GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. C. CHELLAYA PILLAY Avargal, Chairman, Municipal Council, Cuddapah, to the Chief Secretary to Government (through the Collector of Cuddapah), dated 11th July 1894, No. 497.

I have the honour to submit herewith the administration report of the Cuddapah municipality for the official year 1893–94, with the prescribed statements and the report of the District Medical and Sanitary officer, Cuddapah, on the working of the municipal hospital.

I.—CONSTITUTION OF THE COUNCIL.

2. The council consists of 12 elected and 4 nominated councillors, and at the commencement of the year under report it had the full complement of its members on the roll. Six vacancies occurred during the year, two among the elected and four among the nominated councillors. The two elective seats were filled up, one uncontested on the 20th of January and the other keenly contested on the 23rd of February 1894. In the latter election, 157 out of 294 voters went to the poll, but the Government set aside the nomination of the candidate who obtained the largest number of votes upon a technical ground. The nomination of the candidate who scored the next highest number of votes was not gazetted until May 1894. C. J. K. Watson, Esq., Executive Engineer and nominated councillor, left the district on transfer, and his seat was filled up by the nomination of his successor A. B. Todd, Esq., who had again to vacate the seat by retirement from public service and departure from the place. M.R.Ry. C. P. Ganapati Avargal, Assistant Surgeon, another nominated councillor, vacated his seat by transfer to another district. The seat was filled up by the nomination of his successor M.R.Ry. C. Muniswamy Mudaliyar Avargal, but was again vacated by his transfer to Madura. These two seats still remain vacant. Thus at the close of the year there were in all 13 councillors on the roll, 11 elected and 2 nominated. The total number of registered voters in the municipality on the 31st of March 1894 was 860.

3. From the commencement of the year until about the middle of January 1894, the office of chairman was held by M.R.Ry. C. P. Ganapati Avargal, Assistant Surgeon and nominated councillor, who had then to leave the district on transfer. The Revenue Divisional officer of the division, M.R.Ry. R. Govinda Row Naidu Garu, acted as ex-officio chairman up to the 19th of March 1894, when M.R.Ry. C. Chellaya Pillay Avargal, B.A., B.L., was duly elected as chairman. His election was confirmed and his appointment gazetted on the 10th of April 1894.

4. Excluding the 5 meetings which were adjourned for want of quorum the number of meetings actually held during the year was 20 against 39 in the previous year, the average attendance of the councillors being 2 officials and 7 non-officials against 2 and 4, respectively, in the previous year. There has been a marked improvement in the interest taken by the non-official councillors.

II.—RECEIPTS.

5. The following is an abstract of the total receipts of the municipality for the year under report as compared with the budget and the revised estimates for the year and the actuals of the previous year :—

—	Actuals, 1893–94.	Budget estimate, 1893–94.	Revised estimate, 1893–94.	Actuals, 1892–93.
	Rs.	Rs.	Rs.	Rs.
Opening balance	12,147	5,100	12,150	3,034
(a) Municipal rates and taxes—				
Tax on Arts	3,544	4,000	3,810	3,904
„ on buildings and lands including water-tax	14,543	14,200	16,030	12,074
„ on vehicles, carts and animals	1,862	2,430	2,450	1,800
Tolls	8,020	8,000	8,020	8,000
Total income from taxation ..	27,909	28,630	30,310	25,778
(b) Realizations under Special Acts	35	..	..	20
(c) Revenue derived from municipal property and powers apart from taxation	9,625	10,400	10,280	10,013
(d) Grants and contributions	5,803	6,240	5,980	15,040
(e) Miscellaneous including extraordinary and debt heads ..	4,338	1,400	2,000	11,681
Total receipts ..	47,710	46,670	48,570	62,532
Grand total including opening balance ..	59,857	51,770	60,720	65,566

The year opened with a large balance of Rs. 12,147, whereof Rs. 7,507 appertained to water-works at Bugga, and irrespective of the opening balance the total receipts for the year amounted to Rs. 47,710 against the revised estimate of Rs. 48,570 and the actuals of the previous year Rs. 43,147 excluding the amount (Rs. 19,385) of contribution and loan granted by Government for the extension works at Bugga. The increase of Rs. 4,563 over the actuals of the previous year occurred chiefly under income from taxation (Rs. 2,131), grants and contributions from Government for schools (Rs. 453), recoveries on account of services rendered to private individuals and other miscellaneous items (Rs. 2,034) as explained below :—

A.—*Receipts from Taxation.*

Tax on Arts.—The total collections under this tax amounted to Rs. 3,540–8–0 against the revised estimate of Rs. 3,800 and the actuals of the previous year Rs. 3,901–8–0.

The arrears outstanding at the commencement of the year amounted to Rupees 171–8–0, of which Rs. 76 were realized during the year, leaving a balance of Rupees 95–8–0 still outstanding. This amount, as far as inquiries are made, is ascertained to be irrecoverable, and will, after further scrutiny, be written off accounts in due course.

The original current demand for the year was Rs. 4,026, of which Rs. 57–8–0 was remitted by the council on appeal. Out of the final demand of Rs. 3,968–8–0, Rs. 3,464–8–0 was collected and Rs. 39–8–0 written off as irrecoverable leaving a balance of Rs. 464–8–0 for collection in the current year. Rs. 203–8–0 of this balance has since been realized and Rs. 108 written off accounts. A further sum of Rs. 3–4–0 was collected during the year as penalties in 18 out of 21 prosecutions instituted on account of non-payment of this tax.

This tax was as usual revised during the year and levied on the first seven classes of the schedule A of the Act. No persons were taxed under class I. Under the other six classes 737 persons were taxed against 752 in the previous year as shown below. Further details are given in statement IX :—

Class.	YEAR. 1893–94.	1892–93.
	Rs.	Rs.
II	4	2
III	25	27
IV	77	84
V	193	206
VI	398	383
VII	40	50
Total ..	737	752

Forty-four appeals were preferred against the imposition of the tax and all but four were disposed of before the close of the year. The tax was reduced in 16 cases, exempted in 9 and confirmed in 15.

Tax on Buildings.—As in the previous year this tax was levied at the maximum rate of 7½ per cent. of the annual rent value of buildings. The annual rental is estimated on the actual rent for which the buildings are let, as far as it can be ascertained, and if the houses are in the occupation of the owners themselves it is calculated on the actual or estimated cost at 12 per cent. in the case of houses built after European style and at 8 per cent. on houses built after native style due consideration being given to the importance of the locality in which the houses are situated. This tax was for the last time revised in the previous year 1892–93. One hundred and fifty-nine appeals were preferred against this assessment and all of them, excepting 7, were disposed of before the close of the year. In 52 cases the assessment was reduced, in 20 cases it was exempted and in the remaining 80 it was confirmed. The total current demand of the tax was Rs. 10,229–6–10 and the remissions granted by the council during the year amounted to Rs. 52–13–6. The demand, as finally settled, amounted, therefore, to Rs. 10,176–9–4 against Rs. 10,130–4–4 in the previous year, the increase being due to enhanced assessment on buildings improved during the year. Out of the final demand, Rs. 8,656–1–0 were collected and Rs. 1–3–0 was remitted on account of vacant houses, leaving at the close of the year a balance of Rs. 1,519–5–4, whereof Rs. 1,102–14–10 has since been realized and Rs. 80–2–6 written off accounts as irrecoverable. Though the balance at the close of the year is large the collections during the year showed an increase of Rs. 263 over that in the previous year.

