With regard to the recommendations of the Sanitary Commission in respect of the names of stations in the Karnool District, the recent regulations published in the Fort St. George Gazette dated 6th April 1897 will meet the proposals made. As to medical inspection the District Band should make such arrangements as may be practicable for deputing the moral Subordinates to be in attendance at the station to watch and detect suspected cases at. Under Regulation 3 of the Regulations for District municipalities and towns and villages the collector may empower these medical Subordinates to exercise the powers conferred upon

named by the S.L. the stations at which there are hospitals or dispensaries.

under the 24 regulations in respect of the removal & separation
 2. The collectors of
 Kurnool and Bellary will
 be requested to make the
 necessary arrangements
 for carefully watching at the frontier
 the roads that lead from
 Hyderabad into their districts
 to the frontier

For Orders

With regard to the recommendations in
 respect of the railway stations in
 the Kurnool district, the recent orders
 as to names & addresses will so
 far meet the S.Cs proposals. As
 to medical inspection at those places
 the Local Board may require their medical
 subord. to be in attendance to watch & detect
 suspected cases. This can be done under

C. No. 1392 on
Sent W. King on 2/4/97

With reference to G.O. No. 580, dated 17th March 1897, I have the honor to forward herewith a copy of correspondence that has passed between myself and the District Medical and Sanitary Officer, Kurnool, on the subject mentioned in the concluding sentence of para 2. It seems to me that the draft regulations for Railways submitted with this office letter No. 752 dated 29th March 1897 would meet the objection therein raised as to legality.

2. In the meantime, I consider it most desirable that action should at once be taken by the District Board, Kurnool, to arrange that all stations in their district shall be "inspection stations" by utilizing the more frequented stations certificated Sanitary Inspectors or Medical subordinates and in others the police, so as to secure the names and addresses of all arrivals from infected localities, with the object of maintaining domiciliary inspection

inspection. Thus, at Maddikera, Shone (Kurnool Road) Kundyal, Giddalore, Cumbum and Martha-pur there should be no difficulty in causing the medical subordinates to effect inspection, as the trains from Guntakul pass at reasonable hours. The remaining stations might be watched by the Police.

3. Having regard to the fact that at Raichur have now occurred two imported cases of plague, I consider it high time the District of Kurnool followed the example of Kistna in arranging for a system of observation along the roads of its frontier adjacent to the Nizam's dominions. I would ~~therefore~~ advise that the same precautions be required of the districts of Godavary and Bellary.

I have the honor to be,
Sir,

Your most obedient servant,

W. G. King

Surgeon Lieut. Col.
Sanitary Commissioner for Madras

SANITARY COMMISSIONER FOR MADRAS,

To

THE

District Medical and
Sanitary Officer,
Kurnool.

Enclosure.

SIR,

With reference to your letter No. 265/S dated 2nd March 1897, I have the honor to state that, in failing to make inspections at its railway stations as desired by Government in G.O. No. 111 L dated 19th January 1897, the Kurnool District is exceptional. I do not think there need be any question of legality in the matter in practice, as refusal to give an address would be met but in very rare cases. Nevertheless, in Regulations which have already been placed before Government by me for consideration this power is afforded at stations other than those specially notified by Government for "observation;" stations which I have named inspection stations. Till this matter is attended to by Government, I think the question of organizing a system of inspection at each station is most desirable. It must be remembered that the "observation" at Guntakul will only stop cases actually suffering from plague.

What

What is required of local authorities in my letter embodied in the G.O. referred to by the Collector, is that this system should be supplemented by domiciliary visits of all arrivals from infected localities as far as feasible.

I have etc.
