Note.

Surgeon Major Bannerman is apparently against the adoption of the plan on white paper.

But. Rather, he is in favour of giving more space for the beds, or fewer beds for the area shown. But with this correction the plan ~~is~~ ^{are} ~~is~~ ^{are} useful limits as to the ^{general} disposition of the

hospital, servants quarters,
latrines &c. The blue
paper plan however
does this, & the accommod:
shown on that may be
modified in each case to
suit requirements: & perhaps
it's not worth while doubling
local beds with two

The plan on white paper
submitted by Surg. Major
Bannerman purports to
provide for 10 beds, but the
area covered by the hospital
is apparently only 720 sq. feet, so that

(One plan)

SIR,

With reference to your endorsement No. 3846/S. of 16th. instant, on Local and Municipal Department Memorandum, dated 8th. November 1897, No. 1149, I have the honour to report as follows.

2. The plan on white paper of the half-section hospital, shows only 72 square feet for each patient, as it was intended for use in crowded localities, where more space could not be obtained. As a matter of fact only one such hospital was erected in Bombay, and I should certainly not recommend a smaller space than 144 square feet for each patient.

3. For similar reasons nurses' quarters are not shown, but if such a small hospital were to be erected quarters similar to those shown on the large plan would be provided if space was available.

4. I regret that owing to the hurry of preparation of the original report, these points should not have been made clear.

I have the honour to be,

Sir,

Your most obedient servant,

W. B. Bannerman
Surgeon-Major, I. M. S.

Inspector of Vaccination & Dy. Sanitary Commr.