The arrear demand for the year was Rs. 1,736–2–3, of which Rs. 1,623–1–9 were collected, Rs. 18–5–0 remitted and As. 15 written off accounts during the year. The arrear balance outstanding at the close of the year amounted to Rupees 93–12–6, a great portion of which is ascertained to be irrecoverable and will be written off after further inquiries. The total collection of this tax, both arrears and current, amounted to Rs. 10,279–2–9 against Rs. 8,493 in the previous year. A further sum of Rs. 2–9–0 was received as penalties on account of non-payment of this tax, for which 44 prosecutions were instituted during the year, whereof 19 were convicted, 3 acquitted and 22 were pending disposal by the Bench Court on the 31st of March 1894.

Tax on Lands.—The total extent of land assessed within the municipal limits was 802 acres and 30 cents. The rate of assessment per acre was as usual Annas 4. The current demand of the tax was the same as in the previous year, viz., Rupees 198–11–0, whereof only Rs. 10–8–0 were collected, leaving a balance of Rs. 188–3–0 at the close of the year. Out of the arrear demand of Rs. 194–1–0, Rs. 92–14–4 were collected, leaving a balance of Rs. 101–2–8. The total balance outstanding at the close of the year, both arrears and current, amounted to Rs. 289–5–8 against the total demand of Rs. 392–12–0 for the year. As usual the collection of this tax is made by the revenue reddies of the villages concerned. The collection of this tax has been in an extremely unsatisfactory state from the year 1890–91, in which year it was transferred to the Revenue reddies of the villages, the municipality paying them a reasonable compensation for the same. The following table will show how from the year 1890–91 the arrears have been allowed to accumulate year after year, and the collection has never been satisfactory since the date of the said transfer :—

Years.	Demand.		Collection.		Balance.	
	Arrears.	Current.	Arrears.	Current.	Arrears.	Current.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1890–91	181	166	164	113	17	53
1891–92	70	171	30	86	40	85
1892–93	125	199	94	32	28	166
1893–94	194	199	91	11	103	188

In the year 1890–91 the Government at the suggestion of the then Collector ordered that the collection of the land-tax may be done through Revenue reddies of the villages. The council paid a commission of 6 per cent. on the amount collected. The Revenue reddies often found it inconvenient to collect the municipal assessment when pressed hard by their superiors for the collection of Government revenue. Most of the bills were left uncollected, and the matter had more than once to be brought to the notice of the Divisional officer and the Collector. This is an extremely inconvenient arrangement, as the municipal council has lost all control over the collection. The collection of the municipal-tax had to be postponed until the close of the year, when it is also collected with other Government revenue during the kistbandi. This is contrary to the provisions of the Municipal Act according to which the tax has to be levied for each half-year. The council has proposed that an additional bill-collector be entertained, whose services will be utilized for this collection as well as to help the other bill-collectors in the collection of other taxes, as the number of bill-collectors now on the staff are found to be insufficient for collection.

Water-tax on Buildings and Lands.—This tax was as usual levied at 3 per cent. of the annual rent value. The current demand of this tax as finally settled by the council amounted to Rs. 4,157–5–10, whereof Rs. 3,472–6–11 were collected and As. 7–6 remitted leaving a balance of Rs. 684–7–5 for collection during the current year. Out of the arrear demand of Rs. 768–9–10, Rs. 684–4–4 was collected, Rs. 7–5–3 remitted and As. 6 written off accounts during the year leaving a balance of Rupees 76–10–3. The total collection under this tax amounted to Rs. 4,156–11–3 and the entire balance outstanding at the close of the year to Rs. 761–1–8 against Rupees 3,451–1–1 and Rs. 768–9–10, respectively, in the previous year. Rs. 461–14–2 of the balance has since been collected and Rs. 49–5–6 written off accounts as irrecoverable.

Tax on Vehicles, Carts and Animals.— In the year under report the collection of this tax was undertaken departmentally. The receipts amounted to Rs. 204 under tax on vehicles, Rs. 822–4–0 under tax on animals and Rs. 776 under tax on carts, in all Rs. 1,802 against the revised estimate of Rs. 2,430 and the actuals of the previous year Rs. 1,800.

Tolls.—Tolls were as usual leased out during the year for Rs. 8,020 against the budget estimate of Rs. 8,000. The whole amount was fully realized in monthly instalments.

Two out of nine municipal gates were repaired during the year at a cost of Rs. 57–6–0, deducting which the net income from tolls was Rs. 7,963 against Rs. 7,983 in the previous year. Tolls were levied at the maximum rates specified in schedule D of the Act.

Incidence of Taxation.—The total income from taxation being Rs. 27,909 including, and Rs. 19,889 excluding, tolls, the average incidence per head of the population was Rs. 1–9–8 in the former and Rs. 1–2–3 in the latter against Rs. 1–7–9 and Rs. 1–0–4, respectively, in the previous year.

B.—Realization under Special Acts.

Fees under Act II of 1888.—Rs. 35 was realized under this head on account of a license issued for the erection of a pandal for theatrical performances.

C.—Revenue derived from Municipal Property and Powers apart from Taxation.

The total receipts under this head amounted to Rs. 9,625 against the revised estimate of Rs. 10,280 and the actuals of the previous year Rs. 10,013. The decrease

under the revised estimate was due chiefly to less receipts under "fees from educational institutions," "sale-proceeds of medicines," "income from markets," and "fines under municipal and other Acts," though counterbalanced by enhanced receipts under other items as will be noticed below:—

Avenue Receipts.—Rs. 62–0–6 were realized from sale of avenue produce and withered trees and clippings against the revised estimate of Rs. 70 and the actuals of the previous year Rs. 45–13–6.

Fees from Travellers' Bungalow.—Rs. 286–4–0 was realized as fees from travellers halting in the bungalow against the revised estimate of Rs. 200 and the actuals of the previous year Rs. 120–4–0. The large increase is in a great measure due to the improvements made in the accommodation for travellers.

Sale-proceeds of Old Materials.—A sum of Rs. 111–15–9 was realized by the sale of empty tins of kerosine oil, dealwood boxes, unserviceable crockeries and other materials against the revised estimate of Rs. 100 and the actuals of the previous year Rs. 149–0–10.

Conservancy Receipts.—Rs. 610 was realized by the sale of night-soil and street refuse against the actuals of the previous year, Rs. 404. The increase of Rs. 206 was due to keen competition at the sale.

Fees from Educational Institutions.—Rs. 2,437–8–3 was realized as school-fees in the high and primary schools under the management of the council against the revised estimate of Rs. 3,010, and the actuals of the previous year Rs. 2,515–1–3. The decrease was due partly to a fall in the strength of the municipal high school.

Income from Market.—The collection of fees in the municipal market was as usual leased out for Rs. 3,360, of which Rs. 3,210 were realized during the year in monthly instalments, and out of the balance of Rs. 150 outstanding at the close of the year Rs. 75 was since collected from the renter. Deducting Rs. 404 spent during year on account of the establishment maintained and improvements and repairs done to the market buildings as detailed in the accompanying statement No. II-A, parts I and II, the net income from the market was Rs. 2,806 against Rs. 2,909 in the previous year.

