DATED 31. 8. 93

[Despatch Abstract.]

Reviewing the Cuddapah Municipal Report for 1892-93.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From M.R.Ry. C. P. GANAPATI, Avargal, Chairman, Municipal Council, Cuddapah, to the Chief Secretary to Government (through the Collector of Cuddapah), dated Cuddapah, 30th June 1893, No. 487.

I have the honour to submit the administration report of the Cuddapah municipality for the official year 1892–93, together with the prescribed statements.

I.—Constitution of the Council.

2. The Council consists of 16 Councillors—the sanctioned maximum—of whom 12 are elected and 4 nominated, including the *ex-officio* Councillor, the Divisional officer. The maximum number existed at the commencement and the close of the year. Seven vacancies occurred during the year, all among the elected Councillors, and seven elections were held to fill them up, one on the 6th of August, five on the 5th October and one on the 14th of December 1892. The elections were all well contested and there was keen competition. The number of registered voters in each of the five wards wherein the elections were held and the number that went to the poll in each election are detailed in the accompanying statement No. X-A. The whole Municipal town is for electoral purposes, divided into six wards, and the population therein according to the last census is 17,379. The total number of registered voters in all these six wards was 423.

3. At the commencement of the year, the office of Chairman was held by M.R.Ry. R. Govinda Row Naidu Garu, the Revenue Divisional officer, who resigned the same on the 10th of January 1893, but continued as *ex-officio* Chairman. His resignation was accepted by Government on the 17th January 1893—*vide* G.O., dated 17th January 1893, Mis. No. 60 M., and on the 23rd of January 1893, he delegated his powers to the Assistant Surgeon and nominated Councillor M.R.Ry. C. P. Ganapati, Avargal. An election was subsequently held on the 22nd of February 1893, wherein M.R.Ry. C. P. Ganapati, Avargal, was unanimously elected as Chairman. He assumed charge of the office as Chairman on the 21st of March 1893 when the election was confirmed and the appointment published in the *Fort St. George Gazette*, Part I-A.

4. Excluding the 8 meetings which were adjourned for want of quorum, the Council held 39 meetings during the year against 29 in the previous year. The average attendance at each meeting actually held was 2 officials and 4 non-officials against 2 and 6, respectively, in the preceding year. The average attendance of the Councillors in 1890–91 was 2 officials and 7 non-officials. This gradual decline in the attendance of the non-official Councillors seems to be a clear proof of apathy of some of them in the affairs of the Council. This matter has already been once reported to Government in connection with the submission of the budget estimate for the current year.

II.—Receipts.

5. The following is an abstract of the total receipts of the municipality for the year under report. The receipts are therein compared with the budget and revised estimates for the year and the actuals of the previous year:—

—	Actuals, 1892-93.	Budget estimate, 1892-93	Revised estimate, 1892-93.	Actuals, 1891-92.
Opening balance	3,038	20	4,150	1,763
Municipal Rates and Taxes—				
Tax on arts	3,901	3,700	4,050	3,602
Do. buildings and lands, including water-tax	12,072	14,550	14,310	13,093
Do. vehicles, animals and carts	1,800	2,000	2,000	2,024
Tolls	8,000	10,000	8,000	9,409
Total income from taxation ..	25,773	30,250	28,360	28,128
Realizations under Special Acts	20	..	20	..
Revenue derived from municipal property and powers apart from taxation	10,018	10,550	10,530	10,269
Grants and contributions	15,040	14,980	15,250	5,398
Miscellaneous, including extraordinary and debt account ..	11,590	10,240	11,440	5,275
Total receipts ..	62,441	66,020	65,800	49,070
Grand total ..	65,479	66,040	69,750	50,833

From the above abstract it will be seen that for the year under report the income from taxation amounted to Rs. 25,773 against the revised estimate of Rs. 28,360 and the actuals of the previous year Rs. 28,128, and that other receipts amounted to Rs. 36,668 against the revised estimate of Rs. 37,240 and the actuals of the previous year Rs. 20,942. The total receipts for the year, though less than the revised estimate, exceeded the actuals of the previous year, the increase being chiefly due to the amount of contribution and loan granted by Government for the completion of the Bugga water works project. The receipts under almost all items, excepting grants and contributions, were however less than in the previous year as will be noticed below.

6. *Opening Balance.*—The preceding year 1891–92 closed with a balance of Rs. 4,153 under Municipal fund and Rs. 2,437 (exclusive of interest Rs. 4–1–0) under deposit. The payments made by private parties for opening taps or laying pipes to their residences up to end of 1891–92 were not treated as deposits until the works were completed and accounts closed, but credited to Municipal funds once for all. This procedure appearing objectionable Rs. 1,115–1–11, the unadjusted balance of such receipts included in the abovesaid municipal balance of Rs. 4,153, was transferred to deposits to be separately accounted for during the year under report and the remaining Rs. 3,038 was adopted as the opening balance for the year.

A.—Receipts from Taxation.

7. *Municipal Rates and Taxes—Tax on Arts.*—The total collections under this tax amounted to Rs. 3,901 against the revised estimate of Rs. 4,050 and the actuals of previous year Rs. 3,602. Out of the arrear demand of Rs. 84, Rs. 51–8–0 were collected, Rs. 1–8–0 remitted and Rs. 31 written off accounts as irrecoverable. The original current demand for the year was Rs. 4,525–8–0, of which Rs. 413 were remitted by the Council on appeal. Out of the final demand of Rs. 4,112–8–0 Rs. 3,850 were collected and Rs. 92 written off as irrecoverable leaving a balance of Rs. 170–8–0 for collection in the current year. Rs. 34 of the balance has since been collected. This tax was as usual revised during the year and levied on the first seven classes of the Schedule A of the Act. The number of appeals preferred against the imposition of this tax was 122. All the appeals, excepting two, were disposed of before the close of the year.

Tax on Buildings.—As usual this tax was levied at the maximum rate of $7\frac{1}{2}$ per cent. of the annual rent value of buildings. The annual rental is estimated on the actual rent for which the houses are let as far as it can be ascertained and where the owners of buildings are themselves the occupiers, due consideration is given to the importance or otherwise of the locality and probable rent is fixed. The total current demand of this tax amounted to Rs. 10,269–13–10 against Rs. 9,369 in the previous year

and the increase is due to revision of assessment during the year. Two hundred and ninety-four appeals were preferred against the revised assessment and all of them, excepting 3, were disposed of before the close of the year. In 140 cases the tax was reduced, in 32 cases the property was exempted and in the remaining 122 cases the revised assessment was confirmed. The remissions granted by the Council amounted to Rs. 139–9–6 and the demand, as finally settled, was Rs. 10,130–4–4 of which Rs. 8,393–6–7 were collected. The balance outstanding at the close of the year amounted to Rs. 1,736–13–9. The revision of this tax was completed in November 1892 when the demand register had to be prepared and bills issued. The delay in the completion of the revision and in consequence thereof the issue of bills very late in the year resulted in the outstanding of a large balance at the close of the year. However Rs. 1,406 of the balance has since been collected.

The total arrear demand of the year was Rs. 109–15–0 whereof Rs. 100–5–0 was collected, As. 14–6 remitted and Rs. 8–4–0 written off during the year, leaving a small balance of As. 7–6. The current and arrear collections under this tax amounted, therefore, to Rs. 8,493–11–7 against the revised estimate of Rs. 10,000 and the actuals of the previous year Rs. 9,245–5–4.

Tax on Lands.—The total extent of land within the municipal limits is 861 acres and 61 cents., whereof 645 acres and 55 cents. were assessed in the previous year. The register of land-tax was revised during the year under report, when all the lands possessed by each individual were, as far as possible, brought together and the total extent assessed according to the sanctioned rate of 4 annas per acre. The practice has hitherto been to assess only those lands whose extent is taxable and to leave off such as have petty extent, *i.e.*, a few cents. Thus an extent of 796 acres and 75 cents. was assessed during the year and the current demand of the tax amounted to Rs. 198–11–0 against Rs. 170–12–0 in the previous year. The current collections amounted to Rs. 32–3–0 and a balance of Rs. 166–8–0 was outstanding at the close of the year. Out of the arrear demand of Rs. 125–8–0, Rs. 94–3–0 was collected and Rs. 3–12–0 written off accounts during the year, leaving a balance of Rs. 27–9–0 which relates partly to 1890–91 and partly to 1891–92 as detailed in the accompanying statement No. IV-B. The entire balance of this tax, both arrears and current, outstanding at the close of the year was thus Rs. 194–1–0.

