DECEMBER.

Plague Establishment Lists.

Issuing further instructions regarding the preparation of the —.

PROCEEDINGS OF THE PLAGUE COMMISSIONER.

READ—Plague establishment lists for December 1898.

PROCEEDINGS—No. 1047, dated 28th December 1898.

The list for December from the Collector of Anantapur is still due, though it should have reached the Plague Commissioner by the 5th instant. As the lists already received have not been prepared on any uniform system, the following further instructions are issued:—

(1) The list should be wholly printed, and not written in manuscript on printed forms.

(2) It should be revised up to the last day of the month to which it refers. Thus the list due in February should include all changes up to the 31st January 1899.

(3) It should be printed vertically on paper of foolscap size as shown in the appendix, so as to allow the lists from all the districts to be bound together in this office. Space should be left for stitching.

(4) In the South Arcot list, the entry in column 1 is "Staff employed to examine passengers and issue passports at stations, &c." This is wrong. The proper head of service should be entered. The headings given under section II-Local in the form appended to Plague Commissioner's Proceedings, No. 762, dated 22nd November 1898, are not service heads, but merely indicate the order in which the entries in the list should be arranged. These headings should be printed across the columns as shown in the specimen form appended to this proceedings. It will be convenient if all the new appointments at each separate station or office are shown together.

(5) It was requested that in column 2 the names of only those persons drawing not less than Rs. 100 a month might be shown. The Collector of Salem has, for his own convenience, printed the names of subordinate officers. This course may be followed in other districts, for all officers drawing not less than Rs. 15 per mensem.

(6) The original column 4 may then be omitted. Officers of the same class, employed in this same office, or at the same stations, and drawing less than Rs. 15 per mensem may be lumped together, the number being shown in column 2, and total pay in column 4.

(7) The nature of the allowances entered in column 6 (*i.e.*, whether house-rent, plague allowance, &c.) should be explained in column 10.

(8) In column 9, the Collector of Madura has entered "Entertained by the Madura Municipality." This is not enough. All appointments connected with plague must be sanctioned either by the Government or the Plague Commissioner and in cases where this has not been done, necessary action should now be taken. In this connection, attention is invited to G.O., No. 1115, Financial, dated 25th November 1898.

10/1/98
for *Plague Commissioner.*

To all Collectors (A).

Ed. A. Rungasawmy Aiyangar.

NOTE FOR THE Plague Comm.

Wonder whether Regs No 1047 dy 20-12-98 may not be issued as nec. Re point whether Capt French should be shown under 3 Ld. or 24 D. may take some time to decide & as it does not much affect the establt best it seems unnecessary to delay the Regs.

Plague Establishment Lists.

Issuing further instructions regarding the preparation of the —.

PROCEEDINGS OF THE PLAGUE COMMISSIONER.

READ—Plague establishment lists for December 1898.

PROCEEDINGS—No. 901, dated 13th December 1898.

The lists for December from the Collectors of Anantapur, Ganjám, Kistna, Malabar and Nellore are still due, though they should have reached the Plague Commissioner by the 5th instant. As the lists already received have not been prepared on any uniform system, the following further instructions are issued:—

(1) The list should be wholly printed, and not written in manuscript on printed forms.

(2) It should be revised up to the first of the month in which it is submitted. Thus the list to be submitted next month should include all changes up to the 31st January 1899.

(3) It should be printed vertically on paper of foolscap size like the appendix to G.O., No. 2031 L., dated 22nd October 1898, so as to allow the lists from all the districts to be bound together in this office. Space should be left for stitching.

(4) In the South Arcot list, the entry in column 1 is "Staff employed to examine passengers and issue passports at stations, &c." This is wrong. The proper head of service should be entered. The headings given under section II-Local in the form appended to Plague Commissioner's Proceedings, No. 762, dated 22nd November 1898, are not service heads, but merely indicate the order in which the entries in the list should be arranged. These headings should be printed across the columns as shown in the specimen form appended to this proceedings.

(5) In column 2, only names of persons drawing not less than Rs. 100 per month were ordered to be shown. The Collector of Salem has, for his own convenience, printed all the names of subordinate officers. There is no objection to this course being followed in other districts,

(6) It was not intended that in column 4 a single entry should be made to show all appointments in the district on the same salary. In Bellary, for example, there is only one entry in this column to show 16 hospital assistants in charge of the various road inspection stations, but in column 7, there are 12 entries showing the dates on which those hospital assistants joined duty. It would be more convenient if the establishment of each inspection station were shown separately, and if the Salem Collector's arrangement is followed, there will be a separate entry for each officer.

(7) In column 5, the rate of salary of each officer, and not the aggregate pay of all officers on the same rate of salary, should be given.

(8) The nature of the allowances entered in column 6 (*i.e.*, whether house-rent, plague allowance, &c.) should be explained in column 10.

(9) Column 7 should state the date on which the appointment was created, and not the date on which the present incumbent of the office joined duty.

(10) In column 9, the Collector of Madura has entered "Entertained by the Madura Municipality." This is not enough. All appointments connected with plague should be either sanctioned by the Plague Commissioner or the Government, or be reported to either of them for confirmation, and in cases where this has not been done, necessary action should now be taken. In this connection, attention is invited to G.O., No. 1115, Financial, dated 25th November 1898.

L. E. BUCKLEY,
Plague Commissioner.

To all Collectors.