Income from Slaughter-houses.—The collection of fees in the two slaughter-houses of the municipality was also leased out during the year for Rs. 1,375 against Rs. 1,400 in the previous year. The whole amount was realized during the year in monthly instalments and a further sum of Rs. 1–15–0 was received on account of interest on overdue kists in the previous year. The total receipts amounted to Rs. 1,376–15–0. But allowing for the cost of establishment maintained for the slaughter-houses including the proportionate charges debited on acconnt of the inspection of the slaughter-houses by the *Private Scavenging* Inspector, and for the improvements and repairs done during the year which amount in all to Rs. 402–10–8 as shown in statement II-A, parts I and II, the net income amounts to Rs. 974–4–4 against Rs. 978–4–5.

Other Fees—License Fees.—The collection under this head amounted to Rs. 388 against the revised estimate of Rs. 400 and the actuals of the previous year Rs. 278.

Cart-stand Fees.—The collection fees in the two cart-stands in the town was leased out for Rs. 228 against Rs. 180 in the previous year and the amount was fully realized before the close of the year.

Fines under Municipal and other Acts.—Rs. 300–9–0 was realized under this head against the revised estimate of Rs. 300 and the actuals of the previous year Rs. 949–7–0.

Interest on Investments.—Interest amounting to Rs. 131–10–10 on the Smith's and Barnett's Prize endowments (Rs. 71–13–2 on Smith's Prize and Rs. 59–13–8 on Barnett's Prize) attached to the municipal high school and Rs. 402–14–2 on the Endowment fund of the municipal hospital were realized during the year.

D.—Grants and Contributions.

Including the balance of Rs. 753–4–1 due for the previous year, the total amount of Government contribution received during the year towards the net cost of the high school department of the municipal high school was Rs. 3,303–4–1 against

the revised estimate of Rs. 3,420 and the actuals of the previous year, Rs. 2,850-2-3, a further sum of Rs. 800-7-3 being still due for the year under report. The usual contribution of the district board towards the cost of the municipal hospital, viz., Rs. 2,500, was also received during the year.

E.—Miscellaneous Receipts.

Private Scavenging Fees.—Rs. 777-9-7 was collected under this head against the estimate of Rs. 700 and the actuals of the previous year, Rs. 774-7-2.

Other Purposes.—A sum of Rs. 2,658-7-2 was taken credit for from deposits on account of service pipes against Rs. 624-11-5 in the previous year.

Other Items.—A sum of Rs. 3-11-2 was received under this head as shown below :—

	Rs.	A.	P.
Sale-proceeds of attendance registers remitted by the Inspecting schoolmaster	1	12	0
Sale-proceeds of tender forms	1	8	0
Undisbursed amounts refunded	0	7	2
Total ..	3	11	2

Extraordinary and Debt Head.—The receipts under this head during the year were as detailed below :—

	Rs.	A.	P.
Interest on water-works sinking fund	374	1	1
Recoveries of the advances made in the previous year to the Sanitary Engineer	523	6	9
Total ..	897	7	10

III.—EXPENDITURE.

6. For the year under report the total expenditure amounted to Rs. 52,127-1-8 against the revised estimate of Rs. 54,410 and the actuals of the previous year, Rupees 53,419-1-1, and it was distributed among the several grants as shown below :—

	Actuals, 1893-94.	Budget estimate, 1893-94.	Revised estimate, 1893-94.	Actuals, 1892-93.
	Rs.	Rs.	Rs.	Rs.
Grant I, Public Works	15,982	9,560	16,050	20,735
,, II, Education	9,410	10,520	9,920	8,573
,, III, Sanitation and Medical Services	12,349	14,660	14,200	13,020
,, IV, Lighting and Miscellaneous purposes	4,677	3,690	3,390	2,360
,, V, Supervision and Management	3,745	3,310	3,840	2,972
Repayment of Debt, &c.	6,964	5,860	6,110	5,754
Total ..	52,127	47,600	54,410	53,419

7. *Grant I, Public Works.*—A sum of Rs. 15,982-4-3 was spent on works under this grant including the cost of establishment, contingencies, tools and plant against the revised estimate of Rs. 16,950 and the actuals of the previous year, Rupees 20,734-14-11 ; the difference being due to the expenditure incurred in the previous year on water-works.

(1) *New Works—(a) Communications.*—A sum of Rs. 1,234-8-7 was spent for the construction of 4 culverts and 7 new roads as detailed in the accompanying statement II-A, part I, against the estimate of Rs. 1,000. The expenditure exceeded the allotment by Rs. 234-8-7. Seven new roads have been laid out during the year in different parts of the town, and thus 3 miles of new metalled road had been constructed inside streets and lanes of the town.

(*b*) *Buildings.*—A provision of Rs. 300 was originally sanctioned in the budget for the construction of a science room in the Municipal High school and for the completion of a few of the stalls in the municipal market. The allotment had to be

revised as Rs. 500 for the unforeseen expenditure on account of the construction of a bath room for the municipal hospital and the various improvements that were required for the travellers' bungalow. Rs. 471-1-3 were thus expended as detailed in statement II-A, part I, for the improvement of the municipal market, hospital and the travellers' bungalow, as also for the construction of a latrine at Thippareddipalli. The construction of the science room for the high school was deferred for want of sufficient funds.

(*d*) *Water-supply.*—As detailed in statement II-A, part I, a sum of Rupees 6,787-15-7 was spent for the extension works at Bugga and for the extension of water-supply to Agady. As already stated in the last report, the construction of the new well and the conversion of the spring channel into filtration gallery were commenced in March 1893. The whole work was completed in the early part of the year under report at a cost of Rs. 3,449-6-5, and a sum of Rs. 1,625-14-1 was paid on account of the pay and the travelling allowance of the supervisor employed on the Bugga works. The construction of quarters for drivers and coolies at Bugga was proposed by the council and sanctioned by Government from the savings out of the allotment for the Bugga works. The work was taken on hand in the latter part of the year and proceeded with in accordance with the estimate framed by the Sanitary Engineer to Government under the supervision of the municipal agency. It could not, for want of time, be completed before the close of the year. A sum of Rs. 622-4-0 was however spent on the work during the year. It has been since completed.

For the extension of water-supply to Agady the provision made in the budget was Rs. 1,000 ; but the expenditure actually incurred for the same was Rs. 1,092-7-1. The pipe line was extended up to the other side of the supply channel of the Patha Cuddapah tank. Further extension of the line, as far as funds permit, is now under contemplation.

(2) *Repairs—(a) Communications.*—As detailed in statement II-A, part II, a sum of Rs. 3,616-3-9 was spent during the year for repairing roads in the town against the revised estimate of Rs. 3,500 and the actuals of the previous year, Rs. 3,581-4-1. The total length of the roads repaired during the year was $9\frac{1}{2}$ miles, of which 7 are metalled and $2\frac{1}{2}$ are gravelled. As in the previous year, repairs to roads, &c., were carried on contract system under the supervision of the chairman and the councillors. A gang of coolies was also entertained for patch works, &c., on roads, and the cost thereof, Rs. 687-0-7, was debited to this head.

