Inelos: No: 1 to letter
No: of
November 1897.

Copy of a Minute from the Medical Officer, Mysore
Inspection duty, Gunakal to the Secy, Surgeon-General
with the Govt. of Madras No. 507
dated 15th November 1897.

The roofs of the sheds have been covered with paddy straw, and old bamboo-matting received from Famine Camps. Since this was done, there has been no rain and it is uncertain whether they will leak. The roof to the kitchen for servants, and hut for sweepers has not as yet been put up for the want of Palm leaves for the thatching.

2. The floors have been raised with gravel, but should also be cemented to prevent any soiled matter from the patient entering the ground which cannot be satisfactorily disinfected in situ.

3. The sheds in my opinion are unsatisfactory for the treatment of sick; more especially Europeans.