When submitting the budget estimate for 1890–91, the Council proposed the appointment of a bill-collector on Rs. 8 for the collection of the land-tax, but the Government, at the suggestion of the then Collector of the district, E. J. Sewell, Esq., ordered—*vide* G.O., No. 266 M., dated 14th February 1890, that the collection of the tax be made by the revenue reddies of the villages, the municipality paying them reasonable remuneration for the same. The Council has ever since been paying them a commission of 6 per cent. of the collections they made and they have been collecting the tax along with the Government revenue. But during the year under report the Revenue authorities did not permit them to collect the tax as usual on the ground that the collection of Government revenue, which is their legitimate work, would suffer. Most of the bills were thus left uncollected, and the matter was brought to the notice of the Divisional officer as well as the District Collector. The Divisional officer issued necessary orders to the tahsildar who does not seem to have given effect to the same. For the collection of municipal taxes there are at present only three bill-collectors who, having already much to do, cannot be entrusted with the collection of the land-tax also. The District Collector has been requested to say if the reddies cannot be permitted to collect the tax as usual and on receipt of his reply, proposals will, if necessary, be submitted to Government for the entertainment of an additional bill-collector as once proposed. The Collector's reply has since been received and the tax will be collected as usual by the revenue reddies of the villages concerned.

Water-tax on Buildings and Lands.—As usual this tax was levied at 3 per cent. of the annual rent value. The total collections under this tax amounted to Rs. 3,451 against the actuals of the previous year Rs. 3,732. The current demand, as finally settled by the Council, amounted to Rs. 4,139–7–6 of which Rs. 3,389–1–8 were collected during the year leaving a balance of Rs. 759–5–10 for collection in the

current year. The arrears outstanding at the commencement of the year amounted to Rs. 861-1-11, whereof Rs. 71-5-11 were collected, As. 5-6 remitted and Rs. 4-3-6 written off, leaving at the close of the year a balance of Rs. 10-3-0 which relates partly to 1890-91 and partly to 1891-92 as detailed in the accompanying statement No. IV-B.

Tax on Vehicles, Animals and Carts.—As in the previous year the collection of this tax was leased out for Rs. 2,000. But the realizations amounted to Rs. 1,800 only, a remission of Rs. 200 having been allowed by the Council on the ground that the renter sustained loss in spite of his endeavours to make good collections and that even when the collection of the tax was undertaken departmentally in the year 1890-91, the amount realized was a little more or less the same, viz., Rs. 1,870.

Tolls.—The collection of tolls was as usual leased out for Rs. 8,000 and the whole amount was fully realized in monthly instalments. Of the 9 municipal gates one was repaired during the year at a cost of Rs. 16-11-6, three need no repairs and the others are under repairs in the current year.

Incidence of Taxation.—The total income from taxation being Rs. 25,773 including, and Rs. 17,773 excluding, tolls, the average incidence per head of the population was Rs. 1-7-9 in the former and Rs. 1-0-4 in the latter against Rs. 1-7-9 and As. 15-9, respectively, in the previous year.

8. *Realizations under Special Acts.*—Under Act II of 1888 a sum of Rs. 20 was realized during the year as license fees for the construction and maintenance throughout the year of two gymnasiums for wrestling and other performances.

9. *Revenue from Municipal property and powers apart from taxation.*—The receipts under this head amounted to Rs. 10,018 against the revised estimate of Rs. 10,530 and the actuals of the previous year Rs. 10,269 and were made up chiefly of:—

(*a*) Avenue receipts.
(*b*) Fees from Travellers' bungalow.
(*c*) Sale-proceeds of old materials.
(*d*) Conservancy receipts.
(*e*) Fees from educational institutions.
(*f*) Sale-proceeds of medicines and composition fees.
(*g*) Income from markets and slaughter-houses.
(*h*) License, cart-stand and other fees.
(*i*) Fines under Municipal and other Acts.
(*j*) Interest on investments.

The decrease of Rs. 512 under the estimate was the net result of a small increase of Rs. 66 under (*a*), (*b*), (*d*), (*i*) and (*j*) and the decrease of Rs. 578 under all the other items as explained below:—

Avenue Receipts.—Rupees 46 was realized by sale of withered avenues against the revised estimate of Rs. 40 and the actuals of the previous year Rs. 35. Most of the avenues are tamarind and margosa trees, and besides these there are a few mango trees at Bugga belonging to the municipality. All these yielded little or no profit during the year.

Fees from Travellers' Bungalow.—In reference to the amount of fees collected in the previous year, viz., Rs. 233, the receipts for the year under report were originally estimated at Rs. 200. But during the first eight months of the year the collections having amounted to Rs. 101, the estimate was revised at Rs. 120 and Rs. 120-4-0 were collected during the year. The bungalow was wanting in good and sufficient furniture and crockeries and on that account travellers would not generally halt there. Mr. Sneyd, the late Deputy Commissioner of Salt and Abkári Revenue, died there of cholera and ever since then people do not freely halt in the bungalow, though the necessary sanitary measures were then and there adopted. The bungalow has since been supplied with all the required furniture and other necessaries, and has also been provided with a water-tap to remove the inconvenience hitherto experienced for fresh water. Other improvements, such as planting of shady trees in the compound, &c., are now being made to afford all possible comfort to travellers. The bungalow was repaired during the year at a cost of Rs. 90-15-0 —*vide* Statement II-A, Part II.

Sale-proceeds of old materials.—By sale of empty tins of kerosine oil, dealwood boxes and old materials a sum of Rs. 149-0-10 was realized during the year against the revised estimate of Rs. 200 and the actuals of the previous year, Rs. 904-5-1.

Conservancy Receipts.—Rs. 404 were realized by sale of street refuse and night-soil against the estimate of Rs. 400 and the actuals of the previous year, Rs. 430.

Fees from Educational Institutions.—School-fees were estimated at Rs. 3,010 in the budget, but the actual collections during the year amounted to Rs. 2,550 against the actuals of the previous year, Rs. 2,495. Rs. 35 collected from free-scholars was refunded to them at the close of the year and the net collections amounted to Rs. 2,515. There was, therefore, a decrease of Rs. 495 under the estimate, which was due to a fall in the strength of the High and Primary schools owing to prevalence of fevers almost throughout the year.

Sale-proceeds and composition fees of medicines amounted to Rs. 137-9-6 against an estimate of Rs. 150 and the actuals of the previous year, Rs. 234-11-11. The number of bills outstanding at the close of the year was 44, all amounting to Rupees 58-15-9. Of these bills, 1 relates to 1888-89, 1 to 1889-90, 8 to 1891-92 and 34 to 1892-93. Enquiries are being made in regard to the whereabouts of the gentlemen who should pay the petty amounts of the bills relating to 1888-89 and 1889-90; they are ascertained to be irrecoverable. After further enquiry the amounts, if found to be really irrecoverable, will be written off accounts in due course; Rupees 8-15-0 of the outstanding balance has since been collected.

Income from Markets and Slaughter-houses.—There are two slaughter-houses and one market in this municipality and the collection of fees therein was leased out during the year—the slaughter-houses for Rs. 1,400 and the market for Rs. 3,360. The amounts were fully realized during the year; the actual receipts of the previous year were Rs. 815 from slaughter-houses and Rs. 3,498 from market.

Other Fees.—A sum of Rs. 278 was realized during the year in the shape of license fees for offensive and dangerous trades and for erection of temporary pandals against the estimate of Rs. 300 and the actuals of the previous year, Rs. 207. The number of prosecutions instituted during the year for failure to obtain licenses for offensive trades was 41 against 58 in the previous year.

The collection of fees in the cart-stands was let on contract for Rs. 180 and the whole amount was realized during the year; Rs. 2 were collected as fees for extracts from deaths and births registers and Re. 1 as distraint fees. The number of warrants issued during the year for the collection of taxes was 152, of which 124 were executed; in one case property was distrained, but in no case the property was sold.