The total expenditure on roads, both new works and repairs, amounted to Rs. 4,851-12-4, which is more than half the receipts under tolls for the year. The total mileage of roads in the town is $25\frac{1}{2}$ miles, whereof 11 miles formed the length of metalled roads and $3\frac{3}{4}$ that of unmetalled ones, making thus a total of $14\frac{3}{4}$ miles. The roads are, as far as funds permitted, maintained in good order. In the inspection notes of the Inspector of Vaccination and Deputy Sanitary Commissioner, Madras, it has been remarked "that the metalled roads in the municipality are in fair condition." The Sanitary Commissioner goes on to remark that the side streets and lanes are in a neglected state, that drainage is defective, that nothing is being done pending the result of survey by the Sanitary Engineer and that, unless some system of drainage is speedily introduced, the abundant supply of pipe-water now poured into the town will only aggravate the present evils, viz., high level of sub-soil water and prevalence of malarial fevers. The whole town was surveyed in 1891-92 and a scheme is under preparation in the Sanitary Engineer's office. The introduction of the system of drainage in the town, all at a time, is a thing that cannot be done without sufficient funds. The council consider it advisable that the system of drainage be gradually introduced year by year and that, for the present, necessary measures be adopted for draining off the waste water at the stand pipes and hydrants in the town under the advice and direction of the Sanitary Engineer.

(*b*) *Buildings.*—As detailed in the accompanying statement II-A, part II, a sum of Rs. 534-1-8 was spent during the year for repairing buildings attached to the municipal hospital, travellers' bungalow, market, slaughter-houses and latrines in the town against the estimate of Rs. 500 and the actuals of the previous year, Rs. 817.

(*d*) *Water-supply*—(*i*) *Repairs to Works and Machinery.*—A sum of Rupees 528–10–6 was, as detailed in the accompanying statement, spent in repairing hydrants, &c., in the town and the engines at Bugga against the revised estimate of Rs. 620 and the actuals of the previous year, Rs. 367–14–2.

(*ii*) *Establishment.*—As in the previous year the establishment maintained for water-supply consists of an overseer, a driver, a fireman, two coolies, a watchman and a peon; but 2 gardeners on Rs. 6 each per mensem were newly sanctioned as a temporary measure during the year. The services of one of them were dispensed with a few months after entertainment, one man being found sufficient. The cost of the whole establishment for water-supply amounted to Rs. 1,403–8–10 against the revised estimate of Rs. 1,430 and the actuals of the previous year, Rs. 821–2–6.

(*iii*) *Contingencies.*—The cost of firewood, oil and other things required for the use of engines at Bugga amounted to Rs. 939–9–4 against the revised estimate of Rs. 1,000. As in the previous year the supply of firewood was let on contract and the other articles were purchased in the local market.

(3) *Establishment—Public Works.*—For road works in the municipality the sanctioned establishment consisted of an overseer on Rs. 25 and a maistry on Rs. 15 per mensem. For the first eight months in the year there was an overseer who was employed as a temporary measure on Rs. 20 per mensem. His work having been found unsatisfactory, his services were dispensed with and another man appointed for the place on Rs. 25 per mensem. The cost of the establishment amounted therefore to Rs. 429–10–7 against the revised estimate of Rs. 440.

(4) *Tools and Plant.*—A sum of Rs. 37–7–2 was spent for purchasing and repairing the tools required for the use of the road coolies against the revised estimate of Rs. 50.

8. *Grant II, Education.*—The total expenditure on education during the year amounted to Rs. 9,410–5–11 against the revised estimate of Rs. 9,920 and the actuals of the previous year, Rs. 8,573–0–9.

At the commencement of the year there were under the management of the council one High school on salary system and three Primary schools on salary-results system, one for Hindus and two for Muhammadans. In addition to these four schools, another on salary-results system was sanctioned for Pariah class of people at Yerramukkapally, but it was not started before the close of the year. On the 31st of March 1894 the total strength in the said four schools was, as shown below, 349 boys and 11 girls and their average attendance during the year was 219:—

	Boys.	Girls.	Average attendance.
High school	104	1	62
Hindu Primary school	131	10	67
Muhammadan Primary school	83	..	65
Do. do. Agady	31	..	25
Total ..	349	11	219

The establishments maintained for these four schools were the same as in the previous year.

Salary Schools.—The cost of establishment including contingencies of Municipal High school amounted to Rs. 6,847–9–10 against the revised estimate of Rs. 7,160 and the actuals of the previous year, Rs. 6,549–13–2, excluding Rs. 914–15–9 incurred on account of the Hindu Primary school which was then on salary sytem.

During the year under report 9 pupils went up from the High school for Matriculation and 12 for the Lower Secondary examinations against 7 and 12 respectively in the previous year. Three pupils passed the Matriculation and 2 the Lower Secondary examination against 2 and 7 respectively in the previous year, and 4 others passed in all the compulsory subjects in the Lower Secondary examination. The

strength of the High school about the close of the year shows however some improvement over the past year.

Salary-result Schools.—Out of the three Primary schools under salary-results system, the one for Hindus was formerly under salary system, but converted into a salary result school in the year under report with reduction in the scale of salaries of the teachers. The establishment consisted of a headmaster on Rs. 20, three assistants on Rs. 12, 10 and 8, and a peon Rs. 5 per mensem. The establishments for the other two schools continued the same as in the previous year. The cost of these three schools for the year under report amounted to Rs. 1,024–9–3 for establishment and Rs. 199–8–6 for contingencies including rent for the school-house. The three schools were examined for results-grants and they earned Rs. 146–6–9 against the revised estimate of Rs. 200 and the actuals of the previous year, Rs. 38. The results at the examination were as shown below:—

Standards.	Number examined.	Number passed.
IV	20	16
III	13	11
II	19	16
I	19	15
Infant	32	20
Total ..	103	78

One hundred and three out of 244 pupils were presented for examination from all the standards and 78 passed. The total strength of the three schools on the 31st of March 1894 was 245 against 170 in the previous year and their average attendance was 157. Three out of eight teachers employed in these schools possess trained teachers' certificates, and one of them was trained in the Normal school at Ráyachóti in the year under report. One of the remaining five teachers was sent for training in the latter part of the year.

The toal cost of maintaining the High and the Primary schools during the year amounted to Rs. 8,218–2–4, but deducting the school-fee collection, interest on the prize endowments and the Government contribution towards the net cost of the High school department, which amounted in all Rs. 5,872–7–2, the net cost to the municipality was Rs. 2,345–11–2 against Rs. 2,874 in the previous year, viz., Rupees 1,289–11–11 on account of the High school and Rs. 1,055–15–3 on account of the Primary schools, the average cost of educating each pupil amounting to Rs. 20–12–10 in the High school and Rs. 6–11–7 in the Primary schools.

