The minimum scale of issue will be fixed at 2 *per mensem*. The Superintendent will recast the list appended to his report accordingly and will, at an early date, submit a revised draft of Appendix E to the Stationery rules.

4. The Government approves generally of the sample steel pens forwarded by the Superintendent, but does not consider that the supply should be restricted to six or to any particular number of varieties. The Superintendent should maintain in stock various samples to meet demands for special nibs, the supply of which is unobjectionable from the point of view of their cost, and he should keep himself informed of the various kinds of pens which are made from time to time. Ball-pointed nibs or nibs with turned-up points should be kept in stock and also those with sloping points (such as Brandauer 161 L) which are, it is understood, especially adapted for writing the vernaculars.

(True Extract.)

C. L. Hannay
for Chief Secretary.

To the Superintendent of Stationery.
