To

The Chief Secretary to Government
Local and Municipal Dept.
Fort Saint George.

" Now 1897
dated camp Benhamper

I have the honor to request that
Government may be pleased to notify
Chinnole Road station as an inspection
station under Regulation 14 under the
Epidemic Diseases Act 1897 published in
Appendix to G. O. 2191 M dated 15th
February 1897.

2. The first Railway station in this
District is Dusi. but this is only a small
station and Chinnole Road has been
selected in preference as there is a good
site available for a segregation camp,
and the trains stop longer at this station
in the ordinary course than elsewhere.

3. I have consulted with Lieut
Lt. Col. W. G. King, Sanitary Commissioner
to Government and he agrees with me
as to the selection of the inspecting station
for

for this District, and the desirability
of at once applying for formal notification
of the same.

4. Estimates for the necessary seque-
sation in the road and camp are being
prepared in the L. & F. Department. but
I trust that Government will see its
way to relieving the District Board
of some portion of the expense.

5. It will be necessary to sink a
special well and the Sanitary Com-
missioner is strongly of opinion that
a pump is absolutely necessary and
request sanction to incur the necessary
expenditure thereon.

C. No. 3941 M

SUBJECT. Opening of an
inspection Station at
Chicade road.

FOR ORDERS.

The C.M. has not given any
reason for giving this new inspection
station - So far as I am concerned,
I cannot see any reason at all
for it. Better ask him what his reasons are.

As to the question of having other
than Comm. officers in charge of
inspection stations, I learn from Mr.
Cochran that in Hong Kong they
have unfortunately plenty of experience,
they regard the appointment of other
persons as perfectly useless, for the reason
that you cannot expect to get in
the Eurasian or native medical
officer those qualities of command
and decision which you do expect to
generally get in the Comm. officer.
The matter lies, however,
with H.E. - Who makes the appointment -
The paper has better, therefore, let
him - I believe he is already aware
of your views - But I may state that
it is, in my opinion, better to strip
our remaining districts of medical
officers, & even to reduce the H.E.
patients in the general hospital, than to
go on as we are now doing with our
plague inspection stations in charge of
inefficient persons.

As adequate arrangements
have already been made
by Government for the
inspection of Railway
passengers at Khandapalli,
there appears to be no necessity
to open another inspection
station at Chicade Road,
which is 274 miles from
Berwada.

1/8
16/11/97
H.H.

The opinion in Bombay
was that an inspection station
without a European Med. Off.
in charge was little use:
and I fear the services of such
an officer will not be available
for some time.

I doubt myself, that at

Plague

Recd 18/11/97

From H. D. Taylor Esquire Sec.

To The Secretary to Government
Local and Municipal
Department.
Madras.

Date Camp Chelligods 28. November 1897.

Sir,
With reference to Government
Memorandum (Local and Municipal Department)
dated 19. November 1897 No. 1204 requesting me
to state fully my reasons for proposing to
open an inspection station at Checcole
Road Railway Station when adequate arrange-
ments have already been made for the ins-
pection of Railway passengers at Kondapalli,
I have the honour to state that my proposals
were submitted in consultation with the
Sanitary Commissioner and the District
Medical Officer.

2. I am given to understand that
it takes from eight to ten days for the
incubation of the plague germ and that in
consequence it is quite possible that an infected
person who may have escaped detection at
Kondapalli.

Kandapalli, might develop symptoms of plague before arrival in this District, which is a little less than 2 days journey from Kandapalli.

3. My reasons for the selection of Chicacole Road Station have been given in para 2 of my letter Rev. ¹⁸¹¹_{Aug} 1897 dated 11th instant. If however Government considers, - after having due regard to the opinion expressed by the Officers at whose instance I applied for the opening of an inspection station - that no inspection station is necessary, I am not desirous of pressing the question.

4. As however a medical officer has been on special duty at Chicacole Road Station since the beginning of the month, I request that all charges in connection with his entertainment may be sanctioned should Government not deem it necessary finally to notify Chicacole Road Station under Rule 14 of the Plague Rules.

I have the honor to be

Your most obedt servt.