Results Grants.—At the commencement of the year there were 15 result schools. Two new schools were opened but subsequently closed; so that the number of result schools at the close of the year was only 15 with a strength of 526 boys and 13 girls, against 12 schools with 434 boys and 20 girls in the previous year. The number of pupils examined for results grants during the year was 319, of whom 248 were found qualified against 229 in the previous year. They earned a grant of Rs. 549 against Rs. 696 in the previous year. Including the arrear grant of Rs. 216, the actual amount disbursed before the close of the year was Rs. 764–14–5 against the revised estimate of Rs. 700 and the actuals of the previous year, Rs. 428–15–0. The results grants were paid at the maximum rates. As in the previous year there was delay in the submission of certifying memoranda to the Municipal office for payment. Two memoranda have since been received, one for Rs. 74–4–0 and the other for Rupees 76–10–8.

Inspection.—For the inspection of Hindu results schools in the municipality, an Inspecting schoolmaster was employed on Rs. 15 per mensem. His pay for the year including contingencies amounted to Rs. 191–6–8 against the revised estimate of Rs. 190 and the actuals of the previous year, Rs. 86–14–2. His work was supervised by the Sub-Assistant Inspector of Schools, Cuddapah Range.

For the inspection of Muhammadan results schools arrangements were made with the District Board, Cuddapah, who consented to lend the services of their Muhammadan Inspecting schoolmaster on payment of a contribution of Rs. 90 per annum. The contribution was duly paid and the work of the Inspecting schoolmaster was placed under the supervision of the Sub-Assistant Inspector of Muhammadan Schools, Central Circle, Madras.

The total expenditure incurred during the year for the inspection of both the Hindu and Muhammadan result schools in the municipality including contingencies amounted to Rs. 281–6–8 against the estimate of Rs. 280 and the actuals of the previous year, Rs. 86–14–2, the difference being due to the services of a separate Inspecting schoolmaster having been secured for the inspection of the Muhammadan results schools.

Miscellaneous—Common Gymnasium.—Under this head a sum of Rs. 300 was sanctioned for the entertainment of a gymnastic instructor for the elementary schools in the municipality and for the necessary apparatus. The services of a trained man could not be secured for the place and the council had to appoint, as a temporary measure until a competent man was available, the gymnastic instructor of the Municipal High school (a trained man) to instruct the boys of all the elementary schools in the municipality on an extra remuneration of Rs. 10 per mensem; and arranged for the required apparatus which cost Rs. 70. The total expenditure under this head amounted to Rs. 110–2–0.

9. *Grant III, Medical Services and Sanitation.*—The total expenditure under this grant amounted to Rs. 12,348–10–1 against the revised estimate of Rs. 14,200 and the actuals of the previous year, Rs. 13,025–3–7.

Hospitals and Dispensaries—Establishment.—The establishment maintained for the hospital cost Rs. 2,327–12–6 against the revised estimate of Rs. 2,330 and the actuals of the previous year, Rs. 2,066–12–3, the increase being due to the entertainment of a ward cooly on Rs. 7 and a 3rd-class hospital assistant on Rs. 35 per mensem during the year. The hospital assistant was entertained only in the latter part of the year.

Medicines and Supplies.—Rs. 316–2–3 were spent for the purchase of medicines during the year against an estimate of Rs. 1,500 and the actuals of the previous year, Rs. 758–2–5. The decrease under the estimate was due to the cost of medicines supplied from the Medical Store, Madras, not having been billed for before the close of the year.

Diet of Patients.—The number of in-patients treated during the year was 522 against 392, and the cost incurred therefor Rs. 1,028–7–6 against Rs. 1,144–0–2 in the previous year.

Sundries and Contingencies.—A sum of Rs. 640–2–4 was spent for contingencies during the year against the estimate of Rs. 710 and the actuals of the previous year, Rs. 701–2–11.

Including Rs. 289–1–4 spent on buildings, the total expenditure incurred during the year on account of the Municipal hospital amounted to Rs. 4,601–9–11 against Rs. 4,770–1–9 in the previous year. But deducting the district board's contribution of Rs. 2,500, the net cost to the Municipality was only Rs. 2,101–9–11. The working of the institution continued to be satisfactory and it has been freely resorted to by the public. 15,768 out-patients attended the hospital during the year against 17,328 in the previous year, the average daily attendance of both in and out patients during the year being 164 against 175 in the previous year.

Contributions on account of Medical College, Sanitary Inspection, Medical Reserve Staff and Cutlers' Establishment—amounting in all to Rs. 362 were paid during the year against the revised estimate of Rs. 270 and the actuals of the previous year, Rs. 299.

Vaccination.—In the year under report vaccination in the municipality was undertaken departmentally. The number of cases vaccinated during the year was 462 against 625 in the previous year, and the number of successful cases was 406 against

597 in the previous year. The number of operations on children under one year of age was 188, whereof 170 were successful. Vaccine operations performed by medical subordinates were 25 against 65 in the previous year, 19 of which were successful. All the operations were performed by means of animal lymph.

Two persons were prosecuted during the year for failure to have their children vaccinated. The children were vaccinated within the period fixed by the magistrate. The cost of vaccination for the year amounted to Rs. 203–2–2, viz., Rs. 78–5–4 for establishment and Rs. 124–12–10 for contingencies, against the revised estimate of Rs. 220 and the actuals of the previous year, Rs. 331–13–4. The result of vaccination during the year was not satisfactory owing to the continued prevalence of fevers in the town almost throughout the whole year as also to less number of births, people leaving the town for confinement.

Registration of Births and Deaths.—As in the previous year one registrar was employed for registration of births and deaths in the municipality and the result is compared below with that of the previous year:—

	1893–94.	1892–93.
Births	229	561
Deaths—		
Cholera	..	67
Small-pox	17	4
Fevers	509	386
Dysentery	18	18
Suicide	2	2
Wounds	1	..
Accidents	5	4
Snake-bite	..	..
Killed by wild animals	..	1
All other causes	203	304
Total	755	786

The registrar obtains the information regarding births and deaths from the ward peons and verifies the same by moving about in the town. Eleven prosecutions were instituted during the year—2 for not reporting births and 9 for burying corpses in the closed burial grounds, and the result was that 6 cases were convicted, 2 acquitted, 1 withdrawn and 2 were pending disposal at the close of the year. The pay of the registrar including contingencies amounted to Rs. 131–13–0 against the estimate of Rs. 140 and the actuals of the previous year, Rs. 215–12–0, the decrease under the actuals of the previous year being due to reduction of the registrar's pay from Rs. 15 to 10 per mensem.

Conservancy Establishment.—The cost of the conservancy establishment for the year amounted to Rs. 4,189–11–0 against the estimate of Rs. 4,260 and the actuals of the previous year, Rs. 4,094–2–8. The establishment continued the same as in the previous year with the exception of a maistry on Rs. 8 per mensem who was newly sanctioned for the year.

Other Charges.—The cost of removing street sweepings and night-soil amounted to Rs. 2,195–2–3 against the estimate of Rs. 2,480 and the actuals of the previous year Rs. 2,382–3–4. As in the previous year, 12 carts with 12 pairs of bulls for the removal of sweepings and 4 pairs of bulls for removing night-soil in the municipal carts were engaged at a monthly cost of Rs. 152. A further sum of Rs. 71–3–3 was spent for general conservancy contingencies.

