SIR,

With reference to your memorandum No 373 of 25th March 1898, I have the honour to submit herewith a statement showing the charges incurred from the Local Funds on the Railway Plague Inspection stations in the District for the official year 1897-98 as well as a statement showing the probable expenditure for their future maintenance. The expenditure incurred on and the probable requirements of the Road Frontier stations have not been included in the statements as I presume, from the memorandum not having been communicated to the Kurnool district where there are Road Frontier stations, that it does not refer to those stations.

2. The estimate for April has been made from the actual Treasury figures now available which however have not yet been audited. The probable expenditure for July, by the beginning of which month it is expected that the construction of sheds would be completed, may be taken as the average requirement for the succeeding months.
