NOTE FOR THE S.C

The reports of applications is submitted. It is submitted that it is rather risky to appoint strangers for the observation circles. Attention is invited to the last portion of Cuddapah Collis letter disposed of in T.C. Prop No 624 of 9-10-20 & the Hammick's D.O. attached to this note. Para 5 of G.O. No 938 of 26-2-20 requires that only Europeans or Eurasians ^{for existing posts} should be appointed plague supervisors but we apparently the supply of these men has been exhausted & it is for consideration whether young & smart Indians or Dyakhs may not be selected for the duty. This seems much better than employing European or Eurasians from the unemployed class.

Office of Plague Commissioner,
Madras, 22 - 11 1898

Dear Cunningham

About your observations
circles in view of the doctor,
barristers and Francis Lawton
elsewhere by the introduction
of outsiders as sanitary
inspectors. I won't impart
upon you that when you
work these circles should
be kept to get local men
Rev Inspectors or taluk
clerks, if possible - men
who know the country. The
Government think that
plague is apparently
not making much head
way in my core district.

Requesting that Government
will depute an officer to super-
-vise the four observation
circles sanctioned for this
District.

Your original proposals
are sanctioned by me
can be modified and
you will get the order in
a few days. Meanwhile
I think it is best if you will
visit all your points
villages to a considerable
of keeping observation
stations out of the village
you will really have
all that is very necessary
for that purpose.

Yours sincerely

Ag. COLLECTOR OF THE
 Coimbatore DISTRICT,

THE SECRETARY TO GOVERNMENT,
 Local and Municipal DEPARTMENT,
 Madras.

This

The Plague Commissioner
 Government Office
 Fort St. George.

Sir,

With reference to Government Order, No. 1508 P, dated 6th December 1898, I have the honor to state that Kollegal has practically been an inspection station since September—vide Government Order, No. 996 P, dated 13th September 1898.

C No 2051

2. The medical officer there is empowered to act under Regulation 29, and has the usual establishment of a road inspection station working under him. Plague sheds have also been erected.

3. I addressed the Commissioner of Salt and Abkari Revenue to depute officials of his

department as Plague Supervisors. He in-
formed me that all that could be spared had
been deputed. I request therefore that Govern-
ment will depute an officer to supervise the
four observation circles sanctioned.

I have the honor to be,

Sir,

Your most obedient servant

J. J. J. J. J.
