ORDER. No. 1011-A.M. Mis of 3-6-98.

The tank is not a private but a public tank wh. has been under the control of the Corpn since 1865-66 see Chairman's ref to app on the pt, d 19th May 1898

Draft for approval

26/5/98

In the circumstances now stated, the allotment for Repair — water supply, in the budget for 1898-99 will be raised from Rs 370 to Rs 2440, so as to provide for the proposed improvement of the Pachaiyappa Mudali tank. The closing balance of the year will now be Rs 2210, or 2.7 per cent of the receipts. The work ^{however} should not be undertaken until the plan and estimate for it have been approved by the Sanitary Board.

Note for the City Office.

Please dispatch this order from City as soon as the draft order has been approved by the Secretary.

I am at present learning
my way about the town
but I think I know the
bank & can safely say
that it is one of the worst
among several ^{bad} banks
I have seen. The prevailing
colour of the water here
seems to be bright green!

MUNICIPAL COUNCILORS' OFFICE

KUMBakonam 5th April 1898.

FROM

N. S. Srinivasan Esq. M.A. Esq.

CHAIRMAN, MUNICIPAL COUNCIL
KUMBakonam.

The Secretary to Government
Local & Municipal Departments.

Also the Sub-collector & the Collector of
Sangaree.

SIR,

With reference to the remarks of Sec-
ernments contained in para 4(2) of G. O. Sec-
ernments dated 14th March 1898, I have the honor
to submit herewith a copy of the resolution
of the Council dated 19. 3. 98 together with
the plan and estimate sanctioned therein
and to state that several tanks in the town
remain in a highly insanitary state and
that there is a great necessity for their
cleansing them as stated in para 73 of the
Budget Report. As the Council has at-
tention singled out the Pochampeta tank
as deserving of their immediate at-
tention, I shall confine myself to pointing
out in this letter the importance of this work.

The

The Condition of this tank has been a constant
menace to public health and formed the sub-
ject of repeated complaints from the people.
It occupies an important position in the
town and is largely resorted to by the public
for purposes of bathing. The only tanks in
its vicinity are the Pannadurai and Kangayam
tanks, the former of which situated as it
is in a corner of the town and being used
only for washing the cattle, is in too filthy
a condition to be of any practical utility
while the latter is claimed as private pro-
perty by a private citizen who has intimated
to the Council his intention to fill it up.
In view of its prominent position and
general usefulness this important tank
is allowed to remain in the neglected condi-
tion in which it finds itself now.

This state of things cannot, I submit, long
continue without serious detriment to
public sanitation. The tank has particularly
in this season emitted bad effluvia and
causes great inconvenience to the residents
of the neighbourhood. The only alternative
that

that suggest themselves to be by way of
remedy are firstly to fill it up and secondly
to improve a reasonable amount on it, and
thereby to bring it to a state of public utility.
But the first alternative is in my opinion
highly impracticable and a very large outlay
is required for it such as is incommensu-
rate with the benefits that can accrue from
it. The only course therefore left open is
the investment of a small amount with
which to make it suitable for the purposes
for which it was originally intended by
its benevolent founder the late Panchay-
at Bundahar. The cost estimated for this
proposal is only Rs 2000 out of which Rs 1000
has been already placed at my disposal remain-
ing the same temporarily, whether the scheme
proposed herein to fill it with Cauvery water
is approved or not. There is thus a proposal
for an additional investment of only Rs 1000
which, when compared with the enor-
mous advantages that are likely to result to
the public is but insignificant. I may proba-
bly

be urged that in view to the scheme of water-
supply contemplated for this town, an in-
vestment of this kind is necessary. But,
I submit, that even when the water supply
scheme becomes an accomplished fact, the
investment of a small amount such as this
on an important sanitary improvement
will have the beneficial results of firstly
removing the nuisance caused and duly
of supplying the town with a good supply
of bathing water specially during the dry
season when water for this purpose is scarce.

I therefore solicit the sanction of Government
at an early date as the work will have to be
completed before the frosts set in.

I have the honour to be

MUNICIPAL COUNCILORS' OFFICE

KUMBAKONAM 19 May 1898.

FROM

J. S. Sivasubramanyam Esq. M.A.

CHAIRMAN, MUNICIPAL COUNCIL
KUMBAKONAM.

TO

The Secretary to Government,

Local and Municipal Departments

LOCAL GOVERNMENT DEPT.

1724

SIR,

Referring to Government Memo-
randum No. 576 dated 16 May 1898, I have
the honour to state that the Pehaiappa
Dandaly Tank, though named so after
its founder, does not belong to any
private individual but has been in the
equipment and control of the Council since
the introduction of the Municipal
institution in 1865-66. The fishing
of this tank is sold every year and the
proceeds appropriated to Municipal
funds. The tank was on two or three pre-
vious occasions repaired and cleaned
at the expense of the Council and the
duty

duty of improving it now on the lines
proposed in this office letter No. ¹²²_{5.4.98} also
submitted to the Council. I beg to add
that the present condition of the tank
is so awful and so injurious to public
health as to admit of any further
postponement of the work.

I request therefore that Government
will be pleased to accord early sanction
to the Council's proposals and communi-
cate the same by wire if practicable, as
the work has to be put in hand at once
as fresh cases are expected every day.

I have the honour to be

Sir

your most obedt Servt
