Sir

I have the honor to request that particular attention may be paid to the watching of travellers on all roads leading to Madras^{city}. The immense traffic which comes in to Madras makes it imperative to maintain frontier inspection stations all round the city. The Municipal Police & the Sanitary Comm: are, however, agreed that it is most important, looking to the facility for concealment of plague cases in the city, that all the Village Officers on roads leading to Madras sh: be specially warned to observe & if possible detain all travellers found sick with fever or any suspicious illness, & report the facts at once. I shall be obliged if you will give very special orders on the matter.