Fines under Municipal and Other Acts.—The collections under this head were originally estimated at Rs. 350, but subsequently revised as Rs. 900; Rs. 954-7-0 were actually realized during the year against Rs. 593 in the previous year, the increase being due to better enforcement of the provisions of the Municipal and Police Acts.

Interest on Investments.—The following endowments are entrusted to the Council:—

	Rs.
(1) Municipal Hospital Endowment fund	12,000
(2) Smith's prize, Endowment fund	1,800
(3) Jubilee " "	100

The funds appertaining to the first two endowments are in the custody of the Accountant-General to Government, Madras, and that relating to the third one is invested in the Postal Savings Bank at Cuddapah. On the Hospital Endowment fund the interest realized during the year was Rs. 399 against the revised estimate of Rs. 400, and that on the Smith's Prize Endowment was Rs. 71-13-2 against the estimate of Rs. 70; no interest was drawn for the year on the Jubilee Endowment fund.

10. *Grants and Contributions.*—The Local and Provincial grants and contributions during the year amounted to Rs. 15,040–2–3 against the revised estimate of Rs. 15,250 and the actuals of the previous year, Rs. 5,307–5–4, as shown below :—

	Rs.	A.	P.
Provincial grant towards the net cost of the High School department of the Municipal school	2,850	2	3
Provincial grant for the completion of the Bugga water-works	9,690	0	0
Contribution from the Cuddapah District Board towards the cost of the Municipal hospital	2,500	0	0
Total ..	15,040	2	3

The Provincial contribution towards the net cost of the High School department was estimated at Rs. 3,060, but the amount actually received during the year was only Rs. 2,850, which includes the balance of Rs. 555 due for the previous year. A sum of Rs. 753 is still to be received for the year under report.

Rs. 2,000 were the usual contribution received from the District Board, Cuddapah, towards the cost of the Municipal hospital; but in view to make sufficient provision for the admission and treatment of a larger number of out-patients, the District Board were pleased to increase their contribution from Rs. 2,000 to Rs. 2,500 during the year.

B.—Miscellaneous Receipts.

11. The following were the items of receipts under this head :—

	Rs.	A.	P.
Private scavenging fees	774	7	2
Deposits by parties for house service branch lines and taps credited to Municipal funds on accounts being closed	629	8	2
Refunds of expenditure of previous year—			
Recovery of the horse allowance overdrawn by Mr. Johnston, Executive Engineer in charge of water-works in previous years	112	8	0
Private Scavenging Inspector's pay for February 1892 drawn in March and refunded in May 1892	12	0	0
Other items, *i.e.*, recovery of the cost of Municipal property misappropriated	121	8	0
	18	11	1

12. *Extraordinary and Debt Accounts.*—The following were the receipts under this head during the year under report :—

	Rs.	A.	P.
Loan granted by Government for the completion of the Bugga water-works	9,695	0	0
Interest on water-works' sinking fund	343	2	0
Recoveries of the advances made in previous years	4	13	0

III.—Expenditure.

13. As detailed in the subjoined abstract the total expenditure for the year amounted to Rs. 53,322–2–1 against the revised estimate of Rs. 64,650 and the actuals of the previous year, Rs. 46,680 :—

—	Actuals, 1892–93.	Budget estimate, 1892–93.	Revised estimate, 1892–93.	Actuals, 1891–92.
	Rs.	Rs.	Rs.	Rs.
Grant I, Public Works	20,824	28,960	29,495	6,390
,, II, Education	8,558	9,240	9,160	8,630
,, III, Sanitation and Medical Services	13,025	13,830	13,740	17,430
,, IV, Lighting and Miscellaneous Municipal purposes ..	2,365	3,020	3,375	5,301
,, V, Supervision and management	2,893	3,020	2,970	3,574
Repayment of Debt, &c.	5,657	5,140	5,910	5,355
Total ..	53,322	63,150	64,650	46,680

14. *Grant I, Public Works.*—The amount expended on works under this grant, including the cost of establishment, contingencies and tools and plants, amounted to Rs. 20,824 against the estimate of Rs. 29,495 as detailed below :—

(1) *New Works*—(*a*) *Communications.*—A sum of Rs. 1,000 was allotted under this head for the construction of new tunnels and culverts over the side drains and main roads; but subsequently considering that the town is not provided with pucka drainage, that it would take some time to bring about the drainage scheme now under preparation in the Sanitary Engineer's office, and that the side drains when cut being very often filled up during rains, there would be no use of constructing tunnels or culverts over them, as they also would be blocked up, it was thought better to defer constructing the required number of tunnels and culverts as provided for in the budget until the Sanitary Engineer's scheme is brought to force. One very important tunnel was however constructed during the year at a cost of Rs. 187 and the remaining allotment was left unexpended.

(*b*) *Buildings.*—A provision of Rs. 500 was made in the sanctioned budget for tiling some of the thatched stalls in the market and also for the construction of a few latrines. The allotment was fully utilized as follows :—

	Rs.	A.	P.
Constructing a latrine in Sayeepet	35	12	0
Do. in Guddibazaar	139	0	0
Do. in store room for High school	162	10	0
Tiling market stalls	185	4	0
Total ..	522	10	0

The expenditure exceeded the allotment by Rs. 22–10–0.

(*d*) *Water-supply.*—The allotment sanctioned for the extension works at Bugga was 19,960, whereof Rs. 12,453 were spent during the year, leaving a balance of Rs. 7,507 for expenditure in the current year. In the latter part of May 1892 the construction of the new well and laying pipes across the river from springs to the reservoir were commenced, and the laying of pipes was completed in the early part of June next; water was also drawn and supplied direct from the spring channel. Meanwhile heavy rains set in and the freshes in the river washed away the work done for the construction of the well. The inflow in the springs having much increased, the construction of the well was deferred until dry weather. The engine-house was forthwith built and the engines were put up in their places. The town was freely supplied with water from the spring channel and the engines continued to work satisfactorily.

The construction of the well and the conversion of the spring channel into filtration gallery were again taken on hand in the month of March 1893. The well work was almost completed before the close of the year and the infiltration works are still under execution. As recommended by the Sanitary Commissioner during his last inspection of the town and Bugga, the water from the spring channel will, after the completion of the works, be sent to the Chemical Examiner, Madras, for examination.

(2) *Repairs*—(*a*) *Communications.*—The provision made in the sanctioned budget for repairing the several roads in the town was Rs. 4,000, of which Rs. 3,777 were spent on the following works against Rs. 906 in the previous year :—

	Rs.
(1) Y. Venkatachellum street	414
(2) Sidhout road	16
(3) Railway station road	1,099
(4) Newnham's bazaar road	186
(5) Trunk road	507
(6) Bahadarkhan Musjed road	355
(7) G. Rama Row street	86
(8) Madras road	190
(9) Guddibazaar road	57

		Rs.
(10)	Repairing Musapet tunnel	
(11)	Dhoby gate road	196
	Cost of materials and labour for patchwork done on other roads in the town	172
		450
	Total	3,777

The total length of the roads and streets within the limits of the municipality is 25½ miles and the total extent of roads maintained during the year was 8 miles, of which 7 miles are metalled and 1 mile is gravelled. The repairs to roads were carried on contract system under the supervision of the chairman and councillors. A gang of coolies was also entertained during the year for patchworks on roads and the expenditure was debited to this head. The work of the coolies was supervised by the maistry and overseer. The total amount spent on road-works during the year was 49 per cent. of the receipts under tolls.

(*b*) *Buildings.*—Under this head expenditure was originally estimated at Rs. 200; but subsequently considering the urgency of certain works, the provision was raised to Rs. 500. But the expenditure actually incurred during the year amounted to Rs. 817 as detailed below—*vide* Statement II-B :—

		Rs.
(1)	Repairing hospital assistant's quarters	100
(2)	Do. slaughter-houses	84
(3)	Do. toll-gate	17
(4)	Do. shed at cart-stand	17
(5)	Do. pandal in front of primary school	19
(6)	Do. market stalls	148
(7)	Do. latrines	185
(8)	Do. travellers' bungalow	91
(9)	Do. high school building	156
	Total	817

(*d*) *Water-supply*—(1) *Repairs to works and machinery.*—Rupees 565 were expended under this head as shown below against the revised estimate of Rs. 900 :—

	Rs.
Cleaning wells	251
Maintaining water-pandal at market	107
Altering hydrants	17
Value of stop cocks and other machinery	190
Total	565

The fresh water wells in the town were cleaned and water-pandals were maintained when scarcity of water was felt owing to Bugga springs having run dry.