Private scavenging.—The establishment maintained for the purpose consisted of 1 inspector and 14 scavengers as in the previous year. It cost Rs. 883–1–10 including contingencies against the revised estimate of Rs. 890 and the actuals of the previous year, Rs. 823–3–1. The sub-inspector having also been entrusted with the inspection of the slaughter-houses every day, both mornings and evenings, half of his pay, amounting to Rs. 90, has been debited to cost of establishment under slaughter-houses. The net cost on account of private scavenging amounts therefore to Rs. 793–1–10 against

Rs. 777–9–7 realized during the year in the shape of private scavenging fees. The system of private scavenging is almost self-supporting. The number of houses on the register of the private scavenging agency on the last day of the year was 613 against 549 in the previous year.

The Inspector of Vaccination and Deputy Sanitary Commissioner for Madras inspected the town in September 1893.

10. *Grant IV, Lighting and Miscellaneous Municipal Purposes.*—The total expenditure under this grant amounted to Rs. 4,677–2–10 against the estimate of Rs. 3,390 and the actuals of the previous year, Rs. 2,359–11–0 as shown below:—

Lighting.—The establishment continued the same as in the previous year. It cost Rs. 357 against the estimate of Rs. 360, and the contingent charges on account of kerosine oil, wicks, lanterns, &c., amounted to Rs. 1,039–7–1 against the estimate of Rs. 1,400 and the actuals of the previous year, Rs. 845–6–2. The increase over the actuals of the previous year was due to the purchase of some new burners and chimneys and to altering some of the lamp-posts. With the two new lamps put up during the year there are 138 municipal lamps in the town. They are inspected by the sanitary inspector and occasionally by the chairman.

Market and Slaughter-houses.—The establishments maintained for the market and slaughter-houses were the same as those in the preceding year and the cost thereof including contingencies amounted to Rs. 117–3–0 for the former and Rs. 240–3–10 for the latter against Rs. 117–5–10 and Rs. 247–7–1, respectively, in the previous year. Besides this a sum of Rs. 287 was spent on account of the improvement and the repairs to the market and Rs. 72–6–10 for repairing slaughter-houses as detailed in Statement II-A, parts I and II. As explained in paragraph 9 *supra* a sum of Rs. 90 has been added to the cost of slaughter-houses establishment on account of charges of inspection by the private scavenging inspector during the year. The total expenditure incurred on account of the slaughter-houses amounts therefore to Rupees 402–9–10.

Travellers' Bungalow.—As in the previous year, one maty on Rs. 7 and one sweeper on Rs. 3 per mensem continued for the travellers' bungalow, and their pay for the year amounted to Rs. 114–13–10 against Rs. 120 in the previous year. A sum of Rs. 151–8–3 was expended for contingent charges as shown below:—

	Rs.	A.	P.
For furniture, crockeries, &c.	135	4	0
Other miscellaneous charges, flower pots, &c.	16	4	3
Total ..	151	8	3

A further sum of Rs. 154–7–8 was also spent for the improvement and repairs of the building as detailed in Statement II-A, parts I and II. The entire expenditure incurred during the year on account of the upkeep of the travellers' bungalow amounted therefore to Rs. 420–13–9. But deducting the fee collection during the year, amounting in all to Rs. 286–4–0, the net cost to municipality was Rs. 134–9–9 against Rs. 101 in the previous year. The bungalow has been made comfortable to travellers as far as funds were available and further improvements will be effected in the current year.

Avenues.—As in the previous year, a servant was employed on Rs. 6 per mensem for planting and watering avenues. His pay for the year amounted to Rs. 71–14–5 against the revised estimate of Rs. 72. A further sum of Rs. 35 was spent for thorn-fencing round the young avenues planted on road sides and other places within the municipality. The avenues are in good order and consist mostly of tamarind and margosa trees. Rs. 50 were realized during the year by the sale of tamarind and woodapples.

Other Charges.—Rupees 2,540–5–5 were distributed as detailed below for miscellaneous purposes:—

	Rs.	A.	P.
Cost of materials and labour for laying house service pipes ..	2,088	12	0
Rewards for killing stray dogs	17	6	0
General printing charges	341	11	5
Compensation for land purchased at Bugga for drivers' quarters	16	0	0
Pay of tom-tom beater	24	0	0
Kist on municipal lands	3	4	6
Cost of tin tickets	35	8	6
„ of signboards	13	11	0
Total ..	2,540	5	5

11. *Grant V, Supervision and Management—Office Establishment.*—The cost of the office establishment amounted to Rs. 1,620–0–1 against the revised estimate of Rs. 1,690 and the actuals of the previous year, Rs. 1,304–4–0. The increase over the actuals of the previous year was due to the entertainment of a new accountant and a clerk during the year on Rs. 20 and 15, respectively.

Inspection.—Out of Rs. 500 provided for the conveyance allowance of chairman, a sum of Rs. 421–3–9 was spent during the year.

Collection of Taxes.—The cost of establishment maintained for the purpose, including contingencies on account of the purchase of account books, &c., amounted to Rs. 786–6–1 against the estimate of Rs. 710 and the actuals of the previous year, Rs. 796–1–1.

Office Contingencies.—For rent of the office building and other contingencies Rs. 627–4–10 was spent during the year, and a further sum of Rs. 290 was paid as contribution to Government for central office and audit establishments. The total expenditure under this grant amounted therefore to Rs. 3,744–13–9 against the revised estimate of Rs. 3,840.

Repayment of Debt.—For repayment of the loan taken from the funded capital of the municipal hospital, the annual instalment of Rs. 200 was paid during the year, and for the repayment of the special loan of Rs. 9,695 taken for the completion of the Bugga water-works a sum of Rs. 578 was paid, *i.e.*, Rs. 137–13–0 towards the repayment of the principal and Rs. 440–3–0 on account of interest due for the year on the amount of the loan.

Rupees 2,000 was also invested on account of the water-works sinking fund and the actual charges of investment during the year amounted to Rs. 176–8–0. The usual interest of Rs. 2,940 due to debenture-holders was also paid. The Government securities purchased are, as usual, in the custody of the Accountant-General.

12. *Advances Recoverable.*—The unadjusted advance for the year amounted to Rs. 69–4–0 as detailed below:—

	Rs.	A.	P.
Amount advanced to the Headmaster, Municipal High school, for the purchase of library books	50	0	0
Advance for process fees	19	4	0
Total ..	69	4	0

IV.—CLOSING BALANCE.

13. Including the opening balance of Rs. 12,147–1–6 the total receipts for the year, amounting to Rs. 59,856–14–8, and the total expenditure under all grants including repayment of debt, &c., to Rs. 52,127–1–8, the year closed with a balance of Rs. 7,729–13–0 at credit of the council.

ENCLOSURES.

ADMINISTRATION report of the Municipal Hospital, Cuddapah, for the year 1893–94.

The public health in the town of Cuddapah has been bad during the year under reference on account of prevalence of malarial fevers and lung-complaints.

There was no cholera during the year, but measles and mumps prevailed to some extent. No mortality, however, was reported from the latter diseases. Malarial fevers prevailed during the year and the total admissions from this disease was 6,976, of which 72 in and 6,904 out patients against 9,290 in the previous year, showing a decrease of 2,314.

Disease of the lungs, especially pneumonia in an epidemic form, broke out during the year, and the mortality from this disease was large.

