~~this institution~~ the hospital attended only 51 cases of labour and it is not reported how many ~~of~~ were attended by the nurses.

~~Sickness~~ This is accounted for by the small number of admissions for malarial fever as compared with the previous year. Malady was so much in other parts under the improvement of the supply of the town and the dry season. and the ~~Sickness~~ cases Read this paragraph over & delete the exceptions

The midwifery work was unsatisfactory. She should be required to attend an average at least 7 cases a month

The work done by the municipal vaccinator was anything but ~~satisfactory~~ gratifying. He operated on 709 cases against 808 in the previous year and the average cost of each successful case was as 11·3 against as 7·8 in that year. The number of infants successfully vaccinated was 333 or only 19·2 per mille of the population. The Chairman's report is ~~silent~~ silent on the subject but it is certain that there can be no excuse for this discreditable falling off in the number of births. No information from any source of work. No information has been given as to the check that is exercised on the work of the vaccinator (the proportion of cases in which the vaccination is successful) nor as to the arrangements made to ensure a supply of animal lymph. The District Surgeon has made no mention of vaccination in his report on the ~~subject~~ subject at all. He should now be called upon to supply the omission and the Chairman will furnish the information above alluded to, at the same time reporting the results of the precautions visited against parents who failed to get their children vaccinated.

The registration of births is improved and the fall of the death rate is probably at least accounted for by the fact that the year was generally unhealthy and that 1890-1. ~~in~~ all the figures cannot be accepted as accurate.

~~She should be required to show better results in future and the advisability of paying her salary by results should be considered~~

7. Vaccination and vital Statistics. The municipal vaccinator performed about 100 vaccine operations less than in the previous year and the cost of each successful operation rose from the already high figure of Annas 7-8 to Annas 11-3, but the number of infants successfully vaccinated was 61 more than in 1890-91 and the quality of the work done was also better, 94·7 per cent of the total number of operations having been successful against 90·3 per cent. The total number of successful operations, however, amounted to 42·9 per mille of the total population, but

but vaccination being Compulsory in the town, there is considerable scope for improvement in infantile vaccination which it should be the aim of the Council to effect. It is satisfactory to note that all the operations were performed with animal lymph. The registration of births slightly improved, but the improvement in that of the deaths noticed in the review of the report of the previous year, has not been sustained. This is not satisfactory. The subject should continue ~~to receive special attention~~

8. Sanitation. The whole of the budget allotment under conservancy was utilized before the close of the year, but the ~~total~~ expenditure amounted to only 17 per cent of the current receipts. The Sanitary condition of the town appears to have somewhat improved

; that and the subject be remitted attention is evidenced by the woman in the receipts from fines under the Police and Municipal Acts.

sold more frequently than once in a year.

The year closed with a balance of Rs. 4164 or 8.4 of the current receipts.

improved; ~~but~~ As required in para 3(4) above, the private-scavenging service should be and effective steps extended ~~and early steps shall~~ be taken by the Deputy Sanitary supervision of the ~~to provide the town with~~ Commissioner ~~suitable drains~~ printed in G.O. No. 1-2-32. No. 279. Dr. The town which should be printed out in G.O. No. 14-9-31. No. 1475. Dr. be

9. General remarks. The finances of the municipality have been placed on a better footing, but this was done mainly by the irregular diversion of the revenue from tolls to other ~~than its legitimate object.~~ The mendicity Chairman's report is ~~another~~ meagre and ~~it~~ was submitted nearly two months after the prescribed date. This delay was unsatisfactory and should ~~be avoided~~ in future. Except as regards vaccination and the registration of vital statistics, the results of the year's administration were on the whole

The statements that accompanied the report were most carelessly prepared.

Public works.