Establishment.—At the commencement of the year the establishment maintained for water-works consisted of an overseer on Rs. 30, with an allowance of Rs. 10, and a peon on Rs. 6; but on the arrival of engines and other machinery at Bugga in June 1892, an additional establishment, consisting of one driver on Rs. 30, a fireman on Rs. 25, 2 coolies on Rs. 6 each and a watchman on Rs. 6, was entertained. The cost of the whole establishment for water-works amounted to Rs. 805 against the revised estimate of Rs. 835.

Contingencies.—The cost of firewood, oil and other things required for the use of engines at Bugga and the pumping charges incurred up to arrival of engines amounted to Rs. 1,530 against the revised estimate of Rs. 1,600 as shown below :—

	Rs.	A.	P.
Pumping charges paid to Messrs. Massey and Co., Madras	1,041	11	3
Cost of fuel	284	13	0
Cost of oil, &c.	38	9	10
Cost of tripod scale purchased for weighing fuel	78	9	0
Other contingencies	86	0	7
Total	1,529	11	8

The supply of firewood was let on contract and the contingent articles were purchased in the local market.

(*iii*) *Establishment.*—For road works the sanctioned establishment for the year was only one maistry on Rs. 15 per mensem. During the latter part of the year the services of an overseer were obtained on Rs. 20 per mensem. His pay was along with the wages of the road coolies employed during the year for patchwork on roads, debited to "Repairs—Communications." The expenditure under this head amounted therefore to Rs. 160 against the estimate of Rs. 180.

Tools and Plant.—A small sum of Rs. 8 was spent for the purchase of a few crowbars, &c., for the use of the road coolies.

The roads were, as far as funds permitted, kept in good order (*vide* Sanitary Commissioner's inspection notes published in G.O., No. 596 M., dated 1st May 1893).

15. *Grant II—Education.*—The total expenditure on education during the year amounted to Rs. 8,558 as shown below against an estimate of Rs. 9,160 and the actuals of the previous year Rs. 8,630 :—

	Rs.
Municipal schools—	
Salary system—	
Establishment	7,001
Contingencies	464
Salary-results system—	
Establishment	345
Results grants	38
Contingencies	145
Results grants to pyal schools	429
Pay of the Municipal Inspector including contingencies	86
Building grants	50
Total	8,558

At the commencement of the year, there were under the management of the council one High school and one Primary school for Hindus on salary system and one Primary school on salary-results system for Muhammadans. In addition to these three, one Primary school, on salary-result system, was started during the year for Muhammadans at Agady on the 31st of March 1893. The total strength in these four schools was 252 boys as shown below and their average attendance during the year was 205 —

High school	82
Hindu Primary school	70
Muhammadan do.	65
Do. do. Agady	35
Total	252

Salary system—Establishment.—Under the new educational rules an additional class (4th form) was opened in the High school and an additional teacher on Rs. 40 per mensem was also entertained during the year. The other establishment remained the same as in the previous year. The cost of establishment, including contingencies, of the two schools on salary system amounted to Rs. 7,465 against the revised estimate of Rs. 7,860 and the actuals of the previous year Rs. 7,504.

Salary-result system—Establishment.—For the new school started during the year, one teacher was entertained on Rs. 7 per mensem and the establishment of the

other Muhammadan Primary school remained as it was in the previous year. The cost of establishment of the two schools including contingencies amounted to Rs. 490 against the estimate of Rs. 550, and the actuals of the previous year Rs. 414. The Muhammadan Primary school earned a grant of Rs. 38 and the new school at Agady was not examined for results; the school having been started a few months before the Results examinations were held during the year.

For Matriculation and Lower Secondary examinations, 7 and 12 boys went up from the High school against 14 and 13 respectively in the previous year. Two boys passed the Matriculation and 7 the Lower Secondary examinations against 6 and 8 respectively in the previous year. The Hindu and Muhammadan Primary schools were also examined during the year and the results were as shown below:—

	Number examined.	Number passed.
Fourth standard	3	1
Third do.	5	4
Second do.	6	3
First do.	6	3
Infant do.	5	3

The proportion of expenditure incurred on account of the different departments of these schools is detailed in the accompanying statement No. V-A. Deducting the school fees realized in these four schools, the Provincial grant allowed towards the net cost of the High School department of the High school and the interest received during the year on the Smith's Prize Endowment Fund, the net cost to the Municipality on account of these schools amounted to Rs. 2,874 against Rs. 2,078 in the previous year, including the expenditure under Grant I.

Results Grants schools.—At the commencement of the year there were 20 schools of this class. Four new schools were opened and 12 schools were closed during the year. The number of schools at the close of the year was therefore 12 with a strength of 434 boys and 20 girls. Of these, 313 pupils were examined for results and 229 were found qualified. They earned a grant of Rs. 696, of which Rs. 424 were disbursed before the close of the year. Including the arrear grant of Rs. 5, the total amount disbursed during the year was Rs. 429 against the revised estimate of Rs. 500 and the actuals of the previous year Rs. 491. The decrease under the estimate was due to certifying memoranda of some schools not having been submitted for payment before the close of the year. Thus a sum of Rs. 216 has since been disbursed in the current year. The results grants were paid at the maximum rates.

Inspection—Establishment.—A provision of Rs. 180 was made in the sanctioned budget for an inspecting schoolmaster on Rs. 15 per mensem. The one that was in the service at the commencement of the year gave up the appointment, and a competent substitute was not available till the end of January 1893, when a passed man was appointed for the place. The head master of the Hindu Primary school, who is a Matriculate, was entrusted with the inspection of the Results grant schools in the Municipality during the period in addition to his legitimate duties. Including contingencies, the expenditure on account of inspection of schools during the year amounted to Rs. 87 against Rs. 121 in the previous year.

Miscellaneous.—No provision was made in the budget for building and furniture grants, but subsequently Rs. 50 were allotted under the head and the whole amount was spent during the year.

16. *Grant III—Sanitation and Medical Services.*—As shown below the expenditure under this grant amounted to Rs. 13,025 against the estimate of Rs. 13,740 and the actuals of the previous year Rs. 17,430:—

Municipal hospital.

	Rs.
Establishment	2,067
Medicines and supplies	758
Diet of patients	1,144
Sundries and contingencies	701

	Rs.
Contributions to Provincial funds	299
Vaccination	332
Registration	216
Conservancy and cholera charges	7,508
Total	13,025

Besides this, a sum of Rs. 100 was spent for repairing the hospital assistant's quarters as stated under Grant I.

Hospitals and Dispensaries.—As usual one hospital was maintained during the year and the working of the institution continued to be satisfactory. It has been freely resorted to by the public. The number of out-patients that attended the hospital during the year was 17,328 against 12,468 in the previous year, the average daily attendance being 175 against 121 in the previous year. The enormous increase in the number of patients during the year was due to prevalence of malarial fevers.

Establishment.—The cost of establishment for the year amounted to Rs. 2,067 against an estimate of Rs. 2,496 and the actuals of the previous year Rs. 2,323. The decrease was due to savings effected owing to the services of a 3rd-class hospital assistant on Rs. 35, provided for in the budget, not having been obtained till very late in the year. He was entertained in the month of January 1893, and continued in service for only three months and lately resigned his appointment. The place is again vacant.

Medicines and Supplies.—A sum of Rs. 758 was expended for the purchase of medicines during the year against the estimate of Rs. 1,000. The decrease was due to strict economy observed in indenting for the supply.

Diet of Patients.—Three hundred and ninty-two in-patients were treated during the year at a cost of Rs. 1,144 against 372 patients at a cost of Rs. 758 in the previous year. The provision sanctioned in the budget was only Rs. 1,000. The increase over the allotment and the actuals of the previous year was due to a larger number of patients having been admitted into the hospital.

