Sir

I am directed to acknowledge the receipt of your letter No 1407, dt the 8th June 1898, stating that the Government of India would prefer not to suspend the withdrawal of the prohibition against the buying & used gunny bags from plague infected parts, and would await the results of the further inquiries on the subject, which, they understood,

were

were being instituted by this Govt.

2. In reply, I am to explain that it was contemplated by this Government that further evidence as to the danger or otherwise of allowing the bringing of used gunny bags would be collected by the Govt of India from provinces in which plague had actually broken out. As the Madras Presidency has been hitherto free from plague, this Govt is not in a position to make at present to make out a stronger case than that set forth in the Sanitary Comr's report forwarded with my letter No 513 P. dy 25-5-98.
