SUBJECT.

Forwarding for information
printed copy of certain letters
from Mr. A. H. Stevens beging
Plague Commissioner
Hyderabad.

Resubmitted with reports received
Subsequently (vide C. no. 914 P.).
It does not appear that there has
been any general recrudescence, but
Mr. Stevens thinks the last death,
that of Ganga who died on 21-5-98
at Alland, was due to plague. He
discovered plague bacilli in the floors
of 3 houses in Alland and he suspects
that a good many of the other houses in
the town must be infected & expects
an outbreak with the advent of the
monsoon and cold season. There is
no

Yes - This question of the possibility of
 identifying the plague bacillus, as Dr. Lawrie
 & Mr. Stevens say they identify it must be
 cleared up. Dr. King told us it could not be
 done (or was it Dr. Bannerman?), but Mr. Ste-
 vens goes on saying it can be. If it is a
 fact that it can be, the sooner we get out
 detailed instructions to med. officers as to
 the lines on which they should work, the
 better. I should say the San. Comm. had better
 write to Dr. Lawrie for detailed info (unless
 he has it already in his office) + should
 consult Dr. Haffkine -