Sundries and Contingencies.—Under this head a sum of Rs. 701 was incurred during the year against the estimate of Rs. 714 and the actuals of the previous year Rs. 758.

Contribution to Provincial funds on account of medical college, sanitary inspection, medical reserve staff and cutler's establishment amounted in all to Rs. 299 against the estimate of Rs. 260 and the actuals of the previous year Rs. 496.

Vaccination.—During the year under report vaccination in the Municipality was undertaken by the District Board, the council paying them a contribution of Rs. 300 per annum. The number of cases vaccinated during the year was 625 against 709 in the preceding year, and the total number of successful cases was 597 against 693 in the previous year. The number of vaccine operations on children under one year of age was 213, all which proved successful. The results of cases of vaccination performed with different kinds of lymph are shown below:—

—	Number vaccinated.	Successful.	Unsuccessful.	Unknown.	Percentage of success.
Animal lymph	542	515	25	2	95
Preserved lymph	83	82	1	..	98
Lanoline paste	..	..	..	..	..
Total	625	597	26	2	95

The number of vaccine operations performed by medical subordinates was 65 against 79 in the previous year.

Sixteen prosecutions were instituted during the year for failure to have children vaccinated against 87 in the previous year and the result was that all the persons

prosecuted got their children vaccinated within the periods fixed by the Magistrate. The total expenditure incurred during the year for vaccination was Rs. 332 against the estimate of Rs. 300 and the actuals of the previous year Rs. 478. The increase over the estimate was due to pay and contingent charges relating to the previous year having been paid during the year under report. The result of vaccination during the year was not quite satisfactory and advantageous to the council, and the Sanitary Commissioner recommended that the work be undertaken departmentally in the current year. Necessary arrangements have since been made.

Registration of Births and Deaths.—As in the previous year one registrar was employed for registration of births and deaths, the information regarding which was collected by ward peons. The registrar also moved about in the town to collect information and verify the cases reported by the ward peons. The number of prosecutions instituted during the year for failure to register births and deaths and also for unauthorized burials was as shown below :—

	1892-93.	1891-92.
For failure to register births and deaths	26	10
For unauthorized burials	4	3
	30	13

The result of registration is compared below with that of the previous year :—

	1892-93.	1891-92.
Births	561	405
Deaths—		
Cholera	67	44
Small-pox	4	4
Fevers	386	245
Dysentery	18	25
Suicides	2	1
Wounds	..	..
Accidents	1	..
Snake-bite	304	157
Killed by wild beasts	..	..
All other causes	4	4
Total ..	786	480

The pay and contingencies of the registrar amounted to Rs. 216 against the estimate of Rs. 210 and the actuals of the previous year Rs. 191.

Conservancy Establishment.—The establishment consisted of one inspector, 6 maistries or ward peons, 29 scavengers and 28 sweepers and the cost thereof amounted to Rs. 4,094 against the estimate of Rs. 4,164 and the actuals of the previous year Rs. 4,258.

Other Charges.—For removing the street refuse 12 carts and bulls were engaged on contract for Rs. 150 per mensem and for removing the night-soil in the 4 carts belonging to the Municipality, 4 pairs of bulls were engaged on contract for Rs. 50 per mensem. The expenditure incurred during the year on account of these carts was Rs. 2,382 against an estimate of Rs. 2,404 and the actuals of the previous year Rs. 2,572.

Private Scavenging.—The establishment maintained during the year for private scavenging consisted of 1 inspector and 14 toties and the cost thereof, including contingencies amounted to Rs. 823 against the estimate of Rs. 812, and the actuals of the previous year Rs. 875. The increase over the estimate was due to employment of a toty on Rs. 5 per mensem in the latter part of the year to clean the latrines attached to the Collector's office and the Tahsildar's and Sub-Magistrate's offices.

The number of houses conserved by the private scavenging agency was 549 against 501 in the previous year, and the pay and contingencies of the establishment was less than the collection of fees during the year.

Cholera charges.—A sum of Rs. 86 was spent for sanitary measures during the time of cholera in the town against the estimate of Rs. 200 and the actuals of the previous year Rs. 489. As in the previous year, quarantine sheds were put up, tar fumigations maintained in several places in the town, and all other possible preventive measures adopted until the disease entirely disappeared. The number of deaths from cholera during the year was, however, 67 against 44 in the previous year.

17. *Grant IV—Lighting and Miscellaneous Municipal purposes.*—The total expenditure under this grant amounted to Rs. 2,365 against the estimate of Rs. 3,375 and the actuals of the previous year Rs. 5,301. It will be detailed below :—

Lighting.—The establishment maintained for lighting Municipal lamps in the town consisted of 5 masalchies on Rs. 6 each per mensem and the cost thereof, including contingent charges on account of the purchase of kerosine-oil and repairs to lanterns, &c., amounted to Rs. 1,194 against the estimate of Rs. 1,760 and the actuals of the previous year Rs. 1,485. The decrease under the estimate and the actuals of the previous year was due chiefly to a scale having been fixed, regulating the issue of kerosine-oil, the period during which lamps should be lighted in each month and the hours during which light should be kept on each night. The number of lamps was the same as in the previous year. They were regularly inspected by the Sanitary Inspector and occasionally by the Chairman. No improvements of any importance were made during the year.

Market.—The establishment consisted of one peon and a sweeper, whose pay, inclusive of contingencies, amounted to Rs. 117 against the estimate of Rs. 124 and the actuals of the previous year Rs. 127.

Slaughter-houses.—The establishment consisted of three servants on Rs. 6 each and their pay, including contingencies, amounted to Rs. 247 against the estimate of Rs. 241 and the actuals of the previous year Rs. 381.

Travellers' Bungalow.—The establishment maintained for the bungalow consisted of one maty on Rs. 7 and a sweeper on Rs. 3 per mensem. Their pay, including contingencies, amounted to Rs. 130-8-0 against the estimate of Rs. 170 and the actuals of the previous year Rs. 187.

Avenues.—A servant was employed on Rs. 6 per mensem for planting and watering avenues. His pay amounted to Rs. 50 against the revised estimate of Rs. 60. The avenues are in good order. They are mostly tamarind and margosa trees.

Other Charges.—A sum of Rs. 544 was distributed as follows for miscellaneous purposes :—

	Rs.
Laying pipes to the houses of private parties	151
Killing stray dogs	19
Printing charges	342
Pay of tom-tom beater	24
Kist on Municipal lands	18
Total ..	544

18. *Grant V—Supervision and Management.*—The cost of office and collection establishments, including contingencies, amounted to Rs. 2,541 against the revised estimate of Rs. 2,620 and the actuals of the previous year Rs. 2,707. A further sum of Rs. 352 was paid as contribution to Government for Central office and Audit establishments. The total expenditure under this grant was, therefore, Rs. 2,893 as shown below :—

	Rs.
Office establishment	1,304
Collection do.	706
Contingencies	531
Contribution to Government	352
Total ..	2,893

The office and collection establishments were the same as in the previous year, but owing to late issue of bills for tax on buildings, an additional establishment consisting of two bill-collectors on Rs. 12 each and a clerk on Rs. 15 was temporarily entertained for the last three months of the year. The expenditure was, however, below the original and revised estimates for the year.

19. *Repayment of Debt.*—The annual instalment of Rs. 200 for the repayment of the loan taken out of the funded capital of the Municipal hospital was paid during the year and the Accountant-General was requested to purchase Government securities for this amount and the sum of Rs. 2,000 invested during the year on account of Waterworks Sinking fund. Promissory notes have not been purchased * as yet for the whole amount invested. Out of Rs. 1,000 remitted during the first half of the year, one promissory note was purchased for Rs. 948 including premium and the balance Rs. 52 were returned. This promissory note as well as those already purchased are in the safe custody of the Accountant-General's. The usual interest of Rs. 2,940 payable to debenture holders was also paid during the year.

* Since purchased and sent.

