JANUARY.

Communicating to all Local Boards and Municipal Councils and to the Municipal Commissioners of Madras/Government Order, Financial Department, approving the proposal of the Accountant-General that the transit pay and — of an officer of the Vaccine Department shall be debited to the department he is proceeding to join.

No. 116 L., 19TH JANUARY 1897.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

G.O., No. 843, Financial, dated 7th December 1896.

Read—the following papers :—

From F. C. HARRISON, Esq., Officiating Accountant-General, to the Chief Secretary to Government, dated Fort St. George, 28th September 1896, No. 3026.

In April last a first-class vaccinator of Trichinopoly attached to the municipality was appointed by the Inspector of Vaccination to act as Deputy Inspector of Vaccination, Ellore Range, Górávari district—an appointment under the local fund board. He claimed travelling allowance for the journey from Trichinopoly to Ellore from Provincial funds, but in the absence of any distinct order of Government in the matter, my office has not admitted the charge.

2. The only order on the subject of travelling allowance of members of the Vaccination department that I can trace is the order contained in G.O., No. 968, Financial, dated 16th May 1883. According to this, the expenses entailed by transfer of Deputy Inspectors of Vaccination made from one district to another, except on the special requisition of the circle boards, should be borne by Provincial funds.

3. I would here observe that the order as regards Deputy Inspectors of Vaccination was passed on the analogy of the rulings relating to subordinate medical officers which have recently been amalgamated and issued in G.O., No. 1481 L., dated 17th August 1896. The main principle underlying the rulings here is, that unless the transfer is made by or on the motion of the local authorities, the debit of travelling allowance shall be against Provincial revenues. So far, therefore, the case of Deputy Inspectors of Vaccination and also of vaccinators transferred from one district to another under the orders of the Inspector of Vaccination may be held to be analogous to that of subordinate medical officers.

4. But in the constitution of the two services a difference exists. The Subordinate Medical Department is a general service organized and recruited to meet the requirements of Provincial, Local and Municipal funds. It is not inconsistent, therefore, in the cases of Government medical subordinates to require the travelling charges to be borne by Provincial revenues. The Vaccine department, on the other hand, is an organization almost entirely intended for Local and Municipal funds, the only exception being the subordinates required for the Agency tracts. The transfers are therefore made in the interests of local bodies, and as no provincial question arises it seems questionable whether, under any circumstances, the travelling charges should go against Provincial funds.

5. In these cases it would seem preferable to adopt the simple rule that the transit pay and travelling allowance of an officer shall be debited to the department he is proceeding to join. Applying this rule to the present case, the Local Fund Board, Ellore, will have to meet the transit pay and travelling allowance of the vaccinator on the occasion of his proceeding to join the acting appointment of Deputy Inspector, while the Trichinopoly Municipality will have to meet similar charges on the occasion of the return journey. It may be urged that the Trichinopoly Municipality had no interest in the transfer and should therefore not be made to bear any portion of the cost. But as the rule will be general in its application, any apparent hardship in a particular case will be counterbalanced when the circumstances of the case are reversed.

No. 116 L., 19TH JANUARY 1897.

6. I have the honour, therefore, to enquire whether Government is disposed to adopt the suggestion above referred to in the case of the members of the Vaccine department, or whether it desires to continue that contained in the order, No. 968, Financial, of 16th May 1883, bringing the cases of vaccinators also under it.

From the Local and Municipal Department, dated 16th November 1896, No. 2178 L.

Order—No. 843, Financial, dated 7th December 1896.

The proposal in paragraph 5 of the Accountant-General's letter, No. 3026, dated 28th September 1896, is approved.