It generally occurred as a complication in remittent fevers, but also in some cases occurred primarily. There were altogether 134 admissions under "lung disease" and 517 under "diseases of the other respiratory organs," showing an increase of 16 of the former and 12 of the latter.

II. The institution has been well attended by all classes of people, most of them coming from distant taluks and some from neighbouring parts, especially from the cotton-growing districts for mycetoma. Many of these cases do not consent to operative measures being undertaken, expecting to be cured by drugs and thus return unrelieved.

III. The hospital is maintained by municipal funds, together with a contribution of Rs. 2,500 from local funds.

IV. The institution is occasionally visited by the municipal councillors and civil authorities of the district and town. All affairs connected with the hospital are discussed and disposed of at municipal meetings.

V. The hospital is under the immediate charge of the District Surgeon and in his absence on inspection duty in the district the Assistant Surgeon is in charge.

VI. During the year 15,768 out and 522 in patients were treated, showing a decrease of 1,560 out and an increase of 130 in patients against the previous year. The large increase amongst in-patients is due more to the admission of Byragees and other mendicants and paupers from distant places.

VII. The most prevailing diseases during the year were malarial fevers, chest affections, rheumatic and syphilitic complaints, dyspepsia and other digestive diseases.

VIII. Fifty-six major and 453 minor operations were performed during the year.

IX. The dispensary medical subordinate vaccinated 25 cases, of which 19 were successful, 5 unsuccessful and 1 unknown.

X. *Conservancy Establishment consists of*—

	Per mensem.
	RS.
1 Inspector on	25
6 Peons each at	6
29 Male toties each at	6
29 Female toties each at	4

The establishment is quite sufficient for this town. There are 4 wooden box carts for removing night soil and 1 closed cask for removing urine. The latter is not sufficient and we should at least have 2. There are 12 country carts for removing street sweepings.

Latrines.—There are altogether 42 latrines as in last year's report, of which 28 are pucka built, 7 mud walled and 7 slab walled. This number is quite sufficient.

Dust-bins.—There are 173, of which 7 are iron movable, and 166 are stone slabbed. It would be beneficial if there are more than the present number.

Private Scavengering Establishment—

	Per mensem.
	RS.
1 Inspector on	15
13 Scavengers each on	4
1 Scavenger each on	5

There are altogether 613 houses that are cleaned by the municipal scavengers, and many more houses especially amongst the Muhammadan community are not visited by the private scavengering establishment and it is necessary that some sort of compulsion be used and every house and hut in the town be cleaned by the scavengers. For this purpose the establishment is not sufficient and should be increased.

Manure Depôt.—The night-soil and rubbish collected by the scavengers are removed to distant places about a mile away from the town and deposited and disposed of by public auction once a year.

Drainage.—There are no proper side drains. All the surplus water from the Bugga springs and surface water from rains are carried and received into the Patha Cuddapah tank. It is absolutely necessary that there should be drains constructed of stone for this town, as a great portion of the surface and Bugga water stagnates in many parts and clogs up the drains, and thus adds to the unhealthiness of the climate which is naturally malarial. The sooner this want is attended to the better.

Roads.—In good repair, a few more of the bye-lanes require remetalling.

House Drainage.—All the houses have more or less a cesspool which is cleaned once in a way when full and all the dirty water is let out by the small drains which adjoin and open into the side drains. This is highly objectionable and therefore the cess-pits should be cleaned out oftener and regularly, and the contents should be removed in a closed cart and deposited with the rubbish out of the town and not allowed to flow into the side drains and contaminate the surrounding atmosphere.

Water-supply.—Good and abundant since the introduction of Bugga water; cholera has decreased gradually; but the popular remark is that there is more fever now. There certainly has not been the decrease in fevers which was expected after the introduction of the new water-supply.

General Remarks.—The total amount of rainfall registered during the year under review at the meteorological observatory was 39·44 inches against 46·55 inches during previous year.

Thirty-seven cases of labour were attended to by the Eurasian midwife, showing a decrease of 9 against the previous year.

CUDDAPAH,
5th May 1894.

(Signed) F. C. PEREIRA, Surgn.-Capt.,
Acting District Surgeon.

2. Only 20 meetings were held by the municipal council against 39 in 1892–93, but the number adjourned for want of a quorum fell from eight to five. The average attendance of the members, both official and non-official, improved, and was good in the case of the former.

3. *Receipts.*—(1) There was a decline of Rs. 144 in the net current demand of the tax on arts, while the demands under the house, water and land taxes remained almost stationary. It is observed that there was a decrease in the number of persons assessed to the tax on arts; of this no explanation has been offered. The current collections of the arts, house and water taxes were fair. The heavy fall in the land-tax collections is explained in paragraph 5 of the Chairman's report; his attention will be drawn to the Collector's remarks on this subject in paragraph 2 of his endorsement from which it is to be inferred that the council has not been bestirring itself as it should have done in the matter. The collections should at once be brought up to date and outstandings should not be allowed to again occur. The arrear realizations under the house and water taxes were good, but those under the arts and land taxes declined and were very indifferent. In G.O., dated 31st August 1893, No. 1154 M., it was remarked that arrear collections of arts tax were indifferent, but in the year under review they have been permitted to still further decline. The Government notes that steps are being taken to clear off all arrears and trusts that the outstandings—some of which are three years old—will be adjusted before the close of the current year. It is observed that in more than one case arrears are stated to have been *ascertained to be irrecoverable*, and that they will be written off after further enquiry. It is not understood why, if arrears have been found to be irrecoverable, any further enquiry is called for. Seeing that collections were backward, the number of coercive processes issued during the year under report was very small. The District Magistrate will be called upon to explain why 50 per cent. of the prosecutions instituted for non-payment of taxes were pending on the last day of the year.

(2) There was a further increase in the receipts from the sale of sweepings and license fees and in the case of the former this was a satisfactory one. The income from fines showed a considerable decline which has not been explained; from what is stated in the inspection notes of the Deputy Sanitary Commissioner embodied in G.O., dated 15th February 1894, No. 161 M., it would appear that this is not the result of there being no perpetrators of nuisances to prosecute.

(3) The number of houses served by the private scavenging agency rose from 549 to 613, but the amount collected was almost the same as in the previous year. Owing, however, to the fact that a moiety of the salary of the inspector was debited to the head of slaughter-houses during the year under review, the loss to the council on this account was only Rs. 15 against Rs. 48 in 1892–93. The existence of arrears of fees for this service, which is evidently due to neglect to insist upon the principle of pre-payment so repeatedly ordered by Government, is unsatisfactory. The council should see that these instructions are not again disregarded. As the proportion of houses served by this agency is still very small, being only 22·7 per cent. of the total number assessed to the tax on buildings, the further extension of the service is clearly possible. Endeavours should be made to secure this result in the current year, and the owners of all premises kept in an insanitary condition should be systematically prosecuted.

4. *Expenditure*—(1) *Public Works.*—The extension of the Bugga water-works and the construction of the drivers' and coolies' quarters, on which a sum of Rs. 6,788 was spent, were the only new works of importance undertaken during the year. The total outlay on communications amounted to Rs. 4,851 or 60·9 per cent. of the net municipal income from tolls, and the town roads are stated by the Collector to have been in good order.