20. *Advances recoverable.*—The unadjusted advance for the year amounted to Rs. 536 as detailed below :—

	Rs.	A	P.
Amount advanced to the Sanitary Engineer to Government for his imprest to meet urgent charges in connection with the extension works at Bugga	500	0	0
Amount advanced towards the cost of a neocyclostyle apparatus purchased for the use of the High school on promise of the Inspector of Schools, Central Circle, to obtain sanction for the grant of half the cost of the same from Provincial funds ..	23	5	6
The unadjusted balance of advance on account of process fees..	9	2	0
Advances for process fees for prosecuting parents for failure to get their children vaccinated	4	9	0
Total ..	536	7	6

Refunds.—A sum of Rs. 32-7-1 was refunded during the year as explained below :—

	Rs.	A.	P.
Refund of house-tax collected in previous years	28	7	6
Refund of interest due to slaughter-house renter for 1891-92. The interest due on his deposit invested in the Postal Savings Bank was, at the close of the year, drawn and credited to Municipal funds along with the deposit	3	15	7
Total ..	32	7	1

IV.—Closing Balance.

21. Including the opening balance of Rs. 3,038, the total receipts for the year amounting to Rs. 65,479 and the total expenditure under all grants including repayment of debt, &c., to Rs. 53,322, the year closed with a balance of Rs. 12,157 at credit of the Council. A large portion of this balance, *namely* Rs. 7,507, relates to the allotment sanctioned for the extension works at Bugga. Almost the whole amount has already been spent during the current year.

Enclosure.

Administration Report of the Municipal Hospital, Cuddapah, for the year 1892-93.

Submitted by M.R.Ry. C. P. Ganapati Avargal, Assistant Surgeon in charge.

The public health in the town of Cuddapah has been bad during the year under report owing to the unusually severe prevalence of malarial fever from December 1892 up to the date of report. Cholera broke out in a mild form during the month of July and ceased in November 1892. There were altogether 65 cases treated, of which 28 proved fatal.

On the appearance of the epidemic every possible preventive measures were adopted to check the further spread of the disease. Many patients were treated at their own residences, and some were treated in the hospital compound in a shed erected for the purpose.

Malarial fevers prevailed to a great extent from September 1892 and is still continuing. There were altogether 9,290 admissions, of which 50 in and 9,240 out patients, showing an increase of 5,700 over the preceding year. Deaths from this disease mostly in neglected cases were very common.

Few cases of small-pox and chicken-pox and measles occurred in the town, but no deaths were reported.

2. All classes of people attend the hospital, many coming from distant villages and the neighbouring taluks.

3. The institution is supported from the Municipal funds with a contribution of Rs. 2,500 by the District Board.

4. The institution is occasionally visited by the Municipal Councillors and Civil authorities. The subjects connected with the hospital are disposed of by the Municipal Council at their meetings in the Municipal office.

5. The hospital is under the charge of the District Surgeon and during his absence on tour of inspection the Assistant Surgeon is in charge.

6. During the year 17,328 out and 392 in patients were treated, showing an increase of 4,860 out and 20 in patients over the preceding year. This large increase is due to the unusually severe prevalence of malarial fevers.

7. The most prevailing diseases during the year were malarial fevers, cholera, rheumatic, syphilitic and chest affection, ulcers and skin diseases.

8. Twenty-eight major and 420 minor operations were performed during the year, showing an equal number of the former and an increase of 82 of the latter over the preceding year.

* * * * *

9. The dispensary medical subordinate vaccinated 65 cases, of which 52 were successful, 9 unsuccessful and 4 unknown.

10. *General Conservancy.*—The establishment consists of—

1 Inspector	on	Rs. 25	per mensem.
6 peons	on	„ 6	each per mensem.
29 male toties	on	„ 6	„
29 female toties	on	„ 4	„

Four wooden box carts for removing night-soil, 1 closed iron hand-cart for removing urine, 12 country carts for removing street sweepings.

Latrines.—There are 42 latrines, of which 28 are pucka-built, 7 mud-walled and 7 stone slab-walled.

Dust-bins.—There are 173 dust-bins, of which 7 are iron moveable and 166 are built of stone slabs.

Private Scavengering Establishment—

1 Inspector	on	Rs. 15	per mensem.
13 scavengers	at	„ 4	each per mensem.
1 scavenger	at	„ 5	per mensem.

There are 549 private latrines that are cleaned by Municipal agency. Number of houses in the town 5,278, population as per census of 1891, total 17,379. From the above it is clearly shown that many houses require private scavengering. This could only be done by the Municipal staff exerting itself to induce the people to apply for the same.

Manure Depot.—Night-soil and rubbish collected from the town are deposited outside the town in deep pits and disposed of by public auction once a year.

Drainage.—There are no proper stone-built drains in the town. This is badly needed; the earlier it is constructed the better for the health of the people. At present shallow side drains are maintained on either side of the roads to allow the surface water during rains to flow either into Patha Cuddapah tank or its supply channel.

Roads.—In good repairs; many of the high roads were recently re-metalled and are in good condition. Few of the bye-lanes require to be attended to.

House-drainage.—Almost all the houses have cess pits constructed with stone slabs and shingles. These pits are emptied and cleaned when full.

Water-supply.—Drinking water is ample and good and is brought into the town from Bugga springs through iron pipes. Many of the houses are supplied with taps at their own cost. There was no failure of water-supply this year.

General Remarks.—The general health of the people in the town was bad throughout the year especially during the last five months. The total amount of rainfall registered at the Observatory was 46·55 inches, that of the preceding year being 17·27 inches.

Forty-six cases of labour were attended to by the Eurasian Midwife.

Forwarded to the Chief Secretary.

2. The remark about the land-tax collection evidently means that the work on the Revenue side did not permit the Reddis making the Municipal collections. From inquiries I made I was told that this was hardly the case, but the system of dual control over the Reddies and double work is a bad one in my opinion. It is cheap though. I have been much struck with the excellent way in which the main communications in Cuddapah have been kept up.

Cuddapah,
5th July 1893.

(Signed) C. A. MOUNSEY,
Acting Collector.

Order—dated 31st August 1893, No. 1154 M., Local and Municipal.

The receipts and charges of the Cuddapah Municipality for 1892–93 are compared below with the budget and revised estimates for the year and the actuals of 1891–92:—

	Actuals, 1891–92.	Budget estimate, 1892–93.	Revised estimate, 1892–93.	Actuals, 1892–93.

2. Thirty-nine meetings were held by the municipal council against 32 in 1891–92, but the number adjourned for want of a quorum also rose from 6 to 8. The attendance of the official members was no better than before, while that of the non-officials fell from an average of 6 to 4. It is to be regretted that so discreditable a want of interest in municipal affairs should be manifested. Seven seats were filled by election during the year and all of them were contested, 65·3 per cent. of the voters concerned attending the poll.

3. *Receipts.*—(1) Owing to the larger number of persons assessed, chiefly under the sixth class of the schedule, the net current demand of the tax on arts exceeded that of the previous year by Rs. 477, while the average incidence per head fell from Rupees 5–9–9 to Rs. 5–7–6. The house and land tax assessments were revised, and the net demand rose in consequence from Rs. 9,337 and Rs. 171 to Rs. 10,130 and Rs. 199. The current collections under the taxes on arts and buildings continued to be on the whole good, but those of the tax on lands were extremely bad. The arrear collections, though decidedly better than in the previous year, were, except in the case of the tax on buildings, still indifferent. No time should be lost in adjusting the outstandings under these heads. The number of warrants issued during the year was smaller than in that preceding it, but the number remaining unexecuted at its close was much larger. Care should be taken that recourse to coercion is not delayed until the last quarter of the year.

(2) There was a decline in the revenue derived from the taxes on vehicles, animals and carts, from tolls and from market-rents. The grant of remission to the lessee of the above-mentioned taxes appears to have been unnecessary. The receipts from the sale of sweepings also showed a slight falling off.

(3) There was a slight increase in the realisations from license fees, but this source of revenue is capable of much more development. The advance under the head of police fines is satisfactory as indicating greater energy in enforcing the provisions of the law.

(4) The number of houses served by the private scavenging agency rose from 501 to 549, and the net cost of this service to the municipal council was only Rs. 48 against Rs. 149 in 1891–92. With further endeavours the agency might be made self-supporting.

4. *Expenditure—Public Works.*—The only new work of importance undertaken during the year was the extension of the Bugga water-works. On these, owing to an unusually heavy monsoon and consequent freshes in the river, only a sum of Rs. 12,453 could be spent out of an allotment of Rs. 19,960. The total outlay on communications amounted to Rs. 3,964 or 49·7 per cent. of the net income from tolls, and the roads are reported to have been in very good order.

