READ the following.

From the Presidency Port officer Madras No. $\frac{949}{372}$ G.
dated 23rd October 1897.

With reference to the accompanying copy of a letter from the Port Health officer (Port and Marine surgeon) Madras, dated 21st October 1897, No. 176, I have the honour to request that the views of Government may be obtained on the question raised by that officer, namely, whether a person who passes through an infected area is to be considered as one residing in such area, for the purposes of the Epidemic Disease Regulations.

Copy of a letter from the Port and Marine
Surgeon No 176 dated 21st-october 1897.

I have the honour to request you will please obtain a ruling from Government under para 1 of Notification in G.O. No 790. Marine. dated 11th September 1897, as to whether the fact of a person passing through an infected area is to be considered residing in that area. The question is asked as officials and others frequently arrive here from Bombay on their way to Rangoon, having arrived in Bombay by Mail Steamer and left on same

same day. By considering this residing in Bombay these people have to remain for a week in Madras in order to complete ten days from being in an infected area.

Order thereon. No 891 Mar 2. 11. 97.

A person passing through an infected area should not be held to have "resided" in that area for the purposes of the regulations under the Epidemic Diseases Act. The intention of the rule should have been apparent to the Port Health officer and the Presidency Port officer from the fact that the words "or visited" which occurred in the original rules* have been omitted from the revised rule. There was thus no necessity to trouble Government in the matter.