(2) *Education.*—The net expenditure on education was Rs. 3,538 or 12·7 per cent. of the income from taxation. About one-third of this sum was devoted to secondary, and the remainder to primary education. During the year under review the Hindu primary school maintained by the municipality was transferred to the salary-results system. The attendance at the high school improved and the results of the public examinations were fair as regards the Matriculation examination, but poor

as regards the Lower Secondary; the cost per pupil remained too high. Taken as a whole, there was a marked increase in the strength of the municipal primary schools, but judging from the results of the departmental examinations, the work done in them, though considerably better than in the previous year, was not altogether satisfactory. Fifteen primary schools, of which two were closed before the 31st March 1894, received aid in the shape of result grants against twelve in 1892–93. The number on the rolls of these institutions rose from 429 to 539, the results of the grant examinations were good, and, owing partly to the payment of arrears due for the previous year, the allotment for grants was exceeded by 53 per cent. The total number of boys under instruction in the municipal and aided schools rose from 50·7 to 67·2 per cent. of the male population of school-going age—a satisfactory advance. The number of untrained teachers in the salary-results schools is still far too large, and the council should see that matters are improved in this direction. The attention of the Director of Public Instruction will be drawn to the fact noted in paragraph 8 of the report, that delay in the submission of certifying memoranda has occurred again this year. It is observed that the Chairman says that the year opened with fifteen results schools, but further on he states that there were in the previous year twelve, and a reference to his report embodied in G.O., dated 31st August 1893, No. 1154 M., shows that the year 1892–93 closed with twelve schools; the statement now made would therefore seem to be incorrect.

(3) *Medical Relief.*—There was an increase of 130 in the number of in-patients treated at the municipal hospital, but that of out-patients fell from 17,328 to 15,768; explanation of this has apparently been avoided by both the Chairman and the District Surgeon. Seeing that fever is stated to have been very prevalent during the year, and that the deaths from this cause were 506 against 386 in 1892–93, it is not apparent why there was such a decline; it should now be explained. The Eurasian midwife attached to this institution attended only 37 cases of labour against 46 in 1892–93—a very discreditable outturn. The members of the council should personally interest themselves in this branch of the administration, and endeavour to secure an improvement in the results of the current year. The action taken on the suggestion in the concluding portion of paragraph 6 of G.O., dated 31st August 1893, No. 1154 M., should be reported.

(4) *Vaccination and Vital Statistics.*—Vaccination was carried on under the supervision of the municipal council during the year under review. In spite of the remarks in paragraph 7 of the above order, the total number of successful operations was 224 less than in 1892–93 and 321 less than in 1891–92, and the number of children under one year successfully operated upon was 170 against 229 births registered—a state of affairs which is most discreditable in a place where vaccination has been compulsory for about seven years. The quality of the work done was also poor. The Chairman's explanation of this is not at all adequate. It is utterly absurd to suppose that in the year under report more than 50 per cent. of the women of Cuddapah went outside the town for their confinement. The real truth no doubt is that no attention has been paid to this important matter. The number of prosecutions instituted is sufficient proof of this. The Surgeon-General will be requested to draw the particular attention of the District Medical and Sanitary officer to the state of vaccination and to intimate to him that Government expects him to use his best endeavours to effect an improvement. The attention of the Collector will be called to the concluding portion of paragraph 7 of G.O., dated 31st August 1893, No. 1154; he will state if he has taken any action upon it and if so with what result.

The registration of deaths was almost complete, but that of births showed an enormous fall, being more than 50 per cent. lower than the figure of the previous year. The explanation attempted of this is utterly inadmissible. As in the case of vaccination the number of prosecutions for failure to report births (two) affords the key to the actual reason for the disgracefully inaccurate figures shown under this head. It is observed that prosecutions for burying corpses in closed burial grounds have nothing to do with the registration of vital statistics and that mention of them should therefore not have been made.

(5) *Sanitation.*—Nearly 93 per cent. of the allotment under this head was utilized and the expenditure amounted to 15·4 per cent. of the receipts. Notwithstanding the remarks of Government in paragraph 8 of G.O., dated 31st August 1893, No. 1154 M., the Chairman's report contains no information whatever regarding the sanitary condition of the town. From paragraph X of the District Surgeon's report, however, it appears that the conservancy arrangements are not in some respects satisfactory. The Sanitary Engineer will be requested to draw up a drainage scheme for the town when his hands are less full than they are at present. The municipal council should, however, at once arrange for the regular and proper cleansing of the cesspools in the town. Information should have also been afforded in the Chairman's report as to the measures actually taken to carry out the recommendations made by the Deputy Sanitary Commissioner in his inspection notes recorded in G.O., dated 15th February 1894, No. 161 M.

5. *General Remarks.*—The year closed with a balance of Rs. 7,730, or 16·2 per cent. of the receipts. It is unnecessary, as was remarked in last year's review, to give in the District Surgeon's report, the details of the surgical operations performed, and they have been again omitted in the proceedings.

The administration of the municipality during the year under review cannot be considered on the whole to have been satisfactory. The collections under some of the taxes were very indifferent; in the case of the tax on lands they were, as regards both the current and arrear demands, exceedingly bad; vaccination, though the Government in the review of last year pronounced the results shown for 1892–93 "unsatisfactory in the last degree," was much worse than in that year; the registration of births was disgraceful, the work of the midwife was very bad and nothing seems to have been done to remedy the defects pointed out from time to time by the inspecting Sanitary officers. The present Chairman did not assume office until after the close of the year under report and can therefore not be held in any way responsible for the matters now animadverted upon. The Government, however, trusts that, with the remarks which have been made before him, he will use his utmost endeavours to place the conduct of the municipality on a more satisfactory footing than it was during the past year. The delay which occurred in the submission of this report is unsatisfactory and should be guarded against in future. Paragraph 2 of the report is unnecessarily long. The details there given are not required and should not be repeated in future.

(True Extract.)

J. F. PRICE,
Chief Secretary.

NOTE TO STATEMENT I.

1. Tax on arts, &c., is levied on the first / all classes.
2. Tax on buildings is levied at 7½ per cent. and tax on lands at [illegible] per cent. of rent value. Annas per acre may be estimated annas for every 80 square yards. annual rental @ Rs 3½.
3. Water-tax on buildings and lands is levied at ~ per cent.
4. Tax on vehicles and animals is levied at ~ the maximum rates.
5. Tax on carts, &c., is levied at Rs. 2 per cart per annum.
6. Tolls are levied at ~ the maximum rates.
7. License-fees are levied at the rates sanctioned in G.O. 298 M. dmo 1-7-91 & 1024 M. dmp 3-8-92
8. The house-tax registers were last revised in the official year 1892-93 and the land tax registers in the official year. 1893-94
9. Total extent of land assessed is 302 acres. and 30 Cents
10. The mode of estimating the annual rental of houses and lands is as follows:—

In regard to buildings that are not rented the rent which may reasonably be expected taking into consideration locality &c. is taken as the basis of Calculation for the assessment. The annual rental of buildings after European style is fixed at 12 per cent of their actual or estimated Cost and that of buildings after Native style at 8 per cent of the actual or estimated Cost.

STATEMENT I-A.—Endowments entrusted to the Municipal Council under Sections 25 and 26 of Act IV of 1884 for the official year 1893-94.