5. *Education.*—The net expenditure on education was Rs. 3,121 or 12·1 per cent. of the income from taxation. The outlay on secondary to that on primary education was roughly in the ratio of 7 to 8. At the commencement of the year the municipal council maintained a high school and a primary school for Hindus on the salary system, besides a primary school for Musulmans on the salary-result system, and to these another primary school on the same system for Musulmans was added. The attendance in the two institutions first named showed a marked decline; in the Musulman school it improved, and in the newly-opened school it was fair. There was a large increase in the average cost of educating pupils in the high school. Every effort should be made to reduce this. The results at the matriculation examination were far from good. Judging from the results of the grant examinations, the work done in the primary schools was also indifferent, only 25 boys having presented themselves for examination out of a total strength of 170—a very discreditable state of things. The municipal council also aided 12 primary schools with result grants against 16 in 1891–92. These schools appear to have worked well, but owing to delay in the submission of certifying memoranda for some of them, part of the allotment for result grants lapsed. The Director of Public Instruction will give the necessary orders for preventing the recurrence of such delays. The proportion of untrained and unpassed teachers employed in the municipal and aided schools was large, and should be reduced. The number of boys under instruction in the schools maintained and aided from municipal funds was only 661, or 50·7 per cent. of the male population of school-going age against 53·4 in 1891–92.

6. *Medical Relief.*—The rise in the number of patients treated in the municipal hospital is ascribed to the prevalence of malarial fevers. The East Indian midwife attached to the hospital attended 46 cases of labour against 51 in 1891–92, the nurse one such case. The council should consider the advisability of paying the midwife in part by results. Her work thus far cannot be considered satisfactory.

7. *Vaccination and Vital Statistics.*—During the year under review, vaccination in the town was undertaken by the district board, the municipal council contributing Rs. 300 per annum on this account. The total number of operations performed was only 690 against 788 in the previous year, but the average cost of each successful operation fell from As. 11–3 to As. 8–11. Considering that the total number of successful operations did not exceed 37·3 per mille of the population and of those on children under one year 12·3 per mille, although vaccination has been compulsory in the town since the 15th July 1886, the results must be considered unsatisfactory in the last degree. Now that the municipal council has taken this matter in its own hands, it is hoped that the current year will show better results. The Collector should, in respect to this matter, proceed, if necessary, under section 34 (iv) of the Act.

The registration of deaths appears to have been fairly complete, but that of births is capable of further improvement and demands increased attention from the council.

8. *Sanitation.*—More than 95 per cent of the allotment under this head was utilized and the expenditure amounted to Rs. 7,508 or 17·4 per cent. of the receipts. The Chairman's report furnishes little or no information regarding the sanitary condition of the town. According to the inspection notes of the Sanitary Commissioner printed in G.O., dated 1st May 1893, No. 596 M., this was not so satisfactory as could be desired. Every effort should be made in the current year to remedy the defects pointed out by Dr. Laing.

9. *General Remarks.*—The year closed with a balance of Rs. 12,517 or 29·1 per cent. of the current receipts. Of this sum Rs. 7,507 appertained to the Bugga water-works. The details of the surgical operations given in paragraph 8 of the District Surgeon's report were unnecessary and have been omitted in the Government Proceedings.

Except as regards education, vaccination and sanitation, the administration of the municipality during the year under review compared favorably with that of its predecessor.

(True Extract.)

J. F. PRICE,
Chief Secretary.

To the Chairman, Municipal Council, Cuddapah.
" Collector of Cuddapah.
" President, District Board, Cuddapah.

AUGUST.

Municipal Report.

Reviewing the Cuddapah — for 1892-93.

NOTE FOR THE UNDER SECRETARY.

It appears that a mistake in (2) para 3 of the Revd. Commr's letter of 7th Augt. has crept in. Instead of 28th Augt. it should be 28th Sept. for revision. [illegible] P.S.O. [illegible]

I think that it would be necessary that the Revd. Commr. should be addressed to [illegible] Chairman [illegible]

[illegible] it cannot then be missed?

AUGUST.

Municipal Report.

Reviewing the Cuddapah — for 1892-93.

Though the report takes up a good deal of space, and contains many interesting details, there is little to be found in the statements, accompanying the report

HP
21/8/93

For the C.S.

I have made a copy of the latter part of your note & will take action on it.

As to the first part you perhaps did not intend the passage by the Street which was intended at the end of Taxes. The passage is I recollect right, as it

the original draft, & I thought for a minute of altering it but did not do so, as the wording seemed to be strictly accurate.

Calls are always distinguished from taxes. Although of course in one sense they are a tax, & there is no question of taxation when a market fee is fixed out. The passage

would be distinctly clearer however if altered as now shown & I think it cannot then be misread.

2. Only 20 meetings were held by the municipal council against 39 in 1892–93, but the number adjourned for want of a quorum fell from 8 to 5. The averag attendance of the members, both official and non-official, improved, and was good in the case of the former.

3. *Receipts.*—(1) There was a decline of Rs. 144 in the net current demand of the tax on arts, while those under the house, water and land taxes remained almost stationary. The current collections of the arts, house and water taxes were fair. The heavy fall in the land-tax collections is explained in paragraph 5 of the Chairman's report. The Council's attention will be drawn to the Collector's remarks on this subject in paragraph 2 of his endorsement. The arrear realizations under the house and water taxes were good, but those under the arts and land taxes declined and were very indifferent. In G.O., dated 31st August 1893, No. 1154 M., it was remarked that arrear collections of arts tax were indifferent, but in the year under review they have been permitted to still further decline. The Government notes that steps are being taken to clear off all arrears and trusts that the outstandings—some of which are three years old—will be adjusted before the close of the current year. Seeing that collections were backward, the number of coercive processes issued last year was very small.

(2) There was a further increase in the receipts from the sale of sweepings and license fees, but the increase from fines showed a considerable decline.

(3) The number of houses served by the private scavenging agency rose from 549 to 613; but the amount collected was almost the same as in the previous year. Owing, however, to the fact that a moiety of the salary of the inspector was debited to the head of slaughter-houses during the year under review, the loss to the council on this account was only Rs. 15 against Rs. 48 in 1892–93. The existence of arrears of fees for this service, which is evidently due to neglect to insist upon the principle of pre-payment so repeatedly ordered by Government, is unsatisfactory. The council should see that these instructions are not again disregarded. As the proportion of houses served by this agency is still very small, being only 22·7 per cent. of the total number assessed to the tax on buildings, the further extension of the service is clearly possible. Endeavours should be made to secure this result in the current year, and the owners of all premises kept in an insanitary condition should be systematically prosecuted.

4. *Expenditure*—(1) *Public Works.*—The extension of the Bugga water-works and the construction of the drivers' and coolies' quarters, on which a sum of Rs. 6,788 was spent, were the only new works of importance undertaken during the year. The total outlay on communications amounted to Rs. 4,851 or 60·9 per cent. of the net municipal income from tolls, and the town roads are stated by the Collector to have been in good order.

(2) *Education.*—The net expenditure on education was Rs. 3,538 or 12·7 per cent. of the income from taxation. About one-third of this sum was devoted to secondary, and the remainder to primary, education. During the year under review the Hindu primary school maintained by the municipality was transferred to the salary-results system. The attendance at the high school improved and the results of the public examinations were fair, but the cost per pupil remained too high. Taken as a whole, there was a marked increase in the strength of the municipal primary schools, but judging from the results of the departmental examinations, the work done in them, though considerably better than in the previous year, was not altogether satisfactory. Fifteen primary schools, of which two were closed before the 31st March 1894, received aid in the shape of result grants against 12 in 1892–93. The number on the rolls of these institutions rose from 429 to 539, the results of the grant examinations were good, and, owing partly to the payment of arrears due for the previous year, the allotment for grants was exceeded by 53 per cent. The total number of boys under instruction in the municipal and aided schools rose from 50·7 to 67·2 per cent. of the male population of school-going age — a satisfactory advance. The attention of the Director of Public Instruction will be drawn to the fact, noted in paragraph 8 of the report, that delay in the submission of certifying memoranda has occurred again this year.

