Private Segregation and Health Camps.

Communicating to the Collector of Trichinopoly Government Order stating that Government will contribute towards the construction of — in the same way as towards private plague hospitals.

PROCEEDINGS OF THE PLAGUE COMMISSIONER.

Read—the following paper :—

G.O., Mis. No. 1603 P., dated 17th December 1898.

Read—the following letter from R. H. SHIPLEY, Esq., Collector of Trichinopoly, to the Plague Commissioner, Madras, dated 7th December 1898, Ref. on C. No. 2821-Rev. :—

I have the honour to request to be informed whether Government will contribute half the cost of erecting private plague segregation camps or of the rental of buildings for such purposes. In its Order. No. 1245 P., dated 5th October last, Government has ruled that it was prepared to contribute towards the erection of private plague hospitals and their maintenance. In your Proceedings, R.C. No. 1063, dated 8th November last, you have ordered that such contribution would be paid even if the buildings were rented for private hospitals. I infer from paragraph 10 of G.O., No. 1196 P., dated 28th September 1898, that Government will contribute not only towards the erection of private hospitals but also towards the construction of segregation camps. Early orders are requested, as a case of this nature is now pending before me.

Ref. on C. No. 2056.

Submitted to Government.

2. In paragraph 2 of the instructions printed on page 97 of the Madras Plague Regulations and Rules, it has been stated that Government will contribute towards the construction by private individuals of segregation and health camps as well as of plague hospitals, and the only question is whether this promise is in any way curtailed by G.O., No. 1245 P., dated 5th October 1898, which, while referring to paragraph 10 of G.O., No. 1196 P., dated 28th September 1898 (in which Government states its willingness to contribute towards the erection of private hospitals and camps), deals with the help that Government is prepared to give with regard to private hospitals alone. It is presumed that no curtailment was intended.

3. In the infected area around Guntakal, the following help has been given to induce evacuation of infected villages :—

- (1) Tents have been lent as far as possible to those willing to use them.
- (2) Huts have been built for the Muhammadans of Guntakal.
- (3) Malas and Madigas have been given Rs. 3 a household to make their own arrangements.

The majority of Hindus have run up rough sheds in their own fields.

4. It may mean a considerable expenditure if Government contributes to the erection of sheds in all places where people are ready to subscribe. Paragraph 10 of G.O., No. 1196 P., dated 28th September 1898, appears to limit its liability to contribution to places which are or may be threatened with plague. It will be difficult to draw the line.

14th December 1898.

Plague Commissioner.

Order—Mis. No. 1603 P., dated 17th December 1898.