(3) *Medical Relief.*—There was ~~treated at the municipal hospital, but t~~ ~~for which no explanation has been o~~ Surgeon. The Eurasian midwife attach of labour against 46 in 1892–93. ~~Th~~ interest themselves in the matter and results of the current year. The action portion of paragraph 6 of G.O., dated reported.

(4) *Vaccination and Vital Statisti* supervision of the municipal council duri remarks in paragraph 7 of the above orde was 224 less than in 1892–93 and 321 children under one year successfully operat —a state of affairs which is most discredita compulsory for about 7 years. The quali Chairman's explanation of this does not app ~~be more frequently instituted against those wa and an improvement secured in the results in~~

The registration of deaths was almost c ~~considerable decline, due, it is stated, to the pr~~ ~~leave the town for confinement.~~

(5) *Sanitation.*—Nearly 93 per cent. of e allotment under this head was utilized and the expenditure amounted to 15·4 er cent. of the receipts. Notwithstanding the remarks of Government in paragrap 8 of G.O., dated 31st August 1893, No. 1154 M., the Chairman's report contains no information whatever regarding the sanitary condition of the town. From paragrap X of the District Surgeon's report, however, it appears that the conservancy arragements are not in some respects satisfactory. The Sanitary Engineer will be requested to draw up a drainage scheme for the town when his hands are less full than they are at present. The municipal council should, however, at once arrange for the regular and proper cleansing of the cesspools in the town. Information should have also been afforded in the Chairman's report as to the measures actually taken to carr out the recommendations made by the Deputy Sanitary Commissioner in his inspection notes recorded in G.O., dated 15th February 1894, No. 161 M.

5. *General Remarks.*—The year closed with a balance of Rs. 7,730, or 16·2 per cent. of the receipts. It is unnecessary, as was remarked in last year's review, to give in the District Surgeon's report, the details of the surgical operations performed and they have been again omitted in the proceedngs.

The administration of the municipality durig the year under review, ~~was, on the whole, fair, but~~ the collection of taxes, vaccination and sanitation demand increased attention. ~~The delay which~~ occurred in the submission of this report is unsatisfactory and should be guarded against in future,

(True Extract.)

To the Chairman, Municipal Council, Cuddapah.

1893-94

I submit this Report to the Council for its consideration. There has been much management connected with it, much to commend respect. Since the Dist. Nurse Office seems to have looked after matters appertaining to them as all complete the attendance on the hospital has fallen off, though the season was dull, the midwifery work has been very hard and vaccination difficult. The present Chemist took Office only on April last so he is not responsible.

10
20/4/94

2. Thirty-nine meetings were held by the municipal council against 32 in 1891–92, but the number of meetings adjourned for want of a quorum also rose from 6 to 8. The attendance of the official members was no better than before, while that of the non-officials fell from an average of 6 to 4. It is to be regretted that so discreditable a want of interest in municipal affairs should be manifested. Seven seats were filled by election during the year and all of them were contested, 65·3 per cent. of the voters concerned attending the poll.

3. *Receipts.*—(1) Owing to the larger number of persons assessed, chiefly under the sixth class of the schedule, the net current demand of the tax on arts exceeded that of the previous year by Rs. 477, while the average incidence per head fell from Rupees 5–9–9 to Rs. 5–7–6. The house and land tax assessments were revised, and the net demand rose in consequence from Rs. 9,337 and Rs. 171 to Rs. 10,130 and Rs. 199. The current collections under the taxes on arts and buildings continued to be on the whole good, but those of the tax on lands were extremely bad. The arrear collections, though decidedly better than in the previous year, were, except in the case of the tax on buildings, still indifferent. No time should be lost in adjusting the outstandings under these heads. The number of warrants issued during the year was smaller than in that preceding it, but the number remaining unexecuted at its close was much larger. Care should be taken in the current year that recourse to coercion is not delayed until the last quarter of the year.

(2) There was a decline in the revenue derived from the taxes on vehicles, animals and carts, tolls and market-rents. The grant of remission to the lessee of the above-mentioned taxes appears to have been unnecessary. The receipts from the sale of sweepings also showed a slight falling off.

(3) There was a slight increase in the realizations from license fees, but this source of revenue is capable of much more development. The advance under the head of police fines is satisfactory as indicating greater energy in enforcing the provisions of the law.

(4) The number of houses served by the private scavenging agency rose from 501 to 549, and the net cost of this service to the municipal council was only Rupees 48 against Rs. 149 in 1891–92. With further endeavours the agency might be made self-supporting.

4. *Expenditure—Public Works.*—The only new work of importance undertaken during the year was the extension of the Bugg water-works. On these, owing to an unusually heavy monsoon and consequent freshes in the river, out of an allotment of Rs. 19,960, only a sum of Rs. 12,453 could be spent. The total outlay on communications amounted to Rs. 5,964 or 49·7 per cent. of the net income from tolls, and the roads are reported to have been in very good order.

5. *Education.*—The net expenditure on education was Rs. 3,121 or 12·1 per cent. of the income from taxation. The outlay on secondary to that on primary education was roughly in the ratio of 7 to 8. At the commencement of the year the municipal council maintained a high school and a primary school for Hindus on the salary system, besides a primary school for Musulmans on the salary-result system, and to these another primary school on the same system for Musulmans was added. The attendance in the two institutions first named showed a marked decline; in the Musulman school it improved, and in the newly-opened school it was fair. There was a large increase in the average cost of educating pupils in the high school. Every effort should be made to reduce this. The results at the matriculation examination were far from good. Judging from the results of the grant examinations, the work done in the primary schools was also indifferent, only 25 boys having presented themselves for examination out of a total strength of 170—a very discreditable state of things. The municipal council also aided 12 primary schools with result grants against 16 in 1891–92. These schools appear to have worked well, but owing to delay in the submission of certifying memoranda for some of them, part of the allotment for result grants lapsed. The Director of Public Instruction will give the necessary orders for preventing the recurrence of such delays. The proportion of untrained and unpassed teachers employed in the municipal and aided schools was large, and should be reduced. The number of boys under instruction in the schools maintained and aided from municipal funds was only 661, or 50·7 per cent. of the male population of school-going age against 55·4 in 1891–92.

6. *Medical Relief.*—The rise in the number of patients treated in the municipal hospital is ascribed to the prevalence of malarial fevers. The ~~Eurasian~~ midwife attached to the hospital attended 46 cases of labour against 51 in 1891–92, the nurse one such case. The council should consider the advisability of paying the midwife in part by results.

7. *Vaccination and Vital Statistics.*—During the year under review, vaccination in the town was undertaken by the district board, the municipal council contributing Rs. 300 per annum on this account. The total number of operations performed was only 690 against 788 in the previous year, but the average cost of each successful operation fell from As. 11–3 to As. 8–11. Considering that the total number of successful operations did not exceed 37·3 per mille of the population and of those on children under one year 12·3 per mille, although vaccination has been compulsory in the town since the 15th July 1886, the results must be considered unsatisfactory in the last degree. Now that the municipal council has taken this matter in its own hands, it is hoped that the current year will show better results. The Collector should, in respect to this matter, proceed, if necessary, under section 34 (iv) of the Act. The registration of deaths appears to have been fairly complete, but that of births is capable of further improvement and demands increased attention from the council.

8. *Sanitation.*—More than 95 per cent. of the allotment under this head was utilized and the expenditure amounted to Rs. 7,508 or 17·4 per cent. of the receipts. The Chairman's report furnishes little or no information regarding the sanitary condition of the town. According to the inspection notes of the Sanitary Commissioner printed in G.O., dated 1st May 1893, No. 596 M., the ~~town was not in as satisfactory a condition~~ as could be desired. Every effort should be made in the current year to remedy the defects pointed out by Dr. [illegible]g.

9. *General Remarks.*—The year closed with a balance of Rs. 12,517 or 29·1 per cent. of the current receipts. Of this sum ~~all but Rs. 5,010~~ appertained to the Bugga water-works. The details of the surgical operations given in paragraph 8 of the District Surgeon's report were unnecessary and have been omitted in the Government Proceedings.

Except as regards education, vaccination and sanitation, the administration of the municipality during the year under review compared favorably with that of its predecessor.
